THE UNIVERSITY

Oklahoma City University is a nationally and internationally renowned educational institution. A private, United Methodist-affiliated university, Oklahoma City University offers a unique blend of tradition, quality, community, and innovation. *U.S. News and World Report* consistently ranks Oklahoma City University among the best master’s level institutions in the Western region.

The university traces its roots to Epworth University, chartered in 1904 as a joint venture of the Methodist Episcopal Church and the Methodist Episcopal Church, South (now the combined United Methodist Church), and the Oklahoma City Trade Club (now the Greater Oklahoma City Chamber of Commerce). From 1911 to 1922, the university was located in Guthrie, Oklahoma, and known as the Methodist University of Oklahoma. Oklahoma City University has been at its present location at NW Twenty-third Street and Blackwelder Avenue in Oklahoma City since 1922, when what is now the Clara E. Jones Administration Building was completed.

Located in the capital city, Oklahoma City University’s beautiful campus occupies 104 acres in a diverse and vibrant metropolitan area. The architecture on campus is a pleasing blend of American collegiate, gothic, and functional contemporary.

A broad spectrum of courses is offered through the Petree College of Arts and Sciences, with its School of Adult and Continuing Education, School of Liberal Arts and Sciences, School of Visual Arts, and Wimberly School of Religion; the Meinders School of Business; the Margaret E. Petree College of Performing Arts with its Ann Lacy School of American Dance and Arts Management, Bass School of Music, and School of Theatre; the School of Law; and the Kramer School of Nursing.

Saint Paul School of Theology at Oklahoma City University (SPST at OCU) is a United Methodist-affiliated seminary accredited by the Association of Theological Schools, the Higher Learning Commission of the North Central Association of Colleges and Schools, and the University Senate of the United Methodist Church. SPST at OCU offers the Master of Divinity degree. The School’s mission states the following: Rooted in the Wesleyan tradition and committed to inspiring passion for ministry in diverse Christian bodies, Saint Paul School of Theology educates leaders to make

MISSION

Oklahoma City University embraces the United Methodist tradition of scholarship and service and welcomes all faiths in a culturally rich community dedicated to student success. Men and women pursue academic excellence through a rigorous curriculum focused on students’ intellectual, moral, and spiritual development to prepare them to become effective leaders in service to their communities.

disciples for Jesus Christ, renew the church, and transform the world. For more information about SPST at OCU, see www.spst.edu.

Oklahoma City University takes pride in its dual role as Oklahoma City’s university and the United Methodist university of Oklahoma. Its students come from forty-eight states in the United States and from more than fifty countries throughout the world.

Oklahoma City University has designed a program to bring together outstanding faculty, exceptional students, excellent teaching facilities, and the most advanced and innovative ideas in curriculum and teaching methods. Because of the personal involvement possible on a small campus, Oklahoma City University students are known as individuals by fellow students and professors and benefit from the personalized education offered by the university’s low student-faculty ratio of 11:1.

With a 107-year tradition of church-related service and academic excellence, Oklahoma City University today is a vital institution with a growing reputation as a center of quality, personalized, values-conscious higher education. Oklahoma City University holds membership in Oklahoma Independent Colleges and Universities, the National Association of Independent Colleges and Universities, the National Association of Schools and Colleges of the United Methodist Church, the National Association of Intercollegiate Athletics, and the Council on Undergraduate Research.

The Kramer School of Nursing is a member of the Council of Baccalaureate and Higher Degree Programs of the National League for Nursing. The School of Law is a member of the Association of American Law Schools. Oklahoma City University is an equal educational opportunity institution.

ASSESSMENT

Assessment is an integral part of the strategic planning process for Oklahoma City University. New and continuing students to the university will be asked to participate in the assessment process. Students near the end of their academic plan of study participate in outcomes assessment for their major field of study. Other constituencies of the institution also are asked about their satisfaction as part of the assessment process for system improvement.

DIVERSITY

Oklahoma City University celebrates and seeks diversity in all its forms—from human qualities of gender, race, sexual orientation, and disability to diversity of ideas regarding religious beliefs, cultural identities, and political and social convictions. It is understood that the intersections of varied populations and ideas enrich lives while developing personal values based on expansive interactions with those with whom common experiences are shared and those with whom few experiences are shared. Diversity enriches academic, professional, and personal opportunities and is a source of strength and empowerment for all.

Oklahoma City University actively seeks all forms of diversity among the faculty, staff, and administration and pursues programming—both in and beyond the classroom—that examines and responds to the world of ideas from an ethical stance shaped by knowledge rather than by prejudice.

OKLAHOMA CITY

Oklahoma City, the capital of Oklahoma, offers a wide variety of cultural, civic, religious, entertainment, and sports events in the unique setting of modern facilities and old-fashioned Western hospitality. Oklahoma City is a dynamic, growing metropolitan with a wide range of opportunities to offer its students.

From the state capitol—the center of Oklahoma’s political and governmental activity—to the cultural offerings of the Oklahoma City Philharmonic, Lyric Theatre, Ballet Oklahoma, and more; to the attractions of the National Cowboy and Western Heritage Museum, Oklahoma Museum of Art, the National Softball Hall of Fame, the Oklahoma History Center, the Firefighters’ Museum, an Olympic training center for rowing, kayaking and canoe, the Oklahoma City Zoo and Science Museum, Bricktown, and professional baseball, basketball, and hockey, Oklahoma City stands as a vibrant, growing metropolitan center of the Southwest.

Out-of-state students are able to make use of the excellent transportation facilities available to the city. Oklahoma City
is linked by interstate highways to other major cities in the region, and the city’s Will Rogers International Airport, one of the busiest in the region, provides commercial service coast-to-coast as well as international flights to Asia, Europe, and South America.

The university campus is located near the center of Oklahoma City. While close to the business community, the state capitol, and all the conveniences of a major city, the campus itself boasts a quiet, natural setting.

Oklahoma City University students are involved in the life of the city through participation in cultural events, through internships and service-learning projects in governmental and social agencies, and through extracurricular activities that involve the city’s many resources and facilities. The multitude of opportunities and activities in a growing metropolis such as Oklahoma City offer an added dimension to the high quality of education available at Oklahoma City University.

ADMISSION AND REGISTRATION

GENERAL ADMISSION POLICY
Oklahoma City University seeks to identify students who will benefit from the academic rigor, educational opportunity, and individual attention that are the hallmarks of an Oklahoma City University educational experience. The university does not discriminate against any individual because of race, color, religion, national origin, gender, age, handicap or disability, sexual orientation, or veteran status.

Oklahoma City University is interested in students who want to learn. Each application is given careful consideration based on the student’s high school and/or college record, college entrance exam scores, recommendation form, class rank, required essay, desirable character and personality traits, and the applicant’s interests and goals in relation to the programs of study offered by the university. All bachelor’s degree candidates must have earned a high school diploma or GED certificate and must submit either the American College Test (ACT) or the Scholastic Aptitude Test (SAT) results. Students who have been out of high school for more than three years are not required to submit scores from the ACT.

The admissions committee will give preference to those applicants whose evidence of academic fitness and professional promise indicates that they are particularly qualified to study at Oklahoma City University, to succeed as degree candidates, and to develop the leadership potential to become productive citizens. Applicants who are successful in gaining admission to Oklahoma City University generally present the following minimum quantitative credentials:

- A score of 22 on the ACT (or a comparable score on the SAT) and a high school unweighted cumulative grade point average (GPA) of 3.000.

- The Office of Admissions reserves the right to request any additional information before a decision for admission is made. Providing false or incomplete information on the application for admission may result in a denial of admission or revocation of enrollment. Students who have been admitted to the university and for whom academic success can be reasonably predicted are eligible to enroll at Oklahoma City University.

For information on graduate admission policies, refer to the admission section in the graduate catalog.

High School Course Requirements
A broad preparatory academic program is required for the student who wants to study at Oklahoma City University. The following courses are required for admission to the university:

- **English:** four units, excluding speech or journalism
- **Mathematics:** two units of algebra; one unit of geometry, trigonometry, math analysis, or calculus
- **Social Studies:** one unit of world history; one unit of state history and civics; and one unit of United States history
- **Foreign Language:** two units of one language
- **Science:** two to three units of science, at least one of which should be a lab science

Advanced Placement courses are encouraged. Appropriate exceptions may be made.

ADMISSION PROCEDURE

First-time Freshmen
Entering freshmen must submit the following to the Office of Admissions:

- **Application for Admission:** An application for admission, accompanied by a $50 nonrefundable application fee, should be submitted as early as possible, but not more than one year before the term in which the student plans to enroll.

- **Transcripts:** Entering freshmen should submit an official sixth- or seventh-semester high school transcript. The student’s high school counselor or principal should send an official copy of the transcript to the Oklahoma City University Office of Admissions. An official final high school transcript with graduation date posted must be received prior to the start of classes.

- **Entrance Examinations:** All incoming freshmen are required to take either the ACT or the SAT. The results are helpful in counseling and placement. Additionally, they are used in considering a student for academic scholarships. Test scores should be sent directly to Oklahoma City University. The ACT code for Oklahoma City University is 3416. The SAT code for Oklahoma City University is 6543.

**NOTE:** An applicant who does not hold a high school diploma may be considered for admission by completing the following steps:

- Submitting GED test scores
- Presenting official transcripts of all high school work attempted
- Submitting official ACT or SAT test results or
- A score of 350 or greater on the California High School Proficiency exam will be considered equivalent to the required GED for purposes of admission consideration

An applicant who is home schooled may be considered for admission by completing the following steps:

- Presenting an official transcript, including course work and grades, from the home schooling experience
Demonstrating that he or she is graduating no earlier than his or her class in the public school system

- Submitting an official copy of the ACT or SAT test scores

**Probational Admission**

Applicants who do not meet the admission criteria stated in the catalog may be reviewed by the University Admissions Committee. In order to be considered by the committee, the student must do the following:

- Submit at least two letters of recommendation from school officials, teachers, or counselors.
- Write and submit a letter describing the student's academic history and how he or she will be academically successful at Oklahoma City University.
- Provide any additional documentation that displays academic promise.

Once the above items are complete, the University Admissions Committee will review the file and recommend acceptance, admission on probation, or denial.

**Transfer Students: Degree-Seeking**

Transfer students seeking admission to Oklahoma City University must have a minimum 2.000 GPA from a regionally accredited institution of higher learning and must have been in good standing at the institution last attended. In addition, applicants must submit the following to the Office of Admissions:

- **Application for Admission:** A $50 nonrefundable application fee must accompany the application.
- **College Transcripts:** An official transcript from each institution attended is required. Students should request that the official transcript(s) be sent directly to the Office of Admission.
- **Dean of Students Recommendation:** A completed recommendation form from the dean of students of the most recent college or university attended.
- **High School Transcripts:** An official high school transcript is required for transfer students who have earned fewer than 29 hours of college credit.
- **Entrance Examinations:** Transfer students with fewer than 29 hours of transferable credit must submit ACT or SAT scores to Oklahoma City University in order to be considered for admission.

Students ineligible to return to the school most recently attended will not be considered for admission until at least one semester has elapsed since the last term attended. (The summer session will not be considered an intervening semester.)

**Readmission to the University**

A student who is dismissed from Oklahoma City University for academic reasons and wishes to reapply to the same program must wait one full academic year before applying for readmission. In order to be considered for the earliest possible readmission date, students must submit their requests to the registrar no later than the date indicated in the letter of dismissal from the registrar.

At the time of dismissal, the student will be informed of possible avenues to pursue, such as additional academic coursework, educational workshops, or assistance from other postsecondary institutions. This information will be communicated in the dismissal letter sent by the registrar. Official transcripts and records of academic work completed during the period following the dismissal must be included along with the request for readmission.

The Student Probations and Petitions Committee will review requests for readmission. Requests for readmission will be reviewed prior to the semester in which the student is eligible to re-enroll.

**Academic Forgiveness**

A former Oklahoma City University student who has not attended the university for at least five years and does not have the academic credentials to receive clear readmission to the university may petition the Admissions, Financial Aid, and Special Accommodations Committee to be admitted under the academic forgiveness policy. Students may be admitted conditionally and must agree that no prior hours will count toward the degree. Likewise, their poor GPAs will not be counted against them while they are at Oklahoma City University. This forgiveness policy does not extend the student’s financial aid eligibility. Previous work will still be indicated on the transcript, although it will not be calculated into the GPA at Oklahoma City University.

Students admitted under this policy must understand that the policy is an internal policy only. Other institutions have their own rules and regulations regarding these situations.

**Unclassified Students**

Students may enroll at Oklahoma City University for purposes of personal enrichment, professional growth, or transfer of credit to another institution. Such students will be designated as unclassified students.

Unclassified students who do not plan to seek a degree at Oklahoma City University do not need to meet the admission requirements specified for degree-seeking applicants. Unclassified students may earn a maximum of 12 semester hours at Oklahoma City University. In addition, unclassified applicants must submit the following to the Office of Admissions:

- **Application for Admission:** A $50 nonrefundable application fee must accompany the application.
- **Transcripts:** Students should submit an official transcript or a letter of good standing from the registrar of the last school attended.

**Concurrent Enrollment**

High school students with unusually strong records may concurrently enroll at Oklahoma City University during their senior year. Students who are ready for college work
before the completion of the usual four years of secondary school may take course work at Oklahoma City University if they have an ACT score of 24 and a GPA of 3.250 or higher. If the student meets these qualifications, but is not a high school senior, they must interview with the director of undergraduate admissions to be considered for concurrent enrollment. In addition, all applicants for concurrent enrollment must submit the following to the Office of Admissions:

- A letter of recommendation from the principal or counselor of the student’s high school
- A letter from a parent or guardian of the student endorsing concurrent enrollment
- A letter from the applicant stating why she or he believes she or he is ready for college work before the completion of a traditional high school program
- A completed Oklahoma City University application.

INTERNATIONAL UNDERGRADUATE ADMISSION PROCEDURE

Oklahoma City University has students from over sixty countries studying in its undergraduate and graduate programs. The university is authorized under federal law to enroll nonimmigrant alien students.

Admission of International Students

All international student applications, graduate and undergraduate, are processed by the Office of International Admissions. Applications and information may be obtained online at www.okcu.edu/international or by emailing ia@okcu.edu or by writing to:

Office of International Admissions
Oklahoma City University
2501 North Blackwelder
Oklahoma City, OK 73106 U.S.A.

Oklahoma City University does not have application deadlines, but recommends that applications be submitted no later than one month before the semester begins.

English Proficiency Policy

International applicants from non-English speaking countries (as indicated in the Cambridge Encyclopedia of Languages, 2003*) must demonstrate proof of English proficiency by meeting one of the following criteria:

Regular Admission:

Regular admission to most undergraduate programs requires one of the following:

1. TOEFL internet-based (iBT) score of 61-79, paper-based test (PBT) score of 500-549 or an overall IELTS score of 5.5 with at least a 5.000 on each subband. To fulfill the provision, undergraduate students must complete 24 credit hours with a 2.750 GPA or higher or complete 24 credit hours and retake the iBT TOEFL or IELTS and submit an admissible score as determined by the regular admissions standards set by each department.

2. Score of 550 on the institutional TOEFL taken at Oklahoma City University. Those entering under this option are required to take additional speaking and writing assessments conducted by Oklahoma City University. Please see specific guidelines below for students taking the institutional TOEFL.

The Office of International Admissions will maintain the equivalency chart of appropriate English proficiency assessments.

Both undergraduate and graduate programs may require score(s) higher than those listed above. Check for specific department admissions criteria.

Conditional admission may be offered for many programs if the applicant indicates that he or she will be studying at the ELS Language Center located on the Oklahoma City University campus. For applications and information about intensive English training, write to:

ELS Language Centers
1915 NW 24th Street
Oklahoma City, OK 73106, USA
okc@els.edu
www.els.edu

Institutional TOEFL Policy

If an applicant does not meet the English proficiency requirements as stated above or does not have an official TOEFL score on file at the university, he or she may take the Institutional TOEFL for purposes of meeting admissions standards. If the applicant scores below 550 on the Institutional TOEFL, he or she may not be admitted. The applicant must attend language training, such as ELS, and may not begin an academic program.

If the applicant’s score on the Institutional TOEFL is 550 or better, the student must also take the SPEAK test or Test
of Spoken English (TSE) and write and the Test of Written English (TWE). All applicants who meet the standards of written and spoken English as determined by a faculty committee will be admitted to the university on a provisional basis. Applicants will be evaluated on an individual basis for unconditional admission based on their performance on the TSE and TWE.

If admitted provisionally, the student must meet the following conditions:

1. The student will be limited to 12 hours of undergraduate coursework which are predetermined by the student’s academic advisor who will continue to assess the student’s English abilities AND
2. Must make 2.750 GPA in the first semester OR
3. Take the iBT TOEFL and submit an admissible score as determined by the regular admissions standards set forth by each department.

If a student fails to meet these provisions, the student will not be allowed to enroll the following semester and will have to return to language training such as ELS and complete level 112 or present an iBT TOEFL score of 80 (or appropriate score as determined by department).

* Current English-speaking countries as listed in the Cambridge Book of Languages: American Samoa, Anguilla, Antigua/Barbuda, Australia, Bahamas, Barbados, Belize, Bermuda, British Guyana, Canada (except Quebec), Cayman Islands, Dominica, Falkland Islands, Fiji, Grenada, Guam, Guyana, Ireland, Jamaica/other West Indies, Liberia, Montserrat, New Zealand, Sierra Leone, South Africa, St. Helena, St. Kitts and Nevis, St. Lucia, St. Vincent, Trinidad and Tobago, Turks and Caicos Isle, United Kingdom, Virgin Islands, and US Pacific Trust.

Financial Support

International applicants must submit a certified letter of support from a sponsor, family member, or other source showing that they have adequate financial resources to provide for educational and living expenses at Oklahoma City University.

Housing

All single, full-time undergraduate students under age twenty-one are required to live in on-campus housing unless they are living with parents or legal guardians. Persons twenty-one years of age and older are excused from housing regulations.

GENERAL FINANCIAL INFORMATION

Tuition is the same for all residents and nonresidents of Oklahoma. Tuition rates are published annually in a separate tuition and fees announcement. Laboratory and class fees are charged on a flat-fee basis in addition to tuition.

A music major will pay the general tuition, which includes two half-hour lessons. Charges for additional lessons and for those not required in the curriculum are based on the individual teacher’s fees. (Contact the Bass School of Music for a list of teachers and their individual fees.) Special practice arrangements will be made for the student enrolled only in applied music. An applied music fee will be charged to any student enrolled in applied music. For applied vocal music classes, an additional charge is assessed for the accompanist.

Tuition for courses taken on an audit basis will be assessed a nonrefundable audit fee rate of $150 per credit hour. Audit fees are not considered part of the structure for block tuition charges and will be assessed in addition to regular tuition charges.

RULES GOVERNING PAYMENT OF TUITION

All tuition charges and fees are due on the published first day of class for each semester or term according to the official Oklahoma City University academic calendar. Students, at the discretion of the Student Accounts Office, may be allowed to contract for an installment payment plan provided that all prior charges have been paid in full.

Installment payment plans for fall and spring semesters will be allowed as follows: one-fourth of the unpaid balance after financial aid, if any, has been taken into consideration, will be due on the published first day of class; three additional payments will be due in accordance with the installment payment plan. Installment payment plans for the summer semesters will be allowed as follows: one-half due on the published first day of class and the remaining half due according to the installment plan. If the unpaid balance is paid within ten days of the due date of the first installment, no interest will be charged; otherwise, interest at the rate of 16 percent APR will be charged to the account.

Students are required to enroll in an installment plan for each semester by accessing their account through BlueLink and enrolling online prior to the beginning of the semester. If the installment plan enrollment is not processed, payment must be made in full by the published first day of class for each semester.

Students awarded financial aid in the form of work-study should be aware that this form of aid is not considered in determining the balance due in tuition, fees, room, and board for the semester. Students who so choose may request their work-study checks be forwarded by the Payroll Office to the Student Accounts Office to be applied to their accounts. Interest will be applied to the financed portion of the account, including the work-study portion.

If tuition charges and fees are to be paid by a third party other than the student’s family or financial aid, a written authorization from the third party must be presented at the time of enrollment; otherwise, the student will be required to meet the financial requirements listed above. Veterans attending the university under the G.I. Bill are required to comply with the same rules governing nonveteran obligations.

No student will be allowed to enroll in any semester or term if his or her account is past due. No student will be given a letter of good standing, transcript, or diploma until all financial obligations to the university are paid.

All tuition, fees, and charges made by the university are payable at the Student Accounts Office. Students may also submit payment for their Oklahoma City University charges online via their Oklahoma City University BlueLink Account.

Payments to student accounts are applied first to tuition and fees and then to other charges. The only exception to this application of payment is donor restriction on a gift or endowed scholarship.

SPECIAL SERVICE FEES

Fees are published annually in a separate tuition and fees announcement. The following is a list of typical fees. All fees are subject to change annually.

■ All students pay the General University Fee. This fee provides general budget funding for a variety of services including campus technology, academic enrichment and assessment, athletics and facilities, safety and crisis preparedness, career services, health services, personal counseling, intramurals, student government association, student traditions, religious life, and student publications.

■ An annual parking permit is required of all students for on-campus parking.

■ An international student fee and international student insurance fee are charged each semester. All fees are mandatory for international students.

■ All first-time freshmen and transfer students are charged a new student orientation fee, which covers the costs of providing services and resources that promote academic success for new undergraduate students.

■ Students enrolling late will be charged a late registration fee. Those who pre-enroll and pay late will be charged a late payment fee.

■ Charges for tests given to persons not enrolled in the university vary depending upon the test taken.

■ All students pay a one-time comprehensive records fee for each degree earned. Payment of this fee entitles
Oklahoma City University students and alumni to copies of their official transcripts at no additional charge. The registrar reserves the right to limit the number of official transcripts an individual may receive within a particular time period.

**VETERANS BENEFITS**

A Veterans Service Office is operated by Oklahoma City University as a service to veteran students. It neither sets policy nor administers V.A. programs. University personnel assigned to the office process the forms as a service to the student who is claiming V.A. educational benefits and act as liaisons between the student and the Veterans Affairs Regional Office. Students who wish to receive benefits must report to the Oklahoma City University certifying official in the Registrar’s Office each semester to fill out a Request for Certification. For further information, please contact the Veterans Service Office.

**TUITION ADJUSTMENTS**

Each term has a published first day of class as outlined in the academic calendar. A 100 percent tuition adjustment is made for varying time periods beginning with the published first day of class. After this period, there will be no further adjustments. The time periods vary as follows:

- **Fall and spring semesters**—up to and including Friday after ten semester class days.
- **Summer and accelerated cycles**—up to and including the first Friday.

Refunds for financial aid on student accounts in excess of charges may be requested from the Student Accounts Office. No refunds are made against financial aid, which must be returned upon student withdrawal, until after the end of the third week of fall and spring semesters or the second week of summer semesters. Such aid would include Perkins Loans, scholarships, Pell Grants, Supplemental Educational Opportunity Grants (SEOG), and any other aid which would be cancelled upon student withdrawal.

All refunds are made by direct deposit. Contact the Student Accounts Office for details.

**Adding and Dropping Courses**

Procedures and deadlines for adding and dropping classes are described in this catalog under Academic Regulations.

**Withdrawals**

Students unable to remain at the university to complete their courses for the term should process a full withdrawal. Procedures for withdrawal from all classes are in this catalog under Academic Regulations. Full withdrawals from the university are not complete until the withdrawing student has been counseled by a financial aid representative and validated by the Student Accounts Office. Tuition adjustments, if any, are based on the date of Student Accounts Office validation. (See also “Return of Unearned Federal Title IV Funds” under Financial Assistance.)

**E-Mail**

The university e-mail system will be utilized as the official method of communication. All students will be given an e-mail account and expected to use and maintain their account. Official Oklahoma City University correspondence such as financial aid and billing, as well as campus activities, will be sent via e-mail to the Oklahoma City University e-mail system.

Each student will be provided over 5 GB of disk space for their e-mail account. This provides enough disk space for a large amount of basic e-mail. This email account also has an online file storage and sharing capability called SkyDrive that is accessible from any internet-connected computer.

Oklahoma City University has security monitoring and anti-spam software and hardware installed to secure its systems and reduce the amount of spam that enters the e-mail system. Students are expected to secure their passwords and maintain their e-mail accounts.

Oklahoma City University requires students to use the university e-mail system for academic electronic communications. All students are responsible for the management and content of their account. Setup instructions and a network link for the e-mail system can be found at http://email.okcu.edu. Follow the link: OCU Student Email Web Access.

**Important Notice about E-Mail:** Important information and notices will be sent to the student’s Oklahoma City University e-mail account. This information may include important dates, times, and deadlines. Paper notices will no longer be used. International students will receive all updates on immigration regulations and newsletters through their Oklahoma City University e-mail accounts. All students are required to activate their e-mail accounts and check them on a regular basis. A student’s failure to check and maintain his or her account on a regular basis will not be accepted as an excuse for missing information, dates, and/or deadlines.

**Identification Cards**

Identification cards issued to all students are permanent for as long as the student is enrolled in the university. Picture ID is required at the Student Accounts Office when requesting an OCU ID card. A valid driver’s license or passport is acceptable. The card identifies the student and allows participation in student activities and elections. It admits the student to all home athletic events, various student activities, and enables students to receive free or half-price tickets to university drama, opera, and dance productions and concerts. A student identification card grants access to libraries and computer labs and serves as a meal ticket for
students who are on a board plan. The identification card also is used to print documents in the computer labs, and money may be added by the student for use at Alvin’s, the cafeteria, and the Oklahoma City University Bookstore.

**Bookstore Book Bucks**

Book Bucks are available at the Student Accounts Office to students having sufficient financial aid to cover books. Book Bucks may be ordered online at www.okcu.edu.

Students are required to have direct deposit to receive Book Bucks in their personal bank accounts. Book Bucks may also be placed on a student ID card.

**FINANCIAL ASSISTANCE**

Oklahoma City University is committed to making the utmost effort to assist students who are seeking an education at Oklahoma City University. Students who are sincerely interested in attending need not allow financial circumstances to stand in their way of applying.

**Types of Assistance Available**

The Office of Financial Aid will assist, to the extent possible, any admitted student in developing a financial aid package to help meet his or her basic educational expenses. By financial aid, the university means scholarships, federal and state grants, student loans, and federal and institutional work study.

**Eligibility for Financial Assistance**

The Office of Financial Aid will consider the student’s cost of attendance at Oklahoma City University, the family’s ability to pay as indicated by the Free Application for Federal Student Aid (FAFSA), and the student’s academic potential to determine eligibility for financial aid. Oklahoma City University scholarships may be applied to tuition charges only. These funds are not refundable to the student. The amount of the aid package for students who receive an offer for more than one scholarship award will be assessed within the limits of Oklahoma City University financial aid policy. In most programs, scholarship awards cannot be combined. Reassessment by the senior director of student accounts is required if any additional scholarship is offered to the student.

Federal financial aid is available for study abroad if the student is receiving Oklahoma City University credit hours toward his or her degree. All federal aid may be used to help defer expenses; however, institutional aid can only be used for study abroad programs as determined by the Office of accounts, with the exception of scholarships available through the Office of International Education.

**Application Procedures**

To be considered for any type of financial assistance, a student must first be admitted to the university. Transfer students must provide all official transcripts from any institutions previously attended. Students must be enrolled at least half time in order to be considered for financial aid, with the exception of the federal Pell Grant program. A student may be less than half time and receive a federal Pell Grant, if eligible. Audited courses and courses not applicable to the student’s degree program will not be considered in the financial aid package. Students who repeat course work for which financial aid has already been received may not be eligible for additional financial aid for those repeated classes.

All students are encouraged to apply for federal student aid. The student should file a Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov and designate Oklahoma City University (code 003166) on the application. In order for the Office of Financial Aid to receive a copy of the results. The student will receive an electronic link to his or her Student Aid Report (SAR) from the Federal Student Aid Processing Center in response to the FAFSA.

In addition to the FAFSA, other forms may be required based on the student’s individual circumstances. Students should contact the Office of Financial Aid for additional application procedures.

The 2011-2012 deadline for priority processing is March 8, 2011. FAFSAs received after the deadline will be considered in the order received for as long as aid resources are available. Funding restrictions may alter eligibility for some programs.

**Return of Unearned Federal Title IV Funds**

Class attendance is important in determining a student’s eligibility for federal financial aid. As mandated by the Department of Education, recipients of federal Title IV student financial aid—Pell Grant, SEOG, Stafford Loans, Perkins Loans, Parent Loans for Undergraduate Students (PLUS)—need to complete over 60 percent of the term enrolled to earn all of the federal funding awarded for that enrollment period. When a recipient ceases to attend or withdraws from the term for which funds are paid directly to the student or used to pay charges owed by the student for the specific enrollment period, a return of federal funds calculation is required.

Students earn the opportunity to receive federal funds based on the number of days attended in each enrollment period, expressed as a percentage of the total number of days in the term. This calculation translates into the percentage of federal Title IV funds earned by the student while in attendance. Unearned federal funds must be immediately returned to federal programs. This may leave the student owing charges directly to Oklahoma City University.

Two additional variables are important for students to understand if they are recipients of federal Title IV funds. After a student has attended through the 60 percent point of the enrollment period, the student is considered to have earned the funds received for the term enrolled. The second variable of importance is for students who have earned a
percentage of funds they have been awarded but have not yet received. These students may still be eligible to receive a percentage of those funds after total withdrawal occurs. The required calculations will determine eligibility for funds.

Attendance is the key. A student awarded financial aid who is having difficulty should take advantage of advising, counseling, and tutoring to remain in attendance and successfully complete his or her courses. If enrollment is maintained in at least one class with attendance beyond the 60 percent date during the term, this policy will not affect the student. All withdrawals will impact satisfactory academic progress (SAP). Refer to the Oklahoma City University Satisfactory Academic Progress Policy. Contact the Office of Financial Aid for more information.

Satisfactory Academic Progress Policy (SAP) for Financially Aided Students
In accordance with federal, state, and university aid and scholarship program guidelines, academic progress toward a degree must be made in order for students to continue receiving funds.

1. Financially aided students are expected to make qualitative satisfactory academic progress to remain eligible for financial aid. Grade point average (GPA) requirements are defined in this catalog. Generally, all institutional scholarships require a minimum 2.500 GPA and full-time enrollment. Some individual aid programs require higher GPAs for eligibility. All periods of enrollment are considered, including all transfer work attempted at any institution, regardless of outcome. All undergraduate students must maintain a minimum cumulative GPA of 2.000 to remain eligible for federal aid.

2. Financially aided students are also expected to make quantitative progress. Successful hours earned of the total hours attempted is monitored quantitatively. Grades of I, W, WF, WH, WA, F, NR, NC, and AU are not successful completions. The minimum earned-credit-hour requirement for a baccalaureate degree is 124.

Following is the quantitative progress chart.

Full-time undergraduate
academic years completed and GPA required:
Year 1 = 18 hrs  Year 2 = 36 hrs  Year 3 = 54 hrs  Year 4 = 72 hrs  Year 5 = 90 hrs  Year 6 = 108 hrs
Cumulative GPA = 2.000
Maximum hours for undergraduate work is 186.

Students who attend on a less-than-full-time basis will be expected to make equivalent satisfactory progress using the same formula but on a prorated basis. The minimum undergraduate completion rate is 75 percent. By federal regulation, financial aid is available only up to 150 percent of the normal quantitative time frame. Maximum time frame for a baccalaureate degree is 12 full-time terms or 186 hours attempted.

3. If a student does not meet his or her SAP requirements at the end of a semester, Oklahoma City University will grant one semester of aid on financial aid probation. At the end of the next semester, the student must have met the SAP requirement, or financial aid will be suspended until academic performance is raised to the required level. Students are allowed only one semester of aid while on probation. However, if a student is diligently working on raising his or her GPA, completing every hour attempted, and earning good grades, the financial aid advisor has the discretion to continue that student on probation. Students who have exhausted their quantitative eligibility will be placed on financial aid suspension.

4. If a student’s financial aid is suspended, he or she is notified by mail and given the opportunity to submit an appeal and the required supporting documentation. The Financial Aid Appeals Committee will render a decision as to whether an additional term of aid eligibility would be appropriate considering the student’s extenuating circumstances. The student will be notified by mail of the committee’s decision. If the appeal is denied or the student chooses not to file an appeal, the student may enroll at his or her own expense if academically eligible. Successful completion of enrolled hours with appropriate grades may allow the student to re-establish eligibility for financial aid. The student must notify the Office of Financial Aid of regained eligibility. For a student to earn his or her way off suspension, he or she must enroll in classes at Oklahoma City University. Transfer hours do not impact SAP for students on financial aid suspension. Correction of deficit hours or significant improvement of academic success is required for renewed eligibility. Information and forms are available in the Office of Financial Aid. Questions should be directed to the Office of Financial Aid at (405) 208-5211.

Renewals
Students must apply annually for renewal of financial aid. Federal renewal applications are available after January 1 of each year at www.fafsa.ed.gov. Conditions for renewal include continued financial eligibility, acceptable GPA, and SAP. Scholarship renewal is based on the SAP and is reviewed every semester. Scholarships generally require full-time enrollment.

ENDOWED SCHOLARSHIPS

Although students are not legally required to repay scholarships, if in the future they are able to return all, part, or in excess of the money granted to them, the university can help future deserving students. All scholarships require a minimum GPA of 2.500. Most require a higher GPA. All or a portion of a student’s university scholarship may be underwritten with endowment.

To apply for endowed scholarships, students need to submit their federal financial aid applications to the Office of Financial Aid for consideration. Awards will vary based on academic merit, financial need, and availability of funds. If a student is selected to receive an endowment, he or she is required to write a thank you letter to the donor who made the scholarship possible. The student must also submit a copy of the thank you letter to the Office of Financial Aid to fulfill the requirement.

ON-CAMPUS HOUSING

Residence Halls
All single, full-time undergraduate students under the age of twenty-one are required to live in university housing unless they are living with their parent or legal guardian. Veterans, married or divorced persons, and single parents are excused from this housing regulation. Falsification of residence address may result in termination of enrollment. For more information concerning university housing, call (405) 208-7915.

The university believes that a valuable part of a student’s learning experience occurs in the university residence halls. The student lives and learns with other students from different cultures and lifestyles. Numerous social and academic activities occur in the residence halls during the academic year. There are five residence halls on the Oklahoma City University campus: United Methodist, Draper, Walker, Banning, and Smith halls. Each residence hall is directed by a head resident and resident assistants, whose function is to answer questions and help solve problems related to community living.

Rates for Residence Halls
Housing rates for each academic year are published separately in a tuition and fees schedule. A $250 housing deposit is required along with a completed application and contract for residence halls housing. A portion of the housing deposit ($175) is nonrefundable. Scholarship students and athletes are NOT exempt from submitting a housing deposit. Refund information is stated on the housing contract. Cancellation of a completed housing contract must be received in writing by the director of residence life. No cancellations by telephone or other means will be accepted. Students with a housing deposit on account for whom a housing assignment cannot be made by the first day of classes each semester will receive a full refund of such deposit. Housing assignments will automatically be cancelled if a student has not checked into his or her room by 8:00 a.m. on the first day of scheduled classes for each semester, unless the director of residence life is notified of the late arrival. The full housing assignment will be canceled if a student’s advance registration is canceled, and the deposit will be forfeited in full.

Apartment Living
The Cokesbury Court apartment complex offers the security of card-key entry and an eight-foot wrought-iron fence. Apartment options include unfurnished efficiencies and furnished two- and four-bedroom apartments. The complex offers an outdoor swimming pool and Jacuzzi and on-site parking and laundry. Students classified as sophomore and above are eligible to apply for housing in Cokesbury Court. For more information, call (405) 208-8100.

University Manor, located directly across from the campus on NW Twenty-third Street, offers one-bedroom unfurnished apartments for students classified as sophomore or above. Amenities include on-site parking and laundry facilities. For more information, contact the director of university apartments at (405) 208-8100.

Food Service
There are several meal plans available to Oklahoma City University students, including a variety of residence hall board plans and Stars Bucks, a flexible debit-card system. Students residing in the residence halls are required to participate in a residence hall meal plan, and students living in University Manor or Cokesbury Court apartments are required to purchase an apartment plan based on the length of their lease. Meals for students participating in any university meal plan or block meal plan are served in the Commons Food Court in the Tom and Brenda McDaniel University Center. Stars Bucks are redeemable in the Commons Food Court or in Alvin’s Cafe, located in the University Center. Alvin’s provides a quick snack or a full meal and a place to meet friends for relaxation or study. Food services are provided by Sodexo.

RELIGIOUS LIFE
The goal of Religious Life at Oklahoma City University is to promote spiritual enrichment and to minister to the spiritual needs of the campus community.

Organizations
The Oklahoma City University Wesley Center is the United Methodist campus ministry. The Wesley Center directs Evensong worship services, Kappa Phi Christian Women’s Service Organization, and Delta Alpha Chi Christian Men’s Service Fraternity.

Worship and Activities
We offer chapel services Thursdays at 1:00 p.m., Evensong worship services on Monday evenings, Bible studies, mission trips, spiritual formation groups, and Wednesday at the Wesley, a free lunch and Bible study open to all. We also sponsor monthly mission opportunities and a mission trip every Spring break. Everyone is invited to participate.

Services
There are three clergy staff of University-Church Relations who are available to students of all faith affiliations for pastoral services and spiritual encouragement. We provide a list of area houses of worship to encourage students to connect with local worship communities. For more information, visit www.okcu.edu/religiouslife.

STUDENT LIFE
Oklahoma City University recognizes that learning takes place in many forms and places and not exclusively in the classroom. Students are encouraged to participate in activities both on and off campus. Activities sponsored by the Division of Student Affairs and the Student Government Association are for all Oklahoma City University students and are well publicized around campus.

Students at Oklahoma City University play a large role in determining and regulating their own activities. Good student-faculty-administration relations are maintained through cooperative, responsible student leadership.
There are numerous social and academic organizations available to students on campus. When the school year begins, information is made available to all students about dates and meeting times for many organizations.

**Student Government Association**
Student Government Association (SGA) is the governing body for all Oklahoma City University students. SGA plans and implements a variety of activities for the campus community and serves as the voice for students in university governance. Senators develop leadership skills, gain valuable experience in making and delivering policy, and assist in organizing large, campus-wide events. The president of SGA serves as a voting member of the university’s board of trustees. Elections for executive positions for sophomores, juniors, and seniors are held late in the spring semester. Freshman, graduate, and at-large positions are elected early in the fall semester.

**Honor Societies**
The following honor societies and professional organizations are active on the Oklahoma City University campus. Partial membership requirements are listed.

- **Alpha Chi**: Full-time student, junior standing or above, cumulative GPA of at least 3.800 and/or in the upper 5 percent of the junior and senior classes.

Greek Fraternities and Sororities  
Three national sororities, Alpha Chi Omega, Alpha Phi, and Gamma Phi Beta and two national fraternities, Kappa Sigma and Lambda Chi Alpha, have chapters at Oklahoma City University. Phi Gamma Delta fraternity began colonizing at OCU fall 2010. The benefits of membership in a Greek organization include leadership experience, social and philanthropic activities, and opportunities to develop strong personal, supportive relationships with other members.

The Kappa Sigma and Lambda Chi Alpha fraternities are housed in on-campus facilities that include meeting space, kitchen facilities, and residential space. Fraternity house residents are subject to campus regulations. Each sorority has meeting and storage space and kitchen facilities in the Nellie Melton Panhellenic Quadrangle.

The Interfraternity (IFC) and Panhellenic councils are composed of representatives from each of the active Greek organizations. These bodies regulate all interfraternity and intersorority matters with guidance from university-appointed administrators. Membership in fraternities and sororities is determined through a mutual selection process. Formal sorority recruitment and fraternity rush is held early in the fall semester. Other membership opportunities are available throughout the academic year. Contact the Office of Student Life for more information about membership eligibility.

EXTRACURRICULAR ACTIVITIES  

Varsity Athletics  
Oklahoma City University sponsors nineteen varsity sports programs, including men’s and women’s basketball, men’s baseball, men’s and women’s cross country running, men’s and women’s golf, men’s and women’s rowing, men’s and women’s soccer, men’s and women’s indoor and outdoor track and field, men’s and women’s wrestling, women’s softball, and women’s volleyball. Oklahoma City University is a member of the National Association of Intercollegiate Athletics and the Sooner Athletic Conference. The tradition of our sports programs is known nationwide.

Junior Varsity Athletics  
Oklahoma City University sponsors six junior varsity sports programs, including men’s and women’s basketball, men’s soccer, and men’s and women’s golf, and women’s volleyball.

Cheer and Pom  
Oklahoma City University offers a varsity competitive coed cheer squad and varsity competitive pom squad. The cheer and pom squads play an exciting part in the athletic department by participating at men’s and women’s basketball games and wrestling matches and at a number of other sporting events. Members of the cheer and pom squads are also involved at numerous community events throughout the year. Tryouts are held in the spring semester each year and are open to anyone interested.

Dance  
All full-time students are eligible to audition for The American Spirit Dance Company, the Oklahoma City University Spirit of Grace Liturgical Dancers, and the Oklahoma City University Pep Dancers. Contact the American Spirit Dance Company company manager in the Ann Lacy School of American Dance and Arts Management for further information. Noncredit dance classes are available through the Community Dance Center.
Theatre
All students, regardless of their majors, may audition for parts in TheatreOCU productions presented each year by the School of Theatre. Contact the School of Theatre at (405) 208-5121 for detailed audition information.

Wellness
The Wellness program at Oklahoma City University offers a wide variety of opportunities including personal training, social dance classes, Pilates, yoga, traditional aerobics classes, and self-defense training. The Wellness program assists employees and students in reducing their health risks through education and goal setting. The program features a personalized approach to healthy living designed to improve the overall health and quality of life for the university community. Classes are scheduled so that students are able to participate without taking away from opportunities to become involved with other university programs. All students are required to register in the Intramural Sports Office for the classes. The office is located in the Aduddell Center. Registration does not obligate participation.

Outdoor Adventures
The Outdoor Adventures program at Oklahoma City University provides the campus community with opportunities to experience the outdoors through participation in various outdoor activities. Outdoor clinics and trips are offered throughout the year and include hiking, bicycling, camping, horseback riding, and sailing. The Outdoor Adventures program provides a resource center and gear checkout to the campus community. This program promotes wellness through its activities while incorporating exercise and environmental awareness.

Events are scheduled so that the majority of students can participate without taking away from opportunities to get involved with other university programs. All students are required to register in the Intramural Sports Office for the particular event of interest. The office is located in the Aduddell Center. Registration does not obligate participation.

Intramural Sports
The Intramural Sports program at Oklahoma City University offers a full selection of sports. Awards and prizes are given for both placement and participation. The program is designed to accentuate and enhance the interaction that students have with one another, as well as with faculty and staff. The Intramural Sports program offers individuals opportunities to maintain physical fitness while interacting with friends. Oklahoma City University has a variety of league and tournament events, including co-ed events, designed for both the competitive and recreational player.

Events are scheduled so that the majority of students can participate without taking away from opportunities to get involved with other university programs. All students are required to register in the Intramural Sports Office for their particular sports of interest. The office is located in the Aduddell Center. Registration does not obligate participation.

Music
University students are encouraged to participate in music activities, including performing in ensembles, taking private music lessons, and auditioning for productions. All qualified students are eligible to participate in Bass School of Music performing ensembles (Symphony Orchestra, Wind Philharmonic, Ad Astra Women’s Choir, Men’s Choir, University Singers, Chamber Choir, Jazz Ensemble, Pep Band, and various small ensembles). Auditions for Oklahoma Opera and Music Theater Company productions are open to all students. See the director of the organization in which you are interested for further information, or call the music office at (405) 208-5474.

Student Publications
All students, regardless of their major fields of study, are invited to apply to work for the student publications staff. The staff publishes The Campus (the university newspaper), MediaOCU (the student media Web site), The Constellation (the university yearbook), and the yearbook’s DVD supplement. Students may also submit original poetry, fiction, nonfiction, art work, or photography to the university’s student and faculty literary journal, The Scarab. Undergraduates may submit research to Stellar, the undergraduate research journal. The Scarab and Stellar can be viewed online at www.okcu.edu/english/publications.aspx.

CULTURAL ENRICHMENT EVENTS
A wide range of events is annually scheduled on campus in music, drama, music theater, art, literature, cinema, and a variety of lectures. Among the cultural enrichment opportunities available and easily accessible in the Oklahoma City area are the Oklahoma City Philharmonic concerts, Oklahoma Art Center, the Omniplex, and several theaters. By presenting their ID cards, Oklahoma City University students may attend all Civic Music Association concerts held in the Kirkpatrick Fine Arts Building, Kirkpatrick Auditorium, at no charge.

C. G. Jung Lectureship
This lectureship presents lectures and discussions led by distinguished Jungian analysts and scholars to introduce and amplify Jungian psychology. Such eminent scholars as Robert L. Moore, Jean Shinoda Bolen, Tom Boyd, Ann Wilson Schaef, J. Philip Newell, and Larry Ward have spoken in recent years.

The Distinguished Speakers Series
The Distinguished Speakers Series was established to enrich the academic experience of students, faculty, and staff—and to create a Chautauqua experience that is free and open to the public. Nobel Laureates have joined a remarkable lineup of world-class thinkers, writers, and opinion-leaders who know that Oklahoma City University is where ideas are freely expressed, and learning is a continuous process of being challenged and inspired.
This lecture series fulfills one of the central purposes of a university by hosting provocative speakers from a wide variety of backgrounds and multiple perspectives, which generates new thinking, productive discussions, and the rare opportunity for future servant leaders to meet some of the most remarkable human beings of our time. Previous speakers include Edward Albee, Ishmael Beah, David Brooks, Morris Dees, Jane Goodall, Brian Greene, Robert F. Kennedy Jr., Jonathan Kozol, Rabbi Harold Kushner, Wilma Mankiller, N. Scott Momaday, Erik Peterson, Mark Plotkin, Sister Helen Prejean, Ann Simon, Helen Thomas, Kurt Vonnegut Jr., Andrew Weil, and George Will as well as Nobel Laureates Archbishop Desmond Tutu, Elie Wiesel, and Wangari Maathai.

The Film Institute
The Oklahoma City University Film Institute offers the university and the greater Oklahoma City community the opportunity to view classic and contemporary international films. Since 1982, the institute has been screening eight to ten films per year on designated Sunday afternoons to an audience of 150 to 425 people. Each year the series focuses on a theme, and reading material on the theme and on individual films is available at the showings. A discussion session follows each screening. The films are also available for university courses. The film series is supported by Oklahoma City University, the Oklahoma City University Film Institute Endowment, the designated endowment in the Community Foundation of the Kirkpatrick Family Fund, and the Thatcher Hoffman Smith Endowment for the Center for Interpersonal Studies through Film and Literature. The 2011-2012 academic year will be the Film Institute’s 30th year.

The Neustadt Lectures
Mr. Walter Neustadt of Ardmore, Oklahoma, established the lecture series in 1983 for the purpose of strengthening understanding of the great contributions of the Judaic religious tradition to Western civilization and thought. Each year, a scholar is invited to the campus to speak on informative themes in the area of Hebrew scriptures, Jewish thought, and Jewish ethics and art.

The Willson Lectureship
This lectureship is provided by an endowment from Mr. and Mrs. J. M. Willson of Floydada, Texas. The lectures are held annually and are directed to the interest of students in the areas of religion and society.

STUDENT ASSISTANCE SERVICES

Alcohol and Drug Education Program
Oklahoma City University recognizes that drug and alcohol abuse diminish the strength and vitality of human resources. The Office of Student Life coordinates programs to educate students regarding the harmful aspects of alcohol and substance abuse and provides referral services for counseling and treatment. A copy of the complete policy can be found in the Student Handbook.

Campus Police
The university is committed to providing a safe campus in order to maintain a crime-free academic environment conducive to learning. The Oklahoma City University Police Department (OCUPD) has fourteen full-time state certified officers and a well-trained support staff to serve and protect the campus community twenty-four hours a day year round. The officer-to-student ratio is one of the best nationwide, which partially accounts for the university’s low incidence of crime.

Eighteen external emergency phones are strategically located across the campus to provide instant access to police assistance. Upon request, OCUPD will escort students, staff, or faculty to any location on campus after dark.

Several university programs exist to inform students, faculty, and staff about services provided by the campus police department and to educate them regarding methods of crime prevention. A portion of each annual new student orientation is devoted to this area. At various times during the year, the OCUPD officers participate in programs to inform individuals of the need to secure rooms, vehicles, and personal property.

Emergency Event Notification System
The university is dedicated to the safety and security of all members of the campus community. The university operates the Emergency Event Notification (EEN) system in order to alert the campus community in the event of disaster, weather emergency, terrorist attack, or other emergency event. The system uses both email and text messaging to broadcast the alert. The system is used only for emergency announcements and not for day-to-day information dissemination.

Student, staff and faculty OCU email information is automatically loaded into the EEN system. If you wish to receive text messages in addition to emails, log in to the EEN system to provide the needed information.

Contact the Office of Telecommunications at 304-208-7700 or een@okcu.edu for assistance with the EEN system or visit http://een.okcu.edu to sign up.

Counseling Services
The university provides students with free counseling services. Students are urged to become acquainted with these opportunities and to make use of them. The dean of students and the advisor assigned for enrollment are always ready to refer students to counselors in special areas such as academic difficulties, health problems, financial problems, occupational choices, employment on or off campus, religious problems, or mental health issues. Mental health counseling is available on a limited basis. Students may attend 5-6 sessions per semester. References to off-campus therapists will be provided for long-term counseling. The university chaplain is also available to counsel students.

Campus Health and Disability Services Office

The Campus Health Clinic is staffed by registered nurses and advanced registered nurse practitioners. There is no physician on-site; however, staff are familiar with local physicians and can provide referrals as indicated. The Health Clinic provides services including health assessment, diagnosis and treatment of minor illnesses and injury. Over-the-counter medications are available. Other services include laboratory tests, vaccinations, TB skin testing, women’s and men’s health and health education.

Campus Health Services is the repository for immunization record information which all students must provide, according to Oklahoma statute. Details of requirements are located on the Web address listed below.

Disability Services is housed in the Campus Health Clinic. Services include the assessment of need and provision of classroom accommodations, accessibility assistance on campus and referral for psychoeducational testing.

More information about health and disability services can be found at www.okcu.edu/students/studenthealth/index.aspx.

Student Health Insurance

International students are required to purchase the university-sponsored health insurance plan and are automatically enrolled in the student health insurance at the time of course enrollment.

The same plan is available for U.S. domestic students. Oklahoma City University does not require domestic students to have health insurance; however, it is strongly recommended. Domestic students who wish to enroll in the plan do so online and pay the insurance provider directly.

More information about the student health insurance plan can be found at www.academichealthplans.com/okcu/index.aspx.

POLICIES ON STUDENT PRIVACY AND SEXUAL HARASSMENT

Family Educational Rights and Privacy Act of 1974

Oklahoma City University makes every effort to comply with the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment). This act is designated to protect the privacy of students’ educational records, to establish their right to review and inspect their records, and to provide guidelines for the correction of inaccurate information through informal and formal hearings.

The policy permits disclosure of educational records under certain limited circumstances and routine disclosure, at the university’s discretion, of information referred to as directory information: name, local address, phone number, e-mail address, major, participation in sports, height, weight, degrees, honors, dates of attendance, and previous colleges attended. A student has the right to prevent disclosure of directory information by filing a request in the Registrar’s Office. A copy of the complete policy and procedures is published in the Student Handbook.

Policy on Sexual Harassment

Oklahoma City University is committed to providing an academic and work environment that provides fair and equitable treatment and is free of sexual harassment and other unlawful discrimination. It is the policy of the university to prohibit harassment of any kind, including sexual harassment, of its students, faculty, staff, and guests by any member of the academic community.

Sexual harassment is a form of sex discrimination that violates Title VII of the Civil Rights Act of 1964 and Title IX of the Educational Amendments of 1972. Sexual harassment (both overt and subtle) is a form of misconduct that is demeaning to another person, undermines the integrity of the employment relationship and educational environment, and is strictly prohibited. Sexual harassment or any other form of unlawful discrimination will not be tolerated. The university is committed to preserving the rights of its students and employees from unlawful discrimination on the basis of race, color, gender, religion, national origin, age, disability, veteran status, sexual orientation, or legally protected characteristic.

