

IMAP and POP Setting for Using Live @ EDU

Note: Please log onto the website and set your password before trying to setup your cell phone to check your email.

Incoming Mail Servers

POP Server – pod51000.outlook.com (use SSL on your client Port 995)

IMAP Server – pod51000.outlook.com (use SSL on your client Port 993)

Outgoing Mail Server

SMTP Server – pod51000.outlook.com (same for IMAP and POP)

Ports for SMTP – 587 for SMTP using TLS (default is 25, but this must be changed to work)
