**Certification of Compliance  
Hepatitis B, Measles, Mumps and Rubella (MMR) and Meningococcal**

Oklahoma Statute, Title 70 §3244, requires that all students who enroll as a full-time or part-time student in an Oklahoma public or private postsecondary institution provide documentation of vaccinations against hepatitis B, measles, mumps and rubella (MMR).

Statute 3244 requires that Institutions notify students of the vaccination requirements and provide students with educational information concerning hepatitis B, measles, mumps and rubella (MMR), including the risks and benefits of vaccination.

Statute 3244 permits that when the vaccine is medically contraindicated and a licensed physician has signed a written statement to that effect, such student shall be exempt from the vaccination. Further, the statute permits a student, or if the student is a minor, the student's parent or other legal representative, to sign a written waiver stating that the administration of the vaccine conflicts with the student's moral or religious tenets.

Oklahoma Statutes, Title 70 §3243, requires that all students who are first time enrollees in any public or private postsecondary educational institution in this state and who reside in on-campus student housing shall be vaccinated against meningococcal disease. Institutions of higher education must provide the student or the student's parents or other legal representative detailed information on the risks associated with meningococcal disease and on the availability and effectiveness of any vaccine.

Statute 3243 permits the student or, if the student is a minor, the student's parent or other legal representative, to sign a written waiver stating that the student has received and reviewed the information provided on the risks associated with meningococcal disease and on the availability and effectiveness of any vaccine, and has chosen not to be or not to have the student vaccinated.