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or academic status; or (2) submission to or rejection of such conduct by an individual is used as a basis for employment or academic decisions affecting such individual; or (3) such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance, or creating an intimidating, hostile, or offensive working environment. “Hostile environment” sexual harassment occurs when an employee (including a faculty member) or a student is subjected to an intimidating, hostile, or offensive work or learning environment because of offensive sexually based or sexually oriented physical, verbal, or other conduct.

This definition will be interpreted and applied consistently with the accepted standards of mature behavior, academic freedom, and freedom of expression.

This harassment policy defines and prohibits harassment on the basis of federal and state law as interpreted by the courts. If statutory provisions or court interpretations change or conflict with this policy, the university’s policy will be deemed amended to assure continued compliance.

Sexual harassment in any situation will not be tolerated. It is particularly serious when it exploits the dependent relationship between students and faculty. When student-
faculty relationships are abused in this way, there is a risk of great harm to students, to the faculty, and to the educational climate of the institution. While a particular interaction must be offensive and nonconsensual to be defined as harassment, faculty members and other individuals in positions of authority should be sensitive to the questions about mutuality of consent and to conflict of interest inherent in these kinds of relationships.

Individuals who believe they have been sexually harassed may obtain redress through the established complaint procedures of the university. Complainants will be requested, but not required to submit their allegations in writing. Complaints about sexual harassment will be responded to in a prompt and equitable manner.

Every effort will be made to respect the confidentiality of all members of the university community. Confidentiality will be maintained to the extent permitted by the circumstances of the complaint. All complaints will receive a full and fair hearing. Retaliation against individuals who bring a complaint of sexual harassment is prohibited. If faculty or staff members experience or become aware of sexual harassment, they may complain to (1) their immediate supervisor; (2) the dean or director of their academic unit; (3) the provost and vice president for academic affairs; (4) the associate provost; (5) the university’s general counsel; or (6) the university’s compliance coordinator. Where a student believes that he or she has been subjected to sexual harassment or other unlawful discrimination, he or she may, in addition to complaining to the above, also complain to the dean of students, who shall immediately report the matter to one of the university officers or categories of officials described in the preceding sentence.

A full and fair investigation will be conducted by the university. Both the complainant and the person charged will be notified of the results of the investigation.

It is a violation of this policy for any university employee (including faculty members) or any student to intentionally fabricate a complaint of sexual harassment and/or other unlawful discrimination against any individual covered by this policy.
GENERAL REQUIREMENTS FOR DEGREES

1. Degree requirements for students will be listed in the catalog in effect at the time of their first semester at Oklahoma City University. Students who are not in attendance for two consecutive semesters will be required to complete the degree requirements listed in the catalog in effect at the time of their re-entry.

2. All students entering Oklahoma City University who have not completed ENGL 1113 and/or ENGL 1213 or a course accepted by the university as an equivalent or completed the requirements of ENGL 1113 and/or 1213 by way of examination are required to enroll in ENGL 1113 during the first semester of attendance and ENGL 1213 during the second semester of attendance. Students who opt to take the CLEP for English Composition must do so during their first semester at Oklahoma City University. See Advanced Standing Credit in this catalog for more information on CLEP.

3. Any student with an 18 or below on the ACT Reading subtest (36th percentile) is required to take College Academic Skills (EDUC 1013) during his or her first semester of enrollment. Any student with an 18 or below on the ACT Math subtest (43rd percentile), is required to take Intermediate Algebra (MATH 1303) before completion of 60 hours and before enrolling in College Algebra.

4. The last 15 hours, including the last 6 of the major of a baccalaureate degree, must be completed in residence at Oklahoma City University. Student teaching may not be counted as the last 6 hours of an education major in this instance. A minimum of 40 hours must be completed at Oklahoma City University. A minimum of 124 hours is required for a degree.

5. Concurrent enrollment at another institution must be approved by the student’s academic dean.

6. A candidate for a degree must have a cumulative GPA of not less than 2.000. Only courses taken at Oklahoma City University are used to compute the cumulative GPA.

7. A candidate for a degree must have completed a major with at least a C average.

8. Undergraduate degree programs at Oklahoma City University can include no more than 6 hours of credit from kinesiology (KES) courses at the 1000, 1100, and 1200 levels (or equivalent for transfer work). No more than 2 of these 6 credit hours may be earned from junior varsity and varsity sports combined.

9. The dean of each school/college is responsible for ensuring fulfillment of graduation requirements for each student receiving a degree in his or her respective school/college. The school/college is the final authority in determining fulfillment of major graduation requirements for each student receiving a degree in his or her respective school or college.

10. Responsibility for meeting graduation requirements lies with the student. Students should be familiar with all requirements for a degree and the academic regulations of the university.

Second Baccalaureate Degree
A candidate for a baccalaureate degree must have a minimum of 124 semester hours. A candidate wishing to receive a second baccalaureate degree must complete a minimum of 154 semester hours. Additionally, the candidate must meet the major requirements for the second baccalaureate degree as well as any additional general education requirements not satisfied by the first degree.

Attendance and Academic Pursuit
Because education is the prime objective of the university, every student is expected to attend classes regularly unless prevented by genuine emergency reasons or by representing the university in an organized activity. Students are expected to make up all work missed, regardless of the reasons for absence. Students should keep teachers informed of the reasons for absences. It is the student’s responsibility to be informed of the attendance policy in each course in which he or she is enrolled.

Time Limits on Course Work
If any course on a student’s transcript was taken at Oklahoma City University ten or more years ago, the transcript will be evaluated by the appropriate academic dean in the same manner as a transcript received from another institution.

ACADEMIC HONESTY
Academic honesty is required in all aspects of a student’s relationship with the university. Academic dishonesty may not be course-specific and includes falsification or misrepresentation of a student’s academic progress, status, or ability, including, but not limited to, false or altered transcripts, letters of recommendation, registration or advising forms, or other documents related to the student’s academic career at Oklahoma City University or other colleges or universities. Students are personally responsible for the correctness and accuracy of information supplied to the university. Any student who knowingly gives incorrect information to the university is subject to disciplinary action that may lead to suspension.

Students are advised that cheating and plagiarism are not tolerated. The university expects all students to maintain a high standard of ethics in their academic activities. In this context, forms of academic dishonesty include, but are not limited to, cheating on tests, examinations or other class/laboratory work; involvement in plagiarism (the appropriation of another’s work and/or the unacknowledged incorporation of that work in one’s own); collusion (the unauthorized collaboration with another person); misrepresentation of actions; and falsifying information.

Grievance procedures found elsewhere in the catalog do not apply to the academic honesty policy procedures listed below. Law students are subject to the code of conduct published in the Oklahoma City University School of Law Student Handbook.
**Course-based procedures:** Each faculty member will include in his or her syllabus either the Oklahoma City University’s academic honesty policy or a reference to the appropriate Oklahoma City University Web site regarding the academic honesty policy. The faculty member will include in the syllabus a description of the course-based consequences if a student fails to adhere to the academic honesty policy.

If, in the judgment of the faculty member, a student fails to conform to the academic honesty policy, the faculty member shall inform, in writing, the student’s academic dean, the provost/VPAA, and the student. University Studies students are a part of the Petree College of Arts and Sciences. Sanctions for a student’s breach of the academic honesty policy vary according to the nature and the seriousness of the offense. Sanctions are at the discretion of the faculty member involved within the constraints of the course in which the offense occurred. Consequences may include loss of school/college-based scholarship funds, community service, or dismissal from the school/college. The dean can not change the student’s grade. The dean must notify the student within ten university business days of the decision to impose additional sanctions. The appeal process is increased to twenty-one calendar days when the dean’s letter must be mailed to a student then residing outside the United States. If the tenth day (or twenty-first day, in the case of a student then residing outside the United States) falls on a weekend or university holiday, the appeal is due on the next university business day.

**Appeal:** A student’s appeal of the charge or the faculty-imposed sanction must be made in writing and delivered to the faculty member’s dean within ten university business days after the date of the faculty member’s letter outlining the infraction of the academic honesty policy. The appeal period is increased to twenty-one calendar days when the faculty member’s letter must be mailed to a student residing outside the United States. If the tenth day (or twenty-first day, in case of a student residing outside the United States) falls on a weekend or university holiday, the appeal is due on the next university business day.

The faculty member’s school/college will elect faculty members to serve on a faculty/student committee to hear all school/college appeals for that academic year. If a faculty member who taught the course in question is on the committee, he or she will not serve on the school/college committee for this appeal. The dean will appoint a replacement member for this appeal. If the dean taught the course in question, the appeal will go directly to the associate provost.

There is a presumption that the faculty member’s decision is correct and, in the absence of extraordinary circumstances, shall not be changed. The faculty committee will render a decision, in writing, regarding the student’s appeal within fifteen university business days of receiving the appeal. The faculty/student committee may lessen the sanctions but may not increase the course-based sanctions. The faculty appeals committee’s decision will be final, and there will be no further appeal of the faculty member’s decision. If the student is exonerated no further action will occur.

**School/College-based Procedures:** If the student chooses to appeal and the appeal is not upheld or the student chooses not to appeal the faculty member’s actions, the student’s dean has the option of adding sanctions. Consequences may include loss of school/college-based scholarship funds, community service, or dismissal from the school/college. The dean can not change the student’s grade. The dean must notify the student within ten university business days of the decision to impose additional sanctions. The appeal process is increased to twenty-one calendar days when the dean’s letter must be mailed to a student then residing outside the United States. If the tenth day (or twenty-first day, in the case of a student then residing outside the United States) falls on a weekend or university holiday, the appeal is due on the next university business day.

**Appeal:** The student, within ten university business days after the date of the written notification of sanctions imposed by the dean of the student’s college/school, may appeal, in writing, to the associate provost. The associate provost’s decision is final, and there will be no further appeal.

**Loss of privilege to withdraw from a course:** A student who has violated the academic honesty policy shall lose the privilege of withdrawing from the course in which the violation occurred in order to avoid the collateral consequences of sanctions which may be imposed by the faculty member teaching the course.

**Provost/VPAA-based Procedures:** The Office of the Provost will keep a file of all student violations of the academic honesty policy across the university. The associate provost may, at his or her discretion, convene the Student Probations and Petitions Committee to consider dismissal of the student from the university for grievous or repeated violations of the academic honesty policy. The associate provost must inform the student at least ten university business days prior to the time the Student Probation and Petitions Committee meets. The student has the right to appear before the Student Probation and Petitions Committee. The Student Probation and Petitions Committee will convene and render a decision regarding dismissal of a student from the university or other actions. The decision of the Student Probation and Petitions Committee is final and can not be appealed. Students dismissed from the university for academic honesty violations will not be eligible for readmission.

**Student Discipline**

Every student is expected to observe the highest standards of conduct, both on and off the campus. The university cannot accept the responsibility for the education of any student who is not in sympathy with the purposes and the regulations of the university. **NOTE:** In the case of Law School students, the Law School Student Conduct Code Article 2.01 governs, and such students are subject to the Law School Disciplinary Tribunal.
Oklahoma City University reserves the right to exclude any student whose conduct or academic standing it regards as undesirable, without assigning any further reason. In such cases the fees due or which may have been paid in advance to the university will not be remitted or refunded in whole or in part. Neither the university nor any of its officers will be under any liability whatsoever for such exclusion. Any student under disciplinary suspension will be persona non grata on campus except for official business.

The entire judicial structure of the university is set forth in the Student Handbook, which is available on the university Web site. Students are responsible for all information contained in this catalog, the Student Handbook, and all class schedules. Copies of class schedules can be obtained in the Registrar’s Office.

ACADEMIC ADVISEMENT
Oklahoma City University provides guidance for admission, course selection, and instruction. Every student is assigned an academic advisor who counsels on academic matters. Academic advisors approach their counseling responsibilities in different ways. In general, they can answer questions about courses and majors. Students are assigned to faculty members in their major area of interest, with undecided students—who are classified as university studies students—being advised by the dean of the Pettree College of Arts and Sciences. The student’s relationship with an academic advisor can provide unique opportunities that may enrich his or her academic experience. An advisor will not make decisions for the student but will offer support and encouragement. It is understood that the counselor works in an advisory capacity and is not responsible for the failure of the student to follow the requirements for graduation set forth in the catalog. The provost is the ultimate authority on interpretation of requirements for graduation.

ADVANCED STANDING CREDIT
Transfer credit from accredited colleges and universities or noncollegiate credits earned from the FAA, military experience, American Institute of Banking, and other approved programs are posted on a student’s permanent record after successful completion of 12 credit hours at Oklahoma City University.

Credit by Examination
The university allows capable students the opportunity to earn advanced placement and credit in selected areas by participating in various testing programs recognized by Oklahoma City University. Official scores must be submitted to the Registrar in order for credit to be awarded.

Oklahoma City University allows high school students the opportunity to earn college credit in selected areas by participating in the College Entrance Examination Board’s program of advanced placement examination. The Advanced Placement (AP) tests are administered through high schools by the Educational Testing Service. Official scores must be submitted to the Registrar for credit to be awarded.

**International Baccalaureate Scores**  
Oklahoma City University recognizes credit earned through the International Baccalaureate (IB) program, which is administered through selected high schools. Credit will be awarded to students who have taken “Higher Level” courses and scored at least four (on a seven-point scale) on the Higher Level course examination. The following is a list of courses for which IB credit can be earned.

Students should inquire in the Office of Admissions for additional information on the acceptance of credit for AP, CLEP, IB, and OSSM. Please consult with your Oklahoma City University admissions counselor and/or the director of admissions to clarify any questions you have prior to registering or taking an advanced standing test.  

**TRANSFER OF UNDERGRADUATE CREDIT**  
Acceptance of transfer credit is a twofold process. All transfer work must be from an institution that has been accredited by a regional accrediting agency. Eligibility of the transferring institution will be determined by the Registrar’s Office. Transfer of credit from institutions outside of the U.S. must be fully recognized by the appropriate accrediting body (such as the Ministry of Education) as
determined by the International Admissions Office. The transfer work will then be posted on the student’s Oklahoma City University transcript by the Registrar’s Office. Posting of this course work does not guarantee that the courses have been accepted towards a specific degree. The student is responsible for requesting an official transcript from any and all other institutions. Official transcripts are defined as transcripts mailed directly from one institution to Oklahoma City University. Any transcript marked “Issued to Student” and/or hand-carried transcripts are not considered official and will not be accepted for transfer purposes. The student is responsible for confirming that transcripts have been received by the Registrar’s Office, or for transcripts from international institutions, by the Office of International Admissions.

The applicability of any transfer credit to a specific degree is subject to the requirements for that degree. Interpretation of transfer credits is made by the chair of the department in which the comparable course is taught. Transfer credit must also meet all of the criteria outlined in the Transfer of Undergraduate Credit guidelines included below. Each student should receive a copy of a degree plan that has been prepared by his or her advisor, indicating the transferability of any or all courses.

Any student providing a transcript from an international institution is required to provide original documents for review by the International Admissions Office. Specific requirements for verifications will be determined by the International Admissions Office. The International Admissions Office may offer a preliminary review of all transfer work, but the chair of the department in which the comparable course is taught is responsible for approving transferred course work for credit toward an Oklahoma City University degree.

**General Requirements for Transfer Work**

1. A maximum of 84 hours of credit is accepted from other regionally accredited institutions toward a degree at Oklahoma City University. Transfer of credit from institutions outside of the U.S. must be fully recognized by the appropriate accrediting body (such as the Ministry of Education) as determined by the International Admissions Office. (A maximum of 68 credit hours is accepted from two-year college-level institutions.) Applicability of any transfer credit to a specific degree is subject to the requirements for that degree. Interpretation of transfer credits is made by the dean of the specific school or college. See the School of Adult and Continuing Education section in this catalog and the R.N.-to-B.S.N. program description for their policies on transfer of undergraduate credit.

2. Transfer courses for which the Oklahoma City University curriculum has no specific equivalent, but which meet the aims and spirit of specific Oklahoma City University general education requirements, will be reflected on a student’s Oklahoma City University transcript under the following course designations. Courses so designated will meet the noted general education requirements. To receive general education credit for particular courses that have not yet been evaluated by Oklahoma City University, the student must provide specific documentation of each course’s content with the transfer petition form to the appropriate department or program chair for evaluation. The chair will determine whether to award specific general education credit and will notify the registrar of that decision.

3. Students with a baccalaureate degree from another regionally accredited college or university may transfer up to a total of 94 credit hours in pursuit of an additional baccalaureate degree from Oklahoma City University.

4. Credit for military service may be granted in accordance with recommendations of the American Council on Education. Credit for military service, transfer work, AP, IB, CLEP, and OSSM credit are posted to a student’s permanent record after successful completion of 12 credit hours at Oklahoma City University. Credit for military service combined with transfer credit from regionally accredited institutions, AP, IB, CLEP, and OSSM credit is not to exceed 84 credit hours.

5. Once a student matriculates at Oklahoma City University, the student must petition the dean of his or her specific school or college prior to enrollment to take credit hours at other regionally accredited colleges or universities to apply these credits towards an Oklahoma City University degree. After matriculation at Oklahoma City University, students may take no more than 12 hours as a transient student. These hours combined with transfer hours accepted before matriculation are not to exceed a total of 84 credit hours. Students participating in a study abroad program following matriculation may earn up to 30 hours of study abroad transfer credits for a pre-approved program. The study abroad hours do not count toward the 12 transient hours.
6. Students wishing to transfer college credit to Oklahoma City University must have at least a 2.000 GPA.
7. A grade below a C- (1.750 on a 4.000 scale) or its equivalent will not transfer. Pass/Fail/Satisfactory grades are not eligible for transfer credit unless they are assigned a numeric value that can be converted to the 4.000 grading scale.
8. International students may not receive credit for English as a Second Language courses taken at U.S. colleges, and students may not receive credit for English language courses taught in countries where the medium of instruction is a language other than English.
9. Students seeking admission with fewer than 29 hours of college credit will be subject to the same admissions requirements as first-time freshmen, and their college transcript(s) must show a 2.000 GPA or better.

Students with credit from Honors courses will receive an additional 0.250 points. The grading system is for all undergraduate and graduate students.

Credit/No-Credit
The credit/no-credit option is available within the approved guidelines of each school. Please review the specific guidelines for each major to determine the eligibility of courses to be taken for a credit/no-credit grade. **NOTE:** Students must receive a letter grade for all courses taken to fulfill general education requirements. Courses taken with a credit/no-credit option do not fulfill the requirements of the general education curriculum.

The credit/no-credit option may only be selected from the time of pre-enrollment for the semester until the final day to drop courses without a transcript record (see academic calendar). Once this deadline has passed, the option to request a credit/no-credit grade is forfeited. A student must earn a C- or better to earn credit in the course. Students must obtain permission and the signature of the instructor in whose course they wish to earn a credit/no-credit grade. The instructor has the right to refuse students the option of a credit/no-credit grade. A separate credit/no-credit request form is available from the Registrar’s Office.

Auditing Courses
An Oklahoma City University student may audit a course (excluding courses offered by the School of Law) by attending class sessions and completing classroom assignments. No examinations are taken and no credit is given. The student transcript carries the designation AU. The AU designation, once approved, may not be changed to a letter grade. Audited courses do not satisfy degree requirements. If a student determines that an audited course is needed to fulfill a major requirement, the student must repeat the course and earn a letter grade.

A student may audit only if permitted by the appropriate school or department policy and on a space-available basis.

**Procedure:** The audit option can only be selected through the second Friday of the regular semester and through the first Thursday after three class days of a summer session. Once the time period is over, the option to audit a course is forfeited. Students must obtain permission and the signature of the instructor whose course they choose to audit. An instructor has the right to refuse to permit students to audit a course. Students registered to audit a class are not guaranteed a space until after the time period. A separate audit form is available from the Registrar’s Office.

**Fees:** Students are assessed a nonrefundable audit fee. Fee schedules are available from the Student Accounts Office. Audit fees are not part of the structure for block tuition charges and will be assessed in addition to regular tuition charges.

Adding Courses
For the fall and spring semesters, courses may be added through the first Friday after four class days of the semester without instructor approval. Courses added after the first Friday after four class days and through the second Friday after nine class days may be added only with instructor approval. Courses may not be added after this date. For the first and second summer terms, courses may be added through the first two class days. Courses added after the first two class days and through the Thursday after three class days may be added only with instructor approval. Courses may not be added after this date.

Dropping Courses
The final date to drop a course is listed in the academic calendar. Students dropping courses before the final drop date will receive a W (withdrawal). After the final drop date, the instructor must assign a grade of WP (withdrawal passing) or WF (withdrawal failing) for the course. A grade of WF will be calculated into the student’s grade point average as a failing grade. If a student needs to drop a course or courses after the final drop date for documented health reasons, he or she may request to be assigned a grade of WH (withdrawal for health reasons) rather than a WP or WF; a grade
of WH will not be calculated into the student’s grade point average. For grades of WP and WF, after receiving instructor approval, the student must receive approval from his or her advisor, academic dean, and the associate provost before the change in class schedule can be processed. For the grade of WH, the student or his or her designated representative must present appropriate documentation and a formal petition for approval to his or her instructor, advisor, academic dean, and the associate provost. No course may be dropped after the last day of classes.

Courses dropped through the 100 percent refund date will not appear on the student’s permanent record. Changes in class schedule become effective on the day the form is processed by the Registrar’s Office.

A 100 percent tuition adjustment is made for varying time periods beginning with the published first day of class. After this period, there will be no further adjustments. The time periods vary. See Tuition Adjustments for more information. Student attendance in a course does not affect the tuition reduction. The date the completed form is processed by the Student Accounts Office is the determining factor.

Withdrawal
A student who is completely withdrawing from the university must obtain a withdrawal form from the Office of the Registrar, International Student Office, Financial Aid Office, or his or her dean’s office. Once this form is properly completed and processed through the Office of the Registrar and the Student Accounts Office, the withdrawal becomes effective on the date it is validated by the Student Accounts Office. A “W” (withdrawal) will be assigned for each course. Nonattendance of classes does not constitute official withdrawal. Withdrawal will be permitted up to and including the final regular day of classes for all semesters or terms. No withdrawals are permitted during finals week.

Incomplete Courses
When a course is not completed by the end of the semester or summer session, an instructor may assign an incomplete (I) at his or her discretion. The student must be performing at a passing level and have a legitimate reason to receive an “I.” Students cannot be assigned an “I” because they have excessive unexcused absences or because they are failing the course. Academic units and faculty members may establish their own policies regarding legitimate reasons to assign the “I” grade.

At the time that the incomplete is issued, the instructor will submit information which specifies what work must be done to remove the “I” and the grade to be assigned if the work is not completed. This information is made available through the on-line system. The student is responsible for submitting the work by the deadline assigned by the instructor, not to exceed one year. If the “I” is not completed by the specified deadline, the grade will convert to the grade assigned by the professor.

In the event that a faculty member is no longer available, appropriate faculty shall be assigned by the dean or department chair to determine the grade.

Grade Points
Grade point totals are calculated by multiplying the number of credit hours of a course by the number of points for the corresponding grade received. A student’s GPA will be determined by dividing the total number of grade points earned at Oklahoma City University by the total number of hours attempted at Oklahoma City University. At Oklahoma City University, the official GPA will be rounded to the third decimal place. The grades of W (withdrawal), WA (administrative withdrawal), WH (withdrawal health), WP (withdrawal passing), CR (credit), NC (no credit), I (incomplete), or NR (not reported) are omitted in counting grade points. The grade of WF (withdrawal failing) will be calculated into the grade point as a failing grade. Courses for which a grade of CR, W, WA, NC, I, and NR are received will not be calculated in the total number of hours attempted for the purpose of calculating the GPA. (For the purpose of determining a student athlete’s eligibility for participation in varsity and junior varsity athletic competitions, the student athlete’s GPA must meet all applicable standards of all appropriate institutions including the conference, the athletic association, and the university, using each institution’s methodology for calculating GPA.)

Repetition of Courses
An undergraduate course taken at Oklahoma City University in which the original grade was C+ or below, including a WF (withdrawal failing) may be repeated only once unless special permission for an additional opportunity to repeat the course is received from the dean of the student’s school. To repeat an undergraduate course, the course content must be the same as the original course (at the discretion of the faculty), and the course must be repeated at Oklahoma City University. The higher grade will be calculated in the student’s GPA. The lower grade will be recorded on the transcript as an R (repeat) and excluded from the student’s GPA. The higher grade will be posted in the semester earned and included in the GPA. It will be noted on the transcript which grade has been excluded from the GPA. A student is permitted to repeat a maximum of eighteen semester hours or six different courses, whichever is higher. Grades of W, WP, WH, or AU are not included in the 18 hours of repeat.

Course Numbering Systems
The first digit in each course number indicates the academic level at which the department places the course (1 – freshman level, 2 – sophomore level, 3 – junior level, 4 – senior level, 5-9 – graduate level). The second digit, in combination with the third, gives the course a unique number within its department and academic level. The second digit may be used to indicate sequence where two or more courses dealing with the same subject matter are sequential in arrangement. The third digit indicates the type of course. The type indicated by specific numbers varies from school
to school. The fourth digit indicates the number of semester hours credit assigned to the course.

“T” following a course number denotes courses open only to international students for whom the first language is not English. “H” following a course number denotes courses for Honors students only. Permission of the Honors director is required for enrollment in these courses. “SA” following the course number denotes a course that includes a study abroad component.

Courses numbered 1000-4999 are for undergraduate students; 1000-2999 courses are freshman and sophomore level courses; 3000-4999 courses are junior and senior level (upper division) courses. Graduate students who are satisfying program prerequisites or otherwise remedying deficiencies may, with approval, enroll in undergraduate courses, but will not receive graduate credit for such undergraduate course work.

Courses numbered 5000-9999 are for graduate credit in graduate degree programs; 5000-5999 courses are graduate courses that may be dual-listed with upper division undergraduate courses; 6000-6999 courses are not open to undergraduate students. Courses numbered 7000-9999 are restricted to doctoral students; 9000-9999 courses are for independent study (such as research, thesis, or dissertation) and are restricted to doctoral students. The School of Law establishes its own course numbering policies.

Final Examinations
Final examinations are held in all courses upon the completion of each semester’s or term’s work. No one is to be excused from the final examinations. All classes will meet during the time stipulated by the Registrar’s Office for final examinations. Students who have three final examinations scheduled on the same day may seek permission from either their instructors or their academic dean to have one exam rescheduled for another day within final examination week.

Course Cancellation Policy
The decision to cancel a course due to insufficient enrollment, faculty overload, or other circumstances will be made by the dean of the school offering the course in consultation with the instructor of the course. After notifying the Office of the Registrar of the cancellation, the dean will inform students enrolled in the course.

Departmental Independent Study
Most departments within the university provide independent study, typically one to six hours of credit toward the major. This opportunity enables a student to expand the academic experience beyond the courses listed in the curriculum of a department by creating, in cooperation with the instructor and the chair of the department, special courses of interest to the student. It also allows the expansion of the student’s educational experience into research and analysis of data, particularly advisable for those planning to undertake graduate study. The student may undertake independent study courses in blocks from one to six hours, but normally independent study courses are for three hours in a given semester.

Classification
A student who has fulfilled entrance requirements and is working toward a degree is designated as a classified student. Such a student will be classified as a freshman until 29 semester hours have been completed, as a sophomore if 30–59 semester hours have been completed, as a junior if 60–89 semester hours have been completed, and as a senior if more than 90 semester hours have been completed.

Student Academic Load
The minimum full-time academic load during the fall or spring semesters is 12 credit hours. Each school and college at Oklahoma City University may determine the maximum number of credit hours in which its undergraduates may enroll. For schools and colleges permitting maximum enrollments exceeding 18 credit hours, academic advisors are responsible for setting the credit hours for which an advisee may enroll, based on considerations that include, but are not limited to, a student’s general academic record, semester and cumulative grade point averages, and demonstrated ability to successfully complete heavy academic loads. Each school/college will inform the registrar of its overload policy including the number of credit hours that will require dean’s approval. Students may not enroll in more than 22 credit hours for fall or spring semesters. A student whose GPA for the semester is below 2.00 will carry no more than 12 semester hours in the subsequent semester.

A student employed as much as twenty-five hours per week should carry an academic load at least three semester hours below the normal full-time load. If the student is working twenty-five to thirty-five hours per week, the academic load should be reduced six semester hours below the full-time student. If the student is working more than thirty-five hours per week, not more than one-half the normal full-time load of semester hours should be carried.

A student wishing to enroll at another institution concurrently with an enrollment at Oklahoma City University must have prior approval of the dean of his or her school. Students receiving veteran’s education benefits also must notify the Registrar’s Office immediately to ensure that the required documents are submitted to the Veterans Affairs Regional Office.

Grade Reports
Midsemester grades are made available to students through the Web-based BlueLink system. Final grade reports are posted only through BlueLink unless the student has requested in writing to the Office of the Registrar that grades be mailed to a specific address.

Records and Transcripts
All permanent records are in the Office of the Registrar. Requests for grades, transcripts, and diplomas should be made to that office.

A student who completes the requirements for a degree cannot be issued a complete transcript or a statement that the requirements have been completed until the end of the semester or term in which he or she is registered for credits needed for the degree. Students who complete the requirements for a degree prior to the next graduation date may secure from the Office of the Registrar a statement that the requirements for the degree have been completed.

Official transcripts may be ordered online, by mail, in person, or by fax to the Office of the Registrar. A request for official transcripts must include the following information:

- student’s full name (while enrolled)
- student identification number
- date of birth
- last date of enrollment
- current address and phone number
- address where the transcript is to be sent
- student’s signature

The cost of official transcripts is included in the comprehensive records fee; therefore, there is no additional charge for transcripts. The registrar may limit the number of transcripts a student may receive within a given time period. Transcripts are not issued until all outstanding accounts with the university are paid in full. Students and former students may call Student Accounts at (405) 208-5146, or go to the Student Accounts Office to determine their financial status.

Photo identification is required when picking up transcripts from the Office of the Registrar. Written authorization is required for a transcript to be released to a third party. Parents may obtain a student’s transcript provided they have written authorization from the student or a signed affidavit stating that the student is their financial dependent according to IRS regulations.

Grievance Procedure for Grade Appeal
A grade awarded by the course instructor is presumptively correct, and the instructor’s determination is generally final. Other than for mathematical or data entry errors, no final grade can be changed except on proof of exceptionally egregious circumstances as defined below.

If a student has reasonable grounds to believe that a final grade received or final academic judgment made with respect to him or her in any course or program of study was based on violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice, the student may, within ten school days of the receipt of the final grade, initiate a grievance. School days are defined as Monday through Friday when classes are in session, excluding breaks, final exam periods, and holidays. Grievance procedures for students attending programs outside the United States must be facsimiled or e-mailed within twenty-eight calendar days in order to meet the remainder of the deadlines. The process is composed of both informal and formal procedures.

I. Informal Grievance Procedure
A. The student should communicate with the instructor in an attempt to resolve the issue.
B. If, after communicating with the instructor (or if, after reasonable effort on the part of the student to contact the instructor, she or he remains unavailable), the student still believes that the grade is based on violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice, the student may take the grievance to the chair of the department in question. The chair will attempt to mediate the dispute. If there is no chair or the chair taught the course in question, the student should proceed to section II.

II. Formal Grievance Procedure
A. Only if the issue is still unresolved after meeting with the chair of the department, as outlined in section I, the student may initiate the formal grievance process with the dean. NOTE: If the dean taught the course, the associate provost will undertake the dean’s responsibilities in the grievance procedure. The levels of action are clearly defined and include strict time limits designed to effect speedy resolution. No formal appeals procedure will be enacted if six months or more have elapsed since the incident. It is the responsibility of the student to initiate the process and follow it through. Failure of the student to move the appeal forward in the specified time limits will terminate the appeal.

1. The student will first present his or her appeal to the dean of the college or school. The appeal will be in writing, in as much detail as possible, stating all aspects of the issue that the student feels pertinent. Grounds for review are limited to violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice. Copies of pertinent material in the student’s possession or access will be included as appropriate.

2. Upon receipt of the material provided in section 1, the dean will determine, within five school days, if the student has a prima facie case. If the dean determines that insufficient evidence has been presented by the student, he or she will dismiss the appeal. If the dean determines that there is evidence that, if believed, would constitute a prima facie case, the dean will provide, within ten school days of this determination, a copy of the written material to the faculty member in question. The dean will request a written response that details as completely as possible the position/opinion of the faculty member on all issues raised. Copies of exams, assignments, grade books, or other relevant information will be submitted with this response. The instructor will have ten school days in which to prepare his or her response.

3. The student will be given the opportunity to review the instructor’s response and to provide additional written comments to the dean. This response will be given within five school days of the receipt of the
faculty member’s response to the dean. The dean will then render a decision on the appeal within five school days. The dean or his or her designee has the right to request, from any party, any additional information he or she feels is pertinent and appropriate. However, the request for information will not extend beyond the five-day response period above. Unless the dean determines that sufficient evidence exists to support the student’s allegation, the dean will deny the appeal. The dean has the authority to deny the appeal or forward the appeal to the associate provost, who will convene the Student Probation and Petitions Committee. The dean does not have the authority to change the grade, but may make a recommendation to the committee.

B. Either the student or the faculty member may appeal the dean’s adverse decision within five school days of the receipt of the dean’s decision by giving written notice of intent to do so. Upon such written notice to the dean, the dean will forward copies of all material to the associate provost, who will convene the Student Probation and Petitions Committee, which must meet within ten school days of receipt of the appeal. **NOTE:** If the faculty member who taught the class involved in the appeal is a member of the Student Probation and Petition Committee, the faculty member must recuse him or herself from the committee during the appeal. The committee will review all documentation and will reach a decision. The committee may request additional documentation if it feels it is appropriate to do so and may adjourn until the documentation is available. Both parties have the right to appear before the committee; however, to the fullest extent possible, the decision will be based on the written documentation provided. The committee will uphold the originally issued grade unless it finds substantial evidence of violation of established university policies, procedure, or regulations, substantial error, bias, or miscarriage of justice. The committee’s decision will be rendered as soon as practical after receipt of the documentation, but must be rendered within thirty days.

C. If the committee determines that the above-described process has not been followed correctly, the committee will order a rehearing of the case following the correct process.

D. The decision of the committee is final.

**ACADEMIC PROBATION AND SUSPENSION**

**Academic probation:** To remain in good academic standing a student must maintain a cumulative GPA of 2.000 or higher. Any student whose cumulative GPA falls below 2.000 will be placed on academic probation. A student placed or continued on academic probation must maintain a 2.000 GPA in 12 hours of regularly graded course work (excluding activity and/or performance courses not required for the major) each semester until she or he attains the retention GPA. Upon raising her or his cumulative GPA to meet the retention requirement, the student will be removed from academic probation.

Only students who are in good academic standing may participate in extracurricular activities. Extracurricular activities are defined as activities such as athletic competitions, artistic performances, and academic competitions that are not required by the student’s course work or major program. Students who are not in good academic standing will be prohibited from representing the university in the participation in intercollegiate athletic events, artistic performances except as required for their course work or degree requirements, and intercollegiate academic contests. Traveling with athletic teams, performance groups, or academic teams also will be prohibited.

**Academic Suspension:** Academic suspension occurs automatically when a student who was placed on academic probation the previous semester either fails to raise his or her GPA to the retention requirement or fails to achieve a 2.000 semester GPA in at least 12 hours of regularly graded course work (excluding activity and/or performance courses not required for the major). Any student suspended for academic reasons cannot be reinstated until one full academic year has elapsed unless upon appeal the Student Probation and Petitions Committee grants immediate reinstatement. Students wishing to appeal suspension should inquire about procedures and deadlines from the Office of the Registrar. Any student who is reinstated to the university will re-enter on probation and must achieve a minimum semester GPA of at least 2.000 in a minimum of 12 regularly graded hours each semester until he or she succeeds in meeting the retention GPA requirement appropriate to his or her classification. Once the retention GPA requirement is met, the student will be removed from probation.

**ACADEMIC DISMISSAL**

**Readmission Policy for Students Dismissed for Poor Academic Performance**

A student dismissed from the university for academic reasons who chooses not to appeal the dismissal and wishes to reapply to the same program must wait one full academic year before applying for readmission. The latest date by which readmission requests must reach the Office of the Registrar in order to be considered for earliest possible readmission will be indicated in the letter of dismissal. Official transcripts and records of academic work completed during the period following the dismissal must be included along with the request for readmission. The Student Probation and Petitions Committee will review any request for readmission. Requests for readmission will be reviewed prior to the semester in which the student is eligible to re-enroll.

At the time of dismissal, the student will be informed of possible avenues to pursue, such as additional academic course work from other postsecondary institutions. This information will be communicated in the dismissal letter.
sent from the Office of the Registrar. Official transcripts and records of academic work completed during the period following the dismissal must be included along with the request for readmission. The Student Probation and Petitions Committee will review all requests for readmission. Requests for readmission will be reviewed prior to the semester in which the student is eligible to re-enroll.

Suspended seniors (students with 90 or more hours in a specified degree program) who fail to meet either the 2.000 retention GPA or the semester GPA of 2.000 may enroll in an additional 12 semester hours (excluding activity and/or performance courses not required for the major) in a further attempt to achieve the requirements for retention. Seniors will be afforded this extension only one time. This extension applies to seniors enrolled in more than six hours. Seniors enrolled in six or fewer hours will be placed on academic suspension after two successive enrollments with less than the required GPA for their classification.

The university reserves the right to place on academic warning a student whose semester grades fall below a 2.000. The academic warning letter will indicate what the student needs to do academically to retain a good academic standing with the university.

Appeal of Academic Dismissal

A student has the right to appeal academic dismissal due to substandard academic performance. The student may, within fourteen days, excluding official university holidays, of the receipt of the written notice of dismissal, initiate an appeal in the following manner:

1. The student must submit a written appeal to the registrar. The appeal should have as much detail as possible, stating all aspects of the issue that the student thinks pertinent. It is the responsibility of the student to initiate the process and follow it through. Failure of the student to move the appeal forward in the specified time limit will terminate the appeal.

2. After making a determination that the appeal is filed in a timely manner, the registrar will convene the Student Probation and Petitions Committee to consider the student’s appeal within ten school days of its receipt. School days are defined as Monday through Friday, when classes are in session, excluding breaks, final exam periods, and official university holidays. The Student Probation and Petitions Committee will review all documentation and reach a decision on the appeal. The committee may request additional documentation and may postpone the hearing until that documentation is available. The student has the right to appear before the committee, however, to the fullest extent possible, the decision will be based on written documentation provided.

3. The committee may affirm the decision to dismiss, overturn the decision to dismiss, or qualify the decision to dismiss.

4. If the committee affirms the decision to dismiss, the provost may review the documentation to determine that these procedures were followed. The provost review will only address procedural matters.

5. The associate provost will notify the student within three school days of the decision of the committee.

NOTE: This procedure applies to all departments and schools within the university except the School of Law. Appeals of academic dismissal in the School of Law are heard by the Law School’s Petitions and Retention Committee under the procedures and regulations set forth in the Law School’s Student Handbook. Decisions of that committee are final, except that the president may review the documentation solely to determine that due process has been followed.

GRADUATION PROCEDURES AND COMMENCEMENT

Degree candidates, in the latter part of their junior year, should check with their advisor on their progress in satisfying graduation requirements. Students who plan to graduate should file an application for graduation in the Registrar’s Office before the deadline specified in the academic calendar.

There are three graduation dates (fall, spring, and summer) and two commencement ceremonies (December and May). Students completing degree requirements in the fall participate in the December commencement ceremony. Students completing degree requirements in the spring or summer terms participate in the May commencement ceremony. All students should complete the application for graduation by the appropriate deadline published in the academic calendar—typically October for December commencement and March for May commencement.

A student who has three or fewer credit hours to complete in the fall semester of the following academic year may participate in the May commencement ceremony. A student who has three or fewer credit hours to complete in the spring semester of the same academic year may participate in the December commencement ceremony. To do so, the student must request permission from the Academic Affairs Office and complete the application for graduation before the application deadline published in the academic calendar. Completion of any degree-required comprehensive exam is not a requirement for participation in the commencement ceremony.

Before filing the application for graduation, each candidate should contact his or her dean to initiate a final degree check. A final degree certification must be submitted to the Registrar’s Office by the appropriate dean. Consult the appropriate pages under education for the requirements pertinent to certification.

A candidate for a degree must have a cumulative GPA of not less than 2.000 for the degree to be conferred. Only
courses taken at Oklahoma City University are used in calculating the GPA. Responsibility for meeting graduation requirements lies with the student.

The date recorded on a diploma will be the graduation date following the semester or summer session in which the student completes all requirements for the degree.

The Office of the Provost coordinates the commencement ceremonies for the university. Graduates are required to wear the appropriate cap and gown to participate in the ceremony. The only cords or stoles permitted to be worn with a graduate’s academic dress during the ceremony are those awarded by the university or honor societies of the university.

Graduation Honors
The university recognizes the academic achievements of its candidates for degrees by the following honor awards:

Summa Cum Laude—a cumulative GPA of 3.900 with a minimum of 80 hours of graded courses at Oklahoma City University

Magna Cum Laude—a cumulative GPA of 3.750 with a minimum of 60 hours of graded courses at Oklahoma City University

Cum Laude—a cumulative GPA of 3.500 with a minimum of 60 hours of graded courses at Oklahoma City University

Courses that are nongraded or graded as credit/no-credit may not be included in the minimum hour requirements. To determine honors candidates for the commencement ceremony, the GPA and the hours accumulated through the semester prior to commencement will be calculated. For the official honors designation which is placed on the transcript and the diploma, the final semester’s hours and grade points are included. Only the GPA of hours completed at Oklahoma City University will be used in the calculation of graduation honors eligibility.

Letzeiser Medals—For the three senior men and the three senior women with the highest GPA, One hundred-five Oklahoma City University graded hours or a combination of Oklahoma City University graded hours and Oklahoma City University approved hours from AP, CLEP, IB, and OSSM, are required for the award. Transfer hours and advanced standing hours accepted by other institutions will not be included toward the 105 hours.

Cum Honore (University Honors Program)—completion of 25 hours of Honors courses with a 3.500 cumulative GPA and an Honors GPA of 3.250.

UNIVERSITY HONORS

President’s Honor Roll—All undergraduate students are eligible for this honor provided they meet the following requirements: (1) enrolled for and completed a minimum of 12 graded hours for the semester; (2) have not received any incomplete, no-credit, or unsatisfactory grades for that semester; (3) receive a current semester GPA of 3.900 or above.

Dean’s Honor Roll—All undergraduate students are eligible for this honor provided they meet the following requirements: (1) enrolled for and completed a minimum of 12 graded hours for the semester; (2) have not received any incomplete, no-credit, or unsatisfactory grades for that semester; (3) receive a current semester GPA of 3.500-3.899.

Phi Kappa Phi—The mission of Phi Kappa Phi, an all discipline national honor society, is “to recognize and promote academic excellence in all fields of higher education and to engage the community of scholars in service to others.” Undergraduates, graduate students, faculty, professional staff, and alumni are eligible for membership. The organization is more than 100 years old, and election is by invitation only.

Blue Key Honor Fraternity—Membership is by election. Second semester sophomore standing or above and a cumulative GPA of 3.400 or above are required.

Junior Marshals—Junior men and women are chosen for this honor on the basis of scholarship, leadership, and character by the faculty of the Petree College of Arts and Sciences, Meinders School of Business, Ann Lacy School of American Dance and Arts Management, Bass School of Music, Kramer School of Nursing, School of Theatre, and the Wimberly School of Religion.

Oklahoma City University Leadership Award—Outstanding senior man and woman in the Petree College of Arts and Sciences, Meinders School of Business, Ann Lacy School of American Dance and Arts Management, Bass School of Music, Kramer School of Nursing, School of Theatre, and Wimberly School of Religion are chosen for this award.

Who’s Who Among Students in American Universities and Colleges—An annual publication in which the biographies of outstanding undergraduate students on American campuses are included. Students are selected by the Student Retention Committee. Both graduate and undergraduate students may participate.

University Honors Program
The mission of the University Honors Program is to provide enhanced educational opportunities to challenge academically gifted undergraduate students in any major. The program cultivates open-mindedness and progressive deepening of purpose.

Each new class of Honors students at Oklahoma City University is a special community of scholars. Students have the opportunity to become acquainted with one another and the Honors program in the Honors Colloquium, a course required for all new Honors students during their first semester in the program. Honors students have opportunities to meet with visiting scholars and participate in special events. As part of a network of honors programs through the National Collegiate Honors Council and the Great Plains Honors Council, students may present research at national and regional honors conferences and participate in exciting summer and semester programs.

To qualify for the University Honors Program, an incoming first-year student must have a minimum 27 ACT or a high school 3.750 cumulative GPA. The admission process requires that a student answer two of three essay questions determined by the Honors Committee. On-campus recruitment occurs during the fall semester with the application process including verification of current and past Oklahoma City University grades to meet a 3.500 minimum GPA, recommendations from two Oklahoma City University instructors, and submission of two brief essays. The Honors Committee selects members of the program.

Transfer students are eligible to become members of the University Honors Program through the same application process used by entering first-year students. Students may count up to 12 hours of transfer work for Honors credit provided the hours have been accepted for credit by Oklahoma City University, the hours were designated “Honors” at the former institution, and the former institution is a member in good standing in the National Collegiate Honors Council.

The requirements to graduate with University Honors Program honors (Cum Honore) are completion of 25 hours of Honors courses with a 3.500 cumulative GPA and an Honors GPA of 3.250.

Required Courses:
- ENGL 1213H: Honors Composition II (waived for students who have earned Composition II credit through AP, CLEP, or other advanced placement exams, or who have already completed Composition II)
- HON 1061H: Honors Colloquium
- HON 3163H: Honors Junior/Senior Seminar

Oikos Scholars Program: Peace, Social Justice, and Ecological Sustainability
The Oikos Scholars Program at Oklahoma City University aspires to be a premier liberal arts program for preparing students to engage in lives of social and ecological responsibility. Oikos, the Greek word for house, is the root word for both ecology and economics. It points to these dual responsibilities that are central to the mission of the Oikos Scholars Program.

All Oikos Scholars participate in service-learning projects each year; complete courses addressing issues of peace, social justice, and ecological sustainability; and are required to complete at least one approved international education experience while at Oklahoma City University. Each Oikos Scholar will receive a $1500 annual scholarship ($500 of which contributes to the international education experience), renewable for up to four years of study. All Oikos courses may be taken for Honors credit to allow scholars to participate in both the Oikos Scholars Program and the University Honors Program.

Required Courses:
- Peace and Non-Violence
- Social Justice
- Science, Technology, and Society: Ecological Sustainability
- Environmental Science or Principles of Ecology
- Oikos Senior Project
- Must have at least one approved International Education experience before graduation

Undergraduate Research Program (URGE)
Students interested in generating new ideas using the methods of any discipline are encouraged to enter this program. It offers mentorships in the student’s chosen discipline and unique seminar experiences similar to those usually reserved for graduate programs. The program encompasses the entire four-year experience, providing a unique experience in active learning and the opportunity to create knowledge by answering the questions most pressing to the student.

URGE students can be in any major. Research conference attendance, at all levels, regional, national, and international are expected and are part of the program.
The Washington Center Internship Program
Oklahoma City University’s partnership with The Washington Center (TWC) provides students with opportunities for full-time internships in the nation’s capital. The program provides a unique combination of benefits: a structured program for which students receive academic credit from Oklahoma City University; an extensive internship tailored to the interests of the student, whatever his or her major; and a varied selection of course work, lectures by national and international leaders, small group meetings with members of Congress, embassy visits, and workshops.

TWC maintains ties with thousands of organizations—governmental, nonprofit, and corporate—that can provide high-quality placements in the Washington, D.C., area. Internships run a wide gamut of interests and opportunities. The student selects from fifteen different thematically organized programs (for example, Congress, mass communications, NAFTA, business and information technology, law and criminal justice, among others). Internships are available for all majors, and the placement sites provide tremendous opportunities to work for corporations such as Citibank; government sites such as the EPA, the White House Office of Public Affairs, Congress, or the Smithsonian; or mass communications placements at CNN or USA Today.

TWC offers internships year round. Students with a 3.00 GPA or higher may apply after the completion of their sophomore year and receive 9 to 12 hours of credit. The timing of the semester’s internship and the number of credits to be received must be preapproved by the student’s departmental advisor. Internships generally are assigned 3 to 6 hours of credit, TWC course work earns 3 hours, and the student may earn another 3 hours of credit for portfolio work assigned by a center supervisor and approved by the student’s departmental internship advisor.

TWC provides safe, attractive, and conveniently located housing in high-rise apartments in northern Virginia. Program supervisors counsel, place, supervise, and plan activities for interns during their semester. The center also offers students many opportunities to explore the cultural vitality of Washington. For information, contact the director of career services at (405) 208-5171.

Oklahoma Scholar-Leadership Enrichment Program (OSLEP)
Oklahoma City University students are welcome to participate in the Oklahoma Scholar-Leadership Enrichment Program (OSLEP) an intercollegiate, interdisciplinary program designed to enhance the learning opportunities for Oklahoma’s outstanding college and university students. The program is sponsored by the Oklahoma State Regents for Higher Education and administered by the University of Oklahoma. Oklahoma City University students may apply for the program through Oklahoma City University. For more information, contact the director of academic services in the Provost’s Office at (405) 208-5270.

Small groups of college and university students selected from across the state study with distinguished visiting scholars. The intensive five-day sessions, which focus on a different topics each semester, provides students the opportunity to develop a personal relationship with a world-famous scholar and to make lasting friendships with students from around the state. Seminars are hosted by different institutions, and students are provided housing as part of the program. For a list of courses offered in 2011-2012, see the OSLEP section of the course descriptions in this catalog.

International Education (Study Abroad)
Oklahoma City University recognizes that an understanding of other cultures, languages, and global issues has become increasingly significant in the education of tomorrow’s leaders. The university aims to integrate the campus into this interconnected world by providing opportunities for students to internationalize their educational experience, encouraging faculty to expand their own international experiences and internationalize their curriculum, and facilitating global awareness campus-wide.

International Education Opportunities
At Oklahoma City University, students may travel to many countries with the intent of studying the language and culture or pursuing their required academic course work. Students may participate in study abroad programs spanning 10 days to an academic year.

Eligibility Requirements:
■ A minimum 3.00 cumulative GPA to participate in academic year or semester study abroad programs.
■ Junior or senior standing to participate in academic year or semester study abroad programs (second semester sophomores considered on an individual basis).
■ Overall good standing at Oklahoma City University.
■ Demonstrated foreign language proficiency for programs where English is not the official language of instruction.
■ Completed Application for Study Abroad and attendance at a predeparture orientation.

Reciprocal Exchange: A reciprocal exchange is designed for students who wish to study at a foreign institution for the academic year or one semester and who do not seek a degree from that institution. Reciprocal exchange allows Oklahoma City University students to pay Oklahoma City University tuition and fees but study at the foreign institution. Federal, state, and institutional aid are applicable toward tuition costs associated with reciprocal exchange programs as determined by the Office of Financial Aid.

Oklahoma City University currently has exchange agreements with the following institutions:

Argentina—Universidad del Centro Educativo Latinoamericana (UCEL): Students may study Spanish or pursue regular course work at UCEL, the first Methodist-affiliated
university in Argentina. UCEL is located in downtown Rosario, Santa Fe, 300 km northwest of Buenos Aires, Argentina’s capitol city. Prerequisite: Minimum of four semesters of college-level Spanish.

**Austria—Alpen-Adria University at Klagenfurt:** Students interested in studying in Klagenfurt will find intensive language classes in German and Italian, as well as a variety of classes taught in English. The university is located in the capitol city of the beautiful southern province of Carinthia, nestled in the Tyrolean Alps next to the Worthersee Lake. Venice, Italy, is only a short train ride to the west and Vienna, Austria, is four hours due north. Carinthia is a charming example of the Austrian countryside, with welcoming people and a long history. Prerequisite: Four semesters of college-level German or Italian for language study; none for most courses taught in English.

