

How to get started!

We would love for you to have a minimum of three meaningful interactions with your mentee over the course of your year. While you may have frequent communication via email, we ask that with each interaction you work towards achieving a goal with your mentee. Below are suggested activities.

Career Discussions

- Schedule a shadow visit
- Discuss what your mentee should be doing now to be marketable and employable after graduation
- Send and encourage your mentee to read relevant career articles
- Give feedback on your mentee's professional attitude, presence and conduct
- Discuss projects and developments in your company and industry
- Share professional challenges you face, and ask your mentee how they would approach the issues and find solutions

Job Search

- Review and offer advice on your mentee's resume and/or cover letter
- Conduct a mock interview
- Offer advice on where to find jobs/internships

Networking Pursuits

- Introduce your mentee to colleagues and other contacts
- Set up an informational interview with your mentee
- Offer the names of associates to your mentee for the purpose of setting up informational interviews
- Bring your mentee to a professional association meeting, event, or staff meeting
- Share your story! Tell your mentee about how you built your own professional network