**Japan—Ritsumeikan University (RITS):** RITS offers undergraduate and graduate courses in areas such as law, social sciences, economics, international relations, and Japanese language studies. RITS comprises three university campuses, all part of the Oklahoma City University exchange program. RITS offers semester, academic year, and summer programs with over 500 courses taught in English. The name Ritsumeikan means “the place to establish one’s destiny,” offering students the opportunity to learn within an education system committed to cultivating individuality and internationalism simultaneously. Prerequisite: None.

**Partner Programs:** Partner programs exist so that students may enroll in an international institution through Oklahoma City University. Program tuition is paid to Oklahoma City University so that some institutional financial aid and scholarships may be considered and utilized for program costs.

**England—Edge Hill University:** Many students enjoy the opportunity to study at Oklahoma City University’s partner institution in Ormskirk, England. Edge Hill University has been providing high-quality education in liberal arts, business, and education for well over a century. Its impressive outdoor facilities include rugby, soccer and cricket fields, a full-size running track, plus tennis courts, a double gymnasium, and swimming pool. The picturesque campus is conveniently located in northwest England, removed from urban noise and distractions, only a short distance from Liverpool and Manchester, two of England’s major centers for the arts. Prerequisite: None.

**Danish Institute for Study Abroad (DIS) – Denmark:** DIS is a specialized Danish institution offering study abroad programs in English for primarily American university students in their third or fourth year of study, with credit transfer to their home school. Established in 1959, DIS has a reputation of being intense, demanding, and rewarding, and of providing a challenging educational environment in a full-service framework. DIS offers site-specific courses and programs involving interactive and cooperative learning processes, individual and team-based research, experiential learning through course-integrated field studies and study tours, and housing with the Danes. All courses, except the Danish Language and Culture class, are taught in English. Prerequisite: None.

**Faculty-led Study Tour (short term):** Oklahoma City University’s academic departments offer a range of international study opportunities for credit each year. Some typical faculty-led classes/study tours include natural history and ecology courses in Central and South America through the Department of Biology; the British media comparison class through the Mass Communications Department; and the politics of the Middle East taught in Morocco through the Political Science department. Additionally, Oklahoma City University sponsors trips for performing arts majors. Past programs presented abroad include The Fantasticks (Singapore), The Boyfriends (Singapore and Malaysia), and the musical Oklahoma! (Malaysia) from the Margaret E. Petree College of Performing Arts; The Oklahoma City University Chamber Choir has performed in Taiwan, Thailand, Korea, and Hong Kong; and the Oklahoma City University Symphony Orchestra toured the People’s Republic of China.

Students are encouraged to contact their specific departments to inquire about upcoming study tours, then apply for the study tours through academic services in the provost’s office. Faculty-led class/study tour pricing does not typically include Oklahoma City University tuition and fees, but may include the cost of roundtrip airfare, accommodations, and some meals and activities associated with the program.

**Affiliated/Approved Programs:** Oklahoma City University students have studied in many countries including Australia, Chile, Ecuador, France, Ireland, Italy, Russia, and Spain through third-party study abroad providers or other U.S. university programs. Oklahoma City University holds affiliation agreements with private study abroad organizations such as International Studies Abroad, Study Abroad Italy, the Council on International Educational Exchange (CIEE), and CIS Abroad, to name a few. The advantages for Oklahoma City University students to study abroad through one of the affiliated programs are that they expand the options available to our students, and Oklahoma City University students are eligible to apply for affiliate scholarships, which are not open to the general public. In addition, affiliate organizations make periodic site visits to Oklahoma City University to assist students with program information. Oklahoma City University students are eligible to apply for affiliate scholarships, which are not open to the general public, as well as use federal financial aid toward program costs.

Global opportunities at Oklahoma City University expand each year. Students can keep informed of developing and upcoming international education opportunities by visit-
ing the annual study abroad fair, contacting Oklahoma City University departments and faculty, or by scheduling an appointment with the director of academic services at (405) 208-5287.

**Center for Interpersonal Studies Through Film and Literature**

The center’s mission is to develop creative programs through film and literature that engage individuals on the intuitive and experiential levels to understand themselves and others across time and space. Begun in 1997, the center brings a distinguished creative person to the campus each year (Poets Jimmy Santiago Baca, Lucille Clifton, Carolynn Forchë, Mark Doty, Joy Harjo, Jane Hirshfield, Li-Young Lee, Michael Ondaatje, Naomi Shihab Nye, and Natasha Trethewey as well as Poet Laureates Billy Collins, Ted Kooser, Charles Simic, and Robert Pinsky have been featured; Pulitzer Prize winner Claudia Emerson will be the poet in April 2012); develops an annual documentary film series each spring; develops for the university and community an archive collection of quality videos and DVDs along with viewing suggestions and some lesson plans for grade school through university-level teachers; conducts field trips to Oklahoma City University for teachers and students from upper elementary through high school to view and discuss distinguished films; holds a book discussion series for the university and Oklahoma City community; collaborates with other campus and metropolitan organizations to support and encourage different groups to work together on creative projects; and contributes to the support of the Oklahoma City University Film Institute. The director teaches university courses related to the mission of the center as well as courses in the English department and courses for the film studies major in the Moving Image Arts Program. The Thatcher Hoffman Smith Endowment Fund and an advisory committee support the development of the center.

**STUDENT SUPPORT SERVICES**

**Dulaney-Browne Library**

Oklahoma City University supports two libraries, the Dulaney-Browne Library and the Law Library. While the collections and services of both libraries are available to all university students, faculty, and staff, all nonlaw-related library materials and services are provided through the five-story Dulaney-Browne Library building in the center of the campus.

The Dulaney-Browne Library provides access to thousands of high quality research resources for Oklahoma City University students, faculty, and staff. Library resources and services are available in the library or through the library’s Web page (www.okcu.edu/library) and include more than 194,000 books, 300,000 government documents, 5,400 videos and DVDs, several hundred current periodical subscriptions, 47,600 full-text online periodical titles, 1,900 compact disc recordings, 9,000 musical scores, and 45,000 electronic book titles. Reference librarians provide assistance in finding information in the library, over the telephone, and via the Internet. Librarians also offer formal instruction to individuals and groups in the use and evaluation of information resources. Additional library resource services include the Archives and Special Collections (including the University Archives, the Oklahoma United Methodist Archives, and the Shirk Oklahoma History Center), the Foundation Center Cooperating Collection, the Center for Interpersonal Studies through Film and Literature Film Collection, Government Documents provided through the federal depository program, and the Leichter Listening Library (in the Wanda Bass Music Center).

The library cooperates with other libraries in Oklahoma and around the world to provide students, faculty, and staff with access to their collections through OK-Share (a cooperative library card for Oklahoma academic libraries) and interlibrary loan (delivery to the library user of articles and books from other libraries).

Please contact the library (405) 208-5065, (405) 208-5068, or AskALibrarian@okcu.edu or visit during regular library hours (Monday-Thursday 7:30 a.m.-midnight, Friday 7:30 a.m.-7:00 p.m., Saturday 10:00 a.m.-7:00 p.m., and Sunday noon - midnight) for more information.

**Computer and Information Resources**

Campus Technology Services maintains a dedicated area to aid students with their computer issues and it is centrally located in the McDaniel University Center. The Student Technology Support Center is staffed by trained technicians familiar with both Microsoft and Apple operating systems. The center offers a variety of student support services including:

- Walk-in and telephone support
- Technology-related consultation
- Hardware and software support
- Virus and malware removal
- Installation of campus-licensed software applications such as Microsoft Office and McAfee
- Assisted hardware upgrades
- Training
- A computer-based issue and support tracking system

Finding a computer to use on campus is easy with 16 computer labs in various locations spread conveniently across campus. Lab hours vary by location. MS Office, MS Visual Studio, and web browsing capabilities are installed in each lab, and several labs have course specific software available. Printing services are available in all public-access labs as well as all public computing spaces on campus. Each semester students receive an allotment for printing via their OCU ID cards. All students are issued a user ID and password, which are required to log into the campus network to use the labs and access printing services.
E-mail accounts are provided to all students. E-mail can be accessed through the Internet from any location on or off campus. All students are provided disk space on the campus network to store files and create web pages.

All resident hall rooms are wired for telephone and network connectivity. Dorm residents may connect one wired computer or network device at a time to the campus network from their dorm rooms. A limited number of computers are available in each dorm lobby. Wireless network connectivity is available throughout the campus.

The Student Technology Support Center is located in the McDaniel University Center, lower level, Room 114. Additional information for the Student Technology Support Center regarding student computing, lab hours and locations, support and questions can be found at http://starnet.okcu.edu/services/cts/geeks or by calling 208-5555.

The University’s computer-use policy is published on the university Web site at www.okcu.edu/technology. All students should read this policy.

Career Services

The Office of Career Services is committed to assisting undergraduate and graduate students and alumni position themselves for success within their chosen fields of interest. The aim of Career Services is to assist students and alumni in identifying and implementing strategies to aid in career exploration and the career decision-making process. Through Career Services there are a number of resources and services that can help students who are entering the world of work or those who are looking to advance their careers. Current students of all majors and graduate programs and Oklahoma City University alumni are eligible to use the comprehensive resources available through Career Services, including the following:

- Individual career counseling
- Job search strategies
- Résumé and cover letter writing
- Graduate school planning
- Internship resources
- Career fairs
- Interviewing techniques
- Alumni networking and mentoring
- Online career and employer resources
- Career planning for international students
- Self assessments
- Online job/internship posting system: www.okcu.edu/careers

Students are encouraged to schedule an individual appointment and discuss how the Office of Career Services can help provide valuable information and review the skills needed to be successful within their professional areas of interest.

The Office of Career Services is located in the Meinders School of Business, Suite 200. Career Services office hours: Monday – Friday 8:00 a.m. to 5:00 p.m. and evening hours by appointment. Call (405) 208-5171 or visit www.okcu.edu/careers.

Learning Enhancement Center (LEC)

The LEC offers a variety of free services to students, such as one-to-one tutoring in most areas of the curriculum. Tutoring is provided in approximately forty-five-minute sessions. Students may discuss any aspect of their papers with tutors, and tutors may assist with specific areas suggested by faculty. Specialized assistance is available for the visually and hearing impaired. Selected PCs located in the LEC are equipped with screen magnification software. Also available is a dedicated PC that allows visually impaired students to scan text and have the computer read text aloud. Tutors also work with international students on English conversation and idioms.

The LEC is open Monday through Thursday, 8 a.m. to 9 p.m., and Friday, 8 a.m. to 5 p.m. Computers (PCs and Macs) are available. The LEC is located on the second floor of the Walker Center for Arts and Sciences. Students may schedule appointments on sign-up sheets located in the LEC or by calling the center.

ELS Language Centers

Oklahoma City University provides international students instruction in the English language through the ELS Language Center® located on campus.

The Intensive English program at ELS Language Centers® provides thirty hours of instruction per week to move a student quickly to the goal of university entrance. New sessions begin every four weeks, and students are tested and placed in one of twelve levels. The intensive course is a complete English program including classes in structure/speaking, conversation, reading, writing, multimedia lab, and special-interest subjects.

ELS Language Centers® is accredited by the Accrediting Council for Continuing Education and Training (ACCET) and by the Oklahoma State Board of Regents for Higher Education. For information regarding this service, contact ELS Language Centers® (405) 525-3738, www.els.edu or e-mail okc@els.edu.

Air Force Reserve Officer Training Corps Program (AFROTC)

Three- and four-year programs are available to Oklahoma City University students through a cooperative agreement between Oklahoma City University and the University of Oklahoma. This “crosstown” agreement allows students to commute to the University of Oklahoma one or two days per week to attend Air Force ROTC classes while continuing their studies at Oklahoma City University. Students
who attend AFROTC at the University of Oklahoma under the agreement pay only for the semester hours that they take, and most fees and additional costs are waived. Students who enter the Air Force ROTC program during the first half of the four-year program enter the General Military Course (GMC) of study on a noncompetitive basis. If they elect to go on, students compete for entry into the Professional Officer Course (POC), the second half of the four-year program, by first being selected to attend Field Training in the summer prior to the junior year. Selection is based on a recommendation by the instructor of aerospace studies, GPA, a test equivalent score (Air Force Qualifying Test and either SAT or ACT, if available), and a physical fitness test.

Those completing the program commission as active duty Air Force officers and serve for a minimum of four years. Scholarships are available on a competitive and noncompetitive basis that may be used at Oklahoma City University.

Any questions concerning Air Force ROTC or aerospace studies course descriptions should be addressed to Professor of Aerospace Studies or Unit Admissions Officer University of Oklahoma 171 Felgar St. Norman, OK 73019-0465 (405) 325-3211

Aerospace Studies (AERO) Course Descriptions (All aerospace studies courses are offered by the University of Oklahoma in Norman, Oklahoma)

1011 (FALL), 1021 (SPRING) THE FOUNDATIONS OF THE UNITED STATES AIR FORCE Survey courses designed to introduce students to the United States Air Force and provide an overview of the basic characteristics, missions, and organization of the Air Force. Featured topics include officering, professionalism, military customs and courtesies, Air Force officer opportunities, and an introduction to communication skills.

2011 (FALL), 2021 (SPRING) THE EVOLUTION OF USAF AIR AND SPACE POWER Courses featuring topics on Air Force heritage and leaders, introduction to air and space power through competencies and functions, and continued application of communication skills. The purpose is to instill an appreciation of the development and employment of air and space power.

3013 (FALL), 3023 (SPRING) THE UNITED STATES AIR FORCE LEADERSHIP STUDIES Courses that teach junior cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing communication and leadership skills. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

4013 (FALL), 4023 (SPRING) NATIONAL SECURITY AFFAIRS/PREPARATION FOR ACTIVE DUTY Courses designed for college seniors, giving them the foundation to understand their role as military officers in American society. These courses are an overview of the complex social and political issues facing the military profession and require a measure of sophistication commensurate with the senior college level. Continued emphasis is given to refining communication skills.

1300 LEADERSHIP LABORATORY All Air Force ROTC cadets take the Leadership Laboratory each semester. The freshman and sophomore years include study of Air Force customs and courtesies, drill and ceremonies, and military commands. Leadership Laboratory examines the environment of an Air Force officer and areas of opportunity available to commissioned officers. The junior and senior years consist of activities classified as leadership and management experiences. They involve planning and directing activities of the cadet corps by applying the AFROTC Training Manual and lessons learned in the other AERO courses. Leadership Laboratory also includes interviews, guidance, and information that increase the understanding, motivation, and performance of cadets.

Cooperative Program in Military Science Army ROTC

Two-, three- and four-year programs are available to Oklahoma City University students through a cooperative agreement between Oklahoma City University and the University of Central Oklahoma (UCO). This allows students to commute to UCO and attend Army ROTC classes while continuing to pursue their degrees at Oklahoma City University.

Through the Army ROTC Program, the Department of Military Science offers two programs to qualified male and female students leading to a commission as a second lieutenant in the U.S. Army, the Army Reserves, or the Army National Guard.

The Four-Year Program

The four-year program consists of a basic course and an advanced course. The basic course (MS I and II) is normally taken in the freshman and sophomore years. This instruction introduces the student to national defenses, mission, and organization of the U.S. Army, role of the Army officer, leadership, military courtesy and customs, marksmanship, mountaineering, survival, and map reading. Classes meet two hours per week. Wearing a uniform and attending leadership lab is optional. Basic course students are under no military obligation.

The advanced course (MS III and IV) is normally taken during a student’s junior and senior years. For admission to the advanced course as an ROTC cadet, a student must have completed or received placement credits for the basic course and signed a contract. Advanced course contracting is selective and based on specific criteria, including leadership potential.

Instruction includes leadership development, group dynamics, management tactics, and administration. Classes meet three hours a week. The advanced course includes a three-hour biweekly leadership lab period, physical conditioning classes, and a five-week ROTC Leadership camp.

Contracted students receive a monthly stipend (freshmen, $300; sophomores, $350; juniors, $450; seniors, $500)
during the school year. Contracted cadets agree to accept a commission as a second lieutenant, if offered, upon advanced course and degree completion to fulfill an initial obligation in either the active Army, Army National Guard, or Army Reserve.

The Two-Year Program
The two-year program involves only the advanced course as described above. Students may qualify for the two-year program by attending a five-week ROTC basic camp or by being granted credit for prior military service or high school junior ROTC. Eligible graduate students may participate in the two-year program.

General
1. Oklahoma City University students who enroll in any of the four military science courses will receive academic credit which will satisfy elective hours required for Oklahoma City University degree completion.
2. Enrollment in basic course classes will not incur a military obligation.
3. Students taking the UCO military science courses will pay the current tuition and fee rates required by UCO.
4. Grades and credits for the completion of ROTC courses will be transferred to the student’s permanent record at Oklahoma City University.
5. Oklahoma City University students will also have an equal opportunity to compete for two-, three-, and four-year ROTC scholarships, which will pay tuition and laboratory fees for both Oklahoma City University and UCO courses as well as provide $600 per semester toward the cost of books. Scholarship students also receive monthly subsistence pay (freshmen, $300; sophomores, $350; juniors, $450; seniors, $500) for the duration of the scholarship. Army ROTC scholarship students are also awarded a standard room in Banning, Draper, Harris, Smith or Walker Halls and a board plan valued at $1700 that includes 150 meals plus a $200 Stars Bucks allowance.
6. Those students interested in participating in ROTC while belonging to a Reserve or National Guard unit may do so under the Simultaneous Membership Program.

For additional information, call the Military Science Department at the University of Central Oklahoma, (405) 974-5167.

VISION, GOALS, AND OBJECTIVES

The Vision of General Education: At Oklahoma City University, we believe that the liberal arts form the basis for learning and thinking in undergraduate students. We believe that general education should not only provide knowledge and skills, but also promote personal values and communal development. We believe that general education should be multidimensional, cumulative, and integrated throughout the university through all disciplines and at all levels.

The Goals of General Education
- Provide a broad base of knowledge for critical and creative thinking
- Promote lifelong learning in all its various modes
- Cultivate ethical conviction, commitment to service, and spiritual growth

The Objectives of General Education
- Communicate effectively and ethically in spoken and written English to multiple audiences in a variety of settings
- Understand and employ basic concepts in mathematics and the natural and social sciences
- Understand the history and politics of the United States
- Develop competence in a foreign language and deepen understanding of a culture other than one’s own
- Broaden and deepen critical appreciation of literature and the arts
- Develop humane values, ethical behavior, participation in service, and an awareness of the spiritual and religious dimension of life

GENERAL EDUCATION REQUIREMENTS FOR ALL UNDERGRADUATE MAJORS*
The basic general education curriculum is a requirement for all undergraduate degrees at Oklahoma City University. Particular programs and majors may add appropriate general education requirements or require specific courses from the approved curriculum.

Updated lists of courses approved by the General Education Committee and the associate provost are available on the university Web site.

* All undergraduate students who matriculate Summer I 2009 or later will complete this general education curriculum. Undergraduate students who matriculated before Summer I 2009 may choose to complete the general education curriculum they matriculated with or the new curriculum. They may make this choice only once, after which their choice remains in place.

Total credit hours of required courses: **(40)41**

**Competencies**

(preferably not additional courses)

**FOREIGN LANGUAGE**

Six hours (through beginner II level) in a single language: French, German, Spanish, Chinese, or Japanese; or four years (eight semesters) of a single language in high school; or equivalent competency as determined by the Department of Modern Language; or, for international students whose first language is other than English, a TOEFL score of 550 or above.

**NOTE:** A single foreign language through Intermediate II level is required for the B.A. in the Petree College of Arts and Sciences. Students in the Wimberly School of Religion may fulfill this requirement with six hours of one modern language and six hours of one Biblical language. Religion students who double-major within the Petree College of Arts and Sciences may also use six hours of modern language and six hours of Biblical language to fulfill the foreign language requirement for both majors.

**Additional Areas**

(may not require additional courses)

**CROSS-CULTURAL STUDY**

Choose from a list of approved courses in any discipline which have a primary emphasis on a culture other than the student’s own. This requirement may be met by taking a course which satisfies another requirement. Among the courses approved are the following:

- World Literature I (ENGL 2513)
- World Literature II (ENGL 2603)
- Topics in Ethnic Literature: Literature of the Middle East and Turkey (ENGL 3963)
- Topics in Ethnic Literature: American Indian Writers (ENGL 3963)

- Transnational Marketing (MKTG 4013)
- Moral Issues in Contemporary Culture: Cross Cultural Ethics (PHIL 2163 or REL 2163)
- Moral Issues in Contemporary Culture: Human Rights (PHIL 2163 or REL 2163)
- Moral Issues in Contemporary Culture: Peace and Nonviolence (PHIL 2163 or REL 2163)
- Comparative Politics (POLS 1013)
- Introduction to World Religions (REL 2513)
- Latin American Civilization (SPAN 3713)
- Multicultural Theatre (THRE 3313)

**SERVICE-LEARNING**

Choose from a list of approved courses which include a service-learning component. Each semester the Class Schedule contains a section of approved service-learning courses. This requirement may be met by taking a course which satisfies another requirement, by selected internships, or through approved individual service experiences.

**CAPSTONE COURSE**

This requirement may be satisfied by all existing capstone courses provided there is evidence that the course requirements include writing a paper and giving an oral presentation.

PETREE COLLEGE OF ARTS AND SCIENCES

HISTORY
The Petree College of Arts and Sciences traces its origins to the founding of the university. Oklahoma City University was established in 1904 and was then known as Epworth University. At that time the College of Arts and Sciences was the heart of the university, and many of the degree programs that operate today, over a century later, were begun at that time. The College of Arts and Sciences was reorganized as the College of Liberal Arts in 1925 and was known by that name until 1954, when the name College of Arts and Sciences was adopted once again. In 1981, in honor of former OCU Board of Trustee member F.M. Petree and his wife, Thelma, the college was renamed the Petree College of Arts and Sciences. Busts of F.M. and Thelma Petree are on display in the lobby of the Walker Center for Arts and Sciences. The college underwent extensive reorganization in 2009, including reuniting with the Wimberly School of Religion, and the creation of the School of Adult and Continuing Education, the School of Liberal Arts and Sciences, and the School of Visual Arts.

MISSION
The historic mission of the Petree College of Arts and Sciences has been and continues to be centered on providing the essential liberal arts and sciences foundation for Oklahoma City University. The faculty of the Petree College is committed to offering career-focused undergraduate, graduate, and professional degree programs that build on a reputation for academic excellence, emphasizing intellectual and moral development of our students in a nurturing environment that assures the maximum development of each student’s unique potential. The Petree College accepts as central to its mission responsibility for providing the foundation in critical reading, writing, and thinking skills; developing aesthetic sensitivity and moral awareness; and implementing the service-learning components of the general education program for all undergraduate students across the university.

General Education Requirements for All Undergraduate Majors
The basic general education curriculum is a requirement for all undergraduate degrees at Oklahoma City University. See the General Education section of this catalog for specific courses and requirements. Updated lists of courses approved by the General Education Committee and the associate provost are available on the university Web site.

In addition to the university’s general education curriculum, Petree College of Arts and Sciences B.A. degrees require completion of Intermediate II level of a foreign language. Students in the Wimberly School of Religion may fulfill this requirement with six hours of one modern language and six hours of one Biblical language. Religion students who double-major within the Petree College of Arts and Sciences may also use six hours of modern language and six hours of Biblical language to fulfill the foreign language requirement for both majors. The B.S. and B.F.A. degrees require 6 hours of a single college-level foreign language or the equivalent.

All students in the Petree College of Arts and Sciences are required to complete Wellness (KES 1302) and one hour of Kinesiology and Exercise Studies Activity. Students with documented prior military service are exempted from the Wellness and Kinesiology and Exercise Studies requirements. All students in the Petree College of Arts and Sciences are required to complete Science, Technology, and Society (BIOL, CHEM, or PHYS 1003) and an approved laboratory science. Students in the Wimberly School of Religion may choose to take a second approved laboratory sciences instead of completing Science, Technology, and Society. For additional requirements beyond those included in the general education curriculum, students should consult their advisors and review the following pages for information specific to their school and major within the Petree College of Arts and Sciences.

Credit/No-Credit Grading
Students in the Petree College of Arts and Sciences are required to be evaluated on the traditional grading system for all general education courses and all courses taken in their majors. A maximum of 12 credit hours of elective courses may be taken on the credit/no-credit grading system.

Independent Study Opportunities
Several kinds of opportunities for independent study and the earning of credit in nontraditional ways are available at Oklahoma City University. Students with appropriate academic maturity are encouraged to take advantage of these.

Most departments within the college provide directed reading and independent study options for 1 to 6 credit hours toward the major. Some departments also offer practicum and internship opportunities. These courses offer students the chance to extend their learning outside the boundaries of the classroom and beyond the traditional curriculum. All these types of courses are established through individual learning contracts created between the student, his or her instructor, and the department chair. The contract must be on file in the Office of the Dean prior to registration in the course. These courses are designed primarily for majors in the department and are normally offered only at the junior and senior levels. Students should consult their department chairs for specific opportunities in their majors.

SCHOOL OF ADULT AND CONTINUING EDUCATION

The School of Adult and Continuing Education offers both the Bachelor of Arts and Bachelor of Science degrees to adult students in a variety of alternative learning formats that include sixteen- and eight-week classroom courses, eight-week web-based courses, weekend courses, and interactive video courses. The B.A. degree with a major in liberal studies and a concentration in mass communications or organizational communication is offered.

The B.S. degree is offered with a major in behavioral studies. The B.S. degree with a major in professional studies is also available with concentrations in business or accounting.

Successor to Oklahoma City University’s Competency Based Degree Program (CBDP) and Prior Learning and University Studies (PLUS) Program, the School of Adult and Continuing Education continues Oklahoma City University’s twenty-five year commitment to quality, alternative degree programs for adult learners. While in every sense as rigorous as the traditional bachelor’s degree programs, the School of Adult and Continuing Education allows, where applicable, the use of nontraditional courses of study and other advanced standing credits to fulfill degree requirements and a flexible general education program based on area rather than specific course requirements.

The program also allows the adult student to develop an academic portfolio to document learning from work, life experiences, and training outside the traditional college classroom.

Students in the School of Adult and Continuing Education require a high level of self-direction and discipline. While the faculty and staff advise and assist students, each student must accept primary responsibility for her or his success within the program. The best candidate for this nontraditional learning format is an adult over the age of twenty-two, who has completed approximately 30-60 credit hours or more from regionally accredited institutions and who has a minimum of three years’ work experience. Prospective students are evaluated on an individual basis for transfer credit hours prior to admission so that both the applicant and the university agree that this is the most appropriate program for the applicant.

In addition to the academic policies and requirements found in this catalog, students are responsible for securing a copy of the School of Adult and Continuing Education Student Handbook and knowing and following the regulations, policies, and procedures contained in it. The Student Handbook is available on-line at the School of Adult Continuing Education Web site. A hard copy may be obtained from the School of Adult and Continuing Education Office.

The School of Adult and Continuing Education administers overseas programs in Singapore (B.A. with liberal studies major and a concentration in mass communications, B.S. with behavioral studies major and psychology concentration, and an M.A. in mass communications) and Hong Kong (B.A., liberal studies major and mass communications concentration). These programs are comparable to the on-campus programs offered by the School of Adult and Continuing Education Office.

Finally, the School of Adult and Continuing Education is the administrative home to the Master of Liberal Arts (M.L.A.) program. For information on the M.L.A. program, see the graduate catalog or contact Dr. Regina Bennett, Director, Master of Liberal Arts Program at (405) 208-5178.

GENERAL EDUCATION

The Vision of General Education: Consistent with the vision and goals of general education within the Petree College of Arts and Sciences, the general education program of the School of Adult and Continuing Education is designed to provide adult students with a broad foundation of knowledge for critical and creative thinking, grounded in strong ethical convictions and situated within the awareness of a culturally diverse world. There are only two specific course requirements within five academic areas: communication skills; math, science and technology; social and behavioral sciences; humanities; and wellness.

THE ACCELERATED B.A./M.A. DEGREE PLAN

The accelerated B.A./M.A. degree plan allows exceptionally well-qualified undergraduate students enrolled in the Bachelor of Arts with liberal studies major with concentration in mass communications program (BAMC) taught in Singapore to bypass the 12 credit hour on-campus residency and enter directly into the M.A. in mass communications (MAMC) program. Upon completion of the first 12 credit hours of the MAMC program with a minimum GPA of 3.000 and no grade lower than B, the student is awarded the BAMC degree, and upon completion of the remaining required courses for the MAMC program (see the OCU Graduate Catalog) at the standards established for that program the student is awarded the M.A. in mass communications.

ELIGIBILITY

Students must be in good standing and have achieved a 3.750 GPA in the first 33 hours (the eleven modules taught in Singapore) of the BMAC program and have no grade lower than B. Students must apply for the accelerated program before the beginning of their ninth module. Students must use the approximately eight weeks time prior to, during, and immediately following the normal residency period for their intake(s) to complete a general education focused, capstone project that will be evaluated on a Pass/Fail basis. Students must pass the capstone project to be admitted to the M.A. program. A group of three OCU faculty members read and evaluate these assignments. While those faculty may vary year to year, they will be selected from among those who teach the general education portion of the program in Singapore.

SCHOOL OF LIBERAL ARTS AND SCIENCES

The School of Liberal Arts and Sciences at Oklahoma City University was established in 2009 during a reorganization of the Petree College of Arts and Sciences. Historically, the name College of Liberal Arts was used at Oklahoma City University from the mid-1920s until 1954. The return to this historically significant name represents a desire to emphasize the role that the liberal arts and sciences play at Oklahoma City University. Liberal arts is a term derived from the Latin, artes liberales. Here the word Art does not mean art as we currently understand the term, but refers to the branches of knowledge that have been taught in schools for the past 2000 years, the language arts (literature, history, philosophy, etc.), mathematics, and the natural and behavioral sciences. Liberal (Latin liber, meaning free) refers to the purpose of education in these areas, which is to prepare citizens to “…live responsible, productive, and creative lives in a dramatically changing world” (excerpted from the 1998 Statement on Liberal Learning, Association of American Colleges and Universities). Including the word Science in the name of the school emphasizes the role that science plays in the modern world, and reflects the importance of the science degree programs to the university.

The School of Liberal Arts and Sciences encompasses the most diverse group of faculty at Oklahoma City University and is the largest school within the Petree College of Arts and Sciences. The school currently consists of fourteen departments organized into four divisions. These departments together offer Bachelor of Art and Bachelor of Science degrees in over forty majors, and they cooperate to offer interdisciplinary majors in such areas as environmental studies, humanities, and research and data analysis. Most departments also offer minors in their field of study. In addition to offering a wide variety of degree programs, the School of Liberal Arts and Sciences provides a large portion of the courses that are required in the undergraduate general education curriculum.

UNIVERSITY STUDIES

Director of Student Success and Retention: Denise Binkley
Assistant Director of Student Success and Retention: Janelle Warlick

Not every student is prepared to choose an academic major when they begin college. For that reason, Oklahoma City University has established its university studies (UNST) program, which serves as the academic home for students who have not declared a major in one of Oklahoma City University’s degree granting programs. Any new student who chooses to do so may simply declare himself or herself to be a university studies student (or undecided) upon admission to the university, subject to the limitations published below. University studies students will be advised by the director or the assistant director of student success and retention of the Petree College of Arts and Sciences.

Together with the university studies program, Oklahoma City University offers new students a variety of experiences and services that can help them adjust to college life and to decide on an academic major. Upon declaring an academic major, an advisor in the school or program where the major is offered will be assigned and the student will then be required to meet the requirements of that school or program.

UNIVERSITY STUDIES REGULATIONS

1. University studies is not an academic major or a degree program.

2. New students may maintain university studies status for only one academic year, or until they have completed thirty credit hours of course work at Oklahoma City University, except for transfer students as noted below. After that time period has elapsed, students must select an academic major.

3. Transfer students who have previously completed thirty credit hours or more of college coursework may not declare themselves to be university studies students.

4. All university studies students must enroll in FYAS 1001 Business Connection, MGMT 1001 Sophomore Business Connection, or another approved alternative “freshman orientation” type of course offered for college credit at Oklahoma City University.

SECONDARY SCIENCE LICENSURE/CERTIFICATION

Students who wish to teach science at the secondary level (grades 6-12) may pursue licensure and certification by completing a major in one of the science disciplines concurrent with completing a second major in education, and fulfilling all licensure and certification requirements. Additional coursework may be required in the science major. Contact a faculty advisor in the Education Department for complete information.

Biology (B.S.)
Cell and Molecular Biology (B.S.)
Biomedical Sciences (B.S.)

The Department of Biology offers three distinct majors and degree options to assist students in achieving their career and personal goals. Satisfactory completion of courses in the major and general education course work, plus additional electives to total at least 124 credit hours, are required to graduate with a Bachelor of Science degree. In addition to course work in biology, all students who major in the Department of Biology must complete additional specified chemistry and physics courses. The department offers a traditional biology major, a cell and molecular biology major, and a major in biomedical science. In addition,
in collaboration with the Meinders School of Business, biology students have the opportunity to earn a minor in business. Students who complete a minor in business may complete a Master of Business Administration (M.B.A.) degree with as little as one additional year of study after earning their B.S. degree.

Each of the three B.S. degree programs offered in biology provide a broad liberal arts background as well as thorough training in biological sciences. A biology degree provides education and training for individuals who will work in careers such as biology education, research, health-related fields, forestry, medical institutions, animal care, wildlife management, naturalist positions, outdoor education, and many more. The Department of Biology recognizes the value and contributions of the sciences in the modern world and continually strives to provide programs of study that will enhance a student’s future life, whether he or she plans to pursue further graduate or professional studies or to enter the job market immediately following graduation.

General Education Curriculum NOTE: Due to the fact that biology majors take many courses with labs, the lab science requirement is met by any of those required courses.

B.S. Biology
Our traditional major, this program offers a thorough grounding in the biological sciences. Because of its flexible design, this major prepares students for a variety of career paths, including medical studies, graduate studies, and secondary science teaching.

B.S. Cell and Molecular Biology
Our most specialized and rigorous major, the cell and molecular biology major prepares students to pursue careers in medicine and is ideally suited for students who intend to pursue graduate studies in fields such as genetics, cell biology, and molecular biology.

B.S. Biomedical Science
Our human-centered major, this program of study provides a solid foundation in biology, chemistry, and physics course work to help prepare students for many careers in allied health.

4 + 1 = 6 Program (BMED + MBA)
Along with a major in biomedical science, many students will want to develop their skills and knowledge in business to prepare them for careers that combine science and entrepreneurship. The Meinders School of Business offers a minor in business entrepreneurship that allows students to develop a solid foundation in economics, accounting, and management. The courses in the minor also fulfill the prerequisites to enter the M.B.A. program offered in the School of Business and allow students to complete this degree in as little as one additional year of study.

SECONDARY SCIENCE LICENSURE/CERTIFICATION
Students who wish to teach science at the secondary level (grades 6-12) may pursue licensure and certification by completing a major in one of the science disciplines concurrent with completing a second major in education, and fulfilling all licensure and certification requirements. Additional coursework may be required in the science major. Contact a faculty advisor in the Education Department for complete information.

Physical sciences provide an excellent foundation for professions in science and for graduate studies in science and medicine. This major is designed to provide a strong foundation for professional employment as well as for graduate studies in science and medicine. The B.S. in biochemistry provides an excellent background in chemistry, biology, and biochemistry.

Oklahoma City University chemistry and biochemistry graduates have a long tradition of admissions to medical schools. Others have furthered their studies by earning Ph.D. degrees; Oklahoma City University chemistry and biochemistry graduates have been recruited for admission by prestigious graduate programs throughout the United States. Graduates who elect to enter the work force often can find positions with employers such as the University of Oklahoma Health Science Center, the Oklahoma Medical Research Foundation, and the Oklahoma State Department of Environmental Quality. Additionally, there are a number of smaller companies in the Oklahoma City area that hire chemists. Chemistry and biochemistry graduates often pursue opportunities in non-scientific areas such as business and law; the skills learned by studying the chemical sciences provide an excellent foundation for professions outside of science. Additional information on opportunities for chemists and biochemists can be found on the Internet.

General Education Curriculum NOTE: The laboratory science, mathematics, and capstone requirements of the
general education curriculum are met by the chemistry degree major requirements.

**EDUCATION**

Chair: Lawler-Brown
Faculty: Finley, Lawter, Pape, Pyeatt, Willner

The majors listed within the Department of Education section of this catalog are early childhood education, elementary education, vocal music education, and instrumental music education. Other certification areas listed in this section require degrees in the discipline plus any other courses required to meet competency requirements in that teaching field.

**Teacher Education**

The teacher education program has been designed to prepare dedicated teachers to work effectively in diverse
educational settings. Teacher preparation includes professional development as well as a comprehensive knowledge base in the curriculum areas taught. The knowledge base is grounded in historical and contemporary education theory and practices that respect the changing school culture. In addition, the teacher education program is designed to develop leadership skills necessary for collaboration, service, and sustained success throughout the educator’s career.

The general purpose of the program is to prepare the student for teaching profession and to assist all candidates in becoming successful teacher leaders. The major goal of the program is to prepare educators who have the necessary knowledge, skills, and dispositions combined with a commitment to professional service. To accomplish this purpose, the department has established the following specific goals for students:

1. Develop a strong knowledge base in subject area content, research, theory, and practice reflecting an understanding of physical, social, mental, and emotional patterns of development and their impact on the learning process;
2. Develop competence in a variety of teaching methods and techniques to meet the needs of diverse learners;
3. Create a successful climate for learning by using teaching practices that are sensitive and responsive to student needs;
4. Become reflective teachers who are competent in their subject matter and methodology and dedicated to ensuring that all students learn;
5. Describe, analyze, and reflect on authentic school situations and adapt instructional practices to support learning for all students;

Competency-Based Program

The passage of HB 1549 called for the implementation of a competency-based model for Oklahoma in teacher preparation. This program is aligned with specialized professional associations of the individual teaching disciplines and the competencies adopted by the state. As a competency-based program, courses are recommended within the major that assure students’ knowledge in their teaching fields. The professional education courses have been sequenced to support students’ mastery of general teaching competencies as they progress through the course of study. These competencies are documented by students and evaluated by faculty through the use of observations, individual conferences, portfolios, videotapes, examinations, projects, and other relevant supporting materials.

The teacher education program integrates theory and practice in the preparation of teachers. Through early practical experiences in the schools, students are engaged in the processes of teaching and learning as they develop a continuing awareness of children and the system of education. Beginning in their first education course, students observe in local schools. Each practicum observation experience has graduated responsibilities which culminate in student teaching for an entire semester. Students are exposed to a variety of methods and materials. They learn to apply theory to practice in diverse educational settings. The faculty of the Department of Education strives to give students an accurate picture of public school teaching by placing them in a variety of settings. After completing the course of study, students are prepared to begin their teaching careers.

Admission to the Teacher Education Program

Students preparing for teaching should apply for formal admission to the teacher education program the semester immediately following their first professional education course, Introduction to Teaching (EDUC 2001), taken during their freshman or sophomore year. Prior to admission to the program, students should complete a minimum of 30 semester hours of college credit. Applicants must demonstrate a strong commitment to teaching and meet the following requirements:

1. A minimum GPA of 2.500 or above on all course work applied toward the degree prior to the date of making application. This GPA must be maintained throughout the student’s enrollment in the program. (Course work from other institutions with the grade of D or F will not be accepted. Grades of D or F in professional education courses or major requirements are not acceptable. These courses must be retaken.
2. Completed admission application.
3. Disposition Evaluation (score of 20 or higher)
4. 30 completed credit hours
5. Passing score on Oklahoma General Education Test (OGET)
6. Minimum combined 2,500 GPA in English Composition I and English Composition II.
7. Documentation of prior experience working with children.
8. Completion of EDUC 2001 Introduction to Teaching with a grade of “C” or better.
9. Criminal History Disclosure Statement
10. Faculty interview
11. Teacher Education Council review

Each candidate is evaluated on these criteria. Applications are approved or rejected by the Teacher Education Council. Continued admission to the program is contingent on the criteria being maintained throughout the program. Students who have not been admitted to the teacher education program will be allowed to enroll in Introduction to Teaching, Human Development, Psychology and Assessment of Learning, and Students with Exceptionalities. Enrollment will not be permitted in professional education courses and Student Teaching without admission to the teacher education program.

Planning Programs

Any student seeking teacher certification should plan a program with the teacher education advisor and the advisor in the student’s subject area. The licensure/certification requirements outlined for general education, professional education, and specialization fit into the degree require-
ments of the university. With proper planning, the student can meet the requirements for a teaching license and the requirements for a degree with a major in a chosen field. Students seeking secondary or PK-12 education licensure are advised by the content/subject area advisors to ensure successful completion of degree requirements and are also advised in the education department to monitor teacher licensure requirements. These students should meet with their education advisors before enrollment each semester to check their status toward completion and to verify that their course selection meets teacher licensure requirements.

Transfer students who plan to seek teacher certification must meet the requirements for admission to teacher education and student teaching.

Students must participate in field experiences prior to taking Student Teaching. These field experiences are structured within the professional education courses and are requirements for successful completion of the courses.

All appropriate methods courses must be taken prior to Student Teaching. Student Teaching and Student Teaching Seminar are taken concurrently.

Oklahoma City University offers eleven accredited licensure programs. The requirements for these programs are outlined on the following pages.

**Professional Semester (Student Teaching)**

During the semester prior to Student Teaching, application should be made for admission to Student Teaching. Approval is dependent upon meeting the following criteria:

1. previous admission to teacher education,
2. a minimum overall GPA of 2.500. A GPA of 3.000 in both professional education and specialized education (major requirements) with no grade of D or F in those courses,
3. recommendation by the student’s major department (teaching field),
4. disposition rubric completed by content area professor and education professor,
5. completion of (or near-completion of) the first 13 hours in professional education,
6. completion of (or near-completion of) at least 85 percent of the course work required in the teaching field.

The Teacher Education Council approves or rejects all applications for admission to Student Teaching as well as to teacher education.

Student Teaching is virtually a full-time job for one semester. It cannot be done in a legitimate manner if the student takes more than one other course and is active in extracurricular activities. Careful attention must be devoted to leaving the Student Teaching semester free of other obligations. Students desiring to take more than 13 hours during the Student Teaching semester must petition the Teacher Education Council for permission.

The evaluation of early childhood, elementary, PK-12, and secondary student teachers will be on a letter-grade basis. Final evaluation will be determined by the cooperating teacher and university supervisor.

**Recommendation for Licensure/Certification**

Three tests for all teacher candidates have been implemented by the Oklahoma Commission for Teacher Preparation as a component of the competency-based certification requirements. The Oklahoma General Education Test (OGET) tests the candidate’s general knowledge. The Oklahoma Professional Teaching Examination (OPTE) tests the candidate’s competence in pedagogy. The Oklahoma Subject Area Tests (OSAT) tests the candidate’s knowledge in each subject area that will be taught.

All candidates must meet Oklahoma City University’s general education requirements for foreign language proficiency at the Elementary II level to be recommended for certification.

After successful completion of a degree program, passage of the three state certification examinations, and portfolio assessment, the candidate may apply for a license to teach in Oklahoma after being recommended by the Oklahoma City University Department of Education certification officer.

**Second Major in Education**

The Department of Education has approved second majors in The Petree College of Arts and Sciences, supporting both content areas approved for Oklahoma State Certification as well as other majors within the university. This second major supports either a B.A. or B.S. depending on the content area of the first major.

Students majoring in the following secondary academic disciplines—English, social studies, science, speech/drama/debate, and mathematics—will have a second major in education. PK-12 (art and foreign language) majors also will have a second major in education.

**EARLY CHILDHOOD EDUCATION**

The early childhood program is based on the belief that educators must have a strong theoretical base of understanding in young children’s growth, development, and learning processes. The educator must master a variety of instructional strategies and responsive behaviors for working with young children in the educational setting. A developmentally appropriate educational environment is imperative for young children to construct knowledge at various cognitive and experiential levels. The educator is taught to support children in their total developmental process.

ELEMENTARY EDUCATION
In elementary education each candidate is prepared to teach in diverse educational settings. The future teacher's preparation includes a knowledge base in current educational theory and practice as well as a comprehensive knowledge base in the curriculum areas taught in the elementary schools. Each candidate is educated to be a reflective practitioner. Classroom organization, planning, and technology skills are incorporated throughout the professional and specialized curriculum. Leadership skills in the field of education are fostered. The core of the program includes effective teaching and learning strategies that are developmentally appropriate and emphasize the unlimited potential of each child.

*Teacher certification programs are developed in accordance with Oklahoma State laws and, therefore, are subject to change.

All elementary education majors are required to complete a total of 12 hours in each of the four content areas of social studies, language arts, sciences, and mathematics (the "4 by 12" combina-
tion). All students are expected to work closely with their faculty advisor in selecting courses to fulfill the 4 by 12 combination. In the Petree College of Arts and Sciences six credit hours in a single foreign language are required for the B.S. degree.

SECONDARY AND PK-12 LICENSURE/CERTIFICATION

Secondary and PK-12 (pre-kindergarten through grade 12) education is a competency-based licensure option for students majoring in a discipline certified to be taught in the public schools. These majors can add teacher licensure to their degree by gaining admittance to the teacher education program, completing the required courses in professional education as well as a major in the discipline, and successfully passing the three certification examinations for Oklahoma licensure/certification. Oklahoma teacher certification is a competency-based program with competency examinations in general education (Oklahoma General Education Test—OGET), professional education (Oklahoma Professional Teaching examination—OPTE), and the student’s discipline or area of study (Oklahoma Subject Area Test—OSAT). In addition, the student’s competency is assessed by a portfolio demonstrating knowledge of students, teaching, and learning articulated through the Oklahoma General Competencies for Licensure and Certification adopted by the Oklahoma State Board of Education as required by House Bill 1549.

Teacher education programs are developed in accordance with Oklahoma State laws and therefore are subject to change. Students are advised to consult with their education advisor concerning requirements or any change in requirements that may occur. Grades of D or F in major requirements are not acceptable and the course must be retaken.

ENGLISH
Chair: Floreani
Faculty: Bennett, Berg, Cyr, DiPaolo, Garrett, Gordon, Hessler, Keegan, Phelps, Winn

In courses leading to the major in English, students learn to think critically; to read actively and creatively; to analyze and evaluate print, electronic, and visual texts; to be sensitive to the artistic, moral, and social dimensions of language; to improve writing skills; and to engage in meaningful research. Students gain knowledge of literary terms and concepts, the major genres, the development of literary movements and periods, influential authors and themes, important critical and theoretical approaches to interpretation, the development of the English language, basic linguistic concepts, and current issues confronting the profession of English.

The English department strives to guide, direct, and teach students in an environment that supports personal and professional growth. To this end, the department has created a major with three tracks: literature, writing, and teacher education. The tracks are designed to prepare students in one of the following ways:

- Critical and theoretical approaches to interpretation, the development of the English language, basic linguistic concepts, and current issues confronting the profession of English.
- Important critical and theoretical approaches to interpretation, the development of the English language, and the major genres.

**ENVIRONMENTAL STUDIES**                                         
Administered by the Department of Biology
Chair: Buchanan
Faculty: Interdisciplinary Environmental Studies Faculty

**Program Description**
The environmental studies program was established to provide students in the region with an opportunity to study in this exciting field and to examine and analyze the many complex issues that affect the environment and that, in turn, affect the human and natural history of the region.

The environmental studies program is designed to provide students with the interdisciplinary knowledge and expertise that will enable them to be effective agents for change in the complex world that characterizes the start of the twenty-first century. Interdisciplinary by nature, the major in environmental studies incorporates course work from biology, chemistry, environmental science, geology, history, political science, and economics. The program includes a foundation in required natural science studies, yet encourages students to pursue areas of interest in diverse fields.

The prospective environmental studies student should reflect on many questions: Are you interested in the natural world? Is the understanding of relationships among organisms and their environment intellectually stimulating? Does this knowledge enrich your life? Are you interested in learning more about ecology and environmental issues? Do you wish to work towards an economically and ecologically sustainable future for mankind and all creatures of the Earth? If you can answer yes to questions such as these, then a major in environmental studies may be for you.

For more information, contact the Department of Biology at environment@okcu.edu or (405) 208-5035.

**Program Objectives**
Environmental studies students will obtain a thorough education in the following areas of inquiry:
1. Interdisciplinary understanding of environmental issues;
2. Human and environmental implications of technology and science;
3. Potentials and possibilities for living in an environmentally just, equitable, and sustainable world;
4. Understanding of physical and biological processes in the environment at a local, regional, and global level;
5. Understanding of the ecological relationships connecting the biotic and abiotic components of the ecosystem;
6. Cultural and historical relationships between humans and nature;
7. Environmental aspects of the dynamics of the relationship between human activities and the environment;
8. Knowledge of historical and contemporary relationships between politics, economics, and land use;
9. Knowledge of sustainability in biological, economic, and political processes, and the relationships to equity in policy development.

**ENVIRONMENTAL STUDIES (B.S.)**
**Major Requirements**                                             
Credit Hours: 55(62)
Special attention should be given to the prerequisites for courses and to the semesters in which courses are offered. Careful planning of a course of study in consultation with an academic advisor is required for completing the degree in eight semesters.

**Required Prerequisite Science Courses**                          18

**Required Economics and Geography Core**                         6
ECON 2113       Principles of Microeconomics                     3
HIST 2713       Regional Geography                               3
Required Math
- PSYC 2301 Statistics for the Behavioral Sciences Laboratory 1

Required Advanced Environmental Studies 9-16
- BIOL 4502 Biology Capstone 2
- BIOL 4481-8 Internship 1-8
- ECON 3613 Natural Resource and Environmental Economics 3
- POLS 4703 Public Management and Policy Analysis 3

Required Area of Concentration 9
At least three 3000- or 4000-level courses selected in consultation with the advisor, from one of the following areas or programs:
- Biology Ethics Philosophy
- Chemistry History Political Science
- Economics Mathematics Rhetoric
- Education Modern Language Women’s Studies

Recommended Course
- GEG 4283 Biogeography
  (Course offered at University of Oklahoma, Norman campus)

Required General Education Course Work
All undergraduate students must fulfill the general education requirements (see page 62 of this catalog). Environmental studies majors must complete the following specific general education courses, in addition to all others specified.
- BIOL 1003 Science, Technology, and Society: Ecological Sustainability
- PSYC 2303 Statistics for the Behavioral Sciences or
- ECON 2123 Business Statistics
- BIOL 1214 Fundamentals of Biology
- ECON 2013 Principles of Macroeconomics
- PHIL 2163 Environmental Ethics

Recommended Minors
We recommend that all environmental studies majors complete a minor in an area related to their area of specialization or in an unrelated area that is complementary to the major or to the student’s professional or personal interests. Minors that are especially appropriate include, but are not limited to, biology, economics, politics, and other disciplines.

Note on Biology Minor and Area of Concentration
GEG 4283 Biogeography (offered at University of Oklahoma, Norman campus) may be counted towards a minor in biology or an area of concentration in biology, but may not be applied to both. Students who desire to take course work at another college or university are responsible for all tuition and fee payments to those institutions and are responsible for adhering to admissions policies at those institutions, as well as at Oklahoma City University policies governing concurrent enrollment and transfer credit.

The Department of Biology further recommends that the student complete a portion of their course work during the summer months through the Department of Biology field studies program at the University of Oklahoma Biological Station or in other similar summer programs.

Study Abroad
It is recommended that all students majoring in environmental studies participate in at least one study abroad pro-

gram. Oklahoma City University offers a variety of ways for students to study abroad and receive academic credit, ranging from semester and/or academic year programs to short-term summer programs and Oklahoma City University faculty-led study tours. Contact the Office of Academic Affairs to explore the many international education opportunities and to choose a program that’s best for your academic goals at (405) 208-5287.

Additional Course Work Required to Satisfy Prerequisites of Preprofessional Tracks

PREMEDICINE
Environmental studies majors who plan to apply to medical school should complete CHEM 3103, CHEM 3141, CHEM 3203, CHEM 3241, PHYS 1503, PHYS 1541, PHYS 1603 and PHYS 1641 (Two semesters of organic chemistry and general physics with laboratories). Some medical programs also require one semester of biochemistry and/or calculus.

PRELAW
Students who intend to apply to law schools after graduation should consult an advisor in the Department of Political Science regarding prerequisite course work and application procedures.

HISTORY
Chair: Buss
Faculty: Clark, Cobb, Hooper, McCombs

Objectives
The history department has a three-fold objective. First, the department works to provide a major that prepares students for graduate study in history, law, public service, and archival work, while encouraging a broad perspective and measured judgment appropriate for the graduate entering almost any career. Next, the department provides a minor and a variety of elective courses intended to hone interests and deepen knowledge in particular subject fields while enabling the student to synthesize knowledge from other disciplines. Finally, the department presents general education courses to help students better understand themselves, their national heritage, and the world in which they live. Through all of the above, the department hopes that students will also understand how events in the past did and did not happen and, perhaps most importantly, that neither the history of their country nor of the world is a simple morality play.

Features of the History Department
The history department is made up of exceptional faculty members, several of whom have won university awards for teaching. The history faculty have created a variety of programs to meet students’ needs, including the Bachelor of Arts in history and the Bachelor of Arts in history/political science. The department proudly sponsors the Sigma Omicron chapter of Phi Alpha Theta, the international history honor society.
Possible Careers for History Majors
- Teaching (For certification requirements PK-12, please refer to the education certification process found elsewhere in this catalog.)
- College teaching
- Public service
- Law
- Writing and research
- Editing and publishing
- Archives and museums
- Grant writing

HISTORY (B.A.)
Research papers are incorporated into 3000- and 4000-level offerings, and majors must satisfactorily complete two such courses with research papers prior to entering the Senior Research Project. A grade of C or better is required in all history courses for history majors.

HUMANITIES

Advisor: Bennett
Faculty: Humanities faculty

The humanities major is designed for students who desire a broad undergraduate education with some specialization in one or two areas. Students pursuing the major in humanities must take a minimum of 30 hours and a maximum of 40 hours of course work in humanities in addition to the general education curriculum for the B.A. degree. Any hours in humanities beyond the maximum of 40 must count as electives. A minimum of 12 semester hours in humanities course work must be completed in residence at Oklahoma City University.

Distribution of the course work must reflect at least one course beyond the general education curriculum requirement from each of the five departments (art, English, mass communications, modern languages, and philosophy) within the division and from the Wimberly School of Religion and the Margaret E. Petree College of Performing Arts. In departments which do not have a general education requirement, such as mass communications, an introductory course will fulfill this requirement.

HUMANITIES (B.A.)

Major Requirements Credit Hours: 30-40

Core Requirements

Credit Hours

Art:
ART 1143 Foundation Drawing
ART 1343 Intermediate Drawing

Another course may be substituted with approval of the chair.

English: any English course beyond the literature required by the general education curriculum

Mass communications:
MASC 1113 Introduction to Mass Communications

Another course may be substituted with approval of the chair.

Modern languages: one course beyond Intermediate I

Philosophy: any 2000-level philosophy course not used to fulfill the general education requirements

Religion: any 2000-level religion course not used to fulfill the general education requirements

Theatre: Consult advisor.

Upper-division course work: 15 hours of additional course work at the 3000 or 4000 level from at least three different departments in any area of humanities.

Capstone Course: An integrated project within one or more of the three areas of specialty reflected by the upper-division course work to be supervised by any faculty member in those areas or a pre-established department-specific capstone or modification of it with permission of the chair of the department.

All course work presented as a requirement for the humanities major must have received a grade of C or higher.

KINESIOLOGY AND EXERCISE STUDIES

Chair: Latham
Faculty: Miller

Department Mission

The Department of Kinesiology and Exercise Studies seeks to provide a quality learning environment to prepare students for a variety of careers in areas related to health, fitness, clinical, and corporate settings. We implement the knowledge, skills, and abilities in our students to provide the population a healthier lifestyle and a better way of living while providing outstanding field experiences and service-learning opportunities.

Kinesiology and Exercise Studies

Kinesiology and exercise studies is a major with broad applications. It prepares students for several careers and educational endeavors, including prephysical therapy, preoccupational therapy, preathletic training, cardiac rehabilitation, personal training, strength and conditioning specialist, fitness and wellness management, sport nutrition, health promotion, several other related areas, and graduate school. The curriculum has been designed to meet the standards set by the National Association of Sport and Physical Education. The curriculum is also based on guidelines for educational preparation for fitness and personal trainer certifications by the American College of Sports Medicine and the National Strength and Conditioning Association. These two organizations offer the most prestigious and complete certification programs in the fitness industry.

Activity courses offered at Oklahoma City University include Pilates, Yoga, Aerobics, Golf, Fencing, Self Defense I and II, Self Defense for Women, Cardio-Kickboxing, Weight Training, Tennis, Strength and Conditioning, Rock Climbing, and Sailing.

Undergraduate degree programs at Oklahoma City University may include no more than six hours of credit from activity courses at the 1000, 1100, and 1200 levels (or equivalent for transfer work). No more than two of these six credit hours in an undergraduate degree program may be earned from intercollegiate sports participation.

KES faculty can provide information on the requirements and competencies necessary for applying to graduate or physical therapy school. Requirements for graduate programs vary, and students are urged to consult closely with KES faculty as they develop their professional plans.

**Sports Business Option**

Students majoring in Kinesiology and Exercise Studies may want to consider completing a Minor in Sports Business. This minor is offered through the Meinders School of Business and business faculty teach all of the courses required for the minor. The minor emphasizes the business aspects of sports and sports management. Contact a faculty advisor in the KES Department for more information.

**MINOR IN SPORTS BUSINESS**

**Minor Requirements**  Credit Hours: 15

- SBUS 3013  Sports Management*  3
- SBUS 3123  Sports Economics**  3
- SBUS 4113  Sports Marketing  3
- MGMT 3413  Entrepreneurial Environment  3
- Business Elective: any 3000 or above business course***  3

*Must have MGMT 3123 as prerequisite
**Must have ECON 2013 and ECON 2113 as prerequisites
***Excluding SBUS 4123

Some of the required prerequisites fulfill General Education requirements.

**MASS COMMUNICATIONS**

Chair: Hamilton
Faculty: Brunner, Gibson, Griffin, Harmon, Macella, Tyler

A student entering a communications-oriented career must be broadly educated to understand the constantly changing society in which he or she functions professionally and to interpret those changes for readers, viewers, and clients. He or she must also have a high skill level in all forms of communication.

The mass communications department, because of its location in Oklahoma City, is able to offer students a unique program. This program combines a sound liberal arts curriculum with theoretical and practical courses in mass communications. It also provides opportunities to gain experience and college credit by interning at area newspapers, television stations, and advertising and public relations firms.

The mass communications department has as its general objectives the following:

- To work with each student personally in developing an individualized program based on his or her aspirations and previous experience
- To provide a sound theoretical foundation for understanding the principles and practices of the print media, television, public relations, and advertising
- To allow students to build upon that theoretical foundation with practical experience in his or her field of study
- To stimulate an awareness in each student of the rights and ethical responsibilities of those working in the media.

### MATHEMATICS

#### Chair: Rossberg

#### Faculty: Hoot, Kombe, Samuels

Mathematics is the language of science and, with the explosive development of computer applications in every facet of business and industry, it is rapidly becoming the language of society. Throughout history, mathematics has been studied for its beauty as well as for its utility. It has been considered more as a “way of thinking” than as a collection of facts, formulas, and procedures. The nature of mathematics requires the development and use of a variety of analytical skills and approaches to problem solving that impact the student’s existence and are highly prized by prospective employers. The study of mathematics prepares a student for life as well as for a career.

The demand for quality students in mathematics is such that excellent opportunities exist for graduate study. Graduates of programs in mathematics have an excellent background for further study and/or employment in the related sciences as well as many areas of business and law. The Society of Actuaries constantly seeks graduates to pursue careers in the insurance field.

MODERN LANGUAGE

Chair: Arrow
Faculty: Buttin, Griffin, Hodkinson

The study of a modern language requires understanding and active use of the structure and linguistic patterns of language as a means of communication. Knowledge of a language provides insight into past and present achievements of international culture in the context of business, everyday life, and the arts.

The purpose of Oklahoma City University’s modern language program is to introduce students to international cultures and to provide the linguistic and cultural competencies to enrich students’ education and expand career options in a multicultural world. B.A. degree programs are available in French, German, and Spanish. A minor is available in Chinese.

The objectives of the modern language department are twofold: to give students practical tools for the worlds of business, government, and the professions, and to give students the broad understanding of other cultures that is an integral part of a liberal arts education.

Students may enroll for Honors credit in language classes and may qualify for membership in the National Collegiate Honor Society, Alpha Mu Gamma. Foreign study scholarships for Alpha Mu Gamma members may be available. Career options are manifold. Fluency in a second language and culture enhances any career—medical, public service, diplomatic/mission, international aid work, teaching, communication, travel, entertainment, business, and the arts.

French

The program features lecture/lab classes taught by native and near-native speakers. A computer lab features French learning/ review programs. Foreign study is encouraged.

Students may receive credit for AP, IB (level 4), or CLEP. See department chair for details. Recommended electives are 8 hours of another foreign language and Critical Reading and Writing (ENGL 2303), taught by the English department. Other suggested electives are courses in English and Continental literature, History of Philosophy (PHIL 3114-3314), and history or political science courses related to the countries where French is spoken.

Teacher certification candidates must take Foreign Language Methods for Elementary and Secondary Schools (FREN 4313) and meet the professional education requirements.

### OXFORD PLAN

The Oxford Plan is an interdisciplinary major administered jointly by the departments of philosophy and political science and includes preferential admission policies at the School of Law. The major is patterned after the philosophy, politics, and economics major at the University of Oxford. For a full description of the major, please refer to the political science section of this catalog.

To participate in the Oxford Plan at Oklahoma City University, a student must satisfy any one of the following requirements:

1. A composite ACT score of 27 or higher;
2. A combined SAT score of 1210 or higher; or
3. A high school cumulative grade point average of 3.750 or higher on a 4.000 scale (or the equivalent).

In addition, international students must have an internet-based TOEFL (IBT) score of 100 or higher.

Successful participants in the Oxford Plan qualify for preferred admission to the Oklahoma City University School of Law. A participant with an LSAT score of 155 or higher and an undergraduate GPA of 3.500 or higher is guaranteed admission to the School of Law. Other participants receive a preference in admission to the School of Law over applicants from other undergraduate institutions. To qualify for guaranteed or preferred admission, the participant must meet the School of Law’s character and fitness requirements and apply by February 1.

Participants in the Oxford Plan may also qualify to complete their combined B.A. and J.D. degrees in only six years, rather than the usual seven years. Participants who successfully complete all of the requirements of the Oxford Plan and their foreign language requirement and are admitted to the School of Law may begin law school after only three years of undergraduate work. They receive their B.A. degrees after successfully completing the first year of law school. For complete details, please see the School of Law’s Web site, law.okcu.edu.
PHILOSOPHY

Chair: Davidson
Faculty: Meyers, Ross, Stutzman, Wernke

“Curiosity—that inborn property of man, daughter of ignorance and mother of knowledge—when wonder wakens our minds, has the habit, wherever it sees some extraordinary phenomenon of nature... of asking straightway what it means.”

Giambattista Vico, The New Science, Axiom XXXIX

Philosophy is the ongoing process of disciplined reflection on such issues as the ultimate good or purpose of human life; the forms of knowledge and their limits; the different modes of reality and their relationships; the origin and nature of the fundamental social, political, and economic institutions that affect the quality of human life; and the extent to which human life can be understood in purely human terms. These issues confront each of us every day as implicit in the decisions we have to make about our relationships to others and ourselves, decisions about what our vocations will be and what is required to excel in those vocations, decisions about which public policies are worthy of our support. Since everyone has to confront these decisions, the question is whether or not a person will make his or her decisions in an enlightened, disciplined, and philosophically responsible way.

The formal study of philosophy at Oklahoma City University is designed to train persons to be philosophical. That is, it is designed to train people who are capable of acting most responsibly, because they have the clearest conception of their goals, the most comprehensive understanding of the world in which these goals are to be realized, and the most realistic assessment of the available means toward these goals. To accomplish this end, the philosophy major requires each student to refine his or her ideas in relation and response to the history of philosophical activity (in the form of three 4-credit-hour courses in the history of philosophy). This is preparation for undertaking an original work in philosophy, the senior thesis. Additional courses are offered in the traditional areas of philosophy (e.g., ethics, political philosophy, philosophy of religion, metaphysics, epistemology, etc.), from which a student selects a minimum of four to complete the 27 credit hours required for the major in philosophy.

The philosophy major at Oklahoma City University provides the necessary foundation for successful graduate study in philosophy as well as for advanced, professional training in law and the ministry. Indeed, philosophy is the ideal major for any student who contemplates a career which places a premium on the ability to think critically, creatively, and systematically.

For students majoring in other disciplines, a minor in philosophy is also available.

PHILOSOPHY (B.A.)

PHIL 3314 History of Philosophy III 4

Electives (select three): 9
BIOL 1003 Science, Technology, and Society: Ecological Sustainability
PHIL/REL 2163 Moral Issues in Contemporary Culture – Variable Topics (may be repeated with different content)
PHIL 2203 Business Ethics
PHIL/REL 2703 Introduction to Christian Ethics
PHIL 2613 Ethics of Communications

Upper-division elective (select one) 3
PHIL/REL 3613 Problems and Issues in Christian Ethics
PHIL 3763 Topics in Ethics-Variable Topics
Other 3000- or 4000-level courses in philosophy and/or religion with sufficient content in ethics (to be determined by the chair of the philosophy department)

Philosophy/Religion

The joint major in philosophy and religion is designed primarily for those students who want to undertake ethical and religious studies within a rigorous philosophical and theological context in preparation either for advanced academic study in philosophy or religion or professional training for the ordained ministry. The core requirements in the history of philosophy and the history of Christianity are intended to provide students with a systematic grounding in the major philosophical and theological resources of Western philosophy and the Judeo-Christian tradition. Students may then select one of four areas of emphasis (philosophical theology, ethics, religion-philosophy and culture, or biblical studies) as the subject of more concentrated study. The culminating experience for all majors is the writing of a senior thesis. The thesis is a major research paper, an original work in the student’s area of emphasis, prepared...
under close supervision of one or more members of the philosophy department and/or the School of Religion.

**PHYSICS**

Chair: Rossberg
Faculty: Hoot, Shadfar

The physics department offers a Bachelor of Science degree in physics and a minor in physics. The physics degree program is designed to provide students with a strong background for careers in industry and government and for further education in graduate school. The physics department also provides several required courses for students seeking a degree in engineering.

**SECONDARY SCIENCE LICENSURE/CERTIFICATION**

Students who wish to teach science at the secondary level (grades 6-12) may pursue licensure by completing a major in one of the science disciplines concurrent with completing a second major in education, and fulfilling all licensure and certification requirements. Additional coursework may be required in the science major.

**POLITICAL SCIENCE**

Chair: Johnson
Faculty: Daadaoui, Huston, Magill

Just as the ancient Greeks used the word *idiot* to refer to one who took no interest in the affairs of the state, we believe that the study of political science is an essential part of the educational process.
Purpose
The purpose of the program is to provide a liberal arts education with an emphasis in the study of political science. The program prepares students for a wide variety of careers as well as for active and discerning roles in the community.

Objectives
1. Sensitize students to the issues of power, freedom, order, and authority in societies and on the international scene;
2. Enable students to become more active and discerning citizens;
3. Introduce students to the subfields of the discipline;
4. Assist in preparing students for graduate school, law school, and postbaccalaureate careers.

Special Features/Careers
Student majoring in political science can choose among five degree options, of which four are designed to further specific vocational objectives:

Option 1: B.A., liberal arts emphasis—Designed for the student with broad interests in political science.

Option 2: B.S., preprofessional emphasis—Designed for the student seeking graduate work in political science leading to a career in college teaching or research.

Option 3: B.A., prelaw emphasis—Designed for students intending to go to law school.

Option 4: B.S., public management emphasis—Designed for students seeking either a position in government or graduate work in urban studies, public administration, or urban planning.

Option 5: B.A., international affairs emphasis—Designed for students seeking careers with the U.S. foreign service, corporations doing business abroad, or international nongovernmental organizations or for students who wish to teach or conduct research abroad.

The department offers a variety of courses from which all majors choose a “core curriculum” of 9 hours. Depending on the option selected, further specialized courses are taken in political science and related areas. There are options for off-campus study, including internships with the Washington Center as well as other opportunities. Students can work with faculty on a one-to-one basis in independent studies or directed readings and are encouraged to master basic career skills—writing, research methods, problem solving, and analysis. Culminating the major is a required Senior Seminar that includes advanced study incorporating either an experiential or a written research component. Student organizations foster learning and interaction outside the classroom; these include a prelaw chapter of Phi Alpha Delta, the Oklahoma City University delegation to the Oklahoma Intercollegiate Legislature (OIL), Pi Sigma Alpha (the national political science honor society), the College Republicans, and the Young Democrats.

THE OXFORD PLAN

POLITICAL SCIENCE/PHILOSOPHY (B.A.)

The Oxford Plan is a joint political science and philosophy major with strong interdisciplinary roots. The major includes broad classic training in the vein of the philosophy, politics, and economics major at the University of Oxford.

To participate in the Oxford Plan at Oklahoma City University, a student must satisfy any one of the following requirements:
1. A composite ACT score of 27 or higher;
2. A combined SAT score of 1210 or higher; or
3. A high school cumulative grade point average of 3.750 or higher on a 4.00 scale (or the equivalent).

In addition, international students must have an internet-based TOEFL (IBT) score of 100 or higher.

Successful participants in the Oxford Plan qualify for preferred admission to the Oklahoma City University School of Law. A participant with an LSAT score of 155 or higher and an undergraduate GPA of 3.500 or higher is guaranteed admission to the School of Law. Other participants receive a preference in admission to the School of Law over applicants from other undergraduate institutions. To qualify for guaranteed or preferred admission, the participant must meet the School of Law’s character and fitness requirements and apply by February 1.

Participants in the Oxford Plan may also qualify to complete their combined B.A. and J.D. degrees in only six years, rather than the usual seven years. Participants who successfully complete all of the requirements of the Oxford Plan and their foreign language requirement and are admitted to the School of Law may begin law school after only three years of undergraduate work. They receive their

**PSYCHOLOGY**

Chair: Cataldi
Faculty: Jowaisas, Hakman, Shao

Psychology is the scientific discipline that seeks to describe and explain our thinking, emotions, and behavior. Psychology’s intellectual roots are in biology and philosophy, origins reflected in our curriculum. The psychology curriculum is designed to foster skills congruent with the liberal arts tradition: oral and written expression reflecting a critical consideration of the data, issues, and concepts gained in the classroom and through the reading of original sources. The general goal of the curriculum is for students to attain a better understanding of themselves and others, an understanding of the nature of psychological research, and an ability to apply research findings for solutions to theoretical and practical problems in the psychological realm.

The psychology department has several other, less global objectives. We offer courses and a curriculum balanced between theory and application for the following purposes:

1. Preparing students for graduate work in psychology and related fields. The B.S. degree provides a core of courses that satisfies the vast majority of graduate school entrance requirements in psychology.

2. Satisfying students who wish to work in applied areas with a bachelor’s degree. The B.S. degree includes applied courses and allows students latitude to design unique programs suited to special interests.

3. Providing nonmajors with sufficient resources to work in nonpsychological fields that require knowledge of human motivation, learning, attitudes, and behavior. Thus, business majors with an interest in management, sales, or advertising, or premedical majors interested in psychological functioning, or biology majors interested in the mechanisms of learning may pursue their interests with a minor in psychology.

The psychology curriculum prepares graduates for advanced study in psychology, law, social work, medicine, research, and teaching and for work in human services.
and related fields such as human resources management in business settings.

The Oklahoma City University chapter of Psi Chi, the national psychology honor organization, and the Psychology Club, a local organization informally affiliated with Psi Chi, offer students opportunities for socializing and learning about the discipline in an informal setting.

**RESEARCH AND DATA ANALYSIS**

**Program Description**

The research and data analysis program combines courses from several disciplines to create a focused, intensive program that prepares students for careers or additional studies in public health, economics, institutional and market research, mathematics, statistics, and other fields that require skills in applied mathematics and statistics, critical analysis of data, and synthesis of information and numerical data. All of the concentrations in the program require a common set of courses that provides students with the fundamentals of mathematical and analytical skills, as well as a foundation in basic research methodology in several disciplines. Each of the concentrations then builds on this core to provide students with more specific preparation in particular disciplines that incorporate a strong data analysis component, such as applied mathematics, economics, social sciences, and biomedical sciences.

The research and data analysis program was designed with input from faculty in business, math, psychology, and biology. There is marketplace demand for program graduates in fields and occupations including but not limited to social sciences, business, biomedical sciences, actuarial science, educational institutions, and state and local government.

Areas of Concentration 15-16

Students specialize in one of three areas: business, social science, or mathematics and statistics. Students selecting the business concentration will be able to specialize in marketing, economics, or finance. Each concentration requires 15 to 16 hours of course work and must include a capstone.

I. Business – Choose one of the following concentrations:

A. Specialization in Marketing
- ECON 2113 Principles of Microeconomics 3
- MKTG 3013 Marketing Principles 3
- MKTG 3113 Marketing Research 3
- MKTG 3313 Consumer Behavior 3

SCIENCE MAJOR

Advisor: Nail
Faculty: Science and Mathematics Faculty

The Bachelor of Science in science program enables the student to obtain a broad background in the sciences rather than the specialization of a departmental major. The courses in the major are selected by the student and the advisor. Students interested in secondary education, medicine, dentistry, allied health fields, and other areas may want to consider this program.

SCIENCE (B.S.)

Major Requirements Credit Hours: 45

Required Course Work in the Science Major

1. A minimum of 42 credit hours in science and mathematics course work is required to complete the major. Remedial and nonmajors’ courses may not be counted towards the major.

2. The student must achieve a concentration in one discipline (biology, chemistry, mathematics, or physics) by completing a minimum of 24 credit hours in that discipline. Of this total, at least 18 credit hours must be above the 1000-level and must include the senior capstone course in the discipline.

3. In addition to the courses in the discipline of concentration, the student must complete a minimum of 6 credit hours from each of the other three disciplines.

Required Ancillary Course Work in the Science Major

1. The student must satisfactorily complete (minimum grade C) an upper-division (3000- or 4000-level) course in technical writing. Currently, this requirement can be met by ENGL 3223 Technical and Business Writing. Any course substitution must be approved in writing by the faculty advisor and the science degree assessment coordinator.

General Requirements for the Science Major

1. The student must complete all of the program objectives and assessment requirements, including completion of the student portfolio and completion of the Educational Testing Service Major Field Test in the discipline of concentration in place where the student matriculates at Oklahoma City University. A complete listing of requirements is available from the faculty advisor or the science degree assessment coordinator.

2. The courses that constitute the major and the discipline of concentration are to be specified in writing by the student and his or her faculty advisor and are subject to the approval of the science degree assessment coordinator.

3. A minimum 2.000 GPA is required in the major at graduation, and no course in which a grade below C was earned may be counted towards the major.

4. A minimum of 12 credit hours of the course work in the major, including the senior capstone, plus at least one other 3000- or 4000-level course in the concentration, must be completed in residence at Oklahoma City University.

SOCIOLGY AND JUSTICE STUDIES

Chair: Horn
Faculty: Cowgill, Kurtz

Founded in the late 1960s, the Department of Sociology and Justice Studies has been producing top-quality students for over forty years. The department offers Bachelor of Science and Bachelor of Arts degrees in sociology and justice studies. Graduates have gone on to work in research facilities, as professors, in nonprofit agencies, in law enforcement and in sociology agencies.

All full-time professors hold terminal degrees and have experience in fields from correctional service officer to probation and parole officer to nonprofit employee working with terminally ill children to trial consultant. The faculty provides a solid base for critical thinking, reading, and writing in a curriculum infused with intellectual, spiritual, and moral development.

Courses

The required courses are offered on a two-year rotation. Students are responsible for taking the required courses...
when they are offered. Students who are having difficulties with course scheduling should consult their advisors.

Transfer Credit
Fifty percent of all justice studies and sociology courses must be taken at Oklahoma City University.

Attendance
Classes are conducted on the assumption that regular attendance is essential to satisfactory progress. The student is responsible for meeting course requirements, regardless of the causes of absences. A student unable to attend classes should confer in advance with the professors involved. Failure to attend classes may result in the loss of credit, exclusion from the final examinations, or both. (Students must check with the department for additional information concerning departmental policies and procedures.)

Sociology
The mission of the sociology program is to prepare students to work in a diverse field with sociological understanding of human behavior. Each student’s unique potential is nurtured through faculty mentoring.

Sociology at Oklahoma City University introduces students to sociological concepts that enable them to become scholars who are more productive citizens and workers. The sociology major provides a solid liberal arts education that prepares students for graduate school or a variety of career paths (e.g., social services, criminal justice, education, or government).

Justice Studies
The mission of the justice studies program is to analyze issues of justice and injustice within the societal contexts of human behavior in complex societies. Using interdisciplinary perspectives, students examine critically the manifestation of this behavior through a criminology or a peace and conflict perspective. Students are expected to develop an ethical awareness and the aptitude to decisively research a broad base of knowledge on issues of justice, crime, and the law. Students declare either a criminology or a peace and conflict concentration. Some students may want to take both concentrations.

The mission of the criminology concentration is to offer a curriculum that helps students understand the social nature of crime so as to develop rational policies. In addition to studying courts, corrections, and law enforcement, students are expected to examine the law as a social product affected by cultural values, race, gender, class, or sexual orientation. They are expected to critically examine and assess the consequences of criminal behavior through the victim’s and community’s lenses, as well through those of the offender and the judicial system.

The mission of the peace and conflict concentration is to teach students to analyze conflict, design peacebuilding strategies, and work toward societal transformation. Students are expected to critically examine harmed relationships from multiple perspectives with ethical awareness. They are also expected to construct social justice advocacy projects based on human rights and human needs theories.

**INTERDISCIPLINARY MINORS**

### AMERICAN STUDIES

This minor provides a broad-based study of American culture, politics, history, and political institutions. From these courses, the student can better understand American values, why Americans believe what they believe, and what it has meant to be American over the last 150 years or so. The mix of disciplines guarantees a variety of perspectives and approaches and should enrich the student’s understanding of American life and thought.

### ARTS INTEGRATION

The arts integration minor provides students with a different lens for exploring the central concepts in their major disciplinary areas. The minor combines an introduction to the field of arts integration with a diverse set of classes in film, music, theatre, dance, art, religion, and literature. The curriculum is flexible by design: students may choose to sample several different aspects of the arts or may select a particular track. The foundation course introduces students to the concepts and practices of arts integration and lays the groundwork for the arts integration portfolio project. Giving consideration to each course within the minor and the individual’s major, students will stay alert to the possibility of a situation and an art process or form that can come together for a specific project. Finally, in the portfolio course, the student makes public that particular arts integration opportunity.

All students who desire to complete the arts integration minor must complete the three required courses, including Introduction to Arts Integration, Philosophy of the Fine
Arts, and Portfolio and Review. Students must complete an additional 12 credit hours of approved elective courses from the list provided below. Students who choose a particular track must complete 6 credit hours from within one of the areas in the list of approved electives, with the remaining 6 credit hours selected from the other areas. A student may not count courses in the minor toward requirements in their major. At least 8 credit hours of the courses counted towards the minor must be upper-division courses (3000- and 4000-level). Consult the coordinator of the minor or an academic advisor in any of the areas listed below as tracks for additional information.

CHILD ADVOCACY STUDIES TRAINING
This interdisciplinary minor and certificate program provides education and training in the area of child maltreatment. It is designed to educate individuals in not only identifying and documenting child maltreatment, but most importantly, in educating individuals on how to respond competently to children who have been maltreated. This program will also teach individuals how to work effectively within multiple systems and institutions involved in maltreatment cases and will prepare individuals to be advocates for children who have been maltreated. This program is designed for students and working professionals who plan to make a difference in the lives of children. The minor and certificate are applicable to individuals from myriad backgrounds, complimenting areas such as psychology, social work, law enforcement, sociology and criminology, justice studies, nursing and education.

SCHOOL OF VISUAL ARTS

The School of Visual Arts recognizes the important role fine arts and moving image arts play in modern culture and offers programs of study designed to prepare students to take their places in society as lifelong practitioners of art. Studio-based courses taught by a faculty of practicing artists introduce students to a variety of medium-specific techniques and processes that provide a solid foundation for each student to develop his or her own style and artistic identity upon. Additionally, the School of Visual Arts places strong emphasis on balanced curricula of major courses that value creativity and concepts through explorations of histories, theories, and critical appraisal of works to stimulate students’ intellectual curiosity and provide them with the ability to create art and discuss the impact of art on the world.

The School of Visual Arts offers degree programs focused on two- and three-dimensional studio art, photography, film production, and film studies. The facilities and resources available provide ample opportunities for students to produce work that is critiqued and reviewed by the faculty on a one-on-one basis. Students are encouraged to share their work with the wider university community and the public through open and juried exhibitions and screenings. Upon successful completion of undergraduate degree requirements, students will have a portfolio to use as they plan their next professional or scholarly undertaking.

ACADEMIC POLICIES

Grading: School of Visual Arts faculty follows the same general reporting scales, regulations, and calendars as other university faculty when evaluating student performance and academic achievement.

Attendance: The school recognizes the relationship between regular class attendance and successful learning. Therefore, students are expected to attend all class meetings for each course in which they enroll. Instructors may downgrade a student for unexcused absences. In the case of extenuating circumstances, students may provide a written explanation for the instructor’s consideration.

Course Enrollment: Students from across the university may enroll in most courses offered by the School of Visual Arts regardless of major. However, as a course section nears enrollment capacity, students who need to fulfill requirements for degrees administered by the school will be granted preferential enrollment over nonmajors.

FACILITIES

The School of Visual Arts promotes student success and learning through the maintenance and availability of exceptional facilities and resources. It is our goal to remain current with all hardware, software, tools, and equipment used in the practice and execution of professional arts practice.

DEGREE PROGRAMS

The School of Visual Arts comprises two academic departments: the Moving Image Arts Department and the Art Department. While each department administers specific requirements for different arts-related undergraduate degrees and graduate programs leading to degrees in studio art, photography, film production, and film studies, the school acknowledges the foundational importance of interdisciplinary and liberal arts study in the pursuit of these degrees.

By offering a balanced selection of course work, electives, independent study, and internship opportunities in a variety of fine arts and arts-related disciplines, the school provides solid curricula of arts practice and theory concepts providing the most productive learning environment for students to immerse themselves in a full understanding of a discipline.

In addition, it is possible for a student to create a focused program of study to more deeply explore discipline interests while completing the requirements of an existing visual arts major. This requires advisor approval and structuring.

Consult each department’s sections in the undergraduate and graduate catalogs for details about degree requirements.

ADMISSION REQUIREMENTS

Prospective students must meet requirements for admission to the university and the Petree College of Arts and Sciences prior to consideration for acceptance into the School of Visual Arts. All applicants must submit a portfolio to the admissions coordinator of the department in which they desire to study and complete a personal interview with a member of the School of Visual Arts faculty. The portfolio should demonstrate creative ability and concepts execution. More details about these portfolio requirements are listed within each department’s section of this catalog.

Prospective students transferring from other institutions must have a minimum 2.500 cumulative GPA in acceptable credit hours of study for admission to the school. Transfer credit will be evaluated for equivalency by The School of Visual Arts’ transfer evaluator. Transfer students must also meet the student portfolio and interview requirements.
ACADEMIC PROBATION
It is expected that all degree-seeking students in the School of Visual Arts will maintain high academic standards. Students will be placed on academic probation for only one semester based on the following policy:

Students within the school with a semester GPA below 2.000 or with two or more F’s in any subject during a single semester will be placed on academic probation. In order to remain in a major within the school, students on probation must achieve, during the semester of probation, a semester GPA of 2.750 or better while being enrolled in 12 credit hours. The class schedule of the probationary semester must be approved by the department chair of the student’s degree. Additionally, the student may not receive a grade of D or F in any of the enrolled classes. Failure to meet academic standards during that probationary semester will result in dismissal from the school.

Advisement
The School of Visual Art is committed to developing productive citizens of the global art world. In doing so we strive to help each student find his or her voice and place within the arts discipline of their choice. All efforts are made to advise and guide each student to achieve success. At the same time, the school recognizes that each student must contribute to his or her own growth and that outcomes are not guaranteed solely on the basis of an individual’s academic merit, but are a result of many factors.

All of the faculty members of the School of Visual Arts are actively practicing professionals within their industries. As such, the faculty can provide experienced counsel and guidance for each student who is making plans for further scholarly and occupational objectives.

Portfolio Creation
All candidates for undergraduate degrees complete a capstone project during their senior year. The result is a portfolio piece that serves two functions: First, the completed capstone demonstrates the student’s understanding and application of concepts and processes explored in course work. Second, the capstone can be used as a portfolio piece to present in pursuit of career or advanced study opportunities. Depending on the student’s program of study, the capstone project will take the form of either a research paper or an exhibited presentation in the student’s medium of concentration. Further explanation of the capstone requirements for each degree program may be found on the appropriate department sections within this catalog.

Art Degrees
The Oklahoma City University art degrees provide strong foundational knowledge in a variety of art forms and media and prepare career-minded students for a professional entrance into today’s art world or graduate school.

The Bachelor of Fine Arts program is considered the professional art degree. Students receiving a B.F.A. in studio art or photography have the opportunity to obtain a high level of general studio art experiences, while concentrating in their chosen area. Most graduate schools prefer the B.F.A. in their admission policies.

The Bachelor of Arts allows for a broad exploration in studio art or photography within the framework of a liberal arts education. The B.A. provides students with the opportunity to expand their educational experience to include other areas of interest while still receiving a degree in art. The B.A. program allows for double majors, minors, and prerequisite course work for those who may wish to pursue a career other than art.

Facilities
The Norick Art Center is located in a 29,000 square-foot facility that houses all the fine art areas. The center contains painting and drawing areas, a ceramics and 3-D area, printmaking room, a twenty-two station Macintosh computer lab, photography labs, and the Nona Jean Hulsey Gallery, which hosts eight to twelve exhibits each year. Every semester there is a capstone exhibit for seniors, and a student show is held each spring. There is an active art club that sponsors two student arts shows each year plus major art shows at the Oklahoma City University Art Gallery.

Faculty
Faculty members in the Art Department have extensive teaching backgrounds and are practicing artists. Although each faculty member is actively producing and showing, student success is always top priority. All studio classes are small, allowing individual student attention. No classes are taught by graduate students or teaching assistants.

Admission Requirements
In addition to university standards for admission, the Art Department requires all B.F.A. applicants to submit a portfolio in their chosen area of study. The portfolio should consist of ten to fifteen examples of the most recent works. Students with no portfolio or students who need portfolio improvements can be admitted to the B.A. program and apply for the B.F.A. during their sophomore year. All portfolios are subject to the approval of the Art Department faculty members.
Scholarships
Scholarships for art majors are available from a variety of sources including the Norick Family Scholarship in Art. These awards are based on portfolio review, latest high school GPA, ACT scores, and personal interviews. Portfolios may be mailed or brought to the Norick Art Center during three annual spring portfolio review days. Original artwork is preferred; however, slides or digital images are acceptable. Scholarships are awarded by a consensus of the Art Department faculty.

Attendance
Due to the nature of studio-based classes, it is imperative that students attend each class at the times prescribed by the professors. At each professor’s discretion, absenteeism or tardiness could lead to a reduction in grade.

MOVING IMAGE ARTS
Chair: Kiersch
Faculty: Cardinale-Powell, DiPaolo
and Moving Image Arts Faculty

Two Interdisciplinary Degrees:
B.A. in Film Studies
B.F.A. in Film Production

Program Description
Literacy in visual and aural “texts” has become a necessity in our world, and as technologies develop, individuals’ and cultures’ reliance on the visual and aural increases. Thus, the moving image arts have become a primary global means for communicating values.

The Moving Image Arts program at Oklahoma City University recognizes the centrality of visual and aural communications and responds to the continual emergence of new technologies by providing interdisciplinary liberal arts curricula focused on both the critical and the physical production studies of moving image content. Students in both degree programs study and create today’s dynamic products of artistic and informational communications.

Through required courses, students majoring in either film studies or film production will learn how to create recorded content and understand the effects of recorded content as both a narrative and nonnarrative imaginative language of visual and aural art. Beyond the core course work, students will have extensive elective course choices that will properly prepare and fulfill different professional objectives to enhance his or her specific career direction.

The Moving Image Arts flexible programs of study will:
- prepare students for professions in the current industries of the moving image arts or to pursue advanced study in graduate programs;
- educate students in the history, theories, and concepts of the arts and sciences of the moving image arts as a global art form and their impact on social, economic, and cultural constructions;
- allow students to develop individual talents, skills, and creative voices by offering an intensive, hands-on production education coupled with a broad exposure to the liberal arts as a foundation to successfully engage in art and culture;
- add value to the studies of other majors, especially those in the established programs of music, theatre, and dance, by providing allied course work to expand expertise into recorded as well as live performance.

Degree Programs
The Moving Image Arts program offers two undergraduate degrees: a Bachelor of Arts in film studies and a Bachelor of Fine Arts in film production. Both degrees require completion of the same Moving Image Arts core courses in addition to the university general education requirements. However, each degree additionally requires specific major courses and a number of interdisciplinary electives from a pool of diversified subjects.

As part of its professional emphasis, the department provides an opportunity for practical work in both the classroom and the field. Internships are strongly encouraged.

Admissions
By setting expectations for its students and providing them with an environment of academic and professional excellence, the moving image arts degrees promote student success. All students wishing to major in film studies or film production must meet certain specific admission requirements in addition to the general university admission requirements. Admission to this program is selective. An interview, résumé, and either a recorded content portfolio or writing sample (depending on degree plan) are required. Decisions are based on the applicant’s ability to demonstrate a high level of proficiency, potential, and a unique creative voice.

Proficiency
All moving image arts students are required to successfully complete formal competency measurements to further foster their development as creative filmmakers and/or scholars. The first, a preliminary measurement, is taken prior to the sophomore year Project One course. All majors are introduced to the production process in a required, hands-on film production class. The outcome is a collectively produced short class project.

The second (Project One) measurement, taken in the second semester of the sophomore year, is an individually produced short, sync-sound moving image production. The third (Capstone) measurement, in the senior year, is either a comprehensively planned and produced moving image thesis project or an indepth senior seminar with a written thesis requirement in moving image theory/culture.

Failure by any student to demonstrate proficiency in the above mentioned courses will result in that student not being eligible for advanced classes or, in the case of the Capstone, the attainment of the moving image arts degree.

At the discretion of the moving image arts director, students failing to meet minimum requisites may be given one retest or re-evaluation or a thirty day period in which to resubmit the course project in order to restore their academic standing. In the event that a student fails to improve, no further considerations will be extended.

WIMBERLY SCHOOL OF RELIGION

Faculty: Betsworth, Davies, Long, Starkey, Wolfe

The mission of the Wimberly School of Religion is to offer religious and theological studies in the United Methodist tradition that unite knowledge and vital piety, explore questions of meaning and value for the lives of all persons, and prepare persons seeking to enter a variety of Christian vocations in service to the church and community.

As a professional school, the Wimberly School of Religion plays the dual role of preparing persons for service in the church, while at the same time engaging the total student body in the study of religion for its own sake through the university’s general education curriculum.

The curriculum of the Wimberly School of Religion focuses primarily on basic studies of faith, values, and religious life. The aim of these studies is an understanding of religion and how it relates to various cultures and issues in the modern world.

ACADEMIC POLICIES

Grade Point Average
A religion major must have a 2.250 GPA in religion courses to graduate, including the six hours under values and culture and Introduction to Biblical Literature.

Degree Programs
The Wimberly School of Religion offers the degrees of Bachelor of Arts in religion, Bachelor of Arts in religion with an emphasis in religious education, Bachelor of Arts in religion with an emphasis in youth ministry, Bachelor of Arts with a major in religion/philosophy, Bachelor of Arts in World Religions, and Master of Religious Education.

Religion Major
To major in religion at the undergraduate level has meaning and value for anyone who wants to understand religion in its several dimensions. It is particularly useful for persons planning to enter the Christian ministry, Christian education, or other church-related vocations. Studies in the major field, along with courses in English, history, philosophy, the social sciences, and various electives, will give the student an excellent background for entrance into a theological seminary or for service in the church and society.

The Internship in Religion course may be taken by all junior or senior religion majors who are employed in a ministry setting.

Religion/Religious Education
A major in religion/religious education is particularly useful to persons planning to enter the Christian ministry, Christian education, youth work, program coordination, or other church-related vocations. Studies in the major field, along with courses in English, history, philosophy, the social sciences, and various electives, will give the student an excellent background for entrance into a theological seminary or for service in the church and society.

The Internship in Religion course is required for majors in religious education. It is taken in the junior or senior year.

Religion Major/Youth Ministry
The major in religion/youth ministry is useful for students planning careers as directors or ministers with youth or planning to enter other forms of Christian ministry, such as Christian education or the pastorate.

The spiritual formation of youth as Christian disciples requires students who would serve as youth workers to be grounded in the biblical and theological understandings of the faith and be knowledgeable about the development of young people. Mature interaction with youth requires far more than the ability to present interesting programs. Studies in the major field, along with courses in English, history, philosophy, the social sciences, and various electives, will give the student an excellent background for entrance into a theological seminary or for various service opportunities in the church and society.

The Internship in Religion course is required for majors in religious education. It is taken in the junior or senior year.

United Methodist Certification in Christian Education and Certification in Youth Ministry
The religion/religious education and religion/youth ministry majors have been approved by the Section of Deacons and Diaconal Ministers, General Board of Higher Education and Ministry of the United Methodist Church. Persons graduating with a B.A. in religion/religious education or in religion/youth ministry will have fulfilled the educational requirements for certification in the respective areas. Information on additional requirements is available from the registrar of the student’s Annual Conference Board of Ordained Ministry.

Religion/Philosophy
The joint major in philosophy and religion is designed primarily for those students who want to undertake ethical and religious studies within a rigorous philosophical and theological context in preparation either for advanced academic study in philosophy or religion or for professional training for the ordained ministry. The core requirements are intended to provide students with systematic ground-
World Religions
To major in world religions at the undergraduate level has meaning and value for anyone who wants to understand religion in its several dimensions. Students must complete at least one course in Jewish studies, one advanced course in Christian theology, three advanced courses related to world religions, and one religion elective.

Honors in Religion
The designation Honors in Religion recognizes excellence in a student’s work at Oklahoma City University. To be eligible for Honors in Religion the student must have completed 60 semester hours at Oklahoma City University and a minimum of 24 semester hours in religion in the School of Religion. The student must have a GPA of 3.500 in the religion major and a cumulative GPA of 3.250 in nonreligion courses taken at Oklahoma City University. Honors in Religion students must complete Senior Research Paper with a minimum grade of A-

Minor in Religion
In addition to courses taken in the general education curriculum, students with a minor in religion will take a minimum of 15 hours in the Wimberly School of Religion. The courses will be from at least three of the following areas: Biblical Studies; History of Christianity; Theology, Religion, Ethics and Culture; or World Religions. At least nine hours must be taken at the 3000- to 4000-level.

Students who wish to minor in religion must apply with the director of the School of Religion. A student may not major and minor in the School of Religion. A Religion minor must have a 2.500 GPA and take at least 9 hours of their religion courses in residence at Oklahoma City University.

Honor Society in Religious Studies
Theta Alpha Kappa is open to both undergraduate and graduate students. Undergraduate students must have completed three semesters at Oklahoma City University, completed 12 hours in religious studies, attained a 3.250 GPA in religion courses and at least a 3.000 GPA in their total academic program. Graduate students must have completed at least half of the residency requirements for their degree and attained a 3.500 GPA for this work.

Certification Studies in the
United Methodist Church
Certification is the church’s recognition that a student
has met the required personal and church qualifications,
academic preparation, and work experience necessary to
achieve and maintain professional excellence.

Certification is available in the United Methodist Church
in the areas of Christian education, youth ministry, church
music, parish nursing, church business management, spiritual
formation, camping and retreat ministries, and communica-
tions. The School of Religion provides the academic
programs related to certification in the areas of Christian
education and youth ministry.

The following are ways a student can fulfill the academic
requirements for certification at Oklahoma City University:
1. Attain a bachelor’s degree with a major in religion/re-
ligious education or religion/youth ministry. (Students
continuing toward ordination as deacon must complete
8 hours of graduate credit in addition to the 27 basic
theological graduate hours and other disciplinary re-
quirements for ordination.)
2. Attain a bachelor’s degree plus five graduate certification
courses in the area of specialization, including a course
in United Methodist doctrine and polity.
3. Attain a master’s degree in the area of specialization.

The following are ways a person can fulfill the academic
requirements for associate certification at Oklahoma
City University:
1. Complete a minimum of 24 semester hours in the area
of specialization, such as the program for associate
certification in youth ministry or program for
associate certification in Christian education,
2. Complete a minimum of 24 semester hours in under-
graduate course work, and
3. Complete five graduate certification studies in the area
of specialization including a course in United Methodist
document and polity.

For additional information on requirements for certifica-
tion, contact the registrar of the Annual Conference
Board of Ordained Ministry, Section of Deacons and
Diaconal Ministry.
**Associate Certification Program in Youth Ministry**

The associate certification in youth ministry is a program for persons over twenty-five years old who do not have a college degree and wish to receive training leading to certification in the United Methodist Church. The program is offered by colleges recognized by the United Methodist General Board of Higher Education and Ministry, Section of Deacons. Students must complete a minimum of 24 semester hours in the area of specialization.

MEINDERS SCHOOL OF BUSINESS

A BROAD VIEW OF MANAGEMENT
The Meinders School of Business is committed to providing quality business education at the undergraduate and graduate levels. Curricula are designed to provide students with a broad-based view of management: a view that emphasizes ethics, entrepreneurship, and social responsibility in the workplace; a view of management that will enable students to work effectively in the challenging global business environment. Course work features practice as well as theory and helps to provide students with the management skills necessary for effective leadership. Theoretical foundations are balanced by practical applications.

AN EDUCATIONAL ENVIRONMENT THAT SERVES THE STUDENT
The Meinders School offers students a wide variety of learning opportunities outside the classroom. These enrichment activities provide valuable insights into the business world and augment traditional classroom study. Learning opportunities such as industry visits, internships, and career coaching help students develop strategies to reach their career goals. Through a series of professional development workshops conducted each semester, students also begin preparing for their careers after college. Among the topics covered are résumé writing, interviewing techniques, business etiquette, and communication skills.

OUTSTANDING FACILITIES
The business school is located in the Meinders School of Business building, a $20 million facility completed in 2003. The three-story, eighty thousand square-foot building includes features that focus on student success and add value to students’ academic experiences. The facility includes classrooms with state-of-the-art technology, breakout study rooms for small groups, a learning center, student/faculty lounge, and resource center. The building houses faculty offices, the Love’s Entrepreneurship Center, and a 230-seat tiered auditorium capable of hosting videoconferences, guest speakers, and seminars.

LOVE’S ENTREPRENEURSHIP CENTER
The Love’s Entrepreneurship Center provides a variety of entrepreneurial experiences for our students including business concept evaluation, market research, competitive analysis, and business plan development. In addition, the Love’s Center houses the Mobile Application Development Lab, within which students develop, test, and launch new mobile applications. To learn more about the Love’s Entrepreneurship Center, see http://www.meindersokcu.com/about/love-s-entrepreneurship-center/ or call (405) 208-5437.

BUSEY INSTITUTE FOR ENTERPRISE & LEADERSHIP
The Busey Institute for Enterprise & Leadership provides professional programs to the public on various topics designed to meet the dynamic needs of regional businesses. The Busey Institute, funded by former Oklahoma City University students Phil and Cathy Busey of The Busey Group, holds annual seminars at the Meinders School of Business providing students and professionals education on current topics and networking opportunities with highly respected business leaders. The Busey Institute also provides student scholarship support.

CONTINUING PROFESSIONAL EDUCATION PROGRAMS
The Continuing Professional Education Program offers students and working professionals certification courses in many demanding fields including Project Management Professional® (PMP), Petroleum Land Management (PLM), and Professional in Human Resources (PHR) and Senior Professional in Human Resources (SPHR). We also meet the dynamic needs of regional businesses by providing customized on-site programs for groups. We specialize in program development, handling everything from entire program assessment and delivery to all administrative functions. The Continuing Professional Education Program at Oklahoma City University, in partnership with Gatlin Education Services and ed2go, also offers more than 400 online open enrollment programs designed to provide the skills necessary to acquire professional-level positions for many in-demand occupations. For more information or to enroll in a course, visit www.okcu.edu/business/profed.

STEVEN C. AGEE ECONOMIC RESEARCH AND POLICY INSTITUTE
The Steven C. Agee Economic Research and Policy Institute is focused on assisting the Oklahoma City business community by disseminating information to businesses, government, and regulatory agencies through economic impact studies, marketing and macroeconomic survey data, the Meinders Consumer Confidence Poll, and other forms of economic research. The institute oversees eight consumer confidence surveys conducted in concert with the Federal Reserve Bank meetings as well as other research and polling for businesses, organizations, and agencies. The institute is designed to provide undergraduate and M.B.A. students opportunities for direct involvement in economic research through the Institute Scholars Program. To learn more about the institute, see www.okcu.edu/business or contact Russell Evans at rrevans@okcu.edu.

ACADEMIC POLICIES
Transfer Students/Credits
The academic dean and the student’s advisor evaluate and approve courses to be transferred from other regionally accredited colleges and universities. All courses accepted
from other institutions must encompass the equivalent breadth and depth of courses offered in the school.

Any Oklahoma City University student wishing to enroll simultaneously at another institution must file a petition and obtain prior written approval of the academic dean.

Grading
Students enrolled in the Meinders School are evaluated in all courses using the university grading system described in this catalog. The school does not use the credit/no-credit system.

Attendance Policy
Students are expected to attend classes and arrive no later than the designated starting time for all classes. Absenteeism and tardiness may lead to a grade reduction at the professor’s discretion.

Academic Probation
Students will be placed on probation according to the policy described in the Academic Regulations section of this catalog.

Academic Appeal Process
A student may appeal decisions affecting his or her academic progress as follows:
1. The student initiates an appeal by filing a written petition with the school’s academic dean.
2. The academic dean reviews the petition and determines if a meeting with the student petitioner is necessary.
3. The student petitioner will be informed in writing of the decision on the merits of his or her petition.
4. If the student does not agree with the decision, he or she may continue the appeal process with the associate provost.

Student’s Responsibility for Degree Program
Each student enrolled in the school is responsible for being aware of and meeting all the requirements of the degree program. Each student should maintain a personal record of his or her progress toward the degree.

Whenever an exception to the planned program of study is deemed necessary, such exception, having been made in consultation with an academic advisor, must be documented for the official record and approved in writing by the dean of the school. All requests for independent study, arranged courses, course substitutions, course waivers, concurrent enrollment, course transfer, or semester hour loads in excess of 18 credit hours (exclusive of physical activity courses) must be approved in writing by the dean.

DEGREE PROGRAMS
The Meinders School of Business offers the degrees of Bachelor of Business Administration (B.B.A.), Bachelor of Arts in Business (B.A. Business), Bachelor of Science (B.S.) in computer science, Master of Business Administration (M.B.A.), the Master of Science in Accounting (M.S.A.), the Master of Science (M.S.) in computer science, and the Master of Science (M.S.) in Energy Management.

B.A. Degree Requirements
1. General Requirements
See the general requirements for Petree College of Arts and Sciences School of Adult and Continuing Education.

2. Course Requirements
The student program is composed of courses classified in three groups:
A. General Education Curriculum 45 credit hours
B. Management Education courses 66 credit hours
C. Electives 13-64 credit hours

Although a student, with the help of an advisor, has a choice of courses under these three main classifications, certain essential courses must be included. The three broad classifications permit maximum freedom in choosing courses to fit a student’s individual needs while ensuring that each student receives a balanced preparation for business and life. Through the Petree College of Arts and Sciences School of Adult and Continuing Education program, the adult student may be allowed to develop an academic portfolio to document learning from work, life experiences, and training outside the traditional college classroom. For more information about the nontraditional learning experiences available for adult learners see the School of Adult and Continuing Education in the Petree College of Arts and Sciences section of this catalog.

B. Basic business courses 54 credit hours
C. Area of specialization or major requirement 21-24 credit hours
D. Electives 0-9 credit hours
Although a student, with the help of an advisor, has a choice of courses under these four main classifications, certain essential courses must be included. The four broad classifications permit maximum freedom in choosing courses to fit a student’s individual needs while ensuring that each student receives a balanced preparation for business and life.

**General Education Requirements for All Undergraduate Majors**

The basic general education curriculum is a requirement for all undergraduate degrees at Oklahoma City University. See the General Education Curriculum section of this catalog for the general education requirements. Students in the Meinders School of Business must complete Science, Technology, and Society plus a 4-hour lab science to fulfill the science portion of the general education curriculum. Updated lists of courses approved by the General Education Committee are available on the university Web site.

**Accounting**

Chair: Rodgers
Faculty: Austin, Shouth, Stetson

**Program Description**

The courses in accounting provide students with a broad knowledge of generally accepted accounting principles, cost accounting practices, not-for-profit and governmental accounting procedures, and tax laws. They are designed to meet the needs of the public accountant, industry accountant, government accountant, and the needs of the owner-manager of a business. The following are typical areas of professional activity that provide opportunities for graduates in accounting: public accounting firms, both national and local; small and large corporations; federal, state, and local governments; and service organizations, such as hospitals, nonprofit agencies, and universities.

BUSINESS ADMINISTRATION
Chair: Crandall
Faculty: Austin, Dearmon, Greve, Guzak, Howard, Jones, Khader, Ma, May, Quintero, Rodgers, Sellon, Shafa, Shaw, Shough, Smith, Stetson, Williams, Willner

Program Description
Reflecting the Meinders School's broad view of business administration, the business administration major allows the student to tailor the course work to suit her or his particular interests and professional objectives. Students choose a first and second field from the seven fields available and listed below, then select three courses in the first field and two courses in the second field. Six additional 3000-level or above business school credit hours are then chosen to complete the major. Courses in some fields must be taken in the proper sequence, and students must meet stated course prerequisites.

UNDERGRADUATE CATALOG
MEINDERS SCHOOL OF BUSINESS 121-12
ECONOMICS
Chair: May
Faculty: Dearmon, Sellon, Willner

Program Description
An economics major offers many professional opportunities in business and government. Economic analysis is regularly applied to many different real-world issues. One is not limited with an economics major. The analytical training emphasized is also valuable as preparation for graduate study in business, law, and many other disciplines. Economics provides the basic understanding of much of the business world. Typical employment after graduation is in insurance, securities, and banking industries. Other areas of employment where analytic skills are a priority are also common employment opportunities.

Math, as a second field, is necessary for a graduate degree in economics and highly recommended for graduate study in finance. For those planning to attend law school, economics is one of the most useful majors. See an economics or finance faculty member for more information.

FINANCE
Chair: May
Faculty: Ma, Quintero, Shafa, Shaw

Program Description
Knowledge and understanding of financial organization and structure have a very real place in our economic system. Professional training in financial principles, practices, and promotion; operation and contribution of community and securities markets; investment and risk concepts; short-term and long-term financing for the firm; and expansion, consolidation, and merger of enterprises all prepare the student for work in a finance department or to work as a specialist in the areas of budget, investment, or credit and financial control. Professional opportunities will be found in banks, savings and loan associations, investment firms, brokerage houses, or financial planning in the public sector.

**This must include at least one of the following: Microeconomics (ECON 3213) or Macroeconomics (ECON 3313). The student may substitute for one of the upper-division economics courses any of the following courses: Quantitative Analysis (CHEM 2303), Business Statistics (ECON 2123), Mathematical Statistics I (MATH 3203), or Statistics for the Behavioral Sciences (PSYC 2303).
INFORMATION TECHNOLOGY

Chair: Rodgers
Faculty: Greve, Khader

Program Description
Knowledge of the computer has become increasingly important to the business student, as business firms use computers in creative and innovative ways. There are many career opportunities for students in the field, ranging from programmers using various languages to managers of sophisticated information systems. Those who are primarily interested in programming will concentrate on the object-oriented programming language courses that are taught in the computer science department. Information technology deals with the interaction between the business executives, who are users of information, and the operators, who program the computer. All courses in the information technology concentration stress global applications.

MARKETING

Chair: Crandall
Faculty: Howard, Jones, Smith, Williams

Program Description
Marketing is a system of business activities that begins with an interpretation of the wants and needs of consumers, follows through with all activities involved in the flow of goods and services from producers to consumers, and ends with those services necessary to aid the consumer in getting the expected usefulness from the product or service purchased.

Every organization’s goal is to market and sell its products or services profitably while creating a valuable relationship with customers. A marketing graduate could find professional opportunities in sales, advertising, communications, promotions, brand management, supply chain management, research, and more for companies both large and small, for profit and nonprofit. The emphasis of our program is a blend of theory and “hands-on” experiences through projects with external clients, internships, and interactions with leaders in the marketing industry.

NOT-FOR-PROFIT MANAGEMENT AND LEADERSHIP

Chair: Crandall

MSB designed its B.B.A. in not-for-profit management and leadership program in response to the needs faced by the not-for-profit sector today. Not only is the growth of not-for-profit organizations increasing significantly, so is their economic impact. Not-for-profit organizations exhibit numerous unique challenges for their management. Leaders of not-for-profit organizations know that their organizations differ in accounting, law, board governance, and personnel staffing. They are mission-driven and serve multiple stakeholders. This program focuses on helping present and future leaders of the not-for-profit sector gain solid analytical and problem-solving skills unique to not-for-profit organizations.

SPORTS BUSINESS
Chair: Crandall

Sports business is big business! Sports business has expanded into special events and the multimedia world and created many career avenues for properly educated and experienced sports business graduates. In the Oklahoma City metropolitan area, collegiate, amateur, and professional sports events have become a huge part of economic development. Further, Oklahoma City is becoming a sports epicenter of the southwest. Most universities place sport management programs in the Health and Exercise Studies or Kinesiology departments within the College of Arts and Sciences, but sports business belongs in the business school with a curriculum emphasizing the unique aspects of successful sports management in an industry that is run as a business.

COMPUTER SCIENCE
Chair: Goulden
Faculty: Aboudja, Li, Park, Sha

Departmental Objectives
The Oklahoma City University computer science major gives graduates programming capabilities, a well-rounded knowledge of computer structures and functions, extensive hands-on experience with workstations and microcomputer systems, and the benefit of an exceptionally strong foundation in the liberal arts.

The academic strengths of the program are complemented by excellent access to both workstations and microcomputers. Computers currently available include PC labs and a UNIX lab. Additional computer acquisitions are made on a continuing basis to ensure student access to modern computing facilities.

Oklahoma City University offers two Bachelor of Science degree programs in this field: computer science, designed for students who intend to pursue a graduate degree, and computer information systems, designed to graduate computer professionals who will seek immediate employment in business, industry, or government.

REQUIREMENTS FOR THE BACHELOR OF SCIENCE DEGREE

General Requirements
See the General Requirements for Degrees section of this catalog.

General Education Requirements for All Undergraduate Majors
The basic general education curriculum is a requirement for all undergraduate degrees at Oklahoma City University. See the General Education section of this catalog for specific courses and requirements. Students in the Meinders School of Business must complete Science, Technology, and Society plus a 4-hour lab science to fulfill the science portion of the general education curriculum. Updated lists of courses approved by the General Education Committee and the associate provost are available on the university Web site.
**COMPUTER SCIENCE (B.S.)**
This program includes a large number of electives so that the student may create a program suited to his or her particular interests.

Computer science electives (3000- or 4000-level) 6

All courses must be completed with a C or better and an overall GPA of 2.000 or better must be attained in all computer science courses.

**COMPUTER INFORMATION SYSTEMS (B.S.)**

The degree in computer information systems was designed for students who wish to pursue a career in computing or information technology immediately following graduation. Like the more traditional program in computer science, the computer information systems degree emphasizes hands-on learning and a solid core of computer science and allows a rich selection of electives so that the student can design a program that is suited to their interests and career goals.

ANN LACY SCHOOL OF AMERICAN DANCE AND ARTS MANAGEMENT

The Ann Lacy School of American Dance and Arts Management provides professional, career-oriented programs for students interested in working in the American entertainment and performing arts industries as dancers, managers, dance teachers, or as creative talent with strong business and liberal arts knowledge and skills. The school, which consists of the dance and arts management departments, seeks to produce graduates who are prepared to work in the commercial entertainment or nonprofit performing arts industries.

ACADEMIC POLICIES

Admission Requirements
Applicants to the dance performance, dance management, and American dance pedagogy majors must audition for admission and be accepted. Applicants for admission to the entertainment business major must submit a goals-related essay and résumé and must be interviewed and accepted by the arts management faculty.

Applicants must have ACT scores of 19 or higher or SAT scores of 920 (math plus verbal from a single sitting) or higher to be eligible to audition for admission to the Ann Lacy School of American Dance and Arts Management as entering freshman dance performance majors. Applicants must have ACT scores of 21 or higher or SAT scores (math plus verbal in a single sitting) of 1000 or higher to be eligible to audition for admission to the school as entering freshman dance management or American dance pedagogy majors or to be interviewed by arts management faculty for admission as entertainment business majors.

To be eligible to audition for admission as a dance performance, dance management, or American dance pedagogy major or to be interviewed by the arts management faculty for admission as an entertainment business major, transfer students with less than 27 completed semester credit hours of academic courses must have qualifying ACT or SAT scores as described above for entering freshmen and a cumulative college GPA of 2.750. Transfer students for all degree programs with over 26 completed semester credit hours of academic courses must have a cumulative college GPA of 3.000.

The undergraduate degrees in the Ann Lacy School of American Dance and Arts Management are intended to be “first degrees.” Applicants with undergraduate degrees will not be accepted into the school’s undergraduate degree programs. Generally, transfer students expected to have completed more than 60 credit hours by the time they plan to attend Oklahoma City University will not be accepted into the dance performance, dance management, or American dance pedagogy degree programs.

Dance Transfer Credits
Transfer credit for modern dance courses may not be applied toward the requirements of the dance performance, dance management, or American dance pedagogy degrees.

Credit/No-credit
Students within the school may not take courses for credit/no-credit to meet degree requirements.

Attendance
Students are expected to attend classes diligently and regularly in the same way that employees in the entertainment industry are expected to show up for work. Course grades will be lowered one full grade (i.e., A- to B-) for each absence beyond that allowed for the course under the appropriate dance or arts management Standards and Procedures. Three late arrivals or early departures from class will be considered equal to one absence.

Arts Management Course Projects and Papers
Course projects and papers must be turned in before or by the established due time and date deadline. Projects and papers will not be accepted after deadlines. Late projects and papers will receive a grade of zero.

School Academic Probation
Students within the school with a semester GPA below 2.000 or with two or more F’s in any subject during a semester, will be placed on Ann Lacy School of American Dance and Arts Management academic probation. In order to remain in a major within the school, students on school academic probation must achieve, during the following semester, a semester GPA of 2.750 or higher in an enrollment of at least 15 credit hours approved by the dean, with no grades of D or F.

Students who have been placed on school academic probation who do not meet the above requirements may apply for consideration for readmittance after completing an additional 30 credit hours in academic courses (not applied arts or nonacademic courses) with a GPA of 2.750 and no D’s or F’s for any semester in which the students were enrolled after leaving the school.

Minimum Grade Requirements for Dance Management, American Dance Pedagogy, and Entertainment Business Majors
For an arts management course (AMGT) or business course to count toward the B.S. in dance management degree, B.S. in American dance pedagogy or B.S. in entertainment business degree, a student must earn a grade of C (2.000) or higher.
Full-Time Enrollment Required
In order to remain in the Ann Lacy School of American Dance and Arts Management, students must maintain full-time enrollment (a minimum of 12 credit hours) each semester. Last-semester seniors with less than 12 credit hours of remaining degree requirements may enroll in less than 12 credit hours as long as they enroll in all of their remaining degree requirements offered by the university.

Concurrent Enrollments
Students may not enroll in courses at other colleges or universities during the fall or spring semesters while attending Oklahoma City University.

Employment in the Entertainment Industry and the Start and End of a Semester
Students will not be excused from classes, final exams, project and paper deadlines, dance leveling, or juries at the end of a semester in order to begin employment. Students may not return late for the spring semester. Students may receive permission to miss certain classes at the beginning of the academic year in August due to summer employment in the entertainment industry. The process for receiving permission to return late in August is posted on the dance and arts management call boards each year and must be followed carefully.

Policy-Based Program
The Ann Lacy School of American Dance and Arts Management is governed by policy documents which include Dance Standards and Procedures, Entertainment Business Standards and Procedures, Parents’ and New Students’ Guide to the Oklahoma City University Dance Department, and Parents’ and New Students’ Guide to the Entertainment Business Program. Students, faculty, and staff within the school are expected to adhere to the policies described in these documents.

Performance Opportunities for Dancers
Dancers may audition for The American Spirit Dance Company, Oklahoma City University Pep Dancers, Spirit of Grace Liturgical Dancers, and opera and musical theater productions presented by Oklahoma City University’s Oklahoma Opera and Music Theater Company. They may also find performance opportunities in the popular annual Student Choreography Show and M.F.A. Thesis Performances.

American Spirit Dance Company members and arts management majors may apply to be considered for The American Spirit Dance Company’s special touring company, which travels and performs nationally and internationally. Students’ transportation and lodging expenses for tours are paid by The American Spirit Dance Company.

Performance Opportunities for Entertainment Business Majors
Entertainment business majors constitute a multifaceted group with interests in all aspects of the arts and entertainment industry. Performing opportunities include university choirs, university theatre, children’s theatre, university band, university orchestra, and Oklahoma Opera and Music Theater Company. There are also a multitude of bands and ensembles formed by students providing opportunities for instrumentalists, vocalists, and songwriters.

Degree Programs
The Ann Lacy School of American Dance and Arts Management offers the degrees of Bachelor of Performing Arts in dance performance (B.P.A.), Bachelor of Science in dance management (B.S.), Bachelor of Science in entertainment business (B.S.), Bachelor of Science in American Dance Pedagogy (B.S.), Bachelor of Arts in dance (B.A.), and the Master of Fine Arts in dance (M.F.A.).

Commitment to Education
The Ann Lacy School of American Dance and Arts Management is committed to developing future leaders in the entertainment industry. We strongly believe that the best leaders are those who are not only thoroughly trained in performance or arts management, but who also are well educated in the liberal arts. We believe that a solid education produces greater opportunities and personal rewards for our students. Students are expected to maintain a balanced semester schedule that includes academic as well as performance or arts management classes.
DANCE DEPARTMENT

Chair: Rowan
Faculty: Brooks, Fay, Gebb, Marcum, Martin, Oplotnik, Rogers, Sandel, Shaw, Shelley, Stevens, van der Merwe, Warford, Wilcox
Adjunct: Lathan

Mission and Purpose

In 1981, the Oklahoma City University dance department was reconceived and reorganized as a career-oriented program offering students the opportunity to study tap, jazz, and ballet with an emphasis on theatre dance. The program aims to create well-rounded performers, arts managers, and dance teachers. Dance performance majors study voice, drama, music, and technical theatre to become “triple threats,” a show business term for the performer who can dance, sing, and act. Dance management majors study arts management and business to prepare for a variety of management jobs in the performing arts. American dance pedagogy majors study business, choreography, and the art of teaching dance to help them become well-prepared dance teachers.

The dance program has a double consumer orientation: It strives to meet the needs of career-oriented students who seek education, training, and experience in a professionally oriented program, and it strives to meet the needs of its own and future audiences by teaching students that audiences must always be remembered and entertained. In fact, the dance program is founded on the belief that art and entertainment are not mutually exclusive.

It is also the purpose of the dance program to instill in its students renewed appreciation and respect for the American dance forms. The dances and songs that evolved out of the American experience and traditions communicate to a larger audience than the more traditional Western European art forms.

Ballet is taught as a common framework and for the mental and physical discipline and training it provides. Even though the dance program offers more ballet training than most traditional ballet/modern programs at other universities, ballet is not a primary feature of the program, and modern is omitted as a result of a conscious effort to avoid duplication of the many outstanding ballet and modern programs taught throughout the region and nation.

The dance program narrows its focus to entertainment and theatre dance and excels in these areas. It is the purpose of the dance department to maintain a national reputation as the university to attend if one wants a college degree and a career in musical theater or entertainment dance, dance management, or dance instruction and choreography.

Being a dance major and enrolling in dance classes is a privilege granted by the university, not a right. Due to the strenuous nature of dance and the career orientation of the dance program, the university reserves the right to determine the eligibility of any student to continue majoring in dance and enrolling in dance classes based on considerations including, but not limited to, health and weight; regular attendance of dance classes; focus and commitment; probable success in attaining the dance degree as determined by the dance faculty’s evaluation of the student’s technical progress measured by leveling examinations at the end of each semester; and a student’s record of active participation and growth as an artist and performer as measured by various performance proficiency examinations and academic progress.

Regular class attendance is related to health and safety. A dancer who does not study and train regularly is subject to increased incidents of injury. Weight in dance is both an aesthetic and a health and safety consideration. Excess weight causes misalignment and levering of body parts that can lead to injury.

Dance Major

All students wishing to major in dance performance, dance management, or American dance pedagogy or to attend dance classes must audition and be leveled and approved for admission into dance classes or into the dance program by the dance department chair. Students wishing to enter the dance program in the fall semester should audition during the preceding fall or spring. Students wishing to enter the dance program in the spring semester should audition during the preceding fall. DVD auditions are accepted during the summer.

Students who are not able to audition in person may audition for admission by submitting a nonreturnable audition DVD and questionnaire. Students are strongly encouraged to audition in person.

Students wishing to be considered for a dance performance, dance management, or American dance pedagogy tuition scholarship should plan to audition in person at the dance department chair. Students auditioning for a scholarship should plan to audition in person at the dance program in the spring semester should audition during the preceding fall. DVD auditions are accepted during the summer.

For information about audition dates or recorded audition requirements, contact the dance department by phone at (405) 208-5644 or by e-mail at dance@okcu.edu, or visit our Web site at www.okcu.edu/dance_amgt.

Weight Policy

Since the dance program is oriented toward preparing dancers for professional careers, weight is a very important factor in a student’s success, happiness, health, grades, and retention in the dance program. Students seeking admission into the dance program will be evaluated in part on their weight and body structure.
Due to the variety of body types and structures, it is not possible to develop a weight/height table for objectively evaluating dancers. This is a subjective area, and judgments about weight and appearance are made solely by the dance faculty.

Students who are considered by the dance faculty to be significantly overweight or underweight or who have structural problems will not be admitted as dance majors and may not be permitted to take A and B technique classes. They may take basic movement classes by permission.

Dance majors who do not achieve and maintain acceptable dance weight may be counseled out of the program at any time. Students are encouraged to seek professional assistance in setting up a nutritious weight adjustment and maintenance program. Dancers who are not able to actively participate in dance classes may be counseled out of the program at any time or may be required to drop their dance courses.

The dance department adheres to a uniform grading policy that applies the same grading standards to all students in dance technique courses regardless of academic major, prior dance training, or personal goals.

The weight and appearance standards for professional dancers in the musical theater and entertainment industries, as determined by the dance faculty, apply to all ballet, jazz, and tap courses at the A and B levels. Final course grades for students not meeting these standards, as determined by the course instructors, will be reduced one complete letter grade (e.g. a B- to a C-).

Double Majors
Dance performance, dance management and American dance pedagogy majors may not double major. The dance program is extremely demanding and time consuming due to its professional career orientation. Dance majors are involved in physically rigorous classes and rehearsals, performances, runouts, and tours. These activities take considerable time, energy, and concentration. Fatigue caused by overextension can cause illness, injury, psychological and emotional distress, poor grades, and loss of scholarships.

Minors
Dance performance majors who are interested in minoring in another subject area are strongly encouraged to do so. There are many minors available through other departments on campus. Most minors require 18–21 credit hours of concentrated work in a specified subject area. Information about minors can be obtained from the department in the subject of interest.

Dance performance majors should decide early in their college careers if they wish to pursue a minor and in which subject. This is because they can use the six hours of electives required by the dance degree to satisfy requirements in their minor subject. In this manner, a student can usually obtain a minor with 12–15 credit hours of work beyond the dance performance degree requirements.

American dance pedagogy majors interested in a minor should review requirements with their academic advisor and the school in which they wish to obtain their minor.

Health and Safety
The dean of the Ann Lacy School of American Dance and Arts Management or the chair of the dance department may require a student to take a physical at the student’s expense before granting permission for the student to participate in dance classes and activities. The dean of the Ann Lacy School of American Dance and Arts Management or the chair of the dance department may also suspend a student’s participation in dance classes and dance activities out of concern for the health and safety of the student. The dean of the Ann Lacy School of American Dance and Arts Management or the chair of the dance department may require that a student be examined by a physician at the student’s expense and be cleared for full participation in dance technique classes and dance activities before the student may resume participation.

Nondance Majors and Dance Technique Classes
Only students in degree programs specifically requiring dance technique courses may enroll in a dance technique course. Dance courses may not be used to meet activity requirements of nondance majors.

All students must obtain permission from the dean of the Ann Lacy School of American Dance and Arts Management to enroll in a dance course.

All students must be leveled by the dance faculty to be eligible to enroll in dance technique courses. Subject to availability. Contact the Dance Office at (405) 208-5322 for information about leveling schedules.

THRE 1503 Acting II 3

or

OMT 1182 Acting: Opera and Music Theater I 2
OMT 1282 Acting: Opera and Music Theater II 2

and Acting III, IV, V or VI 2

*Students must take at least one theatre dance class, but may substitute up to 3 credit hours of pointe, partnering or rhythm tap.

**Music fundamentals is a prerequisite for voice courses. Students may test out of this course.* Students must select one acting sequence and take subsequent courses in the same department as that in which they took the first course.

Senior Performance and Technical Proficiency Exam

Students must apply to the dance program for permission to take the senior performance and technical proficiency exam. A student may be denied permission if the dance faculty determines that the student is unlikely to achieve required graduation levels. A student may be denied permission if achieving the predetermined graduation weight cannot be healthily accomplished within the available remaining time before the scheduled date of the senior performance and technical proficiency exam. A student may be denied permission if the dean of the Ann Lacy School of American Dance and Arts Management or the chair of the dance department believe that participation in the components of the exam jeopardize the student’s health and safety. Detailed information about applying for permission to take the senior performance and technical proficiency exam and application procedures are contained in the Dance Standards and Procedures.

Professional appearance, weight as it affects technique, and professional presentation of self will be considered in determining levels and grades in dance technique classes.

In order to be awarded a B.P.A. in dance performance degree, dance performance majors must attain the following minimum competency levels as determined by the dance department and the chair of the dance department.

First-Choice Dance Style Master level 7
Second-Choice Dance Style Master level 6
Third-Choice Dance Style Master level 5

In order to attain the required graduation levels, students may need to complete more than the minimum required credit hours in dance technique classes.

Dance performance majors must successfully complete a senior performance project that includes the performance of a solo dance of two to three minutes in length. The dance must be an original work created during the senior year. The senior performance project is adjudicated as either Satisfactory or Unsatisfactory by the dance faculty on the basis of the quality of performance and choreography. To graduate with the B.P.A. in dance performance degree, a student must attain at the time of the senior performance and technical proficiency examinations a graduation weight established by the dance department. The graduation weight is established during the semester of planned graduation or during the semester before planned graduation.

In the event that a student does not succeed in one or more components of the proficiency exam, the following policies apply:

1. At the discretion of the dance department chair, within seven days after the first examination, the student may be given a re-examination covering the portion of the examination that he or she previously failed.
2. The student will have a maximum of eighteen months to take a second exam(s) of any and all portions of the examination which the student originally failed. During this period, the student may retake the required portion(s) no more than three times (not including the re-examination described in item 1, above).
3. The student must retake all failed portions of the examination at the same time.
4. The student may not schedule the first retake earlier than ninety days after the original examination.
5. The student must apply in writing to the dance department chair to schedule a retake and must indicate what measures have been taken to prepare for successful completion of the examination.
6. In the event that the student fails to successfully complete all parts of the proficiency examination within eighteen months and the three allowed retakes, the B.P.A. in dance performance degree will not be awarded and no additional examinations will be given.

BACHELOR OF ARTS IN DANCE
The Bachelor of Arts in dance degree option is offered only to Oklahoma City University students who have completed all the course requirements for the Bachelor of Performing Arts in dance (B.P.A.) but have been unable to take or pass the Senior Dance Performance and Technical Proficiency Examination required for the B.P.A. in dance performance degree. No other classification of dance majors or other students are eligible for this degree program.

Eligible students must select courses totaling 24 credit hours from an approved list of courses offered through the Petree College of Arts and Sciences. No more than two courses may be selected from the same department, unless the student declares a minor upon entering the B.A. in dance program. A student may take academic courses in a single department necessary to fulfill requirements for a minor, but must take the balance of courses in other departments with no more than two courses in a single department. Applied, studio, and skills courses required for a minor will not count toward the 24 credit hour requirement.

Courses taken by the student before entering the B.A. in dance program will not count toward the 24 credit hour requirement. For a course to count toward the B.A. in dance degree, the student must earn a grade of C (2.000) or higher. To enroll in a course, the student must meet the prerequisite and permission requirements of the department offering the course. All courses must be taken in residence at Oklahoma City University. Once a student elects to pursue the B.A. in dance, the student is no longer eligible to take or retake the Senior Dance Performance and Technical Proficiency Examination required for the B.P.A. degree.

For a complete list of approved courses, contact the dean of the Ann Lacy School of American Dance and Arts Management.

Competency in Dance Technique – Ballet/Tap/Jazz
Competency in ballet, tap, and jazz technique are determined by leveling examinations. A level 5 in the student’s first choice and level 4’s in the student’s second and third choice technique are required for graduation. Students who do not attain the minimum requirements will not be permitted to graduate with the B.S. in American dance pedagogy degree.

In order to attain the required graduation levels, students may need to complete more than the minimum required credit hours in dance technique courses.

Competency in Basic Music Knowledge
American dance pedagogy majors must demonstrate basic music theory knowledge. This competency may be met by successfully completing Music Fundamentals or passing the Music Fundamentals equivalency test.
ARTS MANAGEMENT DEPARTMENT
Chair: Bedford
Faculty: Jacquemain, Risi, Shelley
Adjunct Faculty: Cosby, Millsap

The arts management department seeks to prepare students to become managers in the entertainment and performing arts industries or to become performers or creative talent who can better manage or understand the management of their business affairs. Arts management courses are designed to combine theory with practical application. Many courses require extensive projects, which can be used later by students as part of their job search portfolio. Hands-on experiences are provided through the many performance activities and productions presented both on and off campus.

Career-related tracks should be selected in consultation with the director of entertainment business. The tracks provide the student with an opportunity to select courses from a list designed to support his or her specific management interests in the entertainment industry. Because the Ann Lacy School of American Dance and Arts Management offers a B.S. in dance management, the entertainment business program and the career-related academic electives may not be used to create a customized dance or dance management track.

WANDA L. BASS SCHOOL OF MUSIC

The Bass School of Music is renowned for its exceptional training of musicians in the liberal arts tradition. For eighty years its graduates have been in demand as singers, conductors, composers, instrumentalists, educators, critics, and commentators. Bass School of Music alumni include Grammy, Tony, and Emmy award winners. It is the only school in the world to be both an all-Steinway institution and a member of the National Alliance for Music Theater. Over the past decade, students have enrolled from forty-eight states and five continents.

The school’s versatile faculty features nationally known performers, composers, and clinicians who excel at teaching. Twelve Oklahoma City University professors play in professional orchestras. Top guest artists give frequent performances and master classes. Students are well schooled in the classics and involved in the creation and exploration of new works.

Oklahoma City University’s Oklahoma Opera and Music Theater Company presents eighteen performances of six shows each year. Ensembles, open to all university students by audition, include the Symphony Orchestra, Wind Philharmonic, Ad Astra Women’s Choir, Men’s Choir, Chamber Choir, Percussion Ensemble, Flute Choir, Jazz Ensemble, and Jazz Arts Combo. Project 21, organized by student composers, presents concerts of original works at least five times a year, and singers plan and perform programs for an informal on-campus cabaret. More than two hundred performances, ranging from solo recitals to collaborations involving several ensembles, are staged during the academic year.

Accreditation
The school is a full member of the National Association of Schools of Music. The requirements for entrance and graduation as set forth in this catalog are in accordance with the published regulations of this association.

FIELDS OF STUDY

Bachelor of Music
Students preparing for a career in the fields of performance, music theater, private teaching, music business, church music, or composition enroll in a four-year degree program. The music education curriculum requires four and one-half years.

Performance includes piano, organ, voice, guitar, and all of the orchestral instruments. The music education degree is offered in vocal and instrumental education.

Bachelor of Arts
The Bachelor of Arts degree is offered with a major in music. Requirements incorporate core applied music and academic studies with additional course work from the general education studies. Students pursuing the B.A. in music degree can customize their elective courses to acquire the prerequisites for medical school, law school, or graduate business school (M.B.A.).

Master of Music
This degree allows advanced study in the fields of opera performance, musical theater, composition, conducting, and performance (instrumental and voice). See the graduate catalog for detailed information.

Preparatory Division
The Performing Arts Academy offers noncredit programs for pre-college students and continuing education for adults in all instruments and voice, early childhood music, and ensembles.

The Faculty
Professors at the school are carefully chosen based on their educational, teaching, and performance backgrounds. Faculty members are active performers, composers, and researchers, but their top priority is teaching. The faculty is committed to student success. Each student receives individual attention. No classes are taught by graduate students or teaching assistants.

Facilities
The Bass School of Music is housed the 113,000-square-foot state-of-the-art Wanda L. Bass Music Center and the historic Kirkpatrick Fine Arts Center. Opened in 2006, the Bass Music Center features high-tech music labs for voice, composition, and sound recording as well as thirty-seven teaching studios, sixty practice rooms, seven ensemble rehearsal rooms and an organ practice facility with a Brombaugh organ. Each classroom, teaching studio, practice room, rehearsal space, and performance hall features at least one Steinway piano. The Bishop W. Angie Smith Chapel houses Oklahoma City University’s organ performance program. The Italian-designed chapel is built around German stained glass windows depicting the four seasons. The main sanctuary features seating for 650. The chapel’s newly restored seventy-rank Holtkamp organ and two practice organs make the chapel a center of musical activity for the campus and the city.

Oklahoma City University is the home of The Oklahoma Opera and Music Theater Company. Opera and musical theater productions performed in the 1,119-seat Kirkpatrick Auditorium are enhanced by special lighting, costume, and scenic design from on-campus technical theatre faculty, staff, and students. The facilities include an orchestra pit capable of holding an orchestra of fifty and full dressing rooms. The 500-seat Petree Recital Hall hosts orchestral, wind band, jazz band, choir, small ensembles, and recitals. The hall is designed for audio and television recording of performances. The 255-seat Burg Theatre is used for major dramatic productions, lectures, and other special presentations. The black box theatre offers innovative options,
including in-the-round staging and staggered platforms to create multiple levels for performers and/or audience members. Features include thirty-six-foot high ceilings and a dedicated light and sound booth. A more intimate venue is provided by the 46-seat Wimberly Room, which features state-of-the-art equipment for recording and multimedia presentations. The Wimberly Room is used for master classes, lectures, and recitals.

The Dulaney-Browne Library houses a collection of books, periodicals, and recordings in the areas of music and the performing arts. The Leichter Library in the Bass School of Music features more than thirty thousand recordings and scores. Students have access to a computer/keyboard laboratory with Web access and extensive capabilities for composition, music sequencing, and computer-assisted learning.

Advising
The Bass School of Music gives individual advising attention to each student. In the field of music—where aptitudes, career-interests, and the individual preferences of students vary—advising is of great importance. All music students are assigned a faculty advisor. The faculty advisor must be consulted prior to each semester’s enrollment. The coordinator of student services assists with the enrollment process.

Organizations
The Bass School of Music sponsors several student musical organizations: University Singers, Concert Choir, Chamber Choir, Surrey Singers, Wind Philharmonic, Symphony Orchestra, Percussion Ensemble, Jazz Arts Ensemble, Jazz Combo, Pep Band, Flute Choir, Double Bass Ensemble, and small instrumental and vocal ensembles. Project 21 is a consortium of Oklahoma City University composers who collaborate with vocalists and instrumentalists to bring new musical works to life. Students also form informal groups that perform in clubs from Oklahoma City to Austin. Student societies include Alpha Zeta Chapter (1928) of Sigma Alpha Iota, an international music fraternity for women; Alpha Epsilon Chapter of Pi Kappa Lambda (1960), national music honor society; and Phi Mu Alpha Sinfonia (1994) for men.

Performance
A full calendar of musical events is presented to the general public and university community each year. Guest artists give performances and master classes for students and the community.

More than 500,000 people have attended Oklahoma City University performances here and abroad. The Oklahoma Opera and Music Theater Company, Symphony Orchestra, Surrey Singers, Wind Philharmonic, and Chamber Choir have all toured extensively, including several international tours. Oklahoma City University students travel widely, bringing their special talents to other parts of the world while learning from and interacting with other cultures.

Oklahoma City—A Thriving Cultural Center
Concerts by touring virtuosi, along with innumerable recitals and concerts by faculty and students, make Oklahoma City one of the most vital performing arts centers in the Southwest. The city is also home to the Oklahoma City Philharmonic, Oklahoma City Ballet, Canterbury Choral Society, Bright Music, Lyric Theatre, and a variety of other musical and theatrical organizations.

Employment
The Placement Office assists students in finding part-time employment in the performing arts or a related area while attending the university. Advanced music majors may have opportunities to teach in the Performing Arts Academy. Students are made aware of national auditions and competitions throughout the academic year by the Bass School of Music and by studio instructors. On-campus auditions are held by professional organizations including Lyric Theatre, Music Theater of Wichita, Disney, Busch Gardens, Opryland, Discoveryland, Oklahoma Children’s Theatre, Oklahoma Shakespeare in the Park, and City Rep.

The Placement Office staff and Bass School of Music faculty make every effort to assist graduates in finding suitable positions. Employers seeking qualified performers and teachers frequently contact the university. Students pursuing graduate study frequently win admission to the world’s top universities and conservatories.

Admission Requirements—Music
In addition to meeting the general university admission requirements, all students wishing to major in music must be accepted through audition. See www.okcu.edu/audition-info.aspx for current audition requirements. The applicant should have the following musical qualifications:

1. To enter the B.M. curriculum in piano or organ, the student should be able to play creditably such compositions as the Bach “Two-Part Inventions” and the easier sonatas of Haydn and Mozart. The student should be able to play major and minor scales, chords, and arpeggios with accurate fingering at a moderately rapid tempo.

2. To major on an orchestral instrument, the student should be able to play compositions of above-average difficulty on his or her instrument.

3. To enter the curriculum in voice, the student should have ability as a singer and knowledge of the rudiments of music. Some background in piano is highly desirable.

4. To enter the curriculum in vocal music education, the student should have a satisfactory singing voice and knowledge of music fundamentals. The ability to play simple piano music is highly desirable.

5. To enter the curriculum in instrumental music education, the student should be able to play at least one
band or orchestral instrument well enough to have performed in a high school band or orchestra.

6. Candidates for the curriculum in composition must audition as a vocalist or instrumentalist, submit several scores and/or recordings of original work for evaluation, and complete an interview with the composer-in-residence.

7. To enter the curriculum in guitar, the student should be able to play compositions equal in difficulty to the studies of Sor, Giuliani, Carulli, or Carcassi, and be able to play major and minor scales, chords, and arpeggios.

8. To enter the curriculum in music theater, the student should have ability as a singer, dancer (ballet, tap, or jazz), and actor. The student should have genuine interest in becoming proficient in these areas of performance.

9. All new transfer students who have not successfully completed freshman and sophomore music theory requirements must take the music theory advisory examination. The examination is scheduled during the first week of classes of both fall and spring semesters.

10. If a student is enrolled in a degree program at Oklahoma City University, prior approval by the dean must be obtained before taking courses at another institution for the purpose of applying those courses to a degree program at Oklahoma City University.

The Bass School of Music will accept transfer credit for music or related courses in which the student has a grade of C (2.000) or higher from institutions that are accredited by NASM. For further information on scholastic and admission audition dates, call the coordinator of student services at (405) 208-5980.

Credits in Applied Music (Performance)
Credits earned for private lessons in voice, piano, organ, guitar, or orchestral instrument are designed as credits in performance. The amount of credit earned in performance depends on the number of lessons per week, the amount of practice, and whether the student is advanced enough to earn major credit; it also depends on whether he or she is taking an instrument or voice as a secondary or minor requirement for his or her degree.

General Regulations
1. A student in the Bass School of Music follows the same academic and general regulations as students in other schools in the university. See the Academic Regulations section of this catalog. See the Expenses and Financial Aid section for information about payment of tuition and fees, scholarships, and grants-in-aid.

2. Each student is carefully assigned to his or her major applied teacher. Requests for change must be submitted to the dean in writing with an explanation for the change. Changes cannot be made during a semester. Petitions are available from the coordinator of student services. Students must discuss their desire to change studios with their current professor before inquiring about study with another professor.

3. All students enrolled for credit in applied music, except Oklahoma City University employees and/or faculty, must take a final exam (“jury”). All students are required to register for a jury time and date when the lists are posted. After a time and date have been scheduled, it cannot be changed or exchanged with another student. To avoid scheduling conflicts with other examinations, the final examination schedule for the university should be consulted before a student registers for a jury time and date. A student may be excused from taking a jury only in the case of a documented major illness, personal tragedy, or national disaster. A missed jury must be made up in the full semester immediately following the semester in which the jury was canceled. Make-up juries are posted in the Bass Music Center and take place during the first two weeks of the next full semester. A student failing to schedule a make-up jury may not advance in performance level.

4. Private lessons that have been missed, except in case of protracted illness, will be made up at the convenience of the teacher, provided twenty-four hours advance notice of the absence is given the teacher and reasons for such missed lessons are acceptable. A teacher is not required to make up a lesson that the student has missed without first contacting the teacher as described above.

5. Students late for private lessons will receive only the remaining portion of the lesson period.

6. Music students must receive permission from their applied music teachers and the dean prior to accepting musical engagements outside of the university. Permission to Perform Off-Campus forms are available on Starnet.

7. Unless otherwise specified, the term ensemble, as found in the following curricula, refers to one of the major ensembles: Symphony Orchestra, Wind Philharmonic, Ad Astra Women’s Choir, Men’s Choir, Chamber Choir, and University Singers. The major ensemble to which a singer is assigned is determined by audition. The major ensemble for string players is the Symphony Orchestra. The major ensemble for wind and percussion majors is the Wind Philharmonic. Selected wind and percussion majors are also expected to participate in the Symphony Orchestra, Jazz Arts Ensemble, and Pep Band, as assigned. All students are strongly encouraged to participate in the various small ensembles in their area of performance. The ensemble participation requirements apply during each semester the student is enrolled for seven hours or more, regardless of the number of semesters the student is enrolled at the university. The total ensemble requirements must be met before the degree can be completed. All voice students are required to audit for all opera and music theater productions and to perform in them if cast.

8. All candidates for the B.M. degree except piano, organ, and composition majors are required to pass a piano
proficiency test. Failure to do so is a barrier to graduation. All students must take a minimum of one semester of piano before they are allowed to sit for the piano proficiency examination.

9. Music education students must comply with the “Admission to the Teacher Education Program” requirements as stated in the Department of Education section of this catalog. Music education majors are required to perform satisfactorily a half recital. This recital can be performed by memory or with music at the teacher’s discretion.

10. Students enrolled in the Bass School of Music are evaluated in all courses using the grading system included in the Academic Regulations section of this catalog. Students may not select credit/no-credit grading for any course work.

11. Credit for applied study at another institution is not transferable while a student is working toward a degree at Oklahoma City University.

12. To qualify for graduation, a student must attain the designated level of performance as specified in each of the applied performance divisions. Levels are determined at the time of the jury examinations.

13. Vocal students are required to pay a standard fee for accompanists’ services as part of their applied lessons. This fee covers accompanists’ services for studio lessons, master classes, and juries for two credit hour students, and studio lessons and juries for one credit hour students. Instrumental students must provide an accompanist as instructed by their applied teacher.

14. Regardless of the number of hours earned, a student must be enrolled in at least one credit hour of applied music lessons during the semester or term in which the recital is presented.

15. All music majors must successfully complete six semesters of Music Assembly attendance. Music Assembly credit is posted on the official transcript. Failure to meet this requirement is a barrier to graduation.

16. Applied music study requires a requisite knowledge of music fundamentals. Leveling exams in voice and basic music skills are prerequisites for Applied Voice (AMV) for all nonmusic majors. Students not at an appropriate level for private applied voice study are placed in Voice Class (AMVC) and may be required to take Music Fundamentals (MUS 1102).

General Education Requirements for All Undergraduate Majors

The general education curriculum is a requirement for all undergraduate degrees at Oklahoma City University. See the General Education section of this catalog for a complete list of required courses and competencies. Music majors in the Bass School of Music may choose to complete Science, Technology and Society OR a second Laboratory Science course (see “Laboratory Science” in Required Area). The Bachelor of Arts in Music degree also requires the completion of Wellness: KES 1302, and a Kinesiology and Exercise Study course with a 1161 or 1261 course number.

Updated lists of courses approved by the General Education Committee are available on the university Web site.

The following are suggested course sequences for each degree. Course sequences for individual students may vary. All degrees require a minimum of 124 credit hours.

**BACHELOR OF ARTS IN MUSIC WITH ELECTIVE STUDIES IN PREMEDICINE**

Music majors interested in attending medical school may select the Bachelor of Arts in music with elective studies in premedicine. These students follow the general education and major requirements for the B.A. in music degree and use the elective hours to complete the prerequisites for medical school admissions. Students electing this track are assigned both a music advisor in the Bass School of Music and a premedical advisor in the Department of Biology. The following is a list of recommended courses:

BACHELOR OF ARTS IN MUSIC
WITH ELECTIVE STUDIES IN PRELAW

Music majors interested in attending law school may select the Bachelor of Arts in music with elective studies in prelaw. These students follow the general education and major requirements for the B.A. in music degree and use elective hours to complete a suggested course of study to prepare the student for the law school admission process. Many of the recommended courses satisfy general education requirements. Students are also encouraged to participate in prelaw activities and organizations offered through the Department of Political Science.

SCHOOL OF THEATRE

Faculty: Asselin, Bellet, Cochran, Corbett, d’Angelo, Foreman, Hutchison, Marsh, Page, Palladino, Pasto, Rauschkolb
Adjunct Faculty: Adams, Bhaired, Currell, DiBello, Fall, Hicks, Huffman, Kohlman, Scholer, Vance

The School of Theatre offers a multidimensional, dynamic program that embodies the convictions of the liberal arts tradition of education. For eighty-three years its graduates have been in demand as teachers, performers, playwrights, technicians, and directors.

The school’s versatile faculty joins students in outstanding productions of plays: the classics, revitalized or newly conceived plays, and experimental works. Faculty, students, and productions from the School of Theatre have won awards at prestigious events such as The International Siglo de Oro Theatre Festival and the Kennedy Center/American College Theatre Festival.

Great training and a chance to perform, design, and direct marks the Oklahoma City University theatre experience. Every season includes six mainstage productions. Two of these productions are specifically designed for young audiences and produced in collaboration with Oklahoma Children’s Theatre, a professional company housed at and hosted by Oklahoma City University. Oklahoma City University students are also involved with the company’s entire season of professional works. The school has producing partnerships with the Oklahoma City Repertory Theatre (an Equity company) and with Oklahoma Shakespeare in the Park. Oklahoma City University’s Let’s Pretend Players provides another performance opportunity for our students. This talented group tours the region with their imaginative shows for school children throughout the year.

FIELDS OF STUDY

Three undergraduate degrees are offered: a Bachelor of Fine Arts in acting, a Bachelor of Arts in theatre performance, and a Bachelor of Fine Arts in design and production. Teacher certification in speech/drama/debate can be added to the Bachelor of Arts degree.

B.A. Theatre Performance

Undergraduates enrolled in the theatre performance program receive varied performance training—including on-camera acting, voice, and dance. The student’s cross-training in voice and dance is provided by the Bass School of Music and Ann Lacy School of American Dance and Arts Management. Students also take diction, history, theory, and technical theatre classes—all leading to a B.A. degree.

Students pursuing the B.A. Theatre Performance degree program can customize their elective courses to acquire the prerequisites for medical school, law school, or secondary education certification in speech/drama/debate. Many of the recommended courses for these emphases satisfy general education requirements and allow the students to easily tailor their degree programs towards specific professional goals in law, medicine, and education.

B.F.A. Theatre Design and Production

The B.F.A. in theatre design and production is a comprehensive degree that offers students professional theatrical training as well as a foundation in the liberal arts. The B.F.A. provides strong foundational knowledge in the areas of scenic, lighting, and costume design, technical direction, stage management, scenic technology, and costume technology. The theatre design and production program prepares students to enter the fields of theatre design, theatrical production, entertainment technology, and stage management. The program also prepares students for graduate study in theatre design, production, and technology. Course work provides “hands-on” experience in theatrical productions (ranging from theatre to musicals to opera to dance) as well as the study of theory and history of theatre.

B.F.A. Acting

The B.F.A. in acting degree is a preprofessional training program that combines the best of conservatory/studio training with the breadth of the general education requirements that have made Oklahoma City University one of the nation’s best small universities. B.F.A. actors take nine acting classes over their four years (including exciting topics classes, such as Improvisation, Chekhov, Shakespeare, Acting Styles, Auditions, and two semesters of On-Camera Acting), along with extensive voice and movement training, a study of script analysis and theatre history, and an introduction to major aspects of technical theatre and directing. Our B.F.A. Acting graduates are ready to face the challenges that confront professional actors in the 21st century entertainment job market.

The Faculty

The faculty of the School of Theatre comprises theatre professionals carefully chosen for their educational, teaching, and performance backgrounds and their genuine commitment to student success. Professors of the School of Theatre are active performers, directors, writers, and researchers. The top priority for our teachers, though, is teaching.

The faculty is personally supportive and genuinely interested in each student’s program of study, training, and experiences. No classes are taught by graduate students or teaching assistants. The close interactions between professors and students are an invaluable aspect of the educational experience at Oklahoma City University.

Admission Requirements

In addition to meeting the general university admission requirements, all students wishing to major in theatre performance and acting must be accepted through audition. Admission to the theatre design and production program
is selective. An interview, portfolio, résumé, and writing sample are required for admission. Students in the program must maintain a portfolio of their design and production work that they present at the end of each semester. There is a formal annual review and assessment of each student at the end of the spring semester. B.F.A. students are expected to maintain good academic standing and have successful reviews for their production and performance assignments. Students who do not meet these requirements could be removed from production assignments or put on probation. Continued poor performance can lead to dismissal from the degree program.

Prerequisite
Students for whom English is a second language are required to achieve a score of at least 55 on the Test of Spoken English.

Credit/No-Credit
Students in the School of Theatre are required to be evaluated on the traditional grading system for all general education courses and on all courses taken in their majors. A maximum of 12 credit hours of elective courses may be taken on the credit/no-credit grading system.

General Regulations
1. A student in the School of Theatre follows the same academic and general regulations as students in other schools in the university. See the Academic Regulations section of this catalog. See the Expenses and Financial Aid section for information about payment of tuition, scholarship, and grants-in-aid.

2. Theatre performance and acting majors are required to audition for all department productions; if cast, they are to make themselves available for all scheduled rehearsals and performances.

3. Theatre majors must have the permission of the dean before accepting outside theatrical engagements.

4. Failure to comply with the university’s and School of Theatre’s academic and general regulations may result in disciplinary action and/or loss of scholarship.

5. Being an Oklahoma City University theatre major is a privilege granted by the university, not a right. Due to the intense activity, performance demands, and career orientation of the theatre program, the university reserves the right to determine the eligibility of any student to continue majoring in theatre based on considerations including, but not limited to, regular attendance of classes, focus and commitment, positive participation in departmental productions and activities, technical progress, and probable success of attaining a theatre degree. Determinations and subsequent counseling are made by the theatre faculty and administration through evaluations and observations gleaned from the regular semester auditions, performances, and classroom evaluations.

6. Private voice lessons have prerequisite levels in both singing and music fundamentals to assure success in the studio setting. Leveling occurs at the beginning of the semester. Students can level towards private voice lessons multiple times. If the student does not meet the required vocal level, they may be enrolled in Class Voice. Class Voice can be taken multiple times. Three semesters of Class Voice can also fulfill the voice requirements for the B.A. in theatre performance and the B.F.A. in acting.

MASTER OF SCIENCE IN NURSING

DOCTOR OF NURSING PRACTICE (D.N.P.)

DOCTOR OF PHILOSOPHY (Ph.D.)
Kramer School of Nursing (KSN) offers several undergraduate programs leading to a Bachelor of Science in Nursing (B.S.N.) degree. For students who want to enter nursing, the Gateway programs prepare successful candidates for the Registered Nurse (RN) licensure examination and include a traditional full-time B.S.N. degree, a part-time B.S.N., and a sixteen-month accelerated B.S.N. for students who already have bachelor’s degrees in other fields. KSN also offers a professional advancement B.S.N. degree program specifically designed for RNs who have associate degrees or diplomas in nursing. Students pursuing the B.S.N. who already have bachelor’s degrees in other fields, regardless of which B.S.N. program they pursue, have already fulfilled the equivalency of the university’s general education requirements. KSN also offers a Master of Science in Nursing (M.S.N.), a Doctor of Nursing Practice (D.N.P.), and a Doctor of Philosophy (Ph.D.).

Kramer School of Nursing is accredited by the National League for Nursing Accrediting Commission.

Role and Responsibility of the Oklahoma Board of Nursing

The Kramer School of Nursing is approved by the Oklahoma Board of Nursing. Graduates of this state-approved program are eligible to apply to write the National Council Licensure Examination (NCLEX) for registered nurses. Applicants for Oklahoma licensure must meet all state and federal requirements to hold an Oklahoma license to practice nursing. In addition to completing a state-approved nursing education program that meets educational requirements and successfully passing the licensure examination, requirements include submission of an application for licensure, a criminal history records search, and evidence of citizenship or qualified alien status. Applicants for practical nurse licensure must also hold a high school diploma or a graduate equivalency degree (G.E.D) [59 O.S. §567.5 & 567.6]. To be granted a license, an applicant must have the legal right to be in the United States (United States Code Chapter 8, Section 1621). In addition, Oklahoma law only allows a license to be issued to U.S. citizens, U.S. nationals, and legal permanent resident aliens. Other qualified aliens may be issued a temporary license that is valid until the expiration of their visa status, or if there is no expiration date, for one year. Applicants who are qualified aliens must present, in person, valid documentary evidence of:

1. A valid, unexpired immigrant or nonimmigrant visa status for admission into the United States;
2. A pending or approved application for asylum in the United States;
3. Admission into the United States in refugee status;

4. A pending or approved application for temporary protected status in the United States;
5. Approved deferred action status; or
6. A pending application for adjustment of status to legal permanent resident status or conditional resident status.

The Board has the right to deny a license to an individual with a history of criminal background, disciplinary action on another health-related license or certification, or judicial declaration of mental incompetence [59 O.S. §567.8]. These cases are considered on an individual basis at the time application for licensure is made, with the exception of felony charges. An individual with a felony conviction cannot apply for licensure for at least five years after completion of all sentencing terms, including probation and suspended sentences, unless a presidential or gubernatorial pardon is received [59 O.S. §567.5 & 567.6].

Mission

The mission of Kramer School of Nursing is to provide unique educational and service opportunities that prepare professional nurses who practice with integrity, knowledge, and compassion while positively impacting the health care needs of diverse communities.

Goals

The goals of the Kramer School of Nursing are derived from our mission. The B.S.N. graduate of the Kramer School of Nursing will function as a professional nurse able to

- Demonstrate clinical competence in the provision of ethical and legal nursing care.
- Collaborate with and educate clients regarding self-care activities designed to promote health, restore wellness, and prevent illness.
- Utilize the nursing process as a critical-thinking framework for problem solving and making effective clinical judgments.
- Promote physical, mental, social, and spiritual health across the lifespan within diverse cultures.
- Manage, coordinate, and delegate care of clients within and in collaboration with the health care system.
- Exemplify the caring behaviors of acceptance of, respect for, and empathy with the client.

Admission to the Traditional Full-Time or Part-Time B.S.N. Programs

To declare nursing as a major, incoming freshmen and sophomores must be admitted to Oklahoma City University and not be on academic probation. Oklahoma City University students changing majors to nursing also must not be on academic probation.

A student must have a 3.000 cumulative GPA or higher, a TOEFL score of 550 or higher if proof of English proficiency is required, and have junior-level nursing course prerequisites completed to progress to and enroll in junior-level nursing classes without undergoing further consideration. Traditional B.S.N. program students must have not
more than six credit hours and Part-Time B.S.N. program students not more than nine credit hours of General Education courses remaining before beginning 3000-level nursing courses.

To enroll in nursing courses, students must comply with the Oklahoma Board of Nursing mandate that all nursing students sign a disclosure statement regarding felonious acts and competency.

Admission to the Bachelor's-to-B.S.N. Program
To be considered for admission to the sixteen-month Bachelor’s-to-B.S.N. program, an applicant must meet the following requirements:
- Admission to Oklahoma City University
- A bachelor's degree in any field from a regionally accredited college or university*
- 3.000 or higher cumulative GPA
- TOEFL of 550 or higher if proof of English proficiency is required
- A grade of B (3.000) or better in any college chemistry course with a lab
- A grade of B (3.000) or better in any college microbiology course with a lab
- A grade of C (2.000) or better in any basic college psychology course
- A grade of B (3.000) or better in any college-level human anatomy and physiology course(s) covering the whole body and all systems; the anatomy portion must have had a lab

* For students whose first bachelor's degrees were earned outside the United States, English must have been the language of instruction. The first bachelor's degree must also be equivalent to a bachelor’s degree granted by a regionally accredited U.S. college or university. Course prerequisites to the Bachelor's-to-BSN program taken internationally must be equivalent to the corresponding courses offered at Oklahoma City University. These equivalencies must be determined by a company acceptable to Oklahoma City University that evaluates international transcripts.

To enroll in nursing courses, students must comply with the Oklahoma Board of Nursing mandate that all nursing students sign a disclosure statement regarding felonious acts and competency.

Admission to the R.N.-to-B.S.N. Program
In order to be accepted into the R.N.-to-B.S.N. program, an applicant must have the following:
- A cumulative grade point average of 2.500 or better in previous college course work
- A score of 550 on the TOEFL if proof of English proficiency is required
- A valid active Registered Nurse license
- Be a graduate of a nationally accredited nursing program

Eligibility Statement
Due to the strenuous nature of nursing and the practice orientation of the Kramer School of Nursing program, the school reserves the right to determine the eligibility of any student to enroll or continue in the nursing major. This decision is based on considerations including but not limited to characteristics required of a professional nurse. Eligibility is determined by the faculty’s evaluation of a student’s ability to perform the skills necessary to complete the course objectives and includes attitudinal and behavioral components. These elements are re-evaluated each semester.

Every student must pass background checks and drug screenings to enter clinical settings. Inability to meet these requirements will prevent the student from completing the program. Graduates must also meet the licensure requirements of the Board of Nursing in the state where the first license will be sought. Such requirements may include further background checks, investigations of felony convictions, and other measures related to public safety. If in doubt about eligibility to receive a nursing license, contact the Board of Nursing for further information before proceeding with nursing school.

Progression
To progress to each sequential semester of nursing courses, the student must earn grades as specified below and complete prerequisites for that semester.

All students must earn a “C” or higher (2.000 on a 4.000 scale) in each nursing and transfer course and a “C” or higher in each required support course taken at Oklahoma City University used to complete the B.S.N. degree requirements.

In nursing courses, students must receive a minimal grade of 75 percent in theory, 75 percent in clinical application, and a passing grade in clinical performance.

All nursing courses must be completed in sequence as listed in the degree requirements unless approved by the Faculty Organization at the Kramer School of Nursing. It is the responsibility of the student to enroll in courses as they are offered. Students may repeat only one nursing course. Failure to complete the repeated course with a grade of “C” (2.000) or better within two enrollments will result in dismissal from the nursing major.

Transfer of Credit
Students in the nursing major must comply with university policy concerning transfer of credit. The Kramer School of Nursing faculty evaluates transfer of nursing credit from other nationally accredited associate and baccalaureate programs. All courses transferred into the major must encompass the equivalent breadth and depth of courses offered in the Kramer School of Nursing. Evaluation of stu-
dents requesting transfer from another accredited nursing program will be based upon the following:
- letter of recommendation from the dean/director of the former school
- complete syllabus or course description of each nursing course completed
- request for specific course substitution and any other materials deemed relevant

A grade of less than C (2.000) in any course will not be considered for transfer. Each transferred course must be approved by the dean or designee of the Kramer School of Nursing.

Grading Policy
Students enrolled in the Kramer School of Nursing will be evaluated in all courses using the grading system described in the Kramer School of Nursing Student Handbook. The school does not accept credit/no-credit grades.

Graduation/Licensure
Students with a nursing major must comply with university policy on graduation procedures. Upon completion of all requirements for graduation, students in the Gateway B.S.N. programs are eligible to apply for the NCLEX-RN® examination. It is the responsibility of the student to complete the application during the last semester of the senior year. Candidates for licensure in Oklahoma who have been arrested for or convicted of any offense—including a deferred or suspended sentence—within the past five years, or have ever been convicted of a felony, or have ever had disciplinary action taken against another health-related license, or have ever been judicially declared incompetent are required to notify the Oklahoma Board of Nursing prior to being approved to write the NCLEX-RN®. Failure to report such action may be a violation of the Oklahoma Nursing Practice Act.

Clinical Experience
In conjunction with the clinical experience, students must accept certain responsibilities which include, but are not limited to, the following:
- Transportation to the clinical area and to other special laboratory assignments
- Evidence of selected immunizations
- Evidence of current CPR certification at the appropriate level from an approved provider
- Additional expenses for nursing uniforms and equipment beginning at the junior level
- Background check and drug screen

CURRICULUM
A minimum of 124 credit hours is required for the B.S.N. degree, including 56 hours in the major. The following is the science and nursing curriculum sequencing for the various Gateway B.S.N. nursing majors (see separate listing of general education course requirements). Students should

work with their advisors in enrolling to ensure that they complete the nursing prerequisites and all requirements by their expected graduation date.

All nursing classes meet on one half day each week. No additional science or math courses are required other than those required for the diploma or associate's degree in nursing. A variety of options are available for general education courses, including independent study, internet courses, and traditional classroom courses. The B.S.N. requires a total of 124 credit hours:

- 72 hours granted for an active R.N. license and either an associates degree or a diploma in nursing from a nationally accredited nursing program.
- 30 credit hours taken at Oklahoma City University (including 18 in nursing)
- 22 transfer, portfolio, and/or additional credits from Oklahoma City University

---

### Master of Science in Nursing (M.S.N.)

The Kramer School of Nursing also offers a Master of Science in Nursing (M.S.N.) degree with two tracks: nursing education and nursing administration. Also offered through the M.S.N. program is an M.S.N./M.B.A. option. See the Oklahoma City University Graduate Catalog for more information.

### Doctor of Nursing Practice (D.N.P.)

Kramer School of Nursing also offers a Doctor of Nursing Practice (D.N.P.) degree. See the Oklahoma City University Graduate Catalog for more information.

### Doctor of Philosophy (Ph.D.)

Kramer School of Nursing also offers a Doctor of Philosophy (Ph.D.) degree. See the Oklahoma City University Graduate Catalog for more information.
ACCOUNTING (ACCT)

2113  FINANCIAL ACCOUNTING  3 HOURS
Procedures and principles of financial accounting for sole proprietorships, partnerships, and corporations; financial statements; journal and ledger techniques. (fall, spring, summer)

2213  MANAGERIAL ACCOUNTING  3 HOURS
Procedures and principles of managerial accounting for analysis and decision making within an enterprise; introduction to cost accounting. Prerequisite: ACCT 2113. (fall, spring, summer)

3113  INTERMEDIATE ACCOUNTING I  3 HOURS
Financial accounting theory underlying accounting practices; format and content of the income statement and the balance sheet; generally accepted accounting principles applied to assets and liabilities. Prerequisite: ACCT 2113. (fall, spring, summer)

3123  INTERMEDIATE ACCOUNTING II  3 HOURS
Generally accepted accounting principles applied to owner's and stockholder's equity; special financial accounting problems associated with investments, revenue, income taxes, pensions, leases, accounting changes, and prior period adjustments; format and content of the statement of cash flows. Prerequisite: ACCT 3113. (fall, spring, summer)

3213  COST ACCOUNTING  3 HOURS
Cost accounting fundamentals; cost-volume-profit relationships; budgets and standards as keys to planning and control; relevant costs for pricing decisions; capital budgeting. Prerequisite: ACCT 2113. (fall, spring)

Designed to provide the skills and knowledge necessary to understand financial statements and information, to make financial decisions, to design and institute improvements in management control, to determine and work with ethical uncertainties, and to develop and manage the budgeting process. Fund accounting is explained as a building block for nonprofit financial reporting. Issues faced by the chief executive of smaller organizations such as unemployment compensation, workers compensation, and self-insurance are covered. Prerequisite: ACCT 2213. (spring, even)

ART

1003  ART HISTORY: SURVEY I  3 HOURS
A survey course covering the history of art and architecture from prehistory to the Renaissance. (fall)

1043  FOUNDATION TWO-DIMENSIONAL DESIGN  3 HOURS
The understanding and application of design and color using the basic principles and elements of design. The use of composition within a limited space; learning to see with the mind. (fall)

1103  ART HISTORY: SURVEY II  3 HOURS
A survey course covering the history of art and architecture from the Renaissance to the contemporary. (spring)

1113  INTRODUCTION TO VISUAL ARTS  3 HOURS
This course examines the visual arts as a means of personal expression and how these expressions reflect the values of the artists and their societies. Students interpret and evaluate works of art and learn technical aspects of art production. The visual arts are considered in relation to other art forms.

1143  FOUNDATION DRAWING  3 HOURS
Using light and shadow, proportions, texture, perspective, and various techniques. Learning to see! The coordination of eye, hand, and mind.
1243  FOUNDATION THREE-DIMENSIONAL DESIGN  3 HOURS
Focuses on the elements, principles, and concepts of three-dimensional form, with an introduction to tools, methods, and materials. (spring)

2003  ART THEORY/CRITICISM  3 HOURS
The emphasis of this course is based on the critical thinking associated with the aesthetic vocabulary of criticism, historical art theories and contemporary movements. Students will develop the skills necessary to articulate and defend a critical position about artists and works of art through writing. Students will enhance their analytical skills and bring a greater sophistication to using art theories and specific vocabulary when describing works of art in a variety of media.

2013  INTRODUCTION TO CERAMICS  3 HOURS
Introduction to the basic skills necessary to produce a finished piece of pottery. Techniques include pinch, coil, slab work, and basic throwing on the potter's wheel. Techniques and information about glazes, clay, kilns, and tools are included.

2023  FOUNDATION PAINTING  3 HOURS
This course provides an introduction to the application of various techniques and processes of oil painting. Completion of ART 1143 recommended.

2043  INTERMEDIATE CERAMICS: HAND BUILDING  3 HOURS
Continual study in ceramics. This course helps the students develop a personal technique using the hand-building process and discover new uses for clay as an expressive material.

2063  DIGITAL PHOTOGRAPHY I  3 HOURS
This is an introductory course in the digital image-making process. A strong emphasis is placed on understanding the digital SLR, point and shoot cameras, lighting, scanning, printing, and basic Adobe Photoshop as it relates to photography. A digital camera is required for this course. Prerequisite: none; however, a basic course in film photography is extremely helpful. Lab fee required. (spring)

2123  INTERMEDIATE DRAWING  3 HOURS
A continuation of Foundation Drawing stressing a wide variety of media and materials; further experimentation with drawing techniques. Explanation and application of composition and use of color. Prerequisite: ART 1143.

2143  LIFE DRAWING I  3 HOURS
Working with the complexities of the nude human figure and dealing with the proportions, values, forms, anatomy, various techniques, and media included in this discipline. Loosening the drawing style toward more facility. Prerequisite: Art 1143.

2243  INTERMEDIATE CERAMICS: THROWING  3 HOURS
This course helps students develop a personal technique on the potter's wheel and discover new uses for clay as an expressive material.

2343  INTERMEDIATE PAINTING  3 HOURS
A continuation of ART 2023, providing an in-depth concentration in oils with greater focus on the development of individual ideas and concepts. Prerequisite: ART 2023

2443  LIFE SCULPTURE  3 HOURS
Modeling and sculpting in clay. Subject matter includes portrait, figure, and stylization in sculpture. Prerequisite: ART 1243

2503  PHOTOGRAPHY HISTORY I  3 HOURS
A lecture and hands-on course that explores the history of photography from 1839 through 1945. Emphasis is on processes, photography movements, and photographers. (fall)

2603  DIGITAL PHOTOGRAPHY II  3 HOURS
This course is an advanced continuation of Digital Photography I. Special emphasis is placed on intermediate to advanced Adobe Photoshop techniques as they apply to fine art photography. A digital camera is required for this course. Prerequisite: ART 1803. Lab fee required. (spring)

2663  BASIC FILM PHOTOGRAPHY  3 HOURS
This is an introductory course in fine art black and white film photography. Strong emphasis is placed on camera functions, acquiring the negative, and film and print processing. The goal is to establish an understanding of photography aesthetics while building work skills in camera and darkroom techniques. A short introduction to digital photography is given. Students must provide a camera with manual capabilities. Lab fees required. (fall)

2703  PHOTOGRAPHY HISTORY II  3 HOURS
A lecture and hands-on course that explores the history of photography from 1946 through the present. Emphasis is on processes, photography movements, and photographers. Lab fee required. (spring)

2803  STUDIO LIGHTING  3 HOURS
This course introduces the use of artificial lighting in a controlled studio environment. Various lighting techniques are demonstrated and applied in a series of exercises with still life, portraiture, and commercial lighting. Both photography and electronic flash are used. Emphasis is on the technical mastery of lighting equipment coupled with aesthetic understanding of lighting principles. Lab fee required. (spring)

2863  ARTS & CRAFTS  3 HOURS
Application of techniques, materials, and projects for elementary and high school teaching. A variety of media and craft projects are suggested or available for either nonteachers or prospective teachers. This class is for beginners through intermediate.

2903  INTERMEDIATE FILM PHOTOGRAPHY  3 HOURS
A continuation of basic black and white photography stressing camera and darkroom techniques. Emphasis is on camera control, composition, film and print quality, filters, and print presentation. Students must provide a camera with manual capabilities. Prerequisite: ART 1663. Lab fee required. (spring)

3023  INTRODUCTION TO PRINTMAKING  3 HOURS
This course provides a variety of printmaking experiences including intaglio, relief printing, serigraphy, and monotypes.

3043  INTRODUCTION TO SCULPTURE  3 HOURS
Explore the basic methods and techniques of various sculptural and three-dimensional designs. Emphasis is on three-dimensional composition and form. Prerequisite: Art 1243

3063  GALLERY TECHNIQUES/ART EXHIBITION FOR NONPROFITS  3 HOURS
Students are introduced to techniques of art-handling as well as art exhibition, installation, and preparation. Course includes practicum and reading problems.

3113  ART HISTORY: MODERN  3 HOURS
An examination of the period of art beginning c. 1770 through WWI. The primary focus is on 19th century painting, known for the imaginative exploration and invention of its artists, as well as
international expressions unified by shared ideals. This course is extremely helpful in understanding much of the foundations of contemporary art, but is a captivating and valuable period of study in itself.

3123 PRINTMAKING: SERIGRAPHY 3 HOURS
This class is devoted to learning the materials, processes, and techniques of serigraphy (silkscreen) and creating original prints that are best expressed through this process.

3143 WATER-BASED MEDIA 3 HOURS
Students have the opportunity to learn the basic techniques and materials used to create traditional watercolors in addition to exploring a wide variety of water-based media and mixed media.

3203 ART HISTORY: HIGH RENAISSANCE 3 HOURS
An in-depth examination of sixteenth-century Italian painting, sculpture, and architecture, emphasizing that of Florence, Venice, and Rome. Historical, cultural, religious, and theoretical frameworks are discussed.

3213 ART HISTORY: BAROQUE 3 HOURS
Explores birth of Baroque in Rome and the role of the Counter-Reformation in shaping artistic genres in Italy and France in the early 17th century. Covers influence of the Versailles court of “Sun King,” Louis XIV, in the late 17th and early 18th centuries.

3223 LITHOGRAPHY 3 HOURS
This class is devoted to learning the materials, processes, and techniques of lithography and creating original prints.

3243 RELIEF PRINTING 3 HOURS
This printmaking class is devoted to learning the materials, processes, and techniques of relief printing and creating original prints.

3303 ART HISTORY: CONTEMPORARY 3 HOURS
This course addresses the major art movements from the end of World War II to the present day and the individual artists whose work has played a key role within these movements. Ideas and concepts are increasingly important in the creation of work that is considered contemporary. Understanding the rapidly changing debate as to “what is art” is paramount in order to understand, analyze, and discuss contemporary art.

3323 INTAGLIO 3 HOURS
This printmaking class is devoted to learning the materials, processes, and techniques of intaglio and creating original prints that are best expressed through this process.

3343 LIFE PAINTING I 3 HOURS
This course emphasizes the naturalistic representation of the human figure using oil painting techniques. Students develop skills in the accurate observation of anatomy, the structure of the figure, color, value, and of the form in space.

3363 TECHNOLOGY FOR ARTISTS 3 HOURS
Application of technology and concepts as they expand the possibilities of traditional fine art and photography. Includes a basic understanding and hands-on use of computer programs employing emphasis on application in the student’s individual discipline.

3463 MATERIALS AND PROCESSES 3 HOURS
Required of B.F.A. studio majors. Students produce works using both traditional and contemporary materials and processes.

3503 LARGE FORMAT PHOTOGRAPHY 3 HOURS
This is an introduction to the large format style of photography. Emphasis is on camera technology, aesthetics, developing film, making the large format print, and learning the zone system. Still life, architecture, portraiture, and landscape photography are covered. Lab fee required. (fall)

3543 CERAMIC SCULPTURE 3 HOURS
Application of clay, plaster, etc., modeling, employing additive and subtractive construction methods.

3603 FINE ART DIGITAL PRINTING 3 HOURS
This course places emphasis on various color and black and white printing methods with various archival and nonarchival papers. The objective of this course is development of a coherent digitally printed body of creative photographic images printed to the highest professional standards. Lab fee required. (spring)

3643 RAKU AND SURFACE 3 HOURS
This is an upper-division ceramics course that focuses on both the function and form of utilitarian fine art objects. Emphasis is on surface and glazing techniques.

3703 BLACK AND WHITE TECHNIQUES 3 HOURS
This course explores various black and white film development and printing techniques through the use of specialized developers. Black and white digital techniques are covered through the use of Photoshop and black and white printing. Further emphasis is placed on print design and presentation. Lab fee required. (spring)

3743 LIFE DRAWING II 3 HOURS
A continuation of Life Drawing I stressing further complexities, including composition, total space, and more sophisticated style and media. Prerequisite: ART 2143

3803 SPECIAL TOPICS 3 HOURS
This course allows students to specialize in depth with technical and theoretical problems and processes. Requires greater student involvement in refinement of techniques and processes in conjunction with a specific conceptual problem. Junior-level or above consistency is expected of the student.

3843 LIFE PAINTING II 3 HOURS
A more personal approach to painting the human figure. In addition to improving accurate observation of anatomy, the structure of the figure, color, value, and of the form in space, students begin to apply various painting techniques as they explore their individual interpretation of the subject.

3903 COLOR TECHNIQUES 3 HOURS
This course explores the use of color as an aesthetic tool in the hands of the creative or fine art photographer. While the emphasis is on the use of negatives, reversals, and instant films and print materials, attention is also paid to color theory, perception, aesthetics, and the use of alternative color processes. Lab fee required. (fall)

3913 ALTERNATIVE PROCESSES (PHOTOGRAPHY) 3 HOURS
This is a technical and practical introduction to various nonsilver photography techniques and processes. Emphasis is placed on history, chemicals, papers, and the negative. Processes covered are platinum, palladium, cyanotype, and daguerreotype. Additional processes are discussed. Lab fee required. (fall)

4063 ART INTERNSHIP 3 HOURS
Internship in area of special interest. Instructor’s permission required.

4163 SENIOR EXHIBITION/CAPSTONE 3 HOURS
All B.F.A. majors are required to take this course during their final semester. Instructor’s permission required prior to enrollment.
4213 BUSINESS OF ART 3 HOURS
Principles of investment and selling art, including portfolio, exhibition, and business information.

4263 ADVANCED CERAMICS 3 HOURS
This independent study course is designed specifically for ceramics portfolio building. Students explore advanced modes of form and structure in ceramics with an emphasis on individual expression.

4293 INDEPENDENT STUDY (STUDIO OR PHOTO COURSE) 3 HOURS
This is a senior level, student-directed course. Students are responsible for designing and implementing course work appropriate to their area of specialization. Contracts and instructor approval required.

4303 ART CRITICISM 3 HOURS
A text-based examination of Western art theory and criticism from the mid-twentieth century to the present. Advanced writing and research skills are required.

4343 FABRICATION TECHNIQUES 3 HOURS
This is an upper-division ceramics course that focuses on both the function and form of utilitarian and fine art objects. Emphasis is on various construction methods.

4413 SPECIAL TOPICS ART HISTORY 3 HOURS
Investigation of a chosen or assigned area of art history.

4423 ADVANCED PRINTMAKING 3 HOURS
This independent study course is designed specifically for printmaking portfolio building. Students explore advanced modes of pictorial structure and printing processes with an emphasis on individual expression.

4583 ADVANCED PHOTOGRAPHY 3 HOURS
This independent study course is designed specifically for photography portfolio building. Student selects topic and direction. Lab fee required. (spring)

4643 ADVANCED DRAWING 3 HOURS
This independent study course is designed specifically for drawing portfolio building. Students explore advanced modes of form and structure in drawing, with an emphasis on individual expression.

4743 ADVANCED PAINTING 3 HOURS
This independent study course is designed specifically for painting portfolio building. Students explore advanced modes of pictorial structure and painting processes with an emphasis on individual expression.

4893 SPECIAL TOPICS/STUDIO ART 3 HOURS
This course allows students to explore in depth technical and theoretical problems and processes. Requires greater student involvement in refinement of techniques and processes in conjunction with a specific conceptual problem. Senior-level or above consistency is expected of the student.

ARTS MANAGEMENT (AMGT)

1711, ARTS MANAGEMENT 3 HOURS
1712, INTERNSHIP 1, 2, 3 HOURS
The internship provides the arts management student with an opportunity to apply and temper newly gained knowledge in arts management within the context of an actual performing arts or arts service organization. The nature and content of the internship is negotiated among the student, the host organization, and the arts management advisor. (TBA)

1743 INTRODUCTION TO ENTERTAINMENT BUSINESS I 3 HOURS
Introduction to Entertainment Business I is the first of two survey courses, examining components of the entertainment industry in today’s ever-changing world. The course includes investigation into professional employment opportunities within the management side of the industry. Students are exposed to professional fundamentals of the industry’s varied corporate cultures, comportment, proposal preparation, written and oral presentation skills and managing production meetings. Primary focus is given to student comprehension of expectations and accepted professional practices within the industry. The class culminates in students’ preparation of a long-range planning document; an examination of what it will take to graduate from college with a personal blueprint, taking into account; education, experience, networking, leadership, finances, and material preparedness for a career in entertainment. (fall)

1753 INTRODUCTION TO ENTERTAINMENT BUSINESS II 3 HOURS
Introduction to Entertainment Business II is the second of two survey courses, examining components of the entertainment industry in today’s ever-changing world, with special attention given to the Entertainment Business Program professional tracks. Students explore the challenge facing administrators, producers, publicists, managers, agents, distributors, technicians, and talent. This course continues the investigation of professional employment opportunities in the management side of the industry through guest entertainment professionals’ presentations in class. Class discussion includes history, trends, economic impact of entertainment in our communities, consumer behavior, media savvy, accessibility, and the Internet in an increasingly global industry. (spring)

2713 INTRODUCTION TO ENTERTAINMENT TECHNOLOGY FOR ARTS MANAGERS 3 HOURS
An introductory course to foster an understanding and appreciation of the mechanics and processes involved in creating and producing an entertainment project. Attention is given to how the technical aspects of a production in the entertainment industry evolve from initial conception to final presentation. Students learn how producers and managers communicate effectively with directors, designers, and technicians working in the entertainment industry. Guidelines and techniques for creating and managing budgets pertaining to the technical aspects of an entertainment project are examined. Sophomore standing required. (spring)

3383 DANCE STUDIO TECHNOLOGY 3 HOURS
Study of technology and production management utilized within dance studios to support performances and instruction. For dance teacher majors only. (fall)

3393 DANCE STUDIO MANAGEMENT 3 HOURS
This is a course in how to establish, operate, and build a successful dance studio. All aspects of studio management are covered, including site location, physical plant requirements, classes to be

164 COURSE LISTINGS UNDERGRADUATE CATALOG
offered, development of teaching staff, promotion, office management, and recitals. Junior standing required. For dance management majors only. (spring)

3573 ENTERTAINMENT VENUE MANAGEMENT 3 HOURS
An introduction to the key concepts and techniques employed by a venue's manager to plan, budget, market, and utilize a performing arts, sports, or multipurpose venue. Included will be examinations of the various types of venues, their organization and management styles, scheduling, staff, maintenance, and specific marketing and budgeting techniques. Additional items covered will include safety and security for both employees and patrons, types of events utilizing the various venues, ancillary services, volunteer management, government imposed regulations, and careers in facility management. (TBA)

3701 ARTS MANAGEMENT COSTUME LAB 1 HOUR
This course covers the techniques of constructing, maintaining, and managing costumes for a professional performing arts company. For arts management and dance teacher majors only. (fall, spring)

3703 STAGE MANAGEMENT AND PRODUCTION 3 HOURS
A comprehensive examination of stage management for a broad range of theatre and entertainment events, examining the stage manager's backstage and front-of-house responsibilities from preproduction planning through postproduction. Students gain an understanding of the synergistic nature of production elements: direction, lighting, sound, sets, props, costumes, ticket office, and front-of-house management. Course topics include auditions, event planning, master calendars and scheduling, production meetings, running effective rehearsals, preparing the space, taking blocking notation, giving cues, making rehearsal reports, coordinating between director and division heads, preparing for rehearsals, running performances, and understanding human behavior as it relates to show production. The course includes a lab component consisting of show production assignments coordinated through the instructor. Junior standing required. (fall, spring)

3713 MANAGEMENT OF NONPROFIT ARTS ORGANIZATIONS 3 HOURS
An introduction to the management of nonprofit performing arts organizations from the perspective of the general manager. The course covers organizational structure, boards of directors, staffing, budgeting, finance, marketing, fund-raising, and operations. Junior standing required. For arts management and dance teacher majors only. (fall)

3723 TOURING PERFORMING ARTS ORGANIZATIONS 3 HOURS
An introduction to the key concepts and techniques needed by a performing arts tour manager for planning, budgeting, marketing, and implementing a tour by a performing arts organization. Junior standing required. For arts management majors only. (fall)

3733 DEVELOPMENT AND FUND-RAISING 3 HOURS
An examination of the theory, practice, and techniques for raising funds and financial support for nonprofit, tax-exempt organizations such as orchestras, dance companies, opera companies, and theatres. For arts management majors only. (spring)

3742 CONTRACTS AND MANAGEMENT FOR PERFORMERS/ARTS MANAGERS 2 HOURS
For the student planning a professional performance career, this course is designed to provide basic but important information about contract law for performers, organizational structures in the performing arts, performing arts unions, artist agents and managers, unemployment insurance, and workers’ compensation. Junior standing required. (performers' section in fall and spring; arts managers and dance teacher sections in spring.)

3753 ENTERTAINMENT MARKETING 3 HOURS
The principles of marketing, advertising, and public relations are applied to promoting shows, concerts, and other performing arts events, organizations, and talent in order to achieve specific goals set by the artist or artist manager. Junior standing required. For arts management majors only. (spring)

3763 NONPROFIT ACCOUNTING FOR THE ARTS 3 HOURS
The principles of managerial accounting and finance applied to the not-for-profit arts environment. Junior standing required. For arts management majors only. (spring)

3773 THEATRE MANAGEMENT 3 HOURS
An examination of managing a professional dramatic theatre. Topics include general management, operations, fund-raising and development, budgeting, planning, boards of directors, community relations, staff and artistic personnel issues, audience development, play selection, and current trends. Junior standing and departmental permission required. (TBA)

3793 DANCE COMPANY MANAGEMENT 3 HOURS
An examination of dance company management and the issues confronting dance managers. General arts management knowledge and techniques are specifically applied to managing professional dance companies. The course focuses on issues of concern to general managers, company managers, and stage managers for dance companies and dance-intense stage productions. Prerequisite: AMGT 3713. For arts management majors only. (TBA)

4701 COMPUTERS FOR ARTS MANAGERS 1 HOUR
A class designed to advance performing arts managers' knowledge of and ability to apply the use of personal computers to performing arts management tasks. The course focuses on the uses of both common software as specifically applied to the performing arts as well as entertainment industry-specific software including, but not limited to, box office management, event coordination and planning, and the design and execution of entertainment technology. For arts management majors only. (TBA)

4783 DANCE STUDIO MANAGEMENT 3 HOURS
Capstone for dance teacher majors. This is a course in how to establish, operate, and build a successful dance studio. All aspects of studio management are covered, including site location, physical plant requirements, classes to be offered, development of teaching staff, promotion, office management, and recitals. Junior standing required. For dance teacher majors only. (spring)

4793 PRESENTING AND SPONSORING PERFORMANCES 3 HOURS
Capstone course for entertainment business and dance management majors. An examination of the issues and considerations required to produce, sponsor, or present performances for performing arts series, festivals, and residencies. The course covers all aspects of presenting, including organizational structure, planning programming, budgeting, financing, marketing, and implementing sponsored performances. Senior standing required. For arts management majors only. (spring)
2214 GENERAL BOTANY 4 HOURS
This is a survey course designed to examine plant structure and function. The emphasis is on mechanisms of plant adaptation to the environment. The laboratory involves hands-on activities related to concepts and principles discussed in lecture. Three hours of lecture/discussion and three hours of laboratory each week. Prerequisite: BIOL 1214. (spring)

2314 INTRODUCTORY MICROBIOLOGY 4 HOURS
This course, intended for nursing majors and students who plan to enter allied health fields, is an introduction to the structural and functional characteristics of microbes with a focus on bacteria and viruses. The importance of microbes to human health and welfare is a principle perspective in the architecture of this course. The laboratory component is devoted to the acquisition of skills required in the study of bacteria. Three hours of lecture/discussion and three hours of laboratory each week. Prerequisites: CHEM 1025 or equivalent and BIOL 2003 or equivalent, or permission of the instructor. (spring)

2414 GENERAL ZOOLOGY 4 HOURS
This course is a study of animal structure and function with an emphasis on animal diversity and mechanisms of adaptation to the environment. Most laboratory sessions include dissection of preserved specimens of the animals discussed in lecture. Three hours of lecture/discussion and three hours of laboratory each week. Prerequisites: BIOL 1214 or equivalent, or BIOL 2003, 2041, 2013, and 2141, or permission of instructor. (spring)

2852 MEDICAL VOCABULARY 2 HOURS
This course is designed for students who are in the biomedical track or premedicine track. The course focuses exclusively on terminology required for medical practitioners. (spring)

3003 GENETICS 3 HOURS
This course deals with the fundamental principles and mechanisms of genetics, including structure and function of nucleic acids; mechanisms of inheritance and genetic change; similarities and differences in viral, prokaryotic, and eukaryotic systems; applications of statistics and other analytical tools to understanding the mechanisms of genetics; and an introduction to population genetics and related questions in molecular evolution. Three hours of lecture/discussion each week. Prerequisite: BIOL 1214 or equivalent and a college chemistry course, or permission of instructor. (fall)

3014 INVERTEBRATE ZOOLOGY 4 HOURS
A study of the structure and function of invertebrate groups. Three hours of lecture and three hours of laboratory each week. Prerequisite: BIOL 1214 and BIOL 2414 or permission of instructor. (TBA)

3041 GENETICS LABORATORY 1 HOUR
Laboratory investigations in Mendelian and non-Mendelian inheritance using experimental systems such as bacteria, bacteriophage, Drosophila, and Arabidopsis, and an introduction to techniques and tools used in the molecular genetics laboratory, that may include DNA isolation and manipulation, electrophoresis, PCR, and cloning techniques. Three hours of laboratory each week. Prerequisites: BIOL 3003 or concurrent enrollment or permission of instructor. (TBA)

3851-8 DIRECTED STUDY IN BIOLOGY 1–8 HOURS
Level designed for individual or small group study within specialized areas of biological science. Under appropriate faculty guidance, study opportunities range from specialized course work (i.e., courses not listed in the catalog) and seminars or colloquia to participation in a specific research project. The course level shown
3114  GENERAL MICROBIOLOGY  4 HOURS
This course, intended for majors in biology and related fields, focuses on the structure and physiology of microorganisms, with an emphasis on bacteria. The skills required to handle and study bacteria are acquired in the lab portion of the course. Three hours of lecture/discussion and three hours of laboratory per week. Prerequisites: BIOL 1214 or equivalent and CHEM 1104 or equivalent, or permission of instructor. (fall)

3214  COMPARATIVE ANATOMY  4 HOURS
Morphology of the organ systems in animals with special emphasis on vertebrates, providing a basis for the structural and developmental history of humans and other animals. Detailed dissection of selected vertebrates. Three hours lecture/discussion and three hours of laboratory each week. Prerequisites: BIOL 1214 and either BIOL 2414 or BIOL 2003, 2041, 2103, and 2141, or permission of instructor. (fall, odd)

3314  PRINCIPLES OF ECOLOGY  4 HOURS
This course is designed for biology majors. Emphasis is placed on ecological theory in an effort to explain the development and maintenance of natural ecosystems. Field trips are included. Three hours lecture and three hours laboratory each week. Prerequisite BIOL 1214 or equivalent. (fall, odd)

3414  COMPARATIVE PHYSIOLOGY  4 HOURS
The integration of neural, hormonal, nutritional, circulatory, and excretory functions of the animal as related to cell-origin interrelationships. Laboratory exercises include instrumentation and techniques required for the study of animal systems. Three hours lecture/discussion and three hours of laboratory each week. Prerequisites: BIOL 1214 and either BIOL 2414 or BIOL 2003, 2041, 2103, and 2141, or permission of instructor. (fall, even)

3514  CELL BIOLOGY  4 HOURS
Principles of cellular activity, molecular structure and protoplasm, surface and osmotic phenomena, permeability, energy exchange mechanisms, and the biochemistry of cellular replication. Three hours lecture and three hours laboratory each week. Prerequisite: BIOL 1214 or permission of instructor. (spring, even)

*3714  GENERAL BIOCHEMISTRY  4 HOURS
See CHEM 3714.

3851-8  DIRECTED STUDY  1–8 HOURS
(fall, spring)

3914  PLANT SYSTEMATICS  4 HOURS
This course emphasizes the origin and evolutionary patterns of vascular plants with an emphasis on flowering plants. The importance of various techniques used in the development of classification schemes, including those related to computer analyses and molecular biology, are discussed. Reproductive biology of flowering plants constitute a significant component of this course. The laboratory emphasizes the flora of Oklahoma. The course consists of three hours of lecture and three hours of laboratory per week. Prerequisite: BIOL 2214. (TBA)

*4114  ANIMAL BEHAVIOR  4 HOURS
A comparative study of the behavior of animals in their natural environments. Emphasis is placed on the ecological and evolutionary significance of the behavior of lower vertebrates and invertebrates. Two hours lecture discussion and two three-hour laboratory periods each week. Prerequisite: BIOL 1214 or permission of instructor. Crosslisted PSYC 4114. (TBA)

4214  MOLECULAR BIOLOGY  4 HOURS
This course focuses on biologic processes at the molecular level, including in-depth study of nucleic acids, gene organization, and gene expression. Modern recombinant DNA technology and approaches are addressed throughout the course. Three hours of lecture and three hours of laboratory each week. Prerequisite: junior or senior standing or permission of instructor. (spring, odd)

4314  PATHOGENIC MICROBIOLOGY AND IMMUNOLOGY  4 HOURS
This course addresses the mechanisms by which microorganisms, especially bacteria, cause disease. The human immune responses to invasive microorganisms also will be covered. Three hours of lecture/discussion and three hours of laboratory per week. Prerequisites: BIOL 3114 and junior or senior standing or permission of instructor. (spring)

*4403  ADVANCED BIOCHEMISTRY  3 HOURS
See CHEM 4403.

*4442  LABORATORY TECHNIQUES IN BIOCHEMISTRY  2 HOURS
See CHEM 4442.

4502  BIOLOGY CAPSTONE  2 HOURS
This course fulfills the general education capstone requirement for all biology majors. The student completes a capstone project that requires conducting laboratory or library research on an approved question drawn from the field of biology. Course requirements include a written paper, which draws on the primary research literature in addressing the research question and an oral presentation of the capstone project to the department. Prerequisite: senior standing. (fall)

4881-8  INTERNSHIP  1–8 HOURS
Structured and evaluated experiential learning in a biology-related organization. Number of credit hours and location arranged through the Department of Biology. Prerequisite: junior or senior standing and permission of the department chair. (TBA)

4991-8  RESEARCH  1–8 HOURS
Research projects are conducted under appropriate faculty guidance. By permission of department chair only. (TBA)

CHEMISTRY (CHEM)

1101  ORIENTATION TO CHEMISTRY  1 HOUR
The following topics will be discussed in this course: using the chemistry literature, library resources, and online resources; technical writing in chemistry; commonly used chemistry software programs; the sub disciplines in chemistry; ethical issues in science; laboratory safety; and professional and graduate opportunities for chemists and biochemists. Required for all freshman chemistry and biochemistry students. (fall)

1003  SCIENCE, TECHNOLOGY, AND SOCIETY  3 HOURS
Topics discussed include the scientific method, the concept of a scientific theory, science vs. pseudoscience, science vs. technology, and scientific/technological issues that are important for modern society.

1014  CHEMISTRY IN MODERN LIFE  4 HOURS
A course for the nonscience major that includes the basic vocabulary and concepts of chemistry and the acquisition of chemical knowledge and applications of chemistry. Three hours of lecture/discussion plus three hours of laboratory each week. This course satisfies the general education laboratory science requirement.

This course provides students understanding of the role of research and information technology in providing evidence based practice in child advocacy studies. Research design, research ethics, research interpretation, and research application are examined. This is an elective course for the minor. Prerequisites: CAST 3013, CAST 3214, and 4014, or permission of the instructor. (TBA)

**4014 RESPONDING TO THE SURVIVOR OF CHILD ABUSE AND SURVIVOR RESPONSE 4 HOURS**
This course focuses on preparing students to recognize the effects of child maltreatment and intervene with children and their families from a multidisciplinary approach. This is a required course for the certificate and minor. Prerequisites: CAST 3013 and CAST 3214, or permission of the instructor. (fall, odd)

**4084 CAST CAPSTONE EXPERIENCE 4 HOURS**
This synthesis course provides students with experiential learning in agencies involved with child maltreatment and child advocacy. This course allows students to expand their understanding of concepts of child advocacy, experiential learning, and evidenced based practice in approved settings. This is a required course for the minor. Prerequisites: CAST 3013, CAST 3214, and CAST 4014, or permission of the instructor. (spring, even)

**2011-12 COURSE LISTINGS**
3013 INTRODUCTION TO CHINESE LITERATURE AND CULTURE 3 HOURS
This course involves an overview of the literature of China in English translation, with additional focus on Chinese culture as necessary for greater understanding of its literature. Emphasis is placed on the masterpieces of Chinese literature, primarily from Tang Dynasty poetry to the modern Chinese novel. The course is primarily a reading course. (spring)

3113 ADVANCED CHINESE I 3 HOURS

3213 ADVANCED CHINESE II 3 HOURS

4851-3 DIRECTED READING 1–3 HOURS

4991-3 INDEPENDENT STUDY 1–3 HOURS

COMPUTER SCIENCE (CSCI)

1514 ALGORITHM DESIGN AND PROGRAMMING I 4 HOURS
A study of the principles and techniques of algorithm development and computer programming. The emphasis is on problem-solving techniques and the logic of program structure. This course may serve as a first course in computer science for students with programming experience. Otherwise, the course should follow CSCI 1003. Encoding, entering, and running programs comprise a significant part of the course. Three hours of lecture and two hours of laboratory each week. (fall)

1614 ALGORITHM DESIGN AND PROGRAMMING II 4 HOURS
A study of structured programming. The emphasis is on advanced programming concepts, including multidimensional arrays, pointers, recursion, and the syntax of classes. Encoding, entering, and running programs comprise a significant part of the course. Three hours of lecture and two hours of laboratory each week. Prerequisite: CSCI 1514. (fall, even)

2004 COMPUTER STRUCTURES, ASSEMBLER, & DIGITAL DESIGN 4 HOURS
A study of the organization and architecture of computer systems. Topics include logic gates, combinational logic circuits, processor design, computer arithmetic, caching techniques, memory organization, input and output, assembly languages, and machine languages. Three hours of lecture and two hours of laboratory each week. Prerequisite: CSCI 1614. (fall, even)

2303 JAVA 3 HOURS
A study of programming techniques in Java including fundamental programming structures and concepts, GUI applications and applets, and introductory concepts in object-oriented programming. Previous experience in at least one high-level programming language is assumed. Two hours of lecture and two hours of laboratory each week. Prerequisites: CSCI 1614 or permission of instructor. (fall, even)

3114 DATA STRUCTURES 4 HOURS
The development of the concepts and techniques of structuring data for efficient storage and retrieval. Topics include linked lists, trees, stacks, queues, hash tables, sorting, and searching. Three hours of lecture and two hours of laboratory each week. Prerequisites: CSCI 1614 and MATH 1503. (fall, spring)

3303 NETWORKING AND DATA COMMUNICATION 3 HOURS
A study of computer networks. Topics include packet switching, routing flow control and congestion avoidance, communication protocols and interfacing, high-level protocols, terminals in the network, message authentication, network optimization, and system network structure. Prerequisites: CSCI 2004, CSCI 3114, and MATH 1503. (spring, odd)

3503 DISCRETE MATHEMATICS 3 HOURS
A survey of selected methods of reasoning and objects of study in discrete mathematical structures. Topics include Big O notation, elementary math (logic, set relations, functions, and number theory), proof and counting techniques, recurrence relations, graph theory, and trees. Prerequisite: MATH 1503 or three years of high school algebra. Recommended: MATH 2004. (fall, spring)

3613 DATABASE DESIGN AND MANAGEMENT 3 HOURS
An introduction to application program development in a database environment. Topics include loading, modifying, and querying the database; database normalization; and entity-relationship modeling and database analysis, design, and implementation. Prerequisite: one programming language. (fall)

3863 SPECIAL TOPICS IN COMPUTER SCIENCE 3 HOURS
A study of a special topic in computer science; subject and prerequisite may vary. (TBA)

4003 PROGRAMMING LANGUAGES 3 HOURS
A study of the concepts of programming languages, including the definition of syntax vs. semantics, data types and abstractions, expressions, control structures, functions, subprograms, binding, and exception handling. A brief study of logic programming and functional programming are included. Prerequisite: CSCI 3114. (TBA)

4063 SENIOR SEMINAR 3 HOURS
A capstone course required for all computer science majors. Topics include computer science ethics and law, computing and society, and recent research in computer science. Prerequisite: senior standing or permission of instructor. (spring)

4203 LOGIC FOR COMPUTER SCIENCES 3 HOURS
A survey of classical and modern logic including Boolean operators, truth tables, and Karnaugh maps; theorems, argument verification, inference rules, and proof techniques in zeroth- and first-order logic; multivalued logics; and fuzzy logic, including applications such as artificial intelligence and controllers. Prerequisite: MATH 2004. (fall, spring)

4213 INTRODUCTION TO SOFTWARE ENGINEERING 3 HOURS
An overview of the major aspects of contemporary software engineering designed to introduce students to the software development life cycle as defined by various software-engineering paradigms. Development of a team programming project, including system documentation, is an important part of the course. Prerequisites: CSCI 1614 and CSCI 3114. (fall, spring)

4303 INTRODUCTION TO OBJECT-ORIENTED PROGRAMMING 3 HOURS
Topics include the object model, classes and objects, classification, object-oriented analysis and design, class libraries, object-oriented languages and applications. Writing object-oriented pro-
grams comprise a significant portion of the course. Prerequisite: CSCI 3114. (spring, even)

4313 INTRODUCTION TO OPERATING SYSTEMS 3 HOURS
A study of system management and control software in a variety of hardware and user environments. The course illustrates common approaches to the development of operating systems and examines in more detail several existing operating systems that will be of continuing importance in the future. Encoding, entering, and running programs are a part of the course. Two hours of lecture and two hours of laboratory each week. Prerequisites: CSCI 3114 and CSCI 2004. (fall)

4582-3 INTERNSHIP IN COMPUTER SCIENCE 2,3 HOURS
A practicum working with computers. The work may be on campus or by arrangement with an off-campus facility. Prerequisites: senior standing and 24 credit hours of computer science. (TBA)

4603 ADVANCED DATABASES 3 HOURS
A quantitative study of the tools and methodology of database design. The intent of the course is to equip a student to design a conceptual database, specify its implementation, and predict the performance of the system when implemented. Topics include hashing, B-trees, database structures and schemas, structured query language (SQL), and system performance and protection. Experience with ORACLE and DBMS is assumed. Two hours of lecture and two hours of lab per week. Prerequisite: CSCI 3613. (fall, spring)

4983 INDEPENDENT STUDY 3 HOURS
Individualized study of a particular topic in computer science under the supervision of a member of the faculty. By permission of instructor. (TBA)

4991 PRACTICUM IN PROGRAMMING 1 HOUR
A survey of practical techniques in solving problems using high level computer languages and preparation for local, regional, and national programming competitions. This course is required for students who wish to participate in the Oklahoma City University Programming Team, which requires travel to contest sites. Enrollment by permission of instructor only. (TBA)

DANCE (DANC)

1111+, 1131+, 1311+, 1511+
BASIC MOVEMENT—BALLET, JAZZ, TAP
1 HOUR
Introductory courses to ballet, jazz, or tap technique for the beginner. May not be applied to the requirements of the B.P.A. in dance degree. Open to students with dance degree requirements only. (fall, spring)

1131+, 1311+, 1511+
BALLETS, JAZZ, TAP
1 HOUR
Introductory courses to ballet, jazz, or tap technique for the beginner. May not be applied to the requirements of the B.P.A. in dance degree. Open to students with dance degree requirements only. (fall, spring)

1131+, 1311+, 1511+
BALLETS, JAZZ, TAP
1 HOUR
Introductory courses to ballet, jazz, or tap technique for the beginner. May not be applied to the requirements of the B.P.A. in dance degree. Open to students with dance degree requirements only. (fall, spring)

DANCE (DANC)

1131+ DANCE WORKSHOP I
1 HOUR
An orientation class focused on the examination of the professional music theater rehearsal and backstage environment with special attention to personal professionalism during class, rehearsals, and performance. Open to dance majors only. (fall)

1152 DANCE HEALTH
2 HOURS
An examination of health issues of vital concern to professional dancers—nutrition, communicable diseases, and prevention and care of injuries. Open to dance majors only. (fall)

1171 MUSICALS FOR DANCERS
1 HOUR
This course introduces dance performance and dance management majors to dance performance opportunities in American musicals through film, lecture, and discussion. Special attention is given to plots, historical significance, composer/librettist/choreographer teams, and important dance and production numbers. Open to dance majors only. (fall)
budding, image development, résumé development, auditioning strategies, information sources for job opportunities, Equity requirements, and more. Dance majors only, with junior standing. Dance department approval required. (spring)

3623 SURVEY OF HISTORY OF DANCE FOR DANCE TEACHERS 3 HOURS
An in-depth study of the history of primitive dance through ballet and modern dance to meet the needs of the dance teacher. An extensive research project is required. For dance teacher majors only. Prerequisite: ENGL 1113 & 1213; junior standing. (fall)

3633 HISTORY OF AMERICAN DANCE FOR DANCE TEACHERS 3 HOURS
An in-depth study of the history of American music theater dance and dance for the entertainment industry. An extensive research project is required. For dance teacher majors only. Prerequisite: DANC 3623; junior standing. (spring)

3642 HISTORY OF TEACHING DANCE 2 HOURS
An historical examination of the development of ballet, jazz, and tap dance technique and the development of instructional systems and methodologies for helping dancers to advance through a continuum from beginner to advanced levels. For dance teacher majors only. Prerequisite: ENGL 1113 & 1213; junior standing. (fall)

3792-3892 DANCE HISTORY:
1. BEGINNING TO TWENTY-FIRST CENTURY (FALL) 2 HOURS
2. AMERICAN DANCE (SPRING) 2 HOURS
The first course traces the history of primitive dance through ballet and modern dance. The second course concentrates on the development of American music theater dance. For dance performance and dance management majors only. Prerequisite: ENGL 1113 & 1213; junior standing.

3912 ANATOMY AND PHYSIOLOGY FOR DANCERS 2 HOURS
This course emphasizes understanding how the dancer’s body functions and how to avoid injury. For dance performance and dance teacher majors only. Prerequisite: junior standing. (fall, spring)

4283 CHOREOGRAPHY FOR DANCE TEACHERS I 3 HOURS
An in-depth study of the theory and fundamentals of choreography and composition in all dance forms. Students are presented with a wide variety of choreographic challenges requiring attention to issues including style, casting, music, audience, and ethnic/cultural influences. For dance teacher majors only. Prerequisite: DANC 4412, 4512, or 4712. (fall)

4291 CHOREOGRAPHY—THEORY 1 HOUR
Basic theory and fundamentals of choreography and composition in all dance forms. For dance performance majors only. Prerequisites: junior standing and approval of the dance department. (spring)

4391 CHOREOGRAPHY—PERFORMANCE 1 HOUR
Capstone course for dance performance majors. The student is provided an opportunity to apply choreography theory and composition, resulting in a public performance. Students must select music, choreograph an original dance, hold auditions, cast, determine costume and technical requirements, and rehearse and clean their dances, which are presented in the annual Student Choreography Show. Evaluation is by course instructor and faculty jury. For dance performance majors only. Prerequisites: DANC 4291, senior standing and approval of the dance department. (fall)

4293 CHOREOGRAPHY FOR DANCE TEACHERS II 3 HOURS
A continuation of work begun in DANCE 4283 with increasing focus on choreographing within a workshop environment for dancers of varying ages and abilities. An increasing focus is placed in analyzing and critiquing the work of peers and professional choreographers. For dance teacher majors only. Prerequisite: DANC 4283. (spring)

4412, (FALL) BALLET, JAZZ, TAP PEDAGOGY I AND II 4422, (FALL) FOR DANCE TEACHERS 2 HOURS
4512, (SPRING) 4522, (SPRING) 4712, (SPRING) 4722 (FALL)
These courses cover the academic and practical sides of preparing students to become qualified professional teachers of tap, jazz, and ballet. For dance teacher majors and dance management majors by permission only. Prerequisite: junior standing, DANC 3912. Pedagogy Lab must be taken concurrently with 4422, 4522, or 4722.

4421, (FALL) BALLET, JAZZ, TAP PEDAGOGY II 4521, (SPRING) FOR DANCE TEACHERS LAB—1 HOUR
4721 (FALL)
Labs for ballet, tap, and jazz offering students opportunities to apply knowledge and gain experience in real-life teaching situations, including teaching in the school’s community dance center. This lab must be taken concurrently with DANC 4422, 4522, or 4722.

4491, DANCE PEDAGOGY 1 HOUR
4591, BALLET, JAZZ, TAP 4791

4612, (FALL) BALLET, JAZZ, TAP PEDAGOGY III 4522, (SPRING) FOR DANCE TEACHERS LAB—1 HOUR
These courses cover the academic and practical sides of preparing students to become qualified teachers of tap, jazz, and ballet. For dance performance majors only. Prerequisites: junior standing (DANC 3912), level 5 in technique taken required. (fall, spring)

ECONOMICS (ECON)

2003 ECONOMICS AND THE QUALITY OF LIFE 3 HOURS
This is an issues approach to economics. Elements of economic theory are used to provide a basic understanding of individual issues such as how markets for specific goods and services work, what causes prices and output of these goods to change, how unemployment and inflation and budget deficits are interrelated, and how the American economy is interrelated with the global economy. For nonbusiness majors only. (fall)

2013 PRINCIPLES OF MACROECONOMICS 3 HOURS
Following a general description of the subject matter of economics and basic concepts including supply and demand analysis, this course develops the foundations of macroeconomics, Gross Domestic Product and its measurement, and theories of aggregate demand and aggregate supply. The monetary and banking systems and international trade and finance are also studied. These are all used to understand the causes and effects of changes in unemployment, inflation, economic growth rates, interest rates, exchange rates, and other economic variables. Prerequisite: ECON 2113 (fall, spring, summer)

2113 PRINCIPLES OF MICROECONOMICS 3 HOURS
This course studies the foundations of the supplies and demands of individual products and resources. It uses the theory of consumption to provide an understanding of the demand side of the
market. Production and cost theory provide an understanding of the supply side. Combined, these show the effects of firm and consumer behavior on prices and outputs. Relations between firms within an industry are studied in perfectly and imperfectly competitive markets. This material is applied to consider the advantages and disadvantages of the market system, the effects of government policies, income distribution, economic efficiency, and other issues. Prerequisite: MATH 1503 or higher. (fall, spring, summer)

2123 BUSINESS STATISTICS 3 HOURS
Collection and presentation of statistical data; studies of various statistical distributions and their applications in business; introduction to probability theory, sampling, hypothesis testing, regression analysis, and forecasting through the use of computerized statistical packages to manage real databases. Proficiency with college-level algebra is expected. Prerequisites: MATH 1503. (fall, spring, summer)

2323 QUANTITATIVE APPROACHES TO MANAGEMENT 3 HOURS
A survey of applied mathematical techniques used in management science. The course serves as an introduction to the techniques of linear programming, decision theory, inventory control, and queuing models. These concepts form the basis of management science. Prerequisite: ECON 2123. (TBA)

3213 MICROECONOMICS 3 HOURS
This course expands on the principles and analysis of ECON 2011 and 2113. It gives an exposition of contemporary economic theory and its uses. The student learns how to apply economic logic to many different business and government decisions, especially involving pricing policies, market structure, welfare analysis, and the workings of the modern market system. Prerequisite: ECON 2113. (fall)

3313 MACROECONOMICS 3 HOURS
Macroeconomics is concerned with the aggregate economy more than with individual firms or consumers. Perhaps the most important issues are the relationships among inflation, unemployment, and interest rates. Understanding these relationships allows one to better appreciate the logic of Federal Reserve policies and other policies. Other issues include business cycles, government deficits and surpluses, productivity, growth, and the different schools of macroeconomic thought. Prerequisite: ECON 2113. (spring)

3413 LABOR ECONOMICS 3 HOURS
An economic view of labor and the relationship of the laborer to his employer, union, and society, the development of human capital; trade unions; and wage differentials in different industries and between races and sexes. Prerequisite: ECON 2113. (fall, odd)

3513 APPLIED STATISTICS FOR BUSINESS 3 HOURS
This course emphasizes the practical use of the various statistical techniques commonly employed in marketing, economic, and other business research. These include time series analysis, forecasting, multivariate regressions, simultaneous equation systems, and other methods of data analysis. Prerequisites: ECON 2113 and ECON 2123. (fall, spring)

3613 NATURAL RESOURCE AND ENVIRONMENTAL ECONOMICS 3 HOURS
Upon completion of this course, a student is able to appreciate the problems that societies face regarding sustainable growth and its effects on the environment and natural resources, both exhaustible and renewable. Participants gain an understanding of the basic principles of cost-benefit analysis and are able to analyze regulatory policies regarding pollution and other environmental issues. Prerequisite: ECON 2113. (spring, odd)

3713 GAME THEORY 3 HOURS
This course shows how business activity, politics, and individual interaction can be described as games. From this understanding, it then moves to how to play these games to win or not lose. It focuses on how to make strategically appropriate decisions based on predicting the likely behavior of other players. The basic structure of games is introduced as are the solution concepts used in each structure. Prerequisite: ECON 2113. (spring, odd)

3913 INTERNATIONAL ECONOMICS 3 HOURS
International economics can be split into macroeconomics and microeconomics. On the microeconomic side are the benefits and costs of free international trade, the effects of trade policies such as tariffs and export subsidies, international investment and the multinational corporation, and the effects of free trade agreements and the World Trade Organization. On the macro side, topics include the determinants and effects of exchange rates, exchange rate policies, and the cause and effects of the current account deficits. Prerequisite: ECON 3013. (TBA)

4113 PUBLIC ECONOMICS 3 HOURS
While most of economics studies the workings of the private sector, public economics is concerned with government operations,
especially taxes and spending. The course looks at the effects of
taxes on the rest of the economy and the logic of different tax poli-
cies; tax equity or fairness; and the effects of various government
spending programs, including those concerned with public goods
and income redistribution. The course also studies the incentives
to which politicians and government employees respond. Prerequi-
site: ECON 2113. (fall, even)

4213 GOVERNMENT AND BUSINESS 3 HOURS
This course deals with the relationship between economically im-
portant U.S. laws and the effects these laws have on the economy.
The laws are examined by their development and intent. Alternative
market structures are developed. How different laws have different
effects in different markets is examined to see how the laws actu-
al influence on current economic thinking. Prerequisite: ECON
2113. (TBA)

4313 HISTORY OF ECONOMIC THOUGHT 3 HOURS
*The great economists* from the Physiocrats to the present, and
their influence on current economic thinking. Prerequisite: ECON
2113. (TBA)

4413 ECONOMIC GROWTH AND DEVELOPMENT 3 HOURS
Economic growth and development problems are the central
problems in most countries. This course provides an analytical
framework for studying these issues and looks at the determinants
and history of growth and development. It explores the roles of
government policy, agriculture, manufacturing, education, health,
domestic saving, and international trade and investment in the
development process. Case studies are employed to illustrate the
main concepts. Prerequisite: ECON 2113. (spring, odd)

4521-6 APPLIED RESEARCH OR INTERNSHIP IN ECONOMICS 1–6 HOURS
An opportunity for work experience or independent study in the
field of economics. Prerequisite: 6 hours of upper-level economics,
senior standing, and permission of the instructor. (TBA)

4823 TOPICS IN ECONOMICS 3 HOURS
The subject matter varies from semester to semester, emphasizing
important economics topics not sufficiently covered in other
economics courses. This course may be repeated with a different
content. Prerequisite: ECON 2113. (TBA)

EARLY CHILDHOOD EDUCATION (ECED)

3013 FUNDAMENTALS OF EARLY CHILDHOOD EDUCATION 3 HOURS
The course initially focuses on current issues and trends in early
childhood education within the context of family, culture and soci-
ety. The role of the early childhood professional and the diverse
career opportunities available are studied. Students articulate
an understanding of their role as political advocates for children,
families, and professionals. Current research on the theories of
play is analyzed, with an emphasis on appropriate strategies for
enhancing learning. The teacher’s role in guiding young children is
introduced as students learn to plan appropriate schedules, transi-
tions, and routines. Students theoretically design a developmentally
appropriate learning environment for young children. The history,
philosophy, and social foundations in the field of early childhood
are compared to current educational trends. (fall)

3312 HOME, SCHOOL, AND COMMUNITY RELATIONS 2 HOURS
This course focuses on the interaction among the home, school,
and community in a multicultural and linguistically diverse society.

Effective communication skills with students, parents, peers, and
the community are explored. Topics covered include families
in crisis, family systems theory, community resources, parental
involvement, and collaboration techniques. The student plans
and implements a parent involvement activity, and identifies and
researches community resources. (spring)

*3403 FOUNDATIONS OF READING 3 HOURS
See ELED 3403. (fall)

*3413 READING ASSESSMENT AND INSTRUCTION
See ELED 3413.

*3704 LANGUAGE ARTS AND SOCIAL STUDIES IN THE ELEMENTARY CLASSROOM 4 HOURS
This course is designed to teach language arts and social studies
from an integrated perspective. A variety of instructional models
and strategies are used to involve students in the exploration of
the language arts and social studies curricula in the PK-8 class-
room. Special emphasis is placed on reading and writing across
the curriculum as well as the selection of appropriate materials that
emphasize multicultural perspectives in the language arts. Cross-listed ELED 3704. (fall)

*3804 INQUIRY-BASED SCIENCE AND MATH 4 HOURS
This course is designed to teach content, attitudes, and processes
involved in teaching science and math concepts to PK-8 students.
Special emphasis is placed on the constructivist teaching approach
in inquiry-based math and science teaching and learning. Cross-
listed ELED 3804. (fall)

4022 MONTESSORI PROJECT I 2 HOURS
The goals of this course are to enable teachers to observe young
children objectively and to design materials to offer a more indi-
vidualized approach to learning for early childhood teachers. (fall)

4023 ENGLISH LANGUAGE LEARNING IN THE CLASSROOM 3 HOURS
This course provides educators multiple methods of adapting
instruction and materials to help English language learners under-
stand academic content, develop academic and social language,
and participate in classroom activities. (fall, spring)

4051-6 DIRECTED READING 1–6 HOURS
4061-6 SEMINAR 1–6 HOURS

4091-6 INDEPENDENT STUDY 1–6 HOURS

4113 SENSORY MOTOR LEARNING 3 HOURS
This course examines the relationships among motor development,
intellectual development, and ego development. Activities designed
for independence and responsibility are presented with opportuni-
ties for teachers to structure these activities for their classrooms.
An introduction to movement exploration for young children is part
of the course. (summer)

4122 MONTESSORI PROJECT II 2 HOURS
The goals of this course are to enable teachers to observe
young children objectively and to design materials to offer
a more individualized approach to learning for early childhood
teachers. (spring)

*4143 CREATIVE ARTS AND ACTIVITIES 3 HOURS
See ELED 4143. (spring)

During the early childhood student teaching experience, students observe, plan, implement, reflect, and refine their teaching skills. Students experience teaching in both primary and preschool settings. The student's final portfolio is evaluated to determine his or her knowledge of the Oklahoma effective teaching competencies. (fall, spring)

During the early childhood student teaching experience, students observe, plan, implement, reflect, and refine their teaching skills. Students experience teaching in both primary and preschool settings. The student's final portfolio is evaluated to determine his or her knowledge of the Oklahoma effective teaching competencies. (fall, spring)

This course provides an opportunity for students to improve their study skills through efficient time management, effective note taking, skimming, research skills, increased vocabulary proficiency, and comprehension strategies. Required for all degree-seeking students who demonstrate reading proficiency at or below the 40th percentile nationally as demonstrated by a test score of 18 or lower on the reading section of the ACT, or a score of 820 or lower on the SAT (the sum of critical reading and mathematics scores). This course must be completed by the beginning of the sophomore year. Other students may enroll with permission of the instructor. (fall, spring)

A holistic approach to the developing human including the physical, cognitive, emotional, and social development from birth through adolescence. Fifteen hours of field experience required. (fall, spring)

The major principles of educational psychology, including cognition, motivation, classroom management, and assessment are covered. Focus is on application of educational psychology to learning and teaching. The emphasis is on decision making that positively impacts student learning. The course is designed to impact the future teacher's role in planning, implementing, and assessing student learning in the classroom. Connecting theory with practice is the focus of the required 15 hours of field experience in a classroom setting. Prerequisites: EDUC 2001 and EDUC 3103. (fall, spring)

This course prepares future teachers to provide appropriate learning experiences in an inclusive setting for students with varied exceptionalities, including giftedness, mental retardation, and learning disabilities. Emphasis is on collaborative, interdisciplinary teaching and family involvement. Field experience in a special classroom is required. (fall, spring)

This course provides educators multiple methods of adapting instruction and materials to help English language learners understand academic content, develop academic and social language, and participate in classroom activities. (fall, spring)

4061-6  SEMINAR  1–6 HOURS
4082-4  PRACTICUM IN EDUCATION  2–4 HOURS
4091-6  INDEPENDENT STUDY  1–6 HOURS
4133  METHODS OF TEACHING ART (fall)  3 HOURS
4233  METHODS OF TEACHING ENGLISH (fall)  3 HOURS
4333  METHODS OF TEACHING MATHEMATICS (fall)  3 HOURS
4339  STUDENT TEACHING, PK–12  9 HOURS

The PK–12 student teaching experience offers preservice teachers opportunities to teach in two culturally diverse settings at the elementary and secondary levels. Students spend a semester observing, planning, and teaching while applying best practices in teaching skills. Assessment and reflection are used to monitor and adjust instruction to meet the diverse needs of all learners. The teacher education portfolio, which reflects knowledge of effective teaching competencies, is completed during this semester. (fall, spring)

4413  TECHNOLOGY IN THE CLASSROOM  3 HOURS

This course introduces technologies that can be used to facilitate classroom education. Students learn how to use current technologies and how to adapt them to meet the pedagogical purposes of a class. May be dual-listed with TESL 5413.

4433  METHODS OF TEACHING SCIENCE (fall)  3 HOURS

4512  CLASSROOM MANAGEMENT  2 HOURS

This course explores a variety of best practices and theories in the area of classroom management. Topics include organization, the design of rules and procedures for the classroom, discipline and behavior management, effective lesson planning, teacher/student/family relationships, and establishing positive expectations. (spring)

4533  METHODS OF TEACHING SOCIAL STUDIES (fall)  3 HOURS

4633  METHODS OF TEACHING SPEECH/DRAMA/DEBATE (fall)  3 HOURS

4663  STUDENT TEACHING SEMINAR  3 HOURS

This course is taken concurrently with Student Teaching and focuses on the foundations of American education and their impact on teachers in school reform and the organization and administration of schools. Strategies for managing such concerns as parent involvement, legal issues, collaboration with colleagues, and multicultural student populations are emphasized. This required course is the final course in the professional education sequence. Students present their professional portfolios as part of the assessment. (fall, spring)

4733  METHODS OF TEACHING FOREIGN LANGUAGE (fall)  3 HOURS

Methods courses focus on techniques of instruction for each subject area. They prepare the preservice teacher to create learning experiences and learning environments to support differences in students by enhancing self-motivation and positive interaction in the classroom. Teachers learn a variety of communication techniques to foster inquiry and collaboration and practice instructional strate-

gies that encourage critical thinking and problem solving. Preservice teachers plan instruction and analyze and critique discipline models and methods. Microteaching provides teachers the opportunity to prepare and deliver lessons in their subject areas. (fall)

4739  STUDENT TEACHING, SECONDARY  9 HOURS

The secondary student teaching experience offers preservice teachers opportunities to teach in two culturally diverse settings at the middle and secondary levels. Students spend a semester observing, planning, and teaching while applying best practices in teaching skills. Assessment and reflection are used to monitor and adjust instruction to meet the diverse needs of all learners. The teacher education portfolio, which reflects knowledge of effective teaching competencies, is completed during this semester. (fall, spring)

ELEMENTARY EDUCATION (ELED)

*3403  FOUNDATIONS OF READING  3 HOURS

Introduces reading as one of the language arts skills and previews all aspects of reading as a communication skill. Emphasis is on the philosophy of reading as well as instructional approaches, strategies, methods, materials, and planning for teaching reading from grades K through 12. Prerequisite: junior standing and EDUC 2103. Cross-listed ECED 3403. (fall)

*3413  READING ASSESSMENT AND INSTRUCTION  4 HOURS

The course provides techniques in the assessment and remediation of reading and difficulties in K–8th grades. Focus is on classroom instruction and practical application of the diagnostic/prescriptive process to motivate, build understanding, and encourage active engagement in the reading process. Field experience is a major component of this course in which students practice the skills discussed in the classroom at a school site and work with K–8 students. Prerequisite: ELED 3403. Cross-listed ECED 3413. (spring)

*3704  LANGUAGE ARTS AND SOCIAL STUDIES IN THE ELEMENTARY CLASSROOM  4 HOURS

See ECED 3704. (fall)

*3804  INQUIRY-BASED SCIENCE AND MATH  4 HOURS

This course is designed to teach content, attitudes, and processes involved in teaching science and math concepts to PK-8 students. Special emphasis is placed on the constructivist teaching approach in inquiry-based math and science teaching and learning. Cross-listed ECED 3804. (fall)

4003  INTERMEDIATE MATHEMATICS METHODS  3 HOURS

This course is designed to allow students to practice and enhance their teaching abilities in mathematics. The course has two goals: to strengthen the skills required for teaching certification and to provide experience with current teaching methods used in successful math classrooms and recommended by the NCTM teaching standards. The course encourages students to leave behind their math anxiety as new experiences are gained in teaching mathematics. Emphasis is on the mathematical processing skills of problem solving, reasoning, communication, and connections. (spring)

4022  MONTESSORI PROJECT I  2 HOURS

The goals of this course are to enable teachers to observe young children objectively and to design materials to offer a more individualized approach to learning for Elementary teachers. (fall)
4023 ENGLISH LANGUAGE LEARNING IN THE CLASSROOM 3 HOURS
This course provides educators multiple methods of adapting instruction and materials to help English language learners understand academic content, develop academic and social language, and participate in classroom activities.

4051-6 DIRECTED READING 1–6 HOURS

4091-6 INDEPENDENT STUDY 1–6 HOURS

4122 MONTESSEORI PROJECT II 2 HOURS
The goals of this course are to enable teachers to observe young children objectively and to design materials to offer a more individualized approach to learning for Elementary teachers. (spring)

*4143 CREATIVE ARTS AND ACTIVITIES 3 HOURS
Emphasis is on the study of the basic elements in art, physical activity, and music, and the relationship of arts and creative activities to culture. The appropriate materials, methods, and techniques for teaching art, physical activities, and music are explored. Cross-listed ECED 4143. (spring)

4512 CLASSROOM MANAGEMENT 2 HOURS
In this course students explore a variety of best practices and theories in the area of classroom management. Topics include organization, the design of rules and procedures for the classroom; discipline and behavior management; effective lesson planning; teacher/student/family relationships; and establishing positive expectations. (spring)

4513 ELEMENTARY CURRICULUM METHODS 3 HOURS
This course is designed to provide teaching strategies and the resources to implement effective teaching by using the principles of learning. The course focuses on prominent classroom organizational strategies and diverse theories for classroom management/behavior and guidance techniques. Students put theory into practice by teaching using a variety of instructional strategies and selecting appropriate media, technology, materials, and resources to implement instructional objectives. (fall)

4639 STUDENT TEACHING IN ELEMENTARY 9 HOURS
The elementary student teaching experience is designed for students to be responsive to the diversity existing within the educational setting in today's society. Students apply teaching skills of observation, planning, implementation, and reflection. They are able to manage, respond to, and evaluate students effectively. Students teach in both primary and intermediate classrooms with cultural diversity. The student’s final portfolio is evaluated to determine his or her knowledge of the Oklahoma effective teaching competencies. (fall, spring)

*4702 CHILDREN’S LITERATURE 2 HOURS
Students are introduced to a wide range of children’s literature, its authors, and illustrators. Focus is on the different genres available in children’s literature. Multicultural, historical, and societal influences are integrated into the course of study. *3313 GREAT FILMS 3 HOURS
The course explores cinema as a serious art form, perhaps the major one of the 20th century. We focus on the interpretation of films through the techniques of cinematic analysis in order to learn the art of seeing. Although other approaches to film are presented, the auteur theory, that the director is the primary creative force behind a great film, predominates. We view and discuss the films to consider what the auteur (director) is saying, how the auteur is saying it, and how successfully the auteur says it. We consider such topics as whether the true cinema was the silent one; the tension between the cinematic and literary components of a film's structure; how the style of a film can reflect the cultural texture of its director; and the importance of film movements—the French New Wave, for example—on film history. The films viewed reflect different cultural experiences to provide an international dimension. Cross-listed MAP 3313

3323 DIGITAL TEXTUALITY 3 HOURS
Rhetoric and culture of digital communities on and beyond the Web. Transformations of narrative into digital genres, such as video games and hypertexts. *3363 CINEMA AND INTERNATIONAL EXPLORATIONS 3 HOURS
The course explores cinema as a serious art form—perhaps the major one of the twentieth century. Through the techniques of cinematic analysis, we challenge ourselves to move from viewing visual images in an uncritical and passive manner to analyzing how these images work on us and help shape our values and understanding. The films reflect different ethnic and cultural experiences in order to provide a comparative context. We view a range of films to develop a sense of film history. The difference between cinema as entertainment and cinema as art is a central issue. Another essential viewpoint is consideration of the human face as the most important "special effect" in film. This course satisfies the cross-cultural general education requirement. Cross-listed MAP 3363. (spring)

3403 CONTEMPORARY AMERICAN POETRY 3 HOURS

ITALIAN (ITAL)

1113 BEGINNING ITALIAN I 3 HOURS
An introduction to the Italian language, with focus on the skills of speaking, listening to, reading, and writing Italian. Beginning-level vocabulary, pronunciation, and grammar. (fall)

1213 BEGINNING ITALIAN II 3 HOURS
A continuation of Beginning Italian I. Second-level emphasis on the skills of speaking, listening to, reading, and writing Italian. Second-level vocabulary, pronunciation, and grammar. Prerequisite: ITAL 1113 or equivalent. (spring)

INFORMATION TECHNOLOGY (IT)

1001 COMPUTERS IN SOCIETY 1 HOUR
The objective of this course is to provide students with an understanding of information technology in business. The student learns to effectively manage information technology in business, and further refine and develop individual computer skills associated with the use of information technology in organizations. This course prepares students to solve managerial and organizational problems of limited complexity using popular end-user application programs (word processor, spreadsheets, e-mail, Web browsers, and rudimentary database). (fall, spring)

2113 STRUCTURED QUERY LANGUAGE (SQL) 3 HOURS
The course is designed for students who want to learn how to interact with Oracle databases. The course not only offers an
understanding of SQL, it also prepares students for the first exam in both the Oracle Database Administrator and Internet Application Developer Certification Tracks. Students then progress to simple creation of data files and read-write programming. Further topics include elementary data processing followed by advanced topics such as sorting, indexing, and merging; control-break programming; data validation; array processing and table handling; and master file/transac-tion file processing. Database management techniques such as data modeling and the relational database model are introduced. This course prepares students for upper-
level IT courses. (fall)

3133 MANAGEMENT INFORMATION SYSTEMS 3 HOURS
This course seeks to expand the student's working knowledge of computer hardware. Computer software categories and applications are covered as are the use of management support systems (expert systems, decision support systems, executive information systems, and groupware) and Web browsers. Finally, the course examines the effects of computer systems upon humans with respect to information systems management. Prerequisites: IT 1001 or another computer language approved by the instructor. (fall, spring)

4313 BUSINESS SYSTEMS ANALYSIS AND DESIGN 3 HOURS
This course exposes students to structured systems analysis and design through implementation of the systems development life cycle. Deliverable for this course is a comprehensive group case involving systems proposal, cost estimation, interpersonal interviewing techniques, process modeling, data modeling, network modeling, interface design, file and database construction, security concerns, and maintenance issues. Prototyping and rapid development techniques are discussed. Prerequisites: IT 3133. (fall)

4323 DATABASE MANAGEMENT SYSTEMS 3 HOURS
This course is designed to provide students with skills required to develop data structures in order to store organizational memory. The course begins with a brief review of SQL through comprehensive assignments, followed by instruction in Oracle, and then database management and development techniques. Topics covered are flat file, hierarchic, network and relational database models; data modeling using Logical Data Structures; Structured Query Language; data normalization; storage concerns; data warehousing; and distributed database systems. Upon successful completion of this course, the student is able to conceptualize, develop, test, and maintain a complete database system on either microcomputers or mainframe systems. Prerequisite: IT 2113. (spring)

4833 NETWORKING 3 HOURS
This course offers a conceptual and technological survey of the structure of distributed information systems architectures, operating systems, network operating systems, data management systems, application development environments, peripheral technology, and user interfaces. Interoperability between these architectural components is explored. Current technology and trends in each architectural element are reviewed. Students are exposed to home pages, graphics, search engines, and other items of interest on the Internet. We discuss accomplishing Electronic Commerce over the Internet and how businesses will evolve in the future with the use of the Internet. Prerequisite: IT 3133, junior standing, and permission of the instructor. (spring)

4843 STRATEGIC INFORMATION SYSTEMS 3 HOURS
This course examines the use and implementation of information systems for strategic and competitive advantage in an organization. The focus of the course is an analysis of frameworks, which provide students an understanding of the elements of competitive advantage from an upper management perspective. This foundation of frameworks is linked to the organization's information systems through the use of case studies and augmented with real-world examples. This course covers a sampling of Commercial Enterprise Software packages and the various implementation methodologies. Students are required to develop a Request for Proposal for the acquisition of an Enterprise Software package and evaluate multiple alternatives to meet the needs of a case study organization. Prerequisites: IT 4313, IT 4323, junior standing, and permission of the instructor. (spring)

INTERDEPARTMENTAL (INDP)

1013 ARTS AND HUMAN VALUES 3 HOURS
An introduction to a variety of art forms, including cinema, drama, music and music theater, and graphic arts. This course has both aesthetic and humanistic orientations: it examines the nature, form, and intrinsic value of works of art and what they express concerning human values. Practicing artists present their art forms wherever possible. Students observe performances and exhibits at the Oklahoma City University campus and in the Oklahoma City area.

1111 OCULEADS 1 HOUR
This course provides students with experiential leadership training through the introduction of leadership theory, organizational characteristics and systems, and group dynamics.

*1161 LITERACY AND CRITICAL INQUIRY 1 HOUR
Faculty-student learning community. Introduces disciplinary literacy and critical inquiry through autobiographies on departmental threshold concepts (i.e., self-authorship, restorative justice, sociological imagination, and victim-offender dyad). Cross-listed with SOC 1161.

2003 INTRODUCTION TO ARTS INTEGRATION 3 HOURS
During the introductory course each student must establish a key question and line of inquiry, a purpose, and a goal that will be the basis for the Arts Integration portfolio to which the student will contribute as the Arts Integration Minor progresses. Students will build upon the portfolio with each subsequent course and complete a portfolio project during the Portfolio and Review course.

1113 SURVEY OF AMERICAN POPULAR MUSIC 3 HOURS
This course deals primarily with American pop music and the culture of twentieth-century America. We study the various genres
of American pop music and how other aspects of American cultural life are reflected in this music. Because music, like other forms of art, is a reflection of people's lives and dreams, we examine how society's cultural lives are reflected in popular music. Not only do we study in depth the aspects of the different pop music genres, but we also examine what cultural phenomena caused the music to turn out the way it did.

1121 OCULEADS II 1 HOUR
Continuation of INDP 1111.

*2103 ISSUES IN WOMEN'S STUDIES HIST/POLS/PSYC/INDP 3 HOURS
A survey of women's roles and status in American society. Emphasis is on the importance of gender and social institutions such as the family, government, workplace, and religion in shaping the lives and opportunities of women. (spring)

3001 ARTS INTEGRATION PORTFOLIO AND REVIEW 3 HOURS
Each student will fulfill the Arts integration portfolio begun in the introductory course. In a project, artwork, proposal, or other suitable form, students will demonstrate knowledge, skills, and strategies learned throughout the minor. Students are required to present the completed portfolio in a public forum.

4022 INSIGHTS INTO EXECUTIVE LEADERSHIP 2 HOURS
The purpose of this course is to provide students with insight and understanding of the realities of executive leadership in corporate, education, and government environments. As a 4000-level course it is designed for juniors and seniors. Undersclassmen may be allowed into the course based upon permission from the instructors.

4893 RESEARCH AND WRITING IN WOMEN'S STUDIES 3 HOURS
The student researches a topic in his or her major/field as it relates to women's studies. Using directed readings, the student produces an integrative paper. Approaches to such an integrative study might include examination of the current place of women's studies in the major, research from women's studies that might influence the major, or current research in the major conducted by women or from a women's studies approach. Prerequisite: 6 hours in women's studies minor.

JUSTICE STUDIES (JUS)

1003 INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM 3 HOURS
An introductory course examining fundamental principles and components of the criminal justice system.

1013 INTRODUCTION TO JUSTICE STUDIES 3 HOURS
This course provides an overview of the interdisciplinary study of justice and injustice within a social context. By utilizing a variety of critical perspectives, the course introduces students to various aspects of justice including criminal, social, economic, gender, and racial.

1103 PEACE AND PEACEBUILDING 3 HOURS
This course is a basic introduction to terms, concepts, and theories in the scholarly study of peace. Using case studies, students assess situations dealing with human needs and human rights theories and design peacebuilding models based on four peacebuilding processes: waging conflict nonviolently, reducing direct violence, transforming relationships, or building capacity. Students also learn how to develop just peace advocacy projects and evaluate peacebuilding processes.

*1161 LITERACY AND CRITICAL INQUIRY 1 HOUR
Faculty-student learning community. Introduces disciplinary literacy and critical inquiry through autobiographies on departmental threshold concepts (i.e., self-authorship, restorative justice, sociological imagination, and victim-offender dyad). Cross-listed with SOC 1161.

2003 PRISONS, PRISONERS, AND THE LAW 3 HOURS
This course provides a survey of the field of corrections. The history of corrections, international comparisons, theories of corrections, alternatives to incarceration, and current issues in corrections are included.

*2303 INTRODUCTION TO SOCIAL SCIENCE RESEARCH 3 HOURS
See SOC 2303.

2113 SOCIAL JUSTICE 3 HOURS
This course provides an overview of social justice and explores the meaning of a just society. Students explore social injustices based on race-ethnicity, gender, or culture; investigate the strategies of social change used by social justice organizations to strengthen communities; and explore the underlying local, national, and global conditions that challenge the development of such a society.

*3113 CONSTRUCTING SOCIAL IDENTITIES 3 HOURS
See SOC 3113.

3123 GLOBAL AND ECONOMIC JUSTICE 3 HOURS
This course examines the global force (i.e., social, political, cultural, and economic) that shape historical and contemporary experiences. Students are introduced to globalization and its effects on the economy, human rights, immigration, crime and violence, poverty and inequality, and on the nature of work.

3203 SOCIAL CONTROL AND DEVIANCE 3 HOURS
Examination of the social changes and pressures that encourage greater social deviance such as civil disobedience, delinquency, and extensive rejection of prevalent values and norms of society.

3303 PROBATION AND PAROLE 3 HOURS
This course examines approaches to both the theoretical assumptions and the practical techniques of probation and parole. A review of research findings in probation and parole are presented.

3403 CONFLICT ANALYSIS AND TRANSFORMATION 3 HOURS
This course teaches students how to analyze macro and micro conflicts using various models. Students learn the methodology involved in conflict analysis and how to develop an in-depth professional conflict assessment for use in peacebuilding and conflict transformation.

*3503 EXPLAINING SOCIAL PHENOMENA 3 HOURS
See SOC 3503.

*3513 MEASURING THE SOCIAL WORLD 3 HOURS
See SOC 3513.

3953 INTIMATE PARTNER VIOLENCE 3 HOURS
This course examines the patterns and theories of intrafamily violence as well as intimate violence. Violence directed at children
and elders is also analyzed, e.g., physical, sexual, and psychological maltreatment.

4063SA1 INTERNATIONAL CRIMINAL JUSTICE SYSTEMS 3 HOURS
The growth of the extended economic and cultural orders demands that students be well versed in diverse approaches to common social problems and social solutions. Through comparisons of varied criminal justice systems, students assess the effectiveness of each and gain insights into the cultural influences at work in different parts of the world. Participants visit selected sites and meet with criminal justice experts to discuss cross-cultural comparisons between the U.S. and other nations. (TBA)

4113 RESTORATIVE JUSTICE 3 HOURS
Restorative justice is an alternate response to the retributive justice model. Restorative justice, heavily influenced by a variety of religions as well as by peacemaking perspectives, makes the victim, offender, and community central to the process of restoring balance to society.

4123 HATE, ETHNOVIOLENCE, AND CRIME 3 HOURS
This class examines ethnonoviolence or "hates crimes" which are defined as acts of violence against members of marginalized groups based on certain characteristics such as race/ethnicity, sexuality, or religion. We address the effects of hate crimes on victims and communities, the motivations behind violent acts, and the various interventions used to combat ethnonoviolence. We also explore the emergence of hate crime legislation, paying special attention to the reasons behind the exclusion of certain populations (e.g., women) from state or federal legislation.

4133 WHITE-COLLAR CRIME 3 HOURS
White-collar crime involves the use of a position of power, influence, or trust to commit an illegal act for personal or organizational gain. This course introduces students to a variety of topics and activities that constitute white collar and corporate crime. We focus on a variety of offenses including crimes of fraud, the production and sale of dangerous products, the creation of hazardous working conditions, environmental crimes, offenses against public administration, and regulatory offenses. We use historic (Ford Pinto, Love Canal) and recent (Martha Stewart, Enron) cases to examine the criminal acts of corporations and/or corporate executives to examine how white-collar crime is handled legislatively and within the criminal justice system. We will be cognizant of the debates surrounding white-collar crime, including definitions, competing theories, official responses, and sanctions associated with white-collar offenses.

4203 VICTIMOLOGY 3 HOURS
Analysis of the victimology model. Emphasis on the victim, the academic institutional perspective, the criminal justice perspective, and the statistical approach.

4313 CRIMINOLOGY 3 HOURS
Analyzes the nature and extent of criminal behavior. Emphasizes current theory and research as they relate to the cause of crime.

4403 LAW AND THE POLICE 3 HOURS
A critical analysis of the legal aspects of law enforcement and the impact of law on police behavior.

4503 WOMEN, LAW, AND SOCIAL CONTROL 3 HOURS
This course examines the social control of females in the public sphere, e.g., through violence, legislation, and family.

4513 JUVENILE DELINQUENCY 3 HOURS
An overview of the theories developed to explain juvenile delinquency as well as an assessment of the relationship between the system of juvenile justice and the delinquent. An analysis of various strategies that may be effective in preventing juvenile delinquency or diverting individuals from the criminal justice system.

4603 DEATH AND DYING 3 HOURS
Focused on the last stage in lifespan development, Death and Dying explores a variety of issues such as coping with chronic illness, death awareness, stages of dying, hospice, capital punishment, suicide (including physician-assisted), euthanasia, funeral customs, children's experience, and traumatic death—and the impact of each on society. When possible, relevant field trips are arranged.

4613 SELECTED TOPICS IN CRIMINAL JUSTICE 3 HOURS

4703 BEHAVIORAL CHANGE 3 HOURS
A major objective of correctional agencies has been to change persons convicted of crime so that they are reformed, resocialized, treated, and modified. This course deals with the issue of such changes and examines techniques of producing changes.

4803 SENIOR SEMINAR 3 HOURS
The senior seminar is a capstone course for the justice studies major. Students synthesize the knowledge they have gained since beginning the program.

4983 INTERNSHIP 3 HOURS
Structured and evaluated apprenticeship in a justice organization or program. Number of hours and location of work experience arranged through the justice studies program.

4991-6 INDEPENDENT STUDY 1–6 HOURS
Juniors and seniors may propose a plan or project of independent study on a topic of their choice. Assignment approval through department faculty.

This introductory course addresses the elements and principles of design. It provides an introduction to applied drawing and focuses on the problem-solving process necessary in the creation of all graphic design work. This course introduces students to the software applications used in graphic design. Emphasis is placed on how graphic design can help solve problems in various mass communications professions. Topics are explored through research and a series of projects during the semester. Students are required to present finished projects and participate in the critique process. (fall)
2223  GRAPHIC DESIGN TOOLS & TECHNOLOGY  3 HOURS
This intermediate course focuses on the graphic design tools and software needed to create contemporary communications. This studio-based course utilizes tutorials and projects in Photoshop, InDesign and Illustrator programs (for Mac). It also covers scanning, importing, and printing. Prerequisite: MCGD 2123 or permission of instructor. (spring)

2323  GRAPHIC DESIGN II  3 HOURS
This intermediate course explores the written language, including the art of typography. Projects include signs, symbols, and logos used in corporate, retail, and industrial communications. Students are required to present their finished projects and participate in the critique process. Prerequisites: MCGD 2123 and MCGD 2223 or permission of instructor. (spring)

3123  GRAPHIC DESIGN III  3 HOURS
This intermediate course focuses on the production and presentation of both print and electronic communications. Projects of increased complexity challenge the students' research, technical, and creative abilities. Both two- and three-dimensional forms are included. Students are immersed in the print and electronic production processes. Prerequisite: MCGD 2323 or permission of instructor. (fall)

3223  DESIGN FOR ELECTRONIC MEDIA  3 HOURS
This intermediate course requires proficiency with graphic design software. It focuses primarily on web page design. Dreamweaver is introduced, and integration of other software needed to produce Internet content and other electronic communications is included. Prerequisite: MCGD 2223 or permission of instructor. (TBA)

3323  IMAGE BASED COMMUNICATIONS  3 HOURS
This advanced course focuses on the creation of illustrations, graphics, and photographic explorations. Challenging projects address how images can be reproduced in various formats (publications, printed materials, Internet, and electronic). Traditional methods and computer-based executions are explored. Drawing skills, visual thinking ability, and client presentation skills are stressed on all projects. Prerequisite: MCGD 3123 or permission of instructor. (TBA)

3423  GRAPHIC DESIGN FOR GLOBAL MARKETS  3 HOURS
This intermediate hybrid course focuses on visual communications in the ever-changing global market. It addresses design considerations necessary for multiple demographics and culturally diverse audiences. Lectures and guest speakers will add to this studio-based experience. Additionally, problems of language and cultural uniqueness are addressed through graphic design projects. Attempts to include a related community service project (based on needs and appropriate timing) are made. Prerequisite: MCGD 2323 or permission of instructor. (TBA)

4163  SELECTED TOPICS/GRAPHIC DESIGN  3 HOURS
This advanced course focuses on individual student interests and portfolio development. Students explore various topics such as corporate identity or environmental graphics. Professional client presentations and critique sessions are included. Prerequisite: MCGD 3123 or permission of instructor. (TBA)

4223  PRINT AND PUBLICATION MEDIA  3 HOURS
This advanced course is for students who seek additional training in print-related media design (newspaper, magazine, newsletters, direct mail, etc.) and print production processes. Studio-based projects cover initial concepts through final production. Students are required to present their work to clients, defend it, and interpret critiques before producing the pieces for their portfolios. Emphasis is on the production methods and processes used by external vendors to create the finished pieces. Prerequisite: MCGD 3123 or permission of instructor. (TBA)

4483  THE PROFESSIONAL EXPERIENCE/GRAPHIC DESIGN  3 HOURS
This course exposes students to the profession of graphic design from the inside out. Students must interview with an external organization and be selected for an internship. Enrollment is by permission of the instructor and department chair. (fall, spring, summer)

4991-3 INDEPENDENT STUDY/GRAPHIC DESIGN  1-3 HOURS
Independent study in graphic design related areas. Enrollment is by permission of the instructor and department chair. (TBA)

MASS COMMUNICATIONS/PRINT MEDIA (MCPM)

2003  NEWS WRITING AND REPORTING  3 HOURS
This course emphasizes the elements of good grammar and correct news writing style, with emphasis on practical writing assignments mirroring those that will be encountered on the job. The class consists of lecture and lab, and students are required to write for the weekly student newspaper, The Campus. (fall)

2103  PUBLIC AFFAIRS REPORTING  3 HOURS
This course introduces students to coverage of government news at the local level. Class assignments require students to learn the techniques of and limitations in gathering information from court proceedings and from city, county, and state government meetings. Students produce news stories from their fieldwork in reporting. Prerequisite: MCPM 2003. (TBA)

2113  THE MAGAZINE  3 HOURS
This course provides students intensive practical experience in creating a magazine from the ground up. Students develop the editorial concept, graphic look, marketing approach, and circulation plan as well as write and edit articles, prepare illustrations, and finalize computerized pages for publication. This is an advanced course for students experienced in print reporting and editing. (TBA)

2201  NEWSPAPER ADMINISTRATION  1 HOUR
This course is designed as a seminar for staff members of The Campus. It focuses on group problem solving and practical applications and acquaints staff members with current issues facing the newspaper industry. May be repeated three times. (TBA)

3313  EDITING FOR PUBLICATIONS  3 HOURS
This course focuses on the collaborative nature of work in the print media, preparing the editor for work with writers and production
personnel. It leads students to refine their language and style skills, and presents them with the principles behind evaluating and selecting content, preparing copy to meet high standards, editing photographs, creating headlines, choosing type, and designing and laying out pages. Prerequisite: MCPM 3003. (TBA)

3413 OPINION WRITING 3 HOURS
This course explores the skills and techniques required for effective presentation of opinions, including news analysis, critical reviews, editorials, and other forms of commentary. Emphasis is on providing insight into news developments within a framework of fairness and balance. (TBA)

3513 PUBLICATION CONTENT, DEVELOPMENT, AND DESIGN 3 HOURS
This course provides an intensive experience in editing, headlining, and designing publications. A strong component in conceptualizing and designing publications from scratch is included. Competence in computerized page construction and graphics technology is required. Prerequisite: MCPM 3313. (TBA)

3613 FEATURE WRITING FOR PUBLICATIONS 3 HOURS
This course uses the basic skills learned in news writing as the foundation for moving to the creation of more complex story structures in features. It explores the similarities and differences in writing nonfiction for newspapers, consumer magazines, trade journals, and news releases and provides practical experience in each area. Prerequisite: MCPM 3003. (TBA)

4013 ELECTRONIC NEWS GATHERING AND WRITING 3 HOURS
This course gives students experience in the practicalities of in-depth enterprise news reporting and in the writing of complex stories. Assignments focus on contextual, issue-oriented topics. Students work on campus for the weekly student newspaper, The Campus, as well as off campus in developing their stories. Prerequisite: MCPM 3003. (TBA)

4161-3 SELECTED TOPICS/PRINT MEDIA 1-3 HOURS
Variable content seminar focusing on topics relating to print media. Examples: Writers Workshop, Publication Design and Management, etc. (TBA)

4343 THE BLACKWELDER GROUP/PRINT 3 HOURS
Students develop specialized series of articles, publications, etc. for selected clients and projects. By permission only. (TBA)

4483 THE PROFESSIONAL EXPERIENCE/PRINT 3 HOURS
Internship. A look at professional opportunities in the print media from the inside out. By permission of the instructor and department chair. (fall, spring, summer)

4853 DIRECTED READINGS/PRINT 3 HOURS
Specialized readings relating to intensive study of print media content areas. By arrangement with the instructor and department chair. (TBA)

4991-3 INDEPENDENT STUDY/PRINT 1–3 HOURS
Independent study in an area of specialization. By permission of the instructor and department chair. (TBA)

MASS COMMUNICATIONS/PUBLIC RELATIONS (MCPR)

2013 PUBLIC RELATIONS WRITING 3 HOURS
This course introduces students to the fundamentals of style and grammar in public relations writing. It provides practice in preparing news and feature stories, photo captions, public service announcements, speeches, memos and letters, direct mail materials, and brochures and reports. (spring)

2313 PRINCIPLES OF PUBLIC RELATIONS 3 HOURS
This course is designed to explain the origin, evolution, and nature of the profession; to explore the areas of knowledge vital to the public relations practitioner; and to relate those knowledge areas to practical applications. Students investigate public opinion analysis, communications theory, and use of various kinds of research by the profession. Finally, the course introduces the basic process skills and techniques required for successful public relations practice. (fall)

3013 MEDIA RELATIONS AND EVENTS MANAGEMENT 3 HOURS
Course emphasis is on the techniques and practical skills necessary for the public relations professional. Focus is concentrated on planning, management, funding, budgeting, and production information and resources essential to successful media relations and special event coordination. Prerequisite: MCPR 2313. (spring, odd)

3713 PRINT PRODUCTION TECHNIQUES 3 HOURS
Designed for advertising and public relations students who must plan, supervise, or produce persuasive publications. Content focuses on sound design and production guidelines for print media, paper selection, ink and color theory, type selection, printing processes, and production techniques. (TBA)

3803 STRATEGIC PLANNING FOR PUBLIC RELATIONS 3 HOURS
This course focuses on development of strategic planning and problem-solving techniques essential for implementation of effective public relations programs. Students utilize actual public relations situations to learn how to relate to diverse publics, determine the most credible communications strategies, and analyze the impact of public relations programming and lack of programming on the organization's bottom line. Special attention is given to marketing, public relations, issues management, and international public relations. Prerequisite: MCPR 2313. (spring)

*4013 INTEGRATED CAMPAIGN DEVELOPMENT 3 HOURS
Development of a comprehensive Integrated Marketing Communications (IMC) campaign for a selected client, using advertising and public relations techniques. Assigned cases include analysis of competitors, research methods, target markets, creative strategies, media vehicles, sales promotions, direct marketing and social responsibility efforts. Prerequisite: MCAD 3403 or MCPR 3803. Cross-listed with MCAD 4013.

4161-3 SELECTED TOPICS/PUBLIC RELATIONS 1–3 HOURS
Variable content seminar relating to public relations topics. Example: Public Relations Case Problems, Crisis Management, etc. (TBA)

4343 THE BLACKWELDER GROUP/PUBLIC RELATIONS 3 HOURS
Students provide staffing for a nonprofit student-run public relations company. By permission only. (TBA)
4483  THE PROFESSIONAL EXPERIENCE/  
PUBLIC RELATIONS  3 HOURS
Internship. A look at the profession of public relations from the  
inside out. By permission of the instructor and department chair.  
(fall, spring, summer)

4853  DIRECTED READING/  
PUBLIC RELATIONS  3 HOURS
Specialized readings relating to intensive study of public relations  
subjects. By arrangement with instructor and department chair.  
(TBA)

4991-3 INDEPENDENT STUDY/  
PUBLIC RELATIONS  1–3 HOURS
Independent study in an area of public relations specialization. By  
permission of the instructor and department chair. (TBA)

MATHEMATICS (MATH)

1103  PROBLEM-SOLVING APPROACHES  
in MATHEMATICS  3 HOURS
This course follows the content of arithmetic, geometry, and pre-  
algebra as it is sequenced through the eighth grade. Each area  
is connected to problem-solving strategies included in the NCTM  
goals and standards for the reform of mathematical education.  
This course gives the student practice with operations including  
whole number, rational number, informal geometry, integers, and  
linear equations. Emphasis is on the solution of algorithms and  
word problems while integrating strategies and variation of tech-  
niques as applied to the scope of math learning. Content is used to  
strengthen the math skills of education majors. (spring)

1203  BASIC CONCEPTS FOR  
THE UNDERSTANDING  
of PRE-ALGEBRA  3 HOURS
This math content course is designed to prepare the education  
student for college algebra while including ways to implement  
the NCTM standards for pre-algebra skills including problem-  
solving, cognitive approaches, and thinking skills, connections  
and manipulatives. Math content includes practice with integers,  
variables, expression, equations, number theory (factors, multiples  
and exponents), fractions, probability, decimals, percents, the  
coordinate plane, square roots, and polynomials. This course in-  
cludes a recorded journal reflecting the experiences with the above  
mathematical concepts. (spring)

1213  BASIC CONCEPTS FOR  
THE UNDERSTANDING  
of GEOMETRY  3 HOURS
This math content course prepares the education student for geo-  
metrical aspects of informal geometry in both the elementary and  
intermediate classroom. Content includes a historical perspec-  
tive of geometry, angles and measures, lines and line segments,  
congruence, similarity, triangles, circles, and volume and surface  
area. As each concept is practiced, students analyze  
ways to implement the NCTM standards. (fall)

1303  INTERMEDIATE ALGEBRA  3 HOURS
Required for all degree-seeking students who demonstrate math-  
ematics proficiency at or below the 40th percentile nationally as  
demonstrated by a test score of 18 or lower on the mathematics  
section of the ACT, or a score of 870 or lower on the SAT (the sum  
of critical reading and mathematics scores). This course must be  
completed before the beginning of the junior year and before en-  
rolling in MATH 1503 College Algebra or other higher-level courses  
in mathematics. The student will demonstrate an understanding  
of algebraic expressions and numbers, linear equations, graphs  
of equations, functions, algebra of functions, linear functions,
3403  **NUMERICAL METHODS**  3 HOURS  Numerical techniques applied to solving equations and systems of equations, interpolation and extrapolation, integration of differential equations, etc. Prerequisites: CSCI 1513 and MATH 2104. (TBA)

3503  **DISCRETE MATHEMATICS**  3 HOURS  A survey of selected methods of reasoning and objects of study in discrete mathematical structures. Topics include Big O notation, elementary math (logic, set relations, functions, and number theory), proof and counting techniques, recurrence relations, graph theory and trees. Prerequisite: MATH 1503 or three years of high school algebra. Recommended: MATH 2004. (TBA)

3603  **ADVANCED CALCULUS I**  3 HOURS  A rigorous study of number systems, sequences, convergence, continuity, differentiation, and integration. Prerequisites: MATH 2203 and MATH 3303. (TBA)

3703  **ADVANCED GEOMETRY**  3 HOURS  Analytic projective geometry of one, two, and three dimensions, with specializations of Euclidean and non-Euclidean geometries. Prerequisites MATH 2203 and MATH 3003. (TBA)

*3804  **ENGINEERING MATH I**  4 HOURS  The course covers many of the postcalculus topics in mathematics that are necessary for the modern engineer. Coordinate systems, coordinate transformations, matrices, vector analysis. Ordinary differential equations. Laplace transform. Cross-listed PHYS 3804. (TBA)

*3903  **ENGINEERING MATH II**  3 HOURS  A continuation of Engineering Math I. Waves, boundary value problems, special mathematical functions, Fourier analysis and Fourier transform, complex variables. Cross-listed PHYS 3903. (TBA)

4103  **ALGEBRAIC STRUCTURES II**  3 HOURS  Structure of groups, lattices, categories and adjoint functors, tensor products and multilinear algebra. Prerequisite: MATH 3103. (TBA)

4203  **PROBABILITY AND STATISTICS II**  3 HOURS  Interval estimation, hypotheses testing linear regression, and distribution-free methods. Prerequisite: MATH 3203. (TBA)

4303  **PARTIAL DIFFERENTIAL EQUATIONS**  3 HOURS  Prerequisite: MATH 3303. (TBA)

4403  **TOPOLOGY**  3 HOURS  An introduction to point-set topology. Prerequisites: MATH 3003, MATH 3103, and MATH 3603. (TBA)

*4503  **QUANTUM MECHANICS**  3 HOURS  See PHYS 4503. (TBA)

4603  **ADVANCED CALCULUS II**  3 HOURS  A continuing rigorous examination of the calculus, including Fourier series and line and surface integrals. Prerequisite: MATH 3603. (TBA)

4703  **FUNCTIONS OF A COMPLEX VARIABLE**  3 HOURS  Analytic functions, Taylor and Laurent series, conformal mapping, Schwartz-Christoffel transformation, contour integration. Prerequisite: MATH 2104. (TBA)

4991-6  **INDependENT STUDY**  1–6 HOURS  By permission of the department chairman. (TBA)

### MOVING IMAGE ARTS (MIAP)

#### 1013  **INTRODUCTION TO FILM STUDIES**  3 HOURS  The course introduces students to the essential techniques of film analysis to develop the critical vocabulary to view, discuss, and write about film as an art form. Distinction between the importance of the literary and cinematic analysis of film is emphasized. Examination of approaches to the study of film include auteurism, genre study and how film forms establish or subvert expectations, theoretical and historical developments in the history of cinema, and the tension between film as an art form and film as a business. Discussion is rooted in the screening of appropriate films.

*1123  **BEHIND THE SCENES: THE PROCESS OF MAKING FILMS**  3 HOURS  See MCFM 1123.

#### 1213  **AMERICAN FILM: PRE-1945**  3 HOURS  An exploration of the historical and cultural contexts that governed the emergence of film as art and mass culture. From early silent film through the American pre-war studio products, different approaches to narrative filmmaking as a developing form of communication are examined and screened. Readings, screenings, and written reports required.

#### 2023  **INTERMEDIATE TECHNOLOGY AND EQUIPMENT PRACTICUM**  3 HOURS  Students learn to plan for and operate the most commonly used moving image art technical hardware employed in the processes of professional content production. Equipment needs and usage in each major labor category are examined. Guest lectures and hands-on workshops focusing on results planning, efficiency of usage, safety, and set operations.

#### 2183  **INTRODUCTION TO FILM MUSIC**  3 HOURS  This course explores the roles of music in film from historical, aesthetic and production viewpoints. It is a lectured, workshop, and peer-taught forum examining the relationship of film as a separate element of the overall production and how the working dynamics of the creative team of director, producer, and composer collaborate to use music to voice a unique perspective affecting audience interpretation.

#### 2213  **FILM PRODUCTION AND BUSINESS**  3 HOURS  Students study the professional moving image production management process from product concept to completion. Students learn script selection, breakdown and production scheduling, budget development and management, casting and staffing, production execution, and the visual and aural post production processes. Publicity, marketing techniques, distribution plans, copyright, and chain of title are analyzed.

#### 2223  **PROJECT 1: SOPHOMORE**  3 HOURS  Taken in the second semester of the sophomore year, students are immersed in the physical processes of content production and create individually produced short, basic sync-sound moving image productions. Production hardware is provided. Successful completion of this course is required for continued study in the major. Prerequisite: MCBC 1123.

*2303  **CRITICAL READING AND WRITING**  3 HOURS  See ENGL 2303. (Fall)

*2513  **FILM: A COMMUNICATOR OF SOCIAL VALUES**  3 HOURS  See MASC 2513. (Spring, odd)
3023 FILM SOUND RECORDING 3 HOURS
Fundamentals of motion picture sound characteristics and recording methods in both studio and field environments are studied. Emphasis is on technical and hardware considerations for proper sound design needs and the aural landscape as a narrative element.

*3103 NONLINEAR EDITING 3 HOURS
See MCBC 3103.

*3123 WRITING FOR STAGE AND SCREEN 3 HOURS
See ENGL 3123. (spring, odd)

3143 FILM DIRECTING: THE COLLECTIVE VISION 3 HOURS
Students analyze the techniques and resources used in modern film directing necessary for the successful development and completion of a filmed production. Students examine the duties of the director from the perspective of the various craft categories. Emphasis is on the development of the directing leadership model of organization and film production administration.

3163 FILM GENRE 3 HOURS
This course focuses on the concept of genre and its utility in the examination of film texts. The specific genre studied each time the course is offered may vary depending on the instructor. Students may take the course more than once provided a different genre is studied each time.

3204 INTERMEDIATE DIGITAL EDITING 4 HOURS
Continuing from the fundamentals of MCBC 3103, students explore advanced techniques of montage and nonlinear image and sound track construction utilizing the Final Cut Pro platform. Editorial theory, transitions, effects, and advanced methods of time manipulation and narrative structure construction are stressed. In-class and out-of-class projects required. Prerequisite: MCBC 3103.

3223 INTRODUCTION TO CINEMATOGRAPHY 3 HOURS
Students master the fundamental systems and operations of the professional digital motion picture camera and accessories with a focus on camera care, maintenance, lens optics, and performance. Composition, movement, image continuity, and basic digital graphics are included. Outside classroom assignments are given. Prerequisite: MCBC 3103.

*3313 GREAT FILMS 3 HOURS
The course explores cinema as a serious art form, perhaps the major one of the 20th century. We focus on the interpretation of films through the techniques of cinematic analysis in order to learn the art of seeing. Although other approaches to film are presented, the auteur theory, that the auteur is the primary creative force behind a great film, predominates. We will view and discuss the films to consider what the auteur (director) is saying, how the auteur is saying it, and how successfully the auteur says it. We consider such topics as whether the true cinema was the silent one; the tension between the cinematic and literary components of a film's structure, how the style of a film can reflect the cultural texture of its director; and the importance of film movements—the French New Wave, for example, on film history. The films viewed reflect different cultural experiences to provide an international dimension. Cross-listed ENGL 3913.

3323 INTRODUCTION TO FILM LIGHTING 3 HOURS
Using classical painters and paintings as a reference, students learn the specifics of portrait, object, and spatial lighting and apply these techniques to the dynamics of moving image content illumination. The basic lighting units, their electrical requirements, performance specifics, and the safety of operations are covered. Emphasis is given to the fundamentals of light value maintenance, manipulation, and use of lighting to enhance story. Prerequisite: MIAP 2023.

3353 PRODUCTION DESIGN 3 HOURS
Students learn the specifics of the production design/art department; its contributions, fundamentals, and applications as a means to communicate story elements. Guest lectures, discussions, and hands-on workshops focus on story breakdown, storyboarding, and execution of design concepts.

*3363 CINEMA AND INTERNATIONAL EXPLORATIONS 3 HOURS
See ENGL 3363.

3483 MOVING IMAGE ARTS INTERNSHIP 3 HOURS
Qualified students find a workplace opportunity and, under the structure and evaluation of the program director, gain field experience. Prerequisite: 12 hours of earned MIAP credits.

*3513 ON-CAMERA ACTING 3 HOURS
See THRE 3513.

3613 ADVANCED ON-CAMERA ACTING 3 HOURS
This course builds upon the work completed in MIAP 3513 On-Camera Acting. Students explore advanced techniques of performance and preparation for film and television productions. Prerequisite: MIAP 3513 or program director's permission.

4043 SPECIAL TOPICS IN FILM PRODUCTION 3 HOURS
Proposed by the student and approved by the program director, a specific topic not included in other moving image arts production classes is studied. Instructor, course competencies, and subjects vary. May be repeated with a change in content. Prerequisite: approval of program director.

4124 INTERMEDIATE FILM SOUND EDITING TECHNIQUES 4 HOURS
Study of the technical and aural forces of moving image sound editing at the professional level. Practical and aesthetic considerations relating to recording, editing, and sound design utilizing Logic software. Prerequisite: MCBC 3103 and MIAP 3023.

4143 SPECIAL TOPICS IN FILM STUDIES 3 HOURS
Proposed by the student and approved by the program director, a specific topic not included in other moving image arts film studies classes is studied. Instructor, course competencies, and subjects vary. May be repeated with a change in content. Prerequisite: approval of program director.

4391 SENIOR CAPSTONE—PLANNING 1 HOUR
All degree candidates are expected to synthesize their comprehensive knowledge by creating a structured, detailed written plan of their project or thesis as a preparation for the capstone. Prerequisite: approval of program director.

*4453 SEMINAR IN THEORY & CRITICISM 3 HOURS
See ENGL 4453.

4493 SENIOR CAPSTONE—EXECUTION 3 HOURS
A required program measurement in the senior year is either a comprehensively produced moving image thesis project or an in-depth senior seminar with a written thesis requirement in moving image theory/culture. Production hardware/software provided. Prerequisite: MIAP 4393; approval of program director.
MUSIC—THEORY (MUS)

1102-1202 MUSIC FUNDAMENTALS 2, 2 HOURS
These courses deal with the basic aspects of music, including notation, key signatures, intervals, elementary harmonic structure, ear training, and simple sight-reading. Designed for the nonmusic major. Based on the results of the Music Theory Diagnostic Exam, music majors may be placed in Music Fundamentals. Credit is not acceptable for the B.M. degree. (fall, spring)

1122 THEORY I 2 HOURS
Students learn the basic elements of music: scales, intervals, triads, seventh chords, Roman numeral function, and two-voice counterpoint. In addition, four-part voice leading, cadences, phrase structure and figured bass will be covered. Students will also demonstrate competence of basic harmonic patterns on the keyboard. This course contains a significant writing component. The course is to be taken concurrently with a corresponding Aural Skills course that is taught by the same instructor. Prerequisite: Successful completion of MUS 1102. (fall, spring)

1212 THEORY II 2 HOURS
Students learn diatonic harmony, voice leading patterns, melodic embellishments, secondary functions and modulation through voice leading and analysis examples, as well as learning to harmonize melodies with appropriate keyboard accompaniments. Students will also demonstrate competence of harmonic patterns on the keyboard. All students are required to write an analysis paper as part of this course. The course is to be taken concurrently with a corresponding Aural Skills course that is taught by the same instructor. Prerequisite: Successful completion of MUS 1102. (spring, summer)

1222 AURAL SKILLS II 2 HOURS
Students continue studying diatonic harmony through melodic and harmonic dictation, and through sight singing examples. Rhythmic dictation includes simple and compound meter. The course is to be taken concurrently with a corresponding Theory course that is taught by the same instructor. Prerequisite: Successful completion of MUS 1102. (spring, summer)

2101-2112 THEORY III 2 HOURS
Students learn chromatic harmony (borrowed chords, augmented sixths, Neapolitan sixths, etc.) through voice leading and analysis examples, as well as both small and large formal structures. Students will also demonstrate competence of chromatic harmonic patterns on the keyboard. This course contains a significant writing component. The course is to be taken concurrently with a corresponding Aural Skills course that is taught by the same instructor. Prerequisite: Successful completion of MUS 1102. (fall)

2122 AURAL SKILLS III 2 HOURS
Students study diatonic and chromatic harmony (borrowed chords, secondary functions) through melodic and harmonic dictation and through sight singing examples. Rhythmic dictation includes syncopation in both simple and compound meter. The course is to be taken concurrently with a corresponding Theory course that is taught by the same instructor. Prerequisite: Successful completion of MUS 1212. (fall)

2212 THEORY IV 2 HOURS
Students learn harmony of the late nineteenth century and twentieth century, as well as score reading and transposition through voice leading and analysis examples. Students will also demonstrate competence of chromatic modulation patterns on the keyboard. All students are required to write an analysis paper as part of this course. The course is to be taken concurrently with a corresponding Aural Skills course that is taught by the same instructor. Prerequisite: Successful completion of MUS 2112. (spring)

2222 AURAL SKILLS IV 2 HOURS
Students study chromatic harmony through specific chords and modulations, as well as modal melodies and harmonies through melodic and harmonic dictation and through sight singing examples. Rhythmic dictation includes syncopation and asymmetrical meters. The course is to be taken concurrently with a corresponding Theory course that is taught by the same instructor. Prerequisite: Successful completion of MUS 2112. (spring)

3113 ORCHESTRATION 3 HOURS
The study of idiomatic writing for the instruments of the orchestra. Arranging of short compositions for small ensembles of varying instrumentation. Prerequisites: MUS 2112. (fall)

4113 FORM AND ANALYSIS 3 HOURS
A comprehensive study of form from folk songs to symphony. Training in recognizing the various forms by sound and sight. Prerequisites: MUS 2212. (fall, spring)

4212 COMPOSITION II 2 HOURS
More advanced composition techniques with emphasis on the modern idioms. For noncomposition majors only. Prerequisites: MUS 2212, MUS 3113, and MUS 4313. (TBA)

4313 COMPOSITION I 3 HOURS
Study of theory and techniques of composition. Original composition employing these techniques. For noncomposition majors only. Prerequisite: MUS 2212. (fall)

4413 EIGHTEENTH-CENTURY COUNTERPOINT 3 HOURS
Two-part inventions in Bach style. Introduction to fugal writing. Prerequisite: MUS 2212. (spring)

4911-6 INDEPENDENT STUDY 1–6 HOURS
Independent study in music composition for the noncomposition music major. Prerequisites: Permission of instructor. (TBA)

MUSIC COMPOSITION (MUS)
(The following courses are for composition majors only)

1211 FRESHMAN COMPOSITION A 1 HOUR
An introductory and comprehensive study of composition geared toward developing a foundation for music composition. (fall)

1311 FRESHMAN COMPOSITION B 1 HOUR
An introductory and comprehensive study of composition geared toward developing a foundation for music composition. (spring)
### Music History and Literature (MUS)

#### 1123 Music and the Human Experience 3 Hours
An introduction to musical practice from cultures around the world and from historical Western traditions. (fall, spring)

#### 3123 Music History I 3 Hours
A survey of Western musical traditions and repertories from Antiquity to around 1700, focusing on specific musical works and practices as representative of broader stylistic paradigms. Prerequisites: MUS 1123 or MUS 1133/1233 and MUS 2212 (fall).

#### 3223 Music History II 3 Hours
A survey of Western musical traditions and repertories from around 1700 to 1950, focusing on specific musical works and practices as representative of broader stylistic paradigms. Prerequisite: MUS 3123. (spring)

#### 4012 Music History Review 2 Hours
An intensive review of the undergraduate music history sequence. Required of graduate music students not scoring satisfactorily on the graduate advisory examination. (fall)

#### 4021 Theory Review 1 Hour
An intensive review of the undergraduate music theory sequence. Required of graduate music students not scoring satisfactorily on the graduate advisory examination. (fall)

#### 4023 Choral Literature 3 Hours
A specialized study of choral music from medieval to present times. (TBA)

#### 4123 History of Twentieth-Century Music 3 Hours
A survey of global musical traditions and repertories of the 20th century, with an emphasis on their cultural, social, philosophical, and political contexts. Prerequisite: MUS 3223. (fall, spring)

#### 4323 Opera History 3 Hours
This course addresses the particular challenges of the singing-acting process through group exercises and the preparation and presentation of opera arias and scenes. Emphasis is on expanding the performers’ expressive capacity. Methods of role preparation and scene analysis are applied to arias and opera scenes. (fall)

#### 4423 Vocal Literature Seminar 3 Hours
A specialized study of vocal literature with emphasis on style and idiomatic characteristics. (spring)

#### 4462 Opera Studio 2 Hours
This course addresses the particular challenges of the singing-acting process through group exercises and the preparation and presentation of opera arias and scenes. Emphasis is on expanding the performers’ expressive capacity. Methods of role preparation and scene analysis are applied to arias and opera scenes. (fall, spring)

#### 4523 Wind Literature 3 Hours
A detailed study of the history of wind instruments, musicians, composers, and repertoire from Biblical times to the present through reading, writing, listening, and research. (TBA)

#### 4583 Music Theater Literature Seminar 3 Hours
A survey of the development of the music theater genre from operetta to the present. (fall, spring)
4623 KEYBOARD LITERATURE SEMINAR 3 HOURS
A study of the repertoire and styles of keyboard music from the pre-Bach period through the twentieth century. Prerequisite: MUS 3223 (TBA)

4723 ORGAN LITERATURE SEMINAR 3 HOURS

ORGANIZATIONAL
COMMUNICATIONS (OCAC)
The following courses are open to students enrolled in the School
of Adult and Continuing Education programs only.

2103   INTRODUCTION TO
ORGANIZATIONAL
COMMUNICATION       3 HOURS
A general introduction to the important field of communication
within an organizational context. The generic structural character-
istics of organizations are examined as well as the diverse forms
of communication that form the foundations of those communities
that we normally regard as specialized organizations (e.g., corpora-
tions, churches, schools, hospitals, government agencies, etc.)

2113   INTERPERSONAL COMMUNICATION 3 HOURS
This course explores the psychological and cultural bases for com-
munications among individuals. Motivation as well as the cultural
norms that structure interpersonal communications are examined.
The course also explores rhetorical strategies that help and hinder
interpersonal communication.

3303   SMALL GROUP COMMUNICATION 3 HOURS
This course begins with an analysis of group dynamics, what
causes persons to form and join groups, and motivations that
compel members to maintain group solidarity. Special focus on the
rhetoric of small groups—i.e. what sorts of speech acts tend to
promote the success of the group and the standing of individuals
in the group.

4333   LEADERSHIP       3 HOURS
The course begins with a survey of the qualities that define the
leader and moves to consider the communications skills (rhetorical
methods) that are best suited for achieving and maintaining posi-
tions of leadership.

4433   ORGANIZATIONAL INNOVATIONS,
DEVELOPMENT AND CHANGE       3 HOURS
Instituting a culture of innovation and change within organizations is
the theme of this course. Special emphasis is given to contempo-
rary studies of the factors that aid and inhibit institutional innova-
tion including the role that language plays in shaping our under-
standing of the value of innovation within an organizational context.

PHILOSOPHY (PHIL)

*2004H   CLASSICS OF WESTERN CULTURE I 4 HOURS
See Honors 2004H. (fall, even)

2013   AESTHETICS: PHILOSOPHY
OF THE FINE ARTS       3 HOURS
Examination of the many critical questions that surround the seri-
ous study of art as an essential human activity. Principally, these
questions are of two sorts: questions about the experience of art
and the value judgments we make about these experiences and
the objects that evoke them and questions about the "object" of
aesthetic experience. The dominant question that unites the course
is, "What is art, and why is it important for human life?" This course
satisfies the values and culture requirement in the general educa-
tion curriculum. (spring, odd)

*2114H   CLASSICS OF WESTERN
CULTURE II       4 HOURS
See Honors 2114H. (fall, odd)

*2163   MORAL ISSUES IN
CONTEMPORARY CULTURE       3 HOURS
Reflection on and analysis of moral issues that arise in a particular
area of contemporary culture (e.g., medicine, politics, law, eco-
logy, mass media, etc.). The course may be repeated with a different
content. This course satisfies the values and culture requirement of
the general education curriculum. Cross-listed REL 2163. (TBA)

*2203   BUSINESS ETHICS       3 HOURS
This course satisfies the values and culture requirement of the gen-
eral education curriculum. Cross-listed MGMT 2223. (fall, spring)

*2213   MORAL & SOCIAL PHILOSOPHY       3 HOURS
Consideration of the nature and scope of ethical reflection as an
inherently social phenomenon. Through an analysis of several
classical and contemporary ethical theories, the course deals with
such issues as the nature of value, the basis of normative value
judgments and ethical prescriptions, and the implications these
reflections on value and conduct have for our conceptions of the
truly human community. This course satisfies the values and cul-
ture requirement of the general education curriculum. Cross-listed
REL 2213. (fall)

*2413   PHILOSOPHY OF RELIGION       3 HOURS
Analysis and evaluation of the classical arguments for the exis-
tence of God, the problem of evil and the traditional answers to
this problem. The course explores the relation between theologi-
cal reflection and the concept of a worldview and focuses on a
comparison between the prescientific worldview and the modern
worldview and its impact on contemporary theology. This course
satisfies the values and culture requirement of the general educa-
tion curriculum. Cross-listed REL 2413. (spring, even)

*2513   ETHICS OF COMMUNICATION       3 HOURS
Systematic study of moral issues as they effect personal communi-
cation with special attention given to the ethics of the mass media.
Cross-listed PHRH 2513. (spring, even)

2563   PROBLEMS OF PHILOSOPHY       3 HOURS
Systematic analysis of a particular philosophical problem or area
of philosophy (e.g., philosophy of history, philosophy of science,
existentialism, philosophy of technology, etc.). This course may be
repeated with a different content. (TBA)

*2613   POLITICAL PHILOSOPHY       3 HOURS
Analysis of the relation between politics and ethics, involving a
systematic study of classical political theories. Cross-listed POLS

members of Oklahoma City University’s Speech and Debate Team. (TBA)

3513 RELIGIOUS COMMUNICATION 3 HOURS
This course examines the unique dimensions of speech in a religious context and is designed for students who are likely to be speaking in the context of worship, funeral services, weddings, or other religious events. (TBA)

3813 POLITICAL COMMUNICATION 3 HOURS
This course examines the rhetorical nature of political communication as manifested in various channels, including oratory, debates, press conferences, and advertisements, and explores the role of logical argument, image, and mythology in forming candidate appeal. Cross-listed with POL 3813. (TBA)

3863 SPECIAL TOPICS IN COMMUNICATION 3 HOURS
(TBA)

*4003 RHETORIC AND REALITY 3 HOURS
This course explores the philosophical and ethical dimensions of language itself, with special attention given to the linguistic creation of reality, especially through “doublespeak,” and other deceptive uses of language. Cross-listed with PHIL 4003. (TBA)

4513 LEARNING IN PARABLES 3 HOURS
Students are introduced to the parable as a literary form uniquely suited to the communication of profound religious and philosophical truth. They are also given the opportunity to think and write "parabolically." (TBA)

4851-3 DIRECTED STUDIES 3 HOURS
A variable content course generally taught on an individual basis to meet specific student needs. Permission of the instructor required. (TBA)

PHYSICS (PHYS)

1003 SCIENCE, TECHNOLOGY, AND SOCIETY 3 HOURS
This course focuses on the acquisition and meaning of scientific data leading to the development and support of hypotheses and theories. The use of scientific knowledge in selected areas is investigated with regard to its application to technology, human well-being, and related ethical problems. Topics related to pseudoscience and the abuse of science and technology are also discussed. (fall, spring, summer)

1014 ASTRONOMY 4 HOURS
An elementary introduction to the sun, moon, planets, comets, stars, clusters, galaxies, pulsars, quasars, stellar evolution, models of the universe, nature of light and use of the telescope, orbits of spacecrafts and exploration of space. Three hours lecture and two hours laboratory each week, including use of the observatories. (fall, spring, summer)

1114 INTRODUCTION TO PHYSICAL SCIENCES 4 HOURS
Topics include data acquisition, concepts of force, energy, heat, sound, light, and electricity, and essentials of chemistry and biophysics. This course meets the general education requirement for laboratory science. It is intended for nonscience majors and will not count toward the physics major. Three hours of lecture and two hours of laboratory each week. (TBA)

1303 ACOUSTICS 3 HOURS
An introduction to the physics of sound: sound generation and propagation, waves and pulses, superposition and interference of waves, resonance, infra and ultrasound. The application of the physical principles of sound to music: musical instruments, sound perception, sound recording, the acoustical environment. The combination of this course and PHYS 1341 satisfies 4 credit hours of the general education laboratory science requirement. (fall, spring)

1341 ACOUSTICS LABORATORY 1 HOUR
Laboratory paralleling the Acoustics lecture course. Corequisite: PHYS 1303. (fall, spring)

1503 GENERAL PHYSICS I 3 HOURS
Fundamental concepts in mechanics, sound, heat, and thermodynamics. Three hours lecture per week. Prerequisite: MATH 1503. (fall)

1541 GENERAL PHYSICS I LABORATORY 1 HOUR
Experiments paralleling the lectures in PHYS 1503. (fall)

1603 GENERAL PHYSICS II 3 HOURS
Continuation of General Physics I Lecture: electricity, magnetism, optics, and atomic physics. Three hours lecture per week. Prerequisite: PHYS 1503. (spring)

1641 GENERAL PHYSICS II LABORATORY 1 HOUR
Experiments paralleling the lectures in PHYS 1603. (spring)

2104 UNIVERSITY PHYSICS I 4 HOURS
Required for physics, mathematics, and pre-engineering majors; recommended for others with appropriate background. A calculus-based introduction to the principles of mechanics and wave motion. Four hours lecture per week. Prerequisite or corequisite for MATH 204. (fall)

2141 UNIVERSITY PHYSICS I LABORATORY 1 HOUR
Experiments paralleling the lectures in PHYS 2104. Three hours laboratory each week. (fall)

2204 UNIVERSITY PHYSICS II 4 HOURS
Continuation of University Physics I Lecture: Heat, electric and magnetic fields, optics. Prerequisite or corequisite: PHYS 2104, MATH 2104. (spring)

2241 UNIVERSITY PHYSICS II LABORATORY 1 HOUR
Experiments paralleling the lectures in PHYS 2204. (spring)

2314 INTRODUCTION TO ELECTRONICS 4 HOURS
An introduction to electronics and the circuit characteristics of discrete components and simple integrated circuits. The course includes the theory and operation of electronic instrumentation, amplifiers, oscillators, and elementary circuit modeling. Two hours of lecture and two hours of laboratory each week. Corequisite: PHYS 204. (TBA)

3041 ADVANCED PHYSICS LABORATORY 1 HOUR
Advanced experiments in classical and modern physics. Three hours laboratory each week. Prerequisites: PHYS 2204 and 2241. (TBA)

3103 ANALYTICAL MECHANICS 3 HOURS
Kinematics and dynamics of a particle, momentum, energy, conservative forces, statics and dynamics of rigid bodies, introduction to vibration theory. Prerequisite: PHYS 2204. (TBA)
3203 THERMODYNAMICS 3 HOURS
Transfer of heat, laws of thermodynamics, temperature, entropy, enthalpy, and reversibility and irreversibility. Carnot and other cycles, thermodynamic properties of materials, changes of phase, introduction to chemical thermodynamics, and low-temperature physics. Prerequisite: PHYS 2204. (TBA)

3303 ELECTRICITY AND MAGNETISM 3 HOURS
Laws of Coulomb, Gauss, Faraday, and Ampere, electric fields, electric potential, dielectrics and conductors, direct and alternating currents, magnetic fields, magnetic materials, and Lorentz force. Prerequisite: PHYS 2204. (TBA)

3403 OPTICS 3 HOURS
Geometrical treatment of lenses and mirrors, aberrations, optical instruments, analytical treatment of physical optical phenomena of reflection, refraction, interference, diffraction, polarization, scattering, introduction to magneto-optics, electro-optics, and quantum optics. Prerequisite: PHYS 2204. (TBA)

3503 MODERN PHYSICS 3 HOURS
Existence of the electron, determination of fundamental constants, atomic nature of matter, particle beams in electric and magnetic fields, photoelectric effect, x-rays, Compton effect, Bohr-Sommerfeld theory, deBroglie's hypothesis, Schrödinger equation, and introduction to special relativity. Prerequisite: PHYS 2204. (TBA)

3603 ELECTRIC FIELDS AND CIRCUITS 3 HOURS
Advanced treatment of DC and AC circuits, including Thévenin's theorem, Norton's theorem, complex representation of AC phenomena, matrix description of circuits and applications. Prerequisite: PHYS 2204. (TBA)

3703 SOLID STATE PHYSICS 3 HOURS
Nature and property of materials, crystal structures, x-ray diffraction, lattice vibrations, thermal properties of solids, free-electron model, band theory of solids, Brillouin zones, semiconductor crystals, and superconductivity. Prerequisite: PHYS 3503. (TBA)

*3804 ENGINEERING MATH I 3 HOURS
See MATH 3804. (TBA)

*3903 ENGINEERING MATH II 3 HOURS
See MATH 3903. (TBA)

4003 CLASSICAL MECHANICS 3 HOURS
Lagrangian and Hamiltonian formulation of the mechanics of particles, field concepts, vibrational structures, and accelerated reference systems. Prerequisite: PHYS 3103. (TBA)

4103 FLUID MECHANICS 3 HOURS
An introduction to fluid statics and dynamics, including properties of fluids, continuity equation, hydraulics, equations of motion, Bernoulli's equation, types of flow, flow in pipes and over submerged bodies, boundary layers. Prerequisites: PHYS 2104, MATH 2104. (TBA)

4203 STATISTICAL MECHANICS 3 HOURS
Introduction to statistical methods, representative physical ensembles, statistical formulation of laws of thermodynamics, simple applications, quantum statistics of ideal gases, application of blackbody radiation, systems of interacting particles, application to crystalline solids, and other areas. Prerequisite: PHYS 3203. (TBA)

4303 RELATIVITY 3 HOURS
Special relativity, applications to various areas of physics, introduction to general relativity. Prerequisite: PHYS 3103. (TBA)

4403 ELECTROMAGNETIC THEORY 3 HOURS
Maxwell's equations, potentials, wave equation, electromagnetic radiation, forces, energy relations, and relativistic formulation of Maxwell's equation. Prerequisite: PHYS 3303. (TBA)

*4503 QUANTUM MECHANICS 3 HOURS
Schrödinger formulation, Heisenberg formulation, potential well problems, harmonic oscillator, hydrogen atom, perturbation theory, emission and absorption probabilities. Prerequisite: PHYS 3503. Cross-listed MATH 4503. (TBA)

4603 ATOMIC AND NUCLEAR PHYSICS 3 HOURS
Atomic models, exclusion principles, periodic table, magnetic and optical properties of atoms, optical spectra, radioactivity, nuclear structure and models, nuclear forces, nuclear reactions, fission, fusion, and neutron physics. Prerequisite: PHYS 3503. (TBA)

4691-3 INTRODUCTION TO PHYSICAL RESEARCH 1–3 HOURS
Studies of research techniques, studies in technical journals, studies in treatment of experimental data and pursuit of research in preparation for graduate work. Prerequisite: 12 hours of physics beyond PHYS 2204. (TBA)

4991-3 INDEPENDENT STUDY 1–3 HOURS
Prerequisite: 12 hours of physics beyond PHYS 2204. (TBA)

POLITICAL SCIENCE (POLS)

1012 INTRODUCTION TO LEGAL STUDIES 2 HOURS
A survey of ethics and jurisprudence; English and American legal history; salient features of the legal system; the nature of the legal profession; the various areas, both traditional and emerging, of law and legal practice; and a brief introduction to legal research and law school Socratic method. Prerequisite: POLS 1113. (fall, even)

1013 COMPARATIVE POLITICS 3 HOURS
A wide-ranging survey of the similarities and differences among major contemporary political systems. Included are examinations of government and politics in liberal democracies, communist and post-communist countries, the newly industrializing states, and the less-developed countries. This course is specifically designed for international students as a substitute for POLS 1113. It may also be taken by domestic students to fulfill the cross-cultural study requirement for general education. (fall, spring)

1113 GOVERNANCE IN AMERICA 3 HOURS
This course meets the State of Oklahoma college degree requirements for three semester hours of American government. (fall, spring)

*1413 SURVEY OF ASIAN HISTORY AND POLITICS 3 HOURS
A survey course reviewing the history of Pacific Basin countries since the nineteenth century and the beginning of their interaction with the West, focusing on politics, history, culture, philosophy, and economics. Cross-listed HIST 1413. (TBA)

*2103 ISSUES IN WOMEN’S STUDIES 3 HOURS
See IND 2103. (TBA)

*2301 STATISTICS FOR THE BEHAVIORAL SCIENCES LABORATORY 1 HOUR
See PSYC 2301. Lab credit is encouraged. (fall, spring)

*2303 STATISTICS FOR THE BEHAVIORAL SCIENCES LECTURE 3 HOURS
See PSYC 2303. (fall, spring)

*4313 CONTEMPORARY POLITICAL THEORY 3 HOURS
An examination of political philosophy and theory in the twentieth century. May be taught by movements (e.g., fascism, communism, capitalistic imperialism, etc.) or by key political thinkers (e.g., Lenin, Wilson, Dewey, Trotsky, Hitler, Weizmann, Oakeshott, Mao, Nozick, Rorty, etc.). Cross-listed PHIL 4313. (spring, even)

4513 INTERNATIONAL LAW 3 HOURS
A general survey and background history of the development of international law, its modern applications and changes. Emphasis on specific cases and issues. Prerequisite: POLS 1113. (TBA)

*4543 CURRENT ISSUES IN POLITICAL ECONOMY OF THE WORLD 3 HOURS
See ECON 4543. (TBA)

4613 THE POLITICS OF LAW 3 HOURS
Study of the political function of civil law; the political role of attorneys; the policy function of the American Bar Association and state and local associations; the self-regulating functions of the legal profession; judicial selection methods; legal education; role of the courts in lawmaking; lawyers in legislature; policy function of authors of Uniform Codes; and determinants of judicial decision-making. Prerequisite: POLS 1113. (TBA)

4703 PUBLIC MANAGEMENT AND POLICY ANALYSIS 3 HOURS
An introduction to public analysis and decision making with emphasis on the examination of selected domestic policy issues. The use and ethical questions of policy research and administration are considered. Prerequisite: POLS 1113. (TBA)

*4713 AMERICA IN THE MIDDLE EAST 3 HOURS
See HIST 4713. (fall, odd)

4863 SENIOR SEMINAR 3 HOURS
This capstone course in the major allows students to fulfill their advanced study requirement. Students engage in either a directed research project, advanced focused readings in a specific area of the discipline, or an internship under the guidance of the instructor. The class meets at least once every other week in order to share experiences and explore broad topics relating to the discipline. (spring; contingent upon adequate demand.)

4981-9 POLITICAL INTERNSHIP 1–9 HOURS
Normally restricted to majors who have junior or senior standing and to transfer students who have completed at least one semester of class work at Oklahoma City University. Absolute minimum of nine hours or permission of department chair. (TBA)

4991-6 INDEPENDENT STUDY 1-6 HOURS
Restricted to majors with junior or senior standing except with permission of the department chair. (TBA)

PSYCHOLOGY (PSYC)

1113 INTRODUCTION TO PSYCHOLOGY 3 HOURS
An introductory course examining fundamental psychological principles with special emphasis on behavioral, biological, cognitive, sociocultural, and psychodynamic viewpoints.

1143 APPLICATIONS AND CAREERS IN PSYCHOLOGY 3 HOURS
Intensive drill in APA style, resume creation; survey of career options.

2013 LIFESPAN DEVELOPMENT 3 HOURS
Adult development across the lifespan presents normal developmental issues in the context of changing cultural demands, technological impacts, innate psychological stages, and aging. Prerequisites: PSYC 1113 and PSYC 1143. (fall, odd)

*2103 ISSUES IN WOMEN'S STUDIES 3 HOURS
See INDP 2103. (spring)

2113 DREAMS, DREAMING, AND MEANING 3 HOURS
The classic theories of dream interpretation are contrasted with modern research knowledge of the biological and psychological processes of dreaming. Open to nonmajors who have taken PSYC 1113. (spring, even)

*2301 STATISTICS FOR THE BEHAVIORAL SCIENCES LABORATORY 1 HOUR
To accompany PSY 2303, students learn computer-based statistical analysis. Cross-listed POLS 2301, SOC 2301.

*2303 STATISTICS FOR THE BEHAVIORAL SCIENCES 3 HOURS
Course content includes central tendency, variability, correlation, parametric and selected nonparametric inferential tests. Application of statistics in the biological, social, and educational fields is stressed. Cross-listed POLS 2303, SOC 2303.

2401 RESEARCH METHODS AND ANALYSIS LAB 1 HOUR
The lab component to PSYC 2413.

2413 RESEARCH METHODS & ANALYSIS 3 HOURS
The design, conduct, analysis, and written reporting of research in the social sciences is learned by practicing each of these phases of research. Extensive support in learning to use the computer in the conduct and analysis of experiments is provided. Statistics is an absolute. Prerequisites: PSYC 2301/2303 and PHIL 2713. (spring)

2503 INDUSTRIAL PSYCHOLOGY 3 HOURS
The course is designed to illustrate a variety of work-related problems and to help develop human relations skills to solve them. Prerequisites: PSYC 1113 and PSYC 1143. (fall)

2813 PSYCHOLOGY OF PERSONALITY 3 HOURS
A study of the major problems and theories concerning the nature of human personality and the changing nature of man. Presentations of psychodynamic, behavioral, cognitive, and humanistic points of view are included. Prerequisites: PSYC 1113 and PSYC 1143. (spring)

2913 INTRODUCTION TO COUNSELING 3 HOURS
This introductory-level course covers the basic principles of counseling, compares the various theories of counseling, and surveys fundamental research into the effectiveness of counseling. (fall, even)

3113 COGNITIVE PROCESSES 3 HOURS
A survey of modern theories and research about the psychological aspects of cognition: memory, thinking, reasoning, concept formation, attention, planning, and mental imagery. Prerequisites: PSYC 1113 and PSYC 1143. (spring, odd)

3203 ABNORMAL PSYCHOLOGY 3 HOURS
This course introduces students to the study of the etiology, dynamics, diagnosis, counseling, treatment, and theories of abnormal behavior. Prerequisite: PSYC 2813 or 2013. (fall)
3403 SOCIAL PSYCHOLOGY 3 HOURS
This introduction to the scientific study of how individuals affect one another includes material on communications, attitudes and attitude change, and prejudice and discrimination. Social influence, aggression and violence, attraction and love, prosocial behavior, group structure and formation, leadership, environmental psychology, and applied social psychology. Prerequisites: PSYC 1113 and PSYC 1143. (fall, odd)

3463 TOPICS IN PSYCHOLOGY 3 HOURS
The topics of this variable-content course focus on fundamental issues in psychology. The course is intended for students with 6 or more hours in psychology, regardless of their majors. May be repeated with a change in content. Several topics have a prerequisite; see chair or advisor. (TBA)

3511 INTRODUCTION TO LEARNING 1 HOUR
Lab component to PSYC 3513.

3513 INTRODUCTION TO LEARNING 4 HOURS
Modern theories and the fundamental research of Pavlovian and operant conditioning are considered. The one-hour laboratory offers opportunities to apply the principles studied. Recommended: PSYC 2301/2303, and/or 2401/2413. Prerequisites: PSYC 2813. (spring, even)

4102 JUNIOR/SENIOR RESEARCH SEMINAR I 2 HOURS
Majors with at least 72 credits begin this two-semester capstone course in the spring of the junior year. Each student prepares a proposal and writes a sophisticated literature review or conducts an original research study suitable for presentation at a conference. Both PSYC 4102 and PSYC 4202 must be completed for graduation. Prerequisites: PSYC 2301/2303, and PSYC 2401/2413. (spring)

*4114 ANIMAL BEHAVIOR 4 HOURS
See BIOL 4114.

4202 JUNIOR/SENIOR RESEARCH SEMINAR II 2 HOURS
Second portion of psychology capstone course; students defend their papers before faculty.

4213 SYSTEMS AND THEORIES IN PSYCHOLOGY 3 HOURS
The historical roots and development of the discipline of psychology and the processes of psychological investigation and theory-making are the core of the course. Prerequisite: PHIL 3214 (fall, even, spring, odd)

4313 PSYCHOLOGICAL TESTS AND ASSESSMENT 3 HOURS
This course provides advanced students with a knowledge of the testing process, including issues of validity and reliability, and test construction. Prerequisite: 9 hours in psychology or its equivalent; PSYC 2301/2303. (fall, even)

4443 ADVANCED STATISTICAL APPLICATIONS 3 HOURS
The course focus is on the computer application of multivariate analysis of variance (MANOVA) and multivariate regression to large data sets using the SPSS statistical package. Selected techniques such as 'meta-analysis and factor analysis may be included depending on the students’ background, and needs. Recommended: PSYC 2401/2413. Prerequisite: PSYC 2301/2303. (spring, odd)

4563 SEMINARS IN PSYCHOLOGY 3 HOURS
Variable-content seminars about important issues in psychology. Prerequisites: PSYC 1113, 3 hours of other course work in psychology, and consent of instructor. (TBA)

4891-9 RESEARCH 1–6 HOURS
Intended for advanced juniors and seniors, this course allows students to conduct research in selected topics under the guidance of a faculty member. Prerequisites: PSYC 2401/2413, and approval of the department chair. (TBA)

4981-9 PSYCHOLOGICAL INTERNSHIPS 1–9 HOURS
Students qualified for advanced study and approved by the department work in a community organization or program relevant to their course of study. This experience is initiated by the student and is both structured and evaluated by the faculty mentor. Approval of the department chair required. (TBA)

4991-6 INDEPENDENT STUDY 1–6 HOURS
Opportunities for students with sufficient curiosity and demonstrated reliability to work on a selected problem with a minimum of restriction and routine. Prerequisite: student-initiated proposal that warrants the required department approval. (TBA)

RELIGION (REL)

1000 ORIENTATION TO RELIGIOUS STUDIES A weekly meeting with the director for all new students in the School of Religion. Required for all new religion majors. Grading is credit/no-credit. (fall)

1003 INTRODUCTION TO BIBLICAL LITERATURE 3 HOURS
An introductory survey of the history, thought, and literature of ancient Israel before the time of Jesus; the life and teachings of Jesus; and the history, thought, and literature of early Christianity.

2003, 2013 INTRODUCTION TO NEW TESTAMENT GREEK 3 HOURS
An introduction to grammar, syntax, and vocabulary of New Testament Greek for purposes of translation and exegetical study. A student must take both semesters in order for the courses to count toward the religion major or minor. (fall, odd; spring, even)

2023 METHODS OF BIBLICAL ANALYSIS 3 HOURS
An exploration of methods of studying the Bible, including theory and application of the varieties of historical-critical and literary approaches. Required of all religion majors. Prerequisite: REL 1003 or equivalent. (fall)

2033 INTRODUCTION TO RELIGION 3 HOURS
An introduction to religion using a phenomenological approach. Definitions of religion and a variety of forms of religious experience, community, and expression are considered. Tools from anthropology, psychology, and sociology of religion are utilized. This course satisfies the values and culture requirement of the general education curriculum. (spring, even)

2043 QUESTIONS OF FAITH 3 HOURS
An exploration of some basic theological questions of the Christian faith. Emphasis is on examining the variety of theological expressions and approaches to the questions. This course satisfies the values and culture requirement of the general education curriculum.

2103 INTRODUCTION TO JUDAISM 3 HOURS
Major personalities, literary documents, holidays and ceremonies, sects and movements in Judaism from biblical days to the present.
The growth of Judaism in the context of world history and in interaction with Christianity and Islam. This course satisfies the values and culture requirement of the general education curriculum. (TBA)

**2133-2143**  
**BIBLICAL HEBREW** 3 HOURS  
An introduction to grammar, syntax, and vocabulary of Biblical Hebrew for purposes of translation and exegetical study. A student must take both semesters in order for the courses to count toward the religion major or minor. (fall, even; spring, odd)

*2163**  
**MORAL ISSUES IN CONTEMPORARY CULTURE** 3 HOURS  
See PHIL 2163. This course satisfies the values and culture requirement of the general education curriculum.

**2203**  
**MODERN JEWISH THOUGHT** 3 HOURS  
Major nineteenth- and twentieth-century movements in Judaism, from the Hasidic to the Reconstructionist movements, are treated, with emphasis on the Reform, Conservative, and Orthodox branches of Judaism and the philosophies of representative thinkers such as Moses Mendelsohn and Mordecai Kaplan. This course satisfies the values and culture requirement of the general education curriculum. (TBA)

*2213**  
**MORAL & SOCIAL PHILOSOPHY** 3 HOURS  
See PHIL 2213. This course satisfies the values and culture requirement of the general education curriculum. (fall, even)

*2413**  
**PHILOSOPHY OF RELIGION** 3 HOURS  
See PHIL 2413. This course satisfies the values and culture requirement of the general education curriculum. (spring, odd)

**2503**  
**RELIGION IN AMERICAN HISTORY** 3 HOURS  
An examination of the historical development of American religious life and thought, with emphasis on the relationship of religion and culture in the American experience. This course satisfies the values and culture requirement of the general education curriculum. (spring, even)

**2513**  
**INTRODUCTION TO WORLD RELIGIONS** 3 HOURS  
A phenomenologically based survey of patterns of life and thought in the world’s religions, with major attention to representative indigenous religions, Hinduism, Buddhism, Chinese religions, Judaism, and Islam. This course satisfies the religion requirement of the values and culture requirement of the general education curriculum but cannot be used to satisfy both requirements.

**2603**  
**RELIGION AND THE ARTS** 3 HOURS  
An opportunity for the student to view the major issues in religious faith as presented in the secular arts, including music, theatre, film, dance, literature, and the visual arts. This course satisfies the values and culture requirement of the general education curriculum. (spring, even)

*2703**  
**INTRODUCTION TO CHRISTIAN ETHICS** 3 HOURS  
An effort to discern the character and content of moral issues, the process of moral reflection, and the ethical evaluation of moral issues from a Christian perspective. This course satisfies the values and culture requirement of the general education curriculum. Cross-listed PHIL 2703. (fall, odd)

*2803**  
**VALUES IN CONTEMPORARY LITERATURE** 3 HOURS  
See ENGL 2803. This course satisfies the values and culture requirement of the general education curriculum.

**2813**  
**THE JEWISH EXPERIENCE IN AMERICA** 3 HOURS  
This course traces the history of the American Jewish community from colonial days until the present. Special focus is on the Jewish history of the West and Southwest and the history of the Jews of Oklahoma. Sponsored by the Jewish Chautauqua Society. This course satisfies the values and culture requirement of the general education curriculum. (TBA)

**2823**  
**ANTI-SEMITISM AND THE HOLOCAUST** 3 HOURS  
Explanation of Anti-Semitism, which reached its final point with the destruction of European Jew. (TBA)

*2903**  
**LITERATURE AND THE JUDEO-CHRISTIAN TRADITION** 3 HOURS  
See ENGL 2903. This course satisfies the values and culture requirement of the general education curriculum.

**3001-3**  
**READINGS IN HEBREW** 1-3 HOURS  
A continuation of REL 2143. Offered on demand.

**3013**  
**HISTORY OF CHRISTIANITY (ANCIENT–MEDIEVAL)** 3 HOURS  
A study of the history of Christianity from ancient to medieval periods. Institutional, theological, and social history are examined. Prerequisite: 6 hours of religion. (fall, odd)

**3103**  
**PSALMS AND WISDOM LITERATURE** 3 HOURS  
A theological, historical, and methodological study of the ancient wisdom traditions in Israel. Books of Proverbs, Job, Ecclesiastes, Sirach, and Wisdom of Solomon receive particular attention along with selected Psalms and Song of Solomon. Prerequisites: REL 1003; REL 2023 or permission of instructor. (spring, odd)

**3113**  
**HISTORY OF CHRISTIANITY (REFORMATION–MODERN)** 3 HOURS  
A study of the history of Christianity from the reformation to the twentieth century. Institutional, theological, and social history are examined. Prerequisite: 6 hours of religion. (fall, even)

**3203**  
**PROPHETIC LITERATURE** 3 HOURS  
An examination of selected literary, historical, hermeneutical, and theological issues in the study of the prophetic canon. Prerequisites: REL 1003; REL 2023 or permission of instructor. (spring, even)

**3223**  
**HISTORY OF CHRISTIAN SPIRITUALITY** 3 HOURS

**Course Descriptions:**

*3613 ADVANCED ON-CAMERA ACTING* | 3 HOURS
---
Advanced on-camera acting for film and television, concentrating on scene study. Prerequisite: THRE 3513.

*3703 COSTUME PATTERNING* | 3 HOURS
---
This course shows the student how to develop and approach the building of costumes that have already been designed, from pattern to cutting to construction. (TBA)

*3713 SOUND DESIGN & ENGINEERING* | 3 HOURS
---
Study of the basic skills and concepts for design sound for a theatrical production. Provides students with experiences in aesthetic and practical use of sound effects, use of digital audio editing and recording of sound for productions. (TBA)

*3803 COSTUME DESIGN* | 3 HOURS
---
Advanced techniques and individual practice in costume design. Develop costume conceptions, sketch, and choose fabrics for a musical or full-length play. Prerequisites: THRE 1113, THRE 2303, and THRE 3603. (TBA)

*3813 MODERN DRAMA* | 3 HOURS
---
See ENGL 3813.

*3903 RELIGIOUS DRAMA* | 3 HOURS
---
This course, after discussions of the relationship between religion and drama, traces the development of religious drama from its beginning in Greece to the present day, focusing on the uses of drama in contemporary religious practice and the consideration of religious themes in modern drama. (TBA)

*3913 CREATIVE DRAMA I* | 3 HOURS
---
Creative drama is a process appropriate for all ages (from young children to senior citizens) and in a variety of situations (K-12 classrooms, youth groups, therapy, and theatre). Majors and nonmajors learn to design, lead, and implement creative drama in a variety of situations and for a variety of aims including, but not limited to, its documented potential to help students achieve educational goals—especially in reading, writing, math, language development, and the arts—to develop creativity, engagement, and persistence; to enhance understanding of self and others; and to prepare students for jobs and for theatrical endeavors. Cross-listed ELED 3913. (spring)

*3963 SPECIAL TOPICS IN ACTING* | 3 HOURS
---
A semester-long master class taught by a resident or visiting faculty member on a special skill or set of skills pertaining to the acting profession. These topics might include, but are not limited to advanced work on a particular style, movement, or vocal training technique, Alexander Technique, advanced improvisation, monologue style shows, advanced audition technique. Theatre majors only or with instructor permission. (spring)

*3973 STAGE COMBAT AND PHYSICAL SKILLS* | 3 HOURS
---
A study of stage combat, including both hand-to-hand and weapons, as well as other physical skills, such as pratfalls and tumbling. Students demonstrate the safe practice of those skills in scene work. Theatre majors only or with instructor permission. (spring)

*3983 DESIGN AND PRODUCTION INTERNSHIP* | 3 HOURS
---
This course provides academic credit for students who receive internship positions with regional or national theatrical companies. Positions must be in the design and production area and should provide significant professional experiences. Assignments could be in areas such as stage management, scenic/costume/lighting or sound design, production management, technical direction, scenic artistry, properties, costume or scenic technology.

*3993 OCT INTERNSHIP* | 3 HOURS
---
This course provides academic credit for production work with the Oklahoma Children's Theatre (OCT) over the course of one semester. OCT is Oklahoma's professional children's theatre company in residence on the Oklahoma City University campus. Topics include managing a professional theatre, production touring, fund-raising, budgeting, marketing, and publicity. Production assignments can come from the areas of stage management, scenic/costume/lighting or sound design, production management, technical direction, scenic artistry, properties, costume, or scenic technology.

*4003 VOICE TRAINING AND DIALECTS* | 3 HOURS
---
A continuation and deepening of the techniques learned in the Voice and Phonetics class. This class adds more sophisticated release work, de-structuring and restructuring, vocal violence, and the acquisition of two new dialects. Theatre majors only or with instructor permission. Prerequisite: THRE 2003. (spring)

*4103 MOVEMENT FOR THE STAGE II* | 3 HOURS
---
A continuation of some of the techniques explored in Movement I, with the addition of neutral mask, character mask, yoga, martial arts and physical archetype studies. Theatre majors only or with instructor permission. Prerequisite: THRE 2103. (fall)

*4113 PROFESSIONAL PREPARATION* | 3 HOURS
---
Students study techniques for preparing themselves for professional interviews. Includes study of resumes, interview techniques, and professional presentation. Students design and produce individual professional portfolios under the mentorship of design and production faculty. This is the capstone course for the B.F.A. in design and production.

*4122 PRODUCTION COLLABORATION* | 2 HOURS
---
Study and practice of the process involved in working within a production team. Provides experience in collaboration and communication between designers and directors in a theatrical production environment.

*4123 WRITING FOR STAGE & SCREEN* | 3 HOURS
---
See ENGL 3123. (spring, odd)

*4213 CONTEMPORARY THEATRE* | 3 HOURS
---
A study of postmodern and contemporary theatre practices since 1960, including reading and discussion of selected plays. Students are required to attend and review live performances by local theatre companies. Prerequisite: THRE 3213. (fall)

*4303 ADVANCED TECHNICAL THEATRE* | 3 HOURS
---
Study of technical production skills in scenic technology, construction, and installation. Also covers shop management and safety practices in accordance with OSHA, USITT, UL, and ESTA. (TBA)

*4403 LIGHTING DESIGN II* | 3 HOURS
---
Advanced study of lighting design for proscenium, arena, thrust, and other spaces. Experiences in designing lighting for dance and various theatrical productions and drafting light plots in CAD. Prerequisite: THRE 3403. (TBA)

*4503 SHAKESPEARE* | 3 HOURS
---
See ENGL 4503. (spring, even)

*4513 SCENE PAINTING II* | 3 HOURS
---
Theories and techniques of scenic painting for the stage. Prerequisite: THRE 2413. (TBA)

*4603 SCENE DESIGN II* | 3 HOURS
---
Set designs, color plates, models. Prerequisite: THRE 3503. (TBA)

Provisions of this catalog are subject to change without notice and do not constitute an irrevocable contract between any student and the university. Oklahoma City University reserves the right to modify or change policies, courses, and program requirements described herein.

Every student is responsible for reading and understanding the academic requirements for the degree program as outlined in this catalog, as may be changed from time to time. Academic advisors are available for counseling and advising to assist students in this process; however, the final responsibility remains with the student to meet any and all academic requirements.

Oklahoma City University provides equality of opportunity in higher education for all persons, including faculty and employees, with respect to hiring, continuation, promotion and tenure, applicants for admission, enrolled students, and graduates, without discrimination or segregation on the grounds of race, color, religion, national origin, sex, age, handicap or disability, sexual orientation, or veteran status.

The assistant vice president for administrative services, whose office is located in room 105 of the Clara E. Jones Administration Building, telephone (405) 208-5857, coordinates the university’s compliance with titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, the Americans with Disabilities Act, and the Age Discrimination in Employment Act.

Oklahoma City University complies with the Student Right to Know and Equity in Athletics Disclosure Acts. This report is compiled and made available by October 15 each year. Requests for this report can be made to the athletics director.

In accordance with requirements by The Higher Learning Commission of the North Central Association of Colleges and Schools, the university will provide information to the accrediting agency regarding written complaints from a student against any faculty, staff, or institutional process or procedure. The information will contain the date the complaint was formally submitted to a university official; the nature of the complaint (e.g. dispute about a grade, allegation of sexual harassment, etc.); steps taken to resolve the complaint; the university’s final decision regarding the complaint, including referral to outside agencies; and any other external actions initiated by the student to resolve the complaint, if known to the university (e.g. lawsuit, EEOC investigation, etc.).

Any information provided to The Higher Learning Commission of the North Central Association of Colleges and Schools will be presented in such a way as to shield the identities of faculty, staff, or students involved with the complaint.
